Graduation Rates			
BSN Program			
Year	Percent Completion	Number of Graduates vs Admitted	Number not included due to family, financial, medical, or personal issues
2022	85.7%	42/49	2
2021	76.8%	53/69	0
2020	73%	46/63	0
3-year average	77.9%	141/181	2

Calculate by starting with number of students who enroll in their first nursing course who have fully matriculated into the BSN program (and not drop/withdraw from course during the 1st two weeks of their first course) during one academic year. Subtract the number of students who are not included due to family, financial, medical, personal issues, or those who transferred to another program. This constitutes the denominator of the fraction. Count the number of graduates who completed in 150% timeframe (of those who started in this cohort). This is the numerator of the graduation rate fraction.

BSN-A			
Year	Percent Completion	Number of Graduates vs Admitted	Number not included due to family, financial, medical, or personal issues
2022	100%	10/10	0
2021	91.7%	11/12	0
2020	100%	10/10	0
3-year average	96.9%	31/32	0

Calculate by starting with number of students who enroll in their first nursing course who have fully matriculated into the BSN-A program track (and not drop/withdraw from course during the 1st two weeks of their first course) during one academic year. Subtract the number of students who are not included due to family, financial, medical, personal issues, or those who transferred to the BSN-B program track. This constitutes the denominator of the fraction. Count the number of graduates who completed in six semesters (of those who started in this cohort). This is the numerator of the graduation rate fraction.

BSN-B			
Year	Percent Completion	Number of Graduates vs Admitted	Number not included due to family, financial, medical, or personal issues
2022	81.6	31/38	1
2021	80.8%	42/52	0
2020	67.3%	35/52	0
3-year average	76.1%	108/142	0

Calculate by starting with number of students who enroll in their first nursing course who have fully matriculated into the BSN-B program track and transferred in from the BSN-A program track (and not drop/withdraw from course during the 1st two weeks of their first course) during one academic year. Subtract the number of students who are not included due to family, financial, medical, or personal issues. This constitutes the denominator of the fraction. Count the number of graduates who completed in nine semesters (of those who started in this cohort or transferred into the cohort). This is the numerator of the graduation rate fraction.

BSN-C			
Year	Percent Completion	Number of Graduates vs Admitted	Number not included due to family, financial, medical, or personal issues
2022	100%	1/1	1
2021	0	0/5	0
2020	100%	1/1	0
3-year average	28.6%	2/7	0

Calculate by starting with number of students who enroll in their first nursing course who have fully matriculated into the BSN-C program track (and not drop/withdraw from course during the 1st two weeks of their first course) during one academic year. Subtract the number of students who are not included due to family, financial, medical, or personal issues. This constitutes the denominator of the fraction. Count the number of graduates who completed in six semesters, not including summers (of those who started in this cohort). This is the numerator of the graduation rate fraction.
