IOWA HEALTH SYSTEM

CLINICAL PERFORMANCE STANDARDS
TRINITY COLLEGE OF NURSING & HEALTH SCIENCES

To successfully perform clinical functions while enrolled at Trinity, applicants/students **must** have sufficient physical strength, coordination, manual dexterity, and mental and sensory processes to be capable of providing safe and effective client care including but not limited to the following situations:

- ◆ Handling stressful or demanding situations related to mechanical, technical, procedural, or client care situations.
- ◆ Communicating effectively in order to explain and provide client /family care.
- ◆ Providing physical and emotional support to clients/families.
- ◆ Physically responding to situations requiring first aid or emergency care of clients.
- ◆ Sensorial assessing and evaluating clients conditions/diagnostic tests.
- ◆ Transporting, moving, lifting or transferring clients as is necessary to provide client care.
- ◆ Moving, adjusting and manipulating a variety of equipment according to established procedures and standards.
- ◆ Physically placing clients, equipment, and instruments in proper positions for examinations according to established procedures and standards.

If the ability to meet any of these clinical performance standards is in question, Trinity College of Nursing and Health Sciences reserves the right at any point in the application process/program to require a simulated clinical test to verify an applicant/student's capabilities. If the applicant/learner cannot meet these clinical performance standards without accommodation, a conference shall be held between applicant/student and the respective Department Director to determine what accommodations would be necessary and if the accommodation is reasonable.

My signature indicates, that I can comply with the clinical performance standards and understand that, if with reasonable accommodation, I cannot meet these Clinical Performance Standards, I may be withdrawn at any point in the application process/program.
