Award Terms & Regulations

The Financial Aid Office reserves the right on behalf of Trinity College of Nursing and Health Sciences to review, adjust or cancel an award at any time due to changes in the recipient’s financial, academic or enrollment status or because the recipient does not maintain satisfactory academic progress toward a degree.

Please be aware:

- Amounts offered from federal and state agencies are dependent upon legislative allocation of funds. The amounts are regulated and based on completion of the FAFSA.

- Any and all outside funding must be reported to the financial aid office.

- Financial Aid Awards will be disbursed in two amounts based on your program and/or enrollment. Financial Aid will be used towards the cost of education. At no time will any portion of the award be disbursed prior to classes starting.

- Students who are borrowing from the Federal Loan Programs at the college for the first time are required to complete Entrance Loan Counseling online. Loan disbursements will not be made until this has been completed.

Trinity College of Nursing and Health Sciences requires financial aid recipients to maintain sufficient academic progress. This is a state and federal regulation that is strictly enforced through college policy.

- Students receiving financial aid are expected to maintain a cumulative grade point average of 2.0 or better in all general education and major courses.

- Students must complete 67% of all attempted classes per semester.

- Students must complete the program for which they are enrolled within a 150% time frame.

Students’ academic performance is reviewed at the end of each semester. Individuals that are not meeting the minimum requirements will be placed on financial aid probation for the subsequent semester. They will have one semester to improve their academic standing at the college or financial aid will be revoked.

Reinstatement of financial aid is automatic by earning additional hours and meeting the cumulative grade point requirements.

A student’s financial aid will be terminated without the possibility for reinstatement when the student has not completed the program for which they enrolled within 150% of the allotted time frame. Federal funding of loans are depleted after 150% of the allotted time frame. Pell funding is after 600% has been awarded.
