WELCOME

Welcome to Trinity College of Nursing & Health Sciences. Trinity College is a private, single-purpose institution of higher education with a rich history of preparing individuals for careers in nursing and the health sciences. Trinity College faculty has had a presence in the Quad Cities for over 122 years and we take pride in our heritage of graduating health professionals who are well prepared both academically and clinically. The faculty of Trinity College have expertise as educators and practitioners within their chosen disciplines.

The Mission, Vision, and Values of our institution provide the framework for all educational endeavors at Trinity College. It is the mission of Trinity College to incorporate innovative teaching and learning strategies in the development of our students. A Trinity College education emphasizes best practices, clinical reasoning, the artful delivery of culturally competent health care, and lifelong learning. Since Trinity is a small College, our faculty and staff strive to provide personal attention in a caring atmosphere. This approach promotes creativity and fosters high levels of student learning and personal growth. Trinity College faculty, students, and staff work together, creating an atmosphere of mutual trust and respect. This provides an environment where students are successful in achieving their educational goals and go on to have successful health care careers. At Trinity College we strive to work outside the boundaries of the traditional classroom to achieve outcomes in the areas of knowledge, proficiency, and culture care values. Trinity College values service to the community, both locally and nationally.

Trinity College of Nursing & Health Sciences is affiliated with UnityPoint Health – Trinity, a bi-state, four campus hospital system in Muscatine and the Quad Cities. This affiliation offers access to state-of-the-art facilities, the ability to work with outstanding staff, and an environment where students can learn within a variety of health care settings.

Welcome to Trinity College. I look forward to seeing you on campus as a member of our educational community.

Tracy L. Poelvoorde, PhD, RN
Chancellor

COLLEGE INFORMATION

Governance
Trinity College of Nursing & Health Sciences operates at 2122 25th Avenue, Rock Island, Illinois. Clinical education is conducted at health care sites in the Quad Cities and surrounding areas. Four UnityPoint Health – Trinity Campuses: Rock Island and Moline, Illinois Bettendorf and Muscatine, Iowa serve as primary clinical sites for Trinity College students. The College operates under the guidelines of the Higher Learning Commission and adheres to Federal and State Laws that govern the workplace. Governance of the College is vested in the appointed Governing Board of Trinity College. The Governing Board delegates responsibility for the general and active management, control, and direction of the College to the Chancellor to accomplish the mission of the College.

This Catalog is effective beginning the summer of 2020 semester through the spring of 2021 semester.

This catalog is for informational purposes only and does not constitute a contract. Trinity College has made every reasonable effort to determine that everything stated in this catalog is accurate at the time of printing. However, the College reserves the right to change, modify, or alter without notice the tuition and all fees, charges, expenses, and costs of any kind. The College further reserves the right to add or delete without notice any course offering or information contained in this catalog, including the rules, controlling admission to, instruction in and graduation from the College or its various divisions. Such changes become effective whenever the College deems necessary and apply not only to prospective students but also to those currently enrolled.

Faculty accomplish program purpose and goals through a collaborative governance framework.
TRINITY’S VALUES & HISTORY

Vision
Trinity College of Nursing & Health Sciences is dedicated to preparing health care professionals for an ever-changing global community.

Mission
Trinity College of Nursing & Health Sciences incorporates innovative teaching and learning strategies in order to develop health care professionals who promote the health of individuals, families, and communities.

Values
A Trinity education is values-driven, emphasizing clinical reasoning and the artful delivery of culturally competent care.

• Best Practices: Trinity College is committed to the use of best practices in academics and clinical care.
• Caring: Trinity College fosters a culture of caring which reflects compassion and respect.
• Diversity: Trinity College embraces diversity and promotes cultural congruence.
• Integrity: Trinity College faculty, staff, and students uphold professional codes and ethical standards in education and practice.
• Lifelong learning: Trinity College models the importance of knowledge acquisition as a commitment to professional practice.

Learning Domains/Related Competencies

Knowledge
• Ability to examine and explain phenomena
• Ability to construct and organize knowledge
• Ability to integrate and synthesize knowledge
• Ability to apply quantitative and qualitative concepts

Proficiency
• Ability to solve practical problems
• Ability to collaborate with multiple disciplines
• Ability to communicate effectively
• Ability to practice competently and skillfully in a changing health care environment

Culture Care Values
• Ability to preserve/maintain cultural identities
• Ability to accommodate/negotiate diverse life ways
• Ability to re-pattern/restructure health care delivery methods
• Ability to apply ethical and legal principles to health care
Strategic Plan
Trinity College uses an integrated approach to plan for future College and community needs. This includes analyzing and using key data points in the strategic decision-making process. The pillars of the Trinity College strategic plan represent our vision for the future. Each pillar provides the framework for analysis and continuous improvement of current operations and processes. These strategic pillars are aligned and integrated to ensure the mission, vision, and values of Trinity College are fulfilled with quality and integrity. The strategic pillars of Trinity College are listed below.

1. **Excellence in Nursing & Health Sciences Education**: Prepare health care practitioners who are skilled, guided by evidence-based knowledge, provide culturally congruent health care, and sought by employers

2. **Students**: Provide an academic environment that fosters personal and professional growth while instilling the importance of a life of learning

3. **College Organization**: Maintain a highly qualified and satisfied workforce which is service-driven, guided by best-practices, and accountable for outcomes while striving to attain a workforce that reflects the diversity of students served

4. **Community**: Become recognized in the community as a trusted partner in the education and preparation of health care providers

5. **Fiscal Stewardship**: Ensure financial viability to allow program, human resource, and physical plant/resource growth
Our History

The history of Trinity College of Nursing & Health Sciences can be traced back to 1898 when the Moline Public School of Nursing opened its doors with four students; 1899 when St. Anthony's Hospital School of Nursing opened its doors with four students; and 1916 when the Lutheran Hospital and its School for Nurses opened its doors to serve students interested in the field of nursing. With medical advances made in the late 1930's these three hospitals and their respective schools of nursing continued to serve the residents of the Quad City area.

In 1951, St. Anthony's opened the first radiography certificate program followed a year later by both Moline Public and Lutheran Hospitals. These early radiography programs consisted of 18-months of X-Ray Technology coursework at the hospital and a six-month internship leading to a certificate.

In 1959, Lutheran Hospital started the school of inhalation therapy, which later became known as Respiratory Therapy and today is known as the field of Respiratory Care.

In 1961, Moline Public Hospital began educating surgical technologists. This certificate program continued as a tradition until 2011 when the program was discontinued by Trinity College of Nursing & Health Sciences in an effort to move the College toward degree-granting programs.

In 1972, Moline Public Hospital began educating Emergency Medical Services providers. This program offered certificates in Emergency Medical Technician-Basic and Paramedic. This program continued as a tradition until 2011 when the program was discontinued by Trinity College of Nursing & Health Sciences in an effort to move the College toward degree-granting programs.

In 1989, Moline Public and Lutheran Hospitals merged to become United Medical Center, thus creating United Medical Center School of Nursing and United Medical Center Schools of Allied Health. On October 1, 1992, United Medical Center merged with Franciscan Hospital to become Trinity Medical Center, creating Trinity Medical Center School of Nursing and Trinity Medical Center Schools of Allied Health.

Trinity School of Nursing transitioned from a diploma awarding program to a 2 + 2 program from 1994 - 1996. In 1996, Trinity School of Nursing applied for candidacy status with the Higher Learning Commission of the North Central Association of Colleges and Schools, seeking the authority to grant associate and baccalaureate degrees in nursing. This degree-granting authority, with five years of accreditation, was granted in 1998 and the nursing school assumed the name Trinity College of Nursing.

From 2001 to 2002, Trinity Medical Center Schools of Allied Health transitioned the Radiography certificate program into an Associate of Applied Science program, thus eliminating the certificate option within this program. The Emergency Medical Services and Surgical Technology programs developed associate degree options while maintaining the option for students to obtain a certificate in these allied health fields. With the transition to degree-granting status within the allied health programs, Trinity Schools of Allied Health applied for candidacy status within the Higher Learning Commission of the North Central Association of Colleges and Schools. In 2003, the College was named Trinity College of Nursing & Health Sciences.

Trinity College received degree-granting authority for an Associate of Applied Science degree in Respiratory Care in 2005. The first class was enrolled in this program in 2007.

The nursing program was expanded in 2008 to include the first pre-licensure baccalaureate degree at Trinity College. The Bachelor of Science in Nursing - Accelerated program was designed for graduates holding a bachelor's degree in a field other than nursing. The Bachelor of Science in Nursing - Basic program was implemented in 2010. This pre-licensure nursing program offered an avenue for obtaining a baccalaureate degree for those who did not already hold a nursing license or a bachelor's degree in an unrelated field.

Trinity College of Nursing & Health Sciences obtained approval to offer a Bachelor of Science in Health Sciences in June 2013. This program was designed for graduates of associate or certificate health sciences programs. The first cohort of Bachelor of Science in Health Sciences students was enrolled in the fall of 2013. Trinity College of Nursing &
Health Sciences was approved to offer a Master of Science in Nursing program in June 2013. The first graduate program at Trinity College enrolled students in spring 2014. This program offered two options: Nursing Education and Leadership in Health Care Systems. In January 2018, Trinity College of Nursing & Health Sciences’ nursing department was approved to offer the Master of Science in Nursing-Direct Entry option, which is a pre-licensure graduate degree. The first cohort of students started classes in summer 2018. Trinity College continues to develop nursing and health sciences programs to meet the health care needs of local and global citizens.

**Service Commitment**

The faculty, staff, and administration of Trinity College of Nursing & Health Sciences are committed to delivering customer service FOCUSed on achieving student outcomes that foster professional development. This requires connecting with each customer (whether current student, faculty/staff, prospective student, or any other stakeholder) in a manner that focuses on achieving student-centered interactions that engage, empower, and transform our students. This FOCUS defines Trinity College as the college of choice for preparing health care professionals who make a difference in the communities they serve.
FACILITIES

Campus
Trinity College is situated on a 4.5-acre site in the City of Rock Island. The College provides an excellent environment for the education of students. Our facility is ADA accessible and houses classrooms, learning laboratories, computer lab, conference rooms, and student study areas as well as administrative, faculty and staff offices. Classrooms and learning laboratories leverage high technology and high touch equipment to optimize student educational opportunities. The College campus is situated north of UnityPoint Health-Trinity’s Rock Island campus. The UnityPoint Health-Trinity security team monitors the Trinity College campus to ensure student safety. The Student Commons is a gathering space for study and student life and offers vending machines, refrigerators, microwaves, and a kitchenette with a coffee machine. Student parking is well-lit and available on-site.

Library
The Health Sciences Library is located on the UnityPoint Health, Trinity–Rock Island campus adjacent to Trinity College in medical office building 2. The Library serves the College as well as UnityPoint Health, Trinity. The library is a reference and information center for the fields of medicine, nursing, health sciences, health care administration, and consumer health. The Health Sciences Library is a service-oriented center for individual and group study. The Health Sciences Library is located in medical office building 2 in suite 126. Library hours are Monday - Thursday from 10 a.m. to 6:00 p.m. There will be two days designated each semester where the library will remain open until 8:00 p.m. for students. These additional hours are for students only and students need to have their badge to access the library. Once in the library, they will need to sign in.

The College recognizes that a strong library is critical to its academic environment. The library’s book collection contains over 5,000 volumes. The library is a member of the Prairie Area Library System, a consortium of area public, private, and academic libraries. Academic libraries accessible through this consortium include Black Hawk College, FHN Health Science Library, Genesis Medical Center Libraries, and Rock Island Public Library. Students and faculty also have access to the library at Augustana College, but they must apply for an Augustana library card to use those resources.

The Health Sciences Library’s print book holdings can be searched online at http://search.prairiecat.info

The library has two public-access computers with internet access for library users. The library maintains a subscription to OvidSP which provides access to Medline, Evidence-Based Medicine resources, and PsychInfo. The library also has subscriptions to ClinicalKey for Nursing, and Up To Date. The subscription to EBSCO host Research Databases provides access to the Cumulated Index to Nursing and Health Sciences Literature (CINAHL) and other databases to support the faculty and students of the College. The library also maintains access to over 7000 print and electronic journals, available from its E-Journal Portal. Students and faculty may access this information from any internet-connected computer. Select library resources are available off-campus using the Electronic Library located in the MyPulse student portal, the student course management software. Links, usernames and passwords for Ovid, CINAHL, and the EBSCOhost databases are available off-campus through MyPulse. Each student creates a personal login to ClinicalKey for Nursing with the guidance of the librarian at New Student Orientation. Please contact the librarian for any access issues.

The Health Sciences Library holds memberships in the Quad City Area Biomedical Consortium, Bi-State Academic Libraries, Prairie Area Library System, Consortium of Academic and Research Libraries in Illinois (CARLI), ILLINET, and the Greater Midwest Region of the National Network of Libraries of Medicine. Memberships in these groups provide the library with access to many other collections. The library participates in Decline and OCLC interlibrary loan services to exchange books and journal articles with libraries across North America; participation in FreeShare encourages reciprocal borrowing at no charge to the participants. The library also uses reciprocal borrowing with the libraries in Prairie Area Library System for direct borrowing between local libraries.
Learning Labs

The Harriet Olson Learning Lab is available to students to use throughout their respective curriculum. The College believes that proficiency in hands-on skills is enhanced when students can first observe and practice skills in simulated settings. There are scheduled lab classes and testing hours, as well as both open and faculty-guided practice hours. Stations are set up with specific supply kits for students to practice skills currently being taught. Provision is made to assist students with special needs. A second lab is designated for simulations.

Computer Lab

The computer lab is available to all College students and provides access to the internet and online courses. This lab may be reserved for testing. Students should check the schedule posted outside of the room.

Health Assessment Lab

The Health Assessment Lab is available to undergraduate and graduate students throughout the curriculum. There are scheduled lab classes and testing hours, as well as both open and faculty-guided practice hours. This lab houses five adult exam tables and the needed equipment to perform a head-to-toe assessment.

Study Rooms

The College has two rooms that are reserved for study, room 122 and 123. Room 122 has tables and a white board. Room 123 has three computers with internet access, a white board, two conference tables, and medical textbooks and journals. Both of these study/meeting rooms have 24/7 access. Students may access the building outside of Student Services’ office hours from 4:30 am till 9:00 pm, seven days a week from the main College entrance. Rooms 123 and 128 can be accessed by students with their college issued badge; room 122 is always open. Please note that occasionally room 122 may be reserved by faculty. Students are welcome to remain in the building as late as needed to study; however, students should be mindful of the time-sensitive door locks. Students will not be able to access through these doors after the locks engage. These study/meeting rooms are not soundproof; so please keep conversations at an appropriate level. Please report any visible damage to Student Services. If while studying a problem should arise on campus after hours, please call UnityPoint Health – Trinity’s Security Department at 309-779-5828 or extension 5828 from any College phone in these study rooms. Problems can include being locked out of an approved study room, your car keys locked in a vehicle, suspicious person on campus, escort needed to vehicle, etc. If the situation is an emergency, call the local police department at 911.

In addition to these two rooms, students are allowed to study in the Student Commons or use the gathering space outside of room 100. Students are also encouraged to study in the UPH-Trinity R.I. Medical Library: hours are Monday-Thursday from 10:00 a.m. – 6:00 p.m. It is closed on weekends.

Parking

Student parking is available on-site. Parking is located in front of the College entrance in a large well-lighted lot. Students attending clinical experiences at UnityPoint Health, Trinity Rock Island Campus should park in the College lot. Students assigned clinical experiences other than the Rock Island Campus should park in employee designated lots. UnityPoint Health, Trinity Security is responsible for twenty-four hour security service. No student or staff member is authorized to park in the doctors’ lot west of the College building. Parking citations will be issued for violation of the parking policies.
ADMISSIONS INFORMATION

General College Admission
Trinity College maintains a selective admission process that provides access to higher education in the health professions for individuals who have the skills and attributes for success in challenging health career programs. Credit is given for accomplishments that are proven to be indicators of success in health programs, including the following evidence:

- Quality of high school work (overall GPA)
- SAT or ACT if required
- Previous college credit / GPA, if relevant
- Quality (GPA) of work in required general education courses, e.g.; Anatomy & Physiology I and II

Students are offered acceptance into an academic program based on committee review of the applications received. Early admission notification for exceptional students will occur on or before December 20. All students will be notified of admission decisions on or before February 1.

Minimum High School Requirements
Students seeking admission directly from high school must have earned the minimum high school course requirements with a C or above.

Application Deadlines
Applications may be submitted at any time during the year for admission consideration into the nursing, radiography, health sciences, and graduate nursing programs. Each of the programs has a different start date that affects application deadlines. The College has a suggested timeline for applicants described below.

Associate of Applied Science in Radiography
The radiography program begins in May each year, which is considered a summer start date. Students who wish to be considered for early admission are encouraged to apply to the College no later than November 1. Students who receive early admission into the program are notified on or before December 20. All students not receiving early admission are notified of their admission decision on or before February 1. A radiography information session for all entering students is held late winter-early spring with the program faculty. Qualified applicants are expected to meet all admission criteria as well as essential functions of the program.

Bachelor of Science in Health Sciences
The BSHS program begins each fall and spring (August or January). Applications are accepted on a rolling basis and students may be admitted into any one of the two semester start dates.

Bachelor of Science in Nursing Program Options
The bachelor of science-accelerated nursing program is a second degree program for those students who have completed a baccalaureate degree from an accredited college. This 15-month program begins in May each year, which is considered a summer start date. Students who wish to be considered for early admission are encouraged to apply to the College no later than November 1. Students who receive early admission into the program are notified on or before December 20. All students not receiving early admission are notified of their admission decision on or before February 1. An orientation session is held the first day of class for the BSN-A students since many are completing their undergraduate degrees just prior to the summer start date at Trinity.

The bachelor of science-basic nursing program begins in August each year, which is considered a fall start date. This program is a six-semester program designed for students who have completed their general education requirements. Students who wish to be considered for early admission are encouraged to apply to the College no later than November 1. Students who receive early admission into the program are notified on or before December 20. All students not receiving early admission are notified of their admission decision on or before February 1.
The bachelor of science-completion nursing program begins each semester (August, January, or May). Applications are accepted on a rolling basis and students may be admitted into any one of the three semester start dates. This program is primarily offered online. Qualified applicants are expected to meet all admission criteria as well as essential functions of the program.

**Master of Science in Nursing Program**

The Master of Science in nursing – education program option begins each fall and spring semester (August or January). Applications are accepted on a rolling basis and students may be admitted into any one of the two semester start dates. This program is primarily offered online.

The Direct Entry Master of Science in nursing program option is a pre-licensure option for those students who have completed a non-nursing baccalaureate degree from an accredited college. This 24-month program begins in May each year, which is considered a summer start date. Students who wish to be considered for early admission are encouraged to apply to the College no later than November 1. Students who receive early admission into the program are notified on or before December 20. All students not receiving early admission are notified of their admission decision on or before February 1. An orientation session is held the first day of class.

**Admission Decisions**

The materials of each prospective student are reviewed and careful consideration is given to the information in the application, high school grades (if required), post-secondary grades, test scores, and essays (if required). Admission decisions are based on the review of all materials by a selection committee, which is comprised of the program faculty. Trinity College does not discriminate against prospective students based on race, color, religion, age, national and ethnic origin, sexual orientation, gender, disability or military status. Trinity College does not provide any commission, bonus, or other incentive payment based in any part, directly or indirectly, upon success in securing any enrollments or the award of financial aid to any person or entity engaged in any student recruitment or admission activity or in making decisions regarding the award of Title IV, HEA program funds, and/or military education benefits.

When a prospective student has completed the application process, one of the following decisions will be made:

1. **Full Acceptance in Good Standing**

2. **Conditional Acceptance** – After review of the application materials the selection committee defines the conditions of admission in a letter of conditional acceptance. Most often the condition is to satisfactorily complete courses in progress at another college or university and to submit a transcript. Upon completion of the conditions and submission of appropriate evidence, the student will receive a Letter of Acceptance indicating Full Acceptance.

3. **Limited Admission** – Students who participate in the Augustana College pre-nursing program and meet the outlined admission requirements for the BA/BSN-Accelerated program at Trinity College of Nursing & Health Sciences may apply to Trinity College during their junior year at Augustana. Accepted students are permitted to attend one nursing course (NUR 101A) during the summer session at Trinity. Limited Admission is for the time period between the junior and senior year while enrolled at Augustana. The Limited Admission student in Good Standing returns to Trinity College of Nursing & Health Sciences the following year after graduation from Augustana to begin the BSN-Accelerated Program.

4. **Limited Acceptance (Bachelor of Science in Health Sciences Program)** – Students currently enrolled in an approved associate degree allied health program (radiography or similar program) may request Limited Acceptance (LA) into the Trinity College Bachelor of Science in Health Sciences Program. To be eligible for this limited acceptance the student must:

   - Have all general education requirements for the associate degree program of study and the BSHS program completed with a 2.0 GPA of higher
   - Have completed two semesters in the associate degree allied health program with a 2.5 cumulative GPA or higher
   - Have a recommendation from the allied health Program Coordinator
   - Maintain a GPA of 2.5 or higher in the allied health program until graduation from the AAS program
   - Take no more than 4 BSHS credits in any one semester
Take no more than a total of 15 BSHS credits while meeting allied health degree requirements.

Limited Acceptance students must complete a BSHS-LA form to begin the enrollment process. This form can be accessed from the College website.

Students should be aware that the BSHS coursework may not be covered under their current financial aid package. If the student is using financial aid, it is required that the student meet with the Financial Aid Specialist to discuss options. BSHS classes will be billed at the current BSHS tuition rate and the student will be subject to fees associated with the enrolled course.

5. Denied Acceptance – Students who do not meet the admission requirements of the College are denied admission. An applicant may appeal the decision in writing to the Dean of Nursing and Health Sciences. An applicant may re-apply to Trinity College of Nursing & Health Sciences if he/she fulfills the requirements of admission at a later date.

6. Wait List – Students who meet the admission criteria for the College and a specific program may be placed on a wait list. Students may be selected from the wait list if a seat becomes available within a specific program. Students placed on a wait list are not guaranteed acceptance.

### Change of Major or Program Option

Students wishing to change their major or change options within the designated major must:

1. Withdraw from the current plan of study;
2. Follow admission policies and procedures for the desired major/program option.

### Readmission/Reapplication

Readmission/reapplication pertains to those students who fall into one of the following categories:

- Students who are unable to progress due to unsuccessful course completion or withdrawal with an intended return date of no more than one calendar year.
- Students denied admission who must wait one year before re-application.
- Students who were not admitted from a wait list.
- Students who filed an incomplete application.
- Students who have voluntarily withdrawn.

Students who fall in one or more of these categories should:

- Complete the online college application.
- Submit a $15.00 nonrefundable fee if within two years of original application.
- Send official transcripts from all post-secondary institutions attended since leaving the College.
- Complete all other general admission requirements as applicable.

Programmatic Admission Requirements and Placement Standards

The following table lists admissions requirement and placement standards for specific programs within Trinity College:

<table>
<thead>
<tr>
<th>Program</th>
<th>Requirements &amp; Placement Standards</th>
</tr>
</thead>
</table>
| Bachelor of Science in Nursing Accelerated Program * | ▪ A baccalaureate or higher degree in a non-nursing discipline  
▪ Minimum GPA of 3.0 on a 4.0 scale  
▪ Completion of all required prerequisite general education courses with a grade of C or higher  
▪ Personal essay in a letter form addressing candidate’s professional attributes, ability to manage an accelerated curriculum and career goals |
| Bachelor of Science in Nursing Basic Program * | ▪ Completion of all required prerequisite general education courses with a grade of C or higher  
▪ Minimum GPA of 2.75 or higher  
▪ Required science courses completed within the last seven years prior to enrollment |
| Bachelor of Science in Nursing Completion Program * | ▪ Unencumbered RN licensure  
▪ Minimum GPA of 2.5 or higher |
| Early Degree Guaranteed Entry (EDGE) for BSN | ▪ A score of at least 22 on the ACT or a score of at least 1100 on SAT and a high school GPA of at least 3.2 on a 4.0 scale  
▪ Two letters of recommendation (one from a high school mathematics or science teacher and one from a high school guidance counselor) attesting to the student’s character and aptitude for a career in nursing  
▪ A one page personal essay describing the applicants educational and career goals  
▪ A successful interview with a faculty member from the Trinity College nursing department |
| Early Degree Guaranteed Entry (EDGE) for AAS | ▪ A score of at least 22 on the ACT or a score of at least 1100 on SAT and a high school GPA of at least 3.2 on a 4.0 scale  
▪ Two letters of recommendation (one from a high school mathematics or science teacher and one from a high school guidance counselor) attesting to the student’s character and aptitude for a career in health sciences  
▪ A one page personal essay describing the applicants educational and career goals; and  
▪ A successful interview with a faculty member from the Trinity College radiography. |
| Master of Science in Nursing Direct Entry Program | ▪ A baccalaureate or higher degree in a non-nursing discipline  
▪ Minimum GPA of 3.2 on a 4.0 scale  
▪ Completion of all required prerequisite general education courses with a grade of C or higher  
▪ Personal essay in a letter form addressing candidate’s professional attributes, ability to manage an accelerated curriculum and career goals |
| Master of Science in Nursing Education Program | ▪ Graduation from an ACEN or CCNE accredited baccalaureate nursing program with a GPA of 3.0 or higher on a 4.0 scale. Graduate Record Exam scores (within 5 years) are required for GPA less than 3.0.  
▪ Evidence of a current unrestricted professional registered nursing license or RN license prior to second semester of enrollment in MSN Program.  
▪ At least one year of nursing practice or currently practicing as an RN  
▪ Completion of the following undergraduate courses with a grade of C or better:  
  o Community Health Nursing  
  o Statistics  
  o Health Assessment (N304)  
  o Nursing Research  
▪ Faculty interview |
### Associate of Applied Science in Radiography *
- Cumulative High School GPA of 2.5 on a 4.0 scale and ACT score of 20 or above or an SAT score of 1020 or above
- or 12 hours of completed college coursework with a cumulative GPA of 2.5 or above and Accuplacer Test placement at 100 level math
- Applicants who have been out of high school for 6 months or more must complete 12 approved college credit hours with a minimum cumulative GPA of 2.5 on a 4.0 scale.

### Bachelor of Science in Health Sciences
- Proof of unencumbered state licensure or certification as a Radiographer, Respiratory Therapist, or other approved allied health profession
- Graduation from a professionally accredited allied health program
- Minimum GPA of 2.5 or higher
- Must demonstrate statistics readiness through Accuplacer Math Placement and/or prior coursework

*= See Clinical Performance Standards on next page

**NOTE:** Accepted students are required to complete a criminal background check. No student is permitted in a clinical area without verification of a background check (see Background Checks policy). Due to the nature of the curriculum at Trinity College, all students are required to complete CPR for the health care provider prior to entry. Additionally, all students are required to have several immunizations prior to entry. This includes the Hepatitis B series, TB testing, and documentation of measles, mumps and rubella vaccinations.
Clinical Performance Standards

To successfully perform clinical functions while enrolled at Trinity College of Nursing & Health Sciences, applicants/students must have sufficient physical strength, coordination, manual dexterity, and mental and sensory processes to provide safe and effective client care. Trinity College of Nursing & Health Sciences reserves the right at any point in the application process/program to require a simulated class or laboratory experience to verify a student’s capabilities if the ability to meet any of these clinical performance standards is in question. If the applicant/student cannot meet these clinical performance standards without accommodation, a conference shall be held between applicant/student and the Director of Student Services and External Relations to determine reasonable accommodations. Denial of admission or College withdrawal may occur at any point in the application process/program if these clinical performance standards cannot be met with reasonable accommodations.

Clinical Performance Standards are:

<table>

</table>
• Squeeze objects

Physical Strength/Endurance
• Move, adjust, and manipulate equipment up to 25 lbs.
• Strength, mobility, flexibility and coordination to perform client care activities and emergency procedures
• Ability to perform activities day, afternoon, evening and night
• Use upper body
• Stand in-place for prolonged periods
• Sustain repetitive movements
• Maintain physical tolerance for 8 or 12 hour period
• Push/pull, support, lift 25 pounds

Emotional, Psychological, Mental Stability
• Effective and empathetic behaviors under stressful and rapidly changing situations related to mechanical, technical, procedural, or client care situations
• Interact with and respect differences in diverse individuals and groups
• Establish appropriate emotional boundaries
• Provide emotional support to others
• Focus attention on task
• Monitor own emotions
• Be tolerant of strong emotions
• Perform multiple responsibilities concurrently
• Negotiate interpersonal conflict

Communication Skills
• Teach
• Explain
• Interpret
• Give oral reports
• Interact with others with respect
• Recognize, interpret, and respond to nonverbal behavior of self and others
• Communicate using the telephone
• Convey information through writing using the English language
• Accurately elicit information
• Establish rapport with patients, fellow students and members of the healthcare team

Critical/Analytical Thinking
• Transfer knowledge from one situation to another
• Process information
• Evaluate outcomes
• Problem solve
• Prioritize tasks
• Memorize information for short-term purposes
• Memorize information for long-term purposes
• Identify cause-effect relationships
• Plan/control activities for others
• Synthesize knowledge and skills
• Sequence information
• Make safe, immediate, well-reasoned judgments often in unpredictable situations
• Perform mathematical computations associated with care

If the ability to meet any of these clinical performance standards is in question, Trinity College of Nursing & Health Sciences reserves the right at any point in the application process/program to require a simulated clinical test to verify applicant/student capabilities. If the applicant/student cannot meet these clinical performance standards
without accommodation, a conference shall be held between applicant/student and the Director of Student Services and External Relations to determine reasonable accommodations.

**Application for Admission Procedure**

The applicant must submit the following to be considered for admission to the College:

1. Completed application with review and acknowledgement of clinical performance standards
2. Application fee
3. Official transcript from high school attended (or official high school diploma equivalency results)
4. Official transcripts from all post-secondary institutions attended
5. Results of the ACT (American College Test) or the SAT (Scholastic Aptitude Test) if applicable
6. Confirmation of fluency in the English language or a minimum Test of English as a Foreign Language (TOEFL) score of 550 (written), 213 (computer-based), or 79-80 (internet-based) with a score of at least 23 on the speaking portion of the exam if applicable. Information on this test can be obtained at [www.toefl.org](http://www.toefl.org).
7. Proof of licensure, if applicable

Applications can be found at the College or online at [www.trinitycollegeqc.edu](http://www.trinitycollegeqc.edu)

Send all required information to:

Trinity College of Nursing & Health Sciences  
Attn: Admissions  
2122 25th Avenue  
Rock Island, IL 61201-5317

**Verification of High School Completion**

1. Acceptable Formats for High School Transcripts
   - An official transcript is one which is validated, issued, and mailed directly by the previous institution in a sealed institutional envelope to Student Services of Trinity College of Nursing & Health Sciences, 2122 25th Ave., Rock Island, IL 61201-5317.
   - The College does not accept faxed transcripts.

2. Inspection Process
   - If a school has a CEEB code, then the College accepts the credentials unless we have reason to suspect fraud.
   - The College will check each transcript for the school seal and/or signature to determine if the transcript is official.
   - The College does not accept any copies of transcripts.

3. Tracking Diploma Mills
   - The College has taken steps to track diploma mills. It has established a code to track “unknown” high schools, home school associations, and also codes for a school recognized by a department of education that may not have a CEEB code.
   - If the College receives a transcript from a school that does not have a CEEB code, then research is completed to determine if the school is recognized by the Department of Education in the State.
   - If a school is recognized by the State Department of Education, then the College will create its own code to track the high school and will accept the transcript. However, the application may be flagged for review if the College has any question about an unusual grading system.
   - If a school is not recognized by a department of education or has no physical address, then the College will research to determine if this is a for-profit school or diploma mill. If so, then the College will create a
code designating that the school is a diploma mill and make note to not accept the transcript. Students are required to submit a GED before the College will evaluate the application.

4. Home-Schooled Students
   • For home-schooled students, the student is required to have met the placement standards and high school preparatory requirements.

5. International Students
   • Students who have a non-English transcript must have the transcript evaluated by Educational Perspectives, a company recognized by the National Association of Credential Evaluation Services (NACES).

Admission of Transfer Students
A transfer student is defined as a student who has earned college credit at a postsecondary institution and who desires to transfer or use that credit at another post-secondary institution. Applicants who wish to transfer into the College will be considered for admission after they complete the application process. Transfer students follow the same application process as all other students in applying for admission to the College.

Early Degree Guarantee Entry
Trinity College of Nursing & Health Sciences offers an excellent opportunity for a select number of exceptional high school students to obtain acceptance to a professional nursing or health sciences program before graduating from high school. The Early Degree Guarantee Entry (EDGE) program assures eligible students a place in one of the health professions programs at Trinity College. Guaranteed entry is contingent upon fulfilling certain requirements.

Acceptance to nursing and health sciences programs is extremely competitive across the country and is particularly challenging for students seeking admission directly out of high school. Students who choose to begin their college career at Trinity College are given an opportunity to apply for the EDGE program in the discipline of Nursing or Radiography. Selection for the EDGE program is determined using high school GPA, SAT score, letters of recommendation, and a one page personal essay. A face-to-face interview with a Trinity College faculty member is also required.

The goals of the Early Degree Guarantee Entry program are:

   • To help students and their parents formulate clear educational goals with the steps necessary to achieve them.
   • To provide incentive for students to attain the level of academic achievement necessary to excel in a nursing or health sciences program and career.
   • To increase the students awareness of available opportunities for post-secondary education.

Requirements for acceptance into the EDGE program are as follows:

**Bachelor of Science in Nursing and Associate of Applied Science in Radiography**

1. A composite score of at least 22 on the ACT or a score of at least 1100 on the SAT and a high school GPA of at least 3.2 on a 4-point scale;
2. Two letters of recommendation (one from a high school mathematics or science teacher and one from the students high school guidance counselor) attesting to the students character and aptitude for a career in their chosen field;
3. A one page personal essay describing the applicants educational and career goals; and
4. A successful interview with a Trinity College faculty member from the applicant’s chosen program.
Requirements for maintenance of EDGE program eligibility are specific to each discipline and are as follows:

**Bachelor of Science in Nursing**
1. Completion of all general education requirements with a GPA of at least 3.0 on a 4-point scale;
2. Completion of all general education requirements with a grade of ‘C’ or above (only one course can be repeated); and
3. Completion of general education requirements within two years of graduation from high school.

**Associate of Applied Science in Radiography**
1. Completion of all general education requirements with a GPA of at least 3.0 on a 4-point scale;
2. Completion of all general education requirements with a grade of ‘C’ or above (only one course can be repeated); and
3. Completion of general education requirements within one year of graduation from high school.

**Shadow Visits**
This program is designed to offer high school students and prospective transfer students an opportunity to shadow a Nursing or Radiography classroom and/or laboratory experience and tour the campus at Trinity College of Nursing & Health Sciences. The shadow visit is offered during the Fall and Spring semesters.
HEALTH INFORMATION

Insurance Coverage

Student Health Insurance

Students are expected to provide individual health coverage for personal injury incurred while under approved clinical supervision and/or illness/injuries that occur at any time or place while enrolled in the programs at Trinity College. If you do not have health insurance, Trinity College of Nursing & Health Sciences offers the option to purchase affordable health insurance at a student group rate with various payment plans and coverage. Contact:

E.J. Smith & Associates, INC./E.J. Smith Insurance Agency
899 Skokie Boulevard
Northbrook, Illinois 60062-4029
(847) 564-3660

Visit the home page at [www.ejsmith.com](http://www.ejsmith.com) or pick up a brochure in the Student Commons.

Students are advised that UnityPoint Health, Trinity does not provide health care benefits for or on behalf of students. Students must assume responsibility for costs incurred for acute medical and long term health problems.

Health Insurance Marketplace

The Health Insurance Marketplace is for people who don’t have health coverage. Students without health insurance provided through a job, Medicare, Medicaid, the Children’s Health Insurance Program (CHIP), or another source that provides qualifying coverage, may inquire with the Marketplace for coverage. The link for the Federal Marketplace is [https://www.healthcare.gov](https://www.healthcare.gov) UnityPoint Health has Certified Application Counselors located at every affiliate (Rock Island, Moline, Bettendorf and Muscatine) that can assist students. To schedule an appointment for insurance enrollment in the Quad Cities, call 309-779-4584. The Certified Application Counselor will screen the student and set up an appointment based on possible eligibility.

Student Liability Insurance

Trinity College students are provided coverage for general liability exposure to the same extent as visitors of UnityPoint Health, Trinity. This coverage applies when students are on or off campus as long as they are functioning in a student role. General liability coverage and professional liability coverage does not extend to sharps injuries. The policy and procedure to follow for sharp injuries/ blood-borne pathogen exposure will be covered in detail in orientation. Cost incurred beyond the testing coverage for any sharps or other injury is the student’s responsibility.

UnityPoint Health covers any student charged with negligence in performance of activities within the scope of clinical course experience if that student is under approved clinical supervision in the educational program. Limitations on this coverage would include exclusion based on any services rendered for compensation to other health care providers. Coverage is not provided for any legal obligations of the student in the event the student carries his/her own individual professional liability insurance coverage or is covered under any other policy or insurance program. Students are not covered under the UnityPoint Health, Trinity worker’s compensation program. Worker’s compensation benefits cover only those persons on the UnityPoint Health, Trinity payroll.
TUITION & FEES INFORMATION

Payment of Tuition and Fees

All tuition and fees are due and payable the first day of the month following the start of classes (February 1st for spring semester, June 1st for summer semester, and September 1st for fall semester). Students desiring to utilize financial assistance or information regarding financial assistance should contact the Financial Aid Specialist and/or see the Financial Aid Specialist for more details. All Trinity College tuition and fees are in effect for the academic year and are subject to change at the discretion of the College Board of Directors.

Tuition Rate

Trinity College is a private nonprofit institution and does not assess different charges for out-of-district or out-of-state students. Charges for all courses which do not have a special flat rate are determined on a credit hour basis according to the following schedules. Tuition and fees for general education coursework is set by the providing institution. To obtain current information regarding tuition and fee schedules for articulated educational agreements with other institutions, please contact the College Business Services Specialist at 309-779-7733.

Description of Fees

Application Fee
Trinity College of Nursing & Health Sciences requires a $50.00 nonrefundable application fee. This fee is paid through the online application process or by mailing a $50.00 check made payable to Trinity College of Nursing & Health Sciences. If mailing the $50.00 nonrefundable application fee, send to:

Trinity College of Nursing & Health Sciences
Attn: Business Services
2122 25th Avenue
Rock Island, Illinois 61201

Re-Application/Renewal Fee
This $15.00 nonrefundable fee is for students who wish to re-apply, renew, or are requesting re-admission into a program. This fee is paid through the online application process or by mailing a $15.00 check made payable to Trinity College of Nursing & Health Sciences. If mailing the fee, send to the address noted above under Application Fee.

Students/Graduates from any of the programs at Trinity College of Nursing & Health Sciences who are continuing their education at the College for a second degree will have their application/re-application/renewal fee waived.

Auxiliary Fee (see Tuition and Fee Information)
The student auxiliary fee is assessed to students on both a full-time and part-time enrollment status. This fee covers standardized testing and materials used throughout the curriculum.

Deposit Fee
A $100.00 nonrefundable tuition deposit is required of all students within two weeks of receiving a letter of official acceptance. This deposit confirms the student’s intention to enroll in the program for which they were accepted. The deposit is credited toward the student’s tuition account.

Duplicate Diploma Fee
Duplicate diplomas will be issued for a fee of $60.00.

EDGE Deposit
A $50.00 nonrefundable deposit is required of all students accepted into the EDGE program. This deposit confirms the student’s intention to enroll in a College program beginning any semester. The deposit is credited toward the student’s tuition account.

General Service Fee (see Tuition and Fee Information)
Students are assessed a general service fee which covers funding for academic, student services, and business services support.

Graduation Fee (see Tuition and Fee Information)
Students who apply for graduation will be assessed a fee of $275.00, which covers the ceremony charges, reception, diploma cover, invitations, cap and gown, commemorative college pin, one student-issued transcript as well as additional services related to the ceremony.

Late Payment Fee
A $30.00 late fee will be assessed for any deferred option or promissory note payment received after the due date.

Late Registration Fee
A $25.00 late fee will be assessed for registrations received after the last day of the registration period. A $25.00 late fee will also be assessed for registrations that are re-processed after students are administratively withdrawn for overdue accounts. This fee must be paid prior to the registration being processed. It is the student’s responsibility to check the academic calendar for registration dates.
NSF Fee
A $25.00 charge will be applied to the student’s account for all checks returned due to non-sufficient funds.

Practicum Fee (see Tuition and Fees Information)
This fee includes all resources needed for laboratory, clinical, and didactic instruction.

Service Charge
A $120.00 service charge will be assessed for students who have an uncovered account balance (after financial aid is applied) by the payment due date (February 1st for spring semester, June 1st for summer semester, September 1st for fall semester). This fee will not be waived for students who subsequently enroll in the deferred payment option after the payment due date.

Student Activities Fee (see Tuition and Fee Information)
This fee provides funds for the Student Government Association as well as other College-sanctioned organizations and activities.

Supplies Fee
This fee is assessed to cover the lab supplies used within the student’s chosen curriculum.

Technology Fee (see Tuition and Fee Information)
This fee is used to maintain current technological resources, laboratory/simulation equipment, computers, software, etc., and to provide updated technology to support student learning.

Thesis/Project Fee (see Tuition and Fees Information)
This fee is required for all students in the master’s program completing a thesis or research project. The fee covers the cost of editing, reviewing, and advising the student completing these projects.

Transcript Fee
Current and former students in good financial standing with the College may request to have a transcript sent to an individual or organization of their choice. Transcripts must be requested online through Parchment, located on the College Website. Transcripts will be processed in 3-5 business days for a $15.00 fee per transcript. Parchment charges an additional fee to overnight express transcript requests.

Additional Expenses
Students can expect additional expenses including but not limited to books, uniforms, leather shoes, a watch, stethoscope, bandage scissors, lead markers, required immunizations, CPR, physical examination, and professional society memberships. Individual programs may assess additional fees based on the specific program of study.
Course Withdrawal

It is the student’s responsibility to drop a course when a course or college withdrawal is required. Students may drop a Trinity College course(s) through the Student Portal within the first week of a 16-week semester with no record on the academic transcript. After the 100% refund period of the term, a drop from a course becomes part of the permanent academic record and is recorded as a WP (withdrawal passing) or WF (withdrawal failing). Students may withdraw from a course through the 15th week of a 16-week semester with a WP or WF. The WF is treated as an unsuccessful course attempt in terms of program progression; however the WF is not counted in the student’s GPA. Students enrolled in a summer course need to refer to the Refund Policy & Schedule.

To drop a course after the 100% refund period, meet with your academic advisor to complete a Course Withdrawal Form accompanied by one of the following forms:

1. College Withdrawal Form
2. Leave of Absence Form (applies ONLY to Baccalaureate Level and above)
3. Request for Change in Program and/or Graduation Date Form

**IMPORTANT:** If you have registered for a class or classes, you have created an agreement and a promise to pay. Students are responsible for dropping classes.

Administrative Withdrawal

If a student has been absent for four class periods (consecutive or cumulative) without explanation, faculty, in conjunction with the student’s academic advisor, may withdraw the student from the course administratively.

The College reserves the right to withdraw a student from classes at any time during the semester. Generally, these withdrawals are initiated as a result of non-attendance, disciplinary problems, non-payment of tuition/fees, or incomplete admission/health records. If withdrawn administratively, the student will receive the grade of WP or WF based upon the work completed at the time of the withdrawal. Students withdrawing from the College are subject to the Refund Policy & Schedule.

Medical Withdrawal

All medical withdrawals and/or medical leaves of absence require documentation from the student’s physician indicating the medical condition. All information must be submitted to the Dean of Nursing and Health Sciences for approval. All requests are handled on a case-by-case basis. Students obtaining a Medical Withdrawal from the College are subject to the Refund Policy & Schedule.

Withdrawal Procedures

A student considering withdrawal from the College should seek counsel from his/her faculty advisor.

Students who wish to withdraw from an academic program must follow these steps:

1. Meet with your academic advisor to complete a Course Withdrawal and College Withdrawal Form
2. Return the identification badge, parking tag, radiation badge and any other program materials issued
3. Ensure that all financial obligations have been fulfilled with the College
4. Complete a mandatory Financial Aid Exit Interview with the Financial Aid Specialist
SCHOLARSHIPS

Trinity College Scholarships
Scholarship applications are available on the Trinity College website at www.trinitycollegeqc.edu. Scholarship application deadlines vary each year. Please check the website for the specific information. Scholarship applications are reviewed by the College Scholarship Committee and awards are made based on student and funding availability. Students must be accepted into a program and/or enrolled to apply for a Trinity scholarship. Scholarship awards are to be applied directly toward tuition and fees. Contact the Financial Aid Specialist for additional information.

Dean’s Scholarship
The Dean’s Scholarship is awarded to the top ranking incoming student for each academic program. To be considered for this scholarship, students must exhibit evidence of outstanding academic achievement for either high school or college coursework. The selection committee for each academic program selects the recipients of the Dean’s Scholarship.

External Scholarships
Unless otherwise specified by the donor and/or organization, external gift aid will replace existing self-help aid. Recipients are required to submit to the Trinity College Business Services Office notification of any outside awards as soon as possible. Acceptable documentation will include a letter from the organization or donor that specifies the terms of the scholarship, total dollar amount, and renewal information. Links to some external scholarships are available on the Trinity College website at www.trinitycollegeqc.edu.
ORIENTATION

New Student Orientation
All matriculating students are required to complete the College orientation. Orientation is held on or prior to the first official day of class. Students will be notified by mail of the orientation date. Students who miss orientation must make arrangements with Student Services to receive the necessary information.

Orientation is intended to provide students with needed information to assist in the transition to college life and their academic program. Students are provided basic and specific information regarding:

- Annual campus security report
- Accessibility services
- Emergency response information
- Evacuation procedures
- Drug and alcohol abuse information
- Violence Against Women Act Prevention and Awareness
- Id badge
- Email and computer services
- Student portal access and services
- Completion of College forms
- Financial aid, billing and textbooks
- Student Success Center
- Scholarships
- Wellness

Specific policies are reviewed, which require student signatures. Students are also introduced to faculty and staff as well as safety and security officers.
## OPERATING SYSTEM

**Microsoft® Windows® Operating System**

<table>

**Certified:** fully tested and supported.

**Compatible:** partially tested but should function properly.

**Unsupported:** either impossible or not tested.
ExamSoft

The nursing department requires students to use ExamSoft for course quizzes and exams. This technology requires specific system requirements.

**Minimum System Requirements for Windows**
Alternate versions of Windows 10, such as Windows RT and Windows 10 S, are NOT supported at this time.
Only genuine, U.S.-English versions of Windows Operating Systems are supported.
ExamSoft does not support Tablet devices other than Surface Pro as detailed below
CPU Processor: 2.0 ghz Intel i3 processor or equivalent
RAM: 4GB or higher
Hard Drive: highest recommended for the operating system or 1GB of available space.
Internet connection for Download, Registration, Exam Download and Upload.
Screen Resolution should be at least 1024x768 or higher.

**Minimum System Requirements for Mac OS X**
MacOS Catalina (version 10.15) is only compatible with Examplify version 2.0.6 or higher (Released on 10/14/19 or later)
Supported Operating Systems: OS X 10.13 (High Sierra), OS X 10.14 (Mojave), macOS Catalina (10.15). Only genuine versions of Mac Operating Systems are supported.
CPU: Intel processor
RAM: 4GB or higher
Hard Drive: 1GB or higher available space
Server version of Mac OS X is not supported
Internet connection for Download, Registration, Exam Download and Upload.
ACADEMIC REGULATIONS & INFORMATION

Overview
An academic program consists of program major and general education courses. Students entering Trinity College of Nursing & Health Sciences complete coursework in their program along with general education requirements. The general education courses may be completed and/or required prior to coursework at Trinity. Some general education courses may be taken at the same time as program courses. Trinity College of Nursing & Health Sciences prepares graduates who have attained knowledge from their program and general education courses. The Learning Domains and Program Goals begin with knowledge learned in the general education courses and integrate with program coursework to achieve the Learning Domains of: Knowledge, Proficiency, and Culture Care Values.

College Assessment Plan
The College demonstrates its commitment to quality education by continually assessing and evaluating the institution’s effectiveness, its academic programs, and course outcomes. The Institutional Effectiveness Committee (IEC) is charged with oversight of these assessments. The IEC and faculty work collaboratively with each academic department, students, and community partners in assessing, reviewing, and ensuring that the results of these efforts are used to improve instruction and the quality of education at Trinity College of Nursing & Health Sciences. Evaluating learning domains with appropriate assessment methodologies and measures is primary to the design of the College ALA. This assessment plan is referred to as the Assessment of Learner Achievement (ALA). The Institutional Effectiveness Plan (IEP) is under purview of the IEC. The IEP guides college-wide practices and processes.

General Education Philosophy
General education provides students with foundational knowledge upon which health science education is built. The faculty believe that behavioral changes occur through the acquisition of new knowledge, skills, and attitudes. The faculty recognize that students need broad areas of learning in order to function responsibly in a rapidly changing global environment. General education fosters an appreciation of the environment and cultural differences. Students grow in wisdom and develop the intellectual skills of accurate observation, problem-solving, and critical thinking. General education encourages clear and effective communication using the written and spoken word.

General Education
All academic degree programs require general education as a component of the curriculum, which is designed to help each student develop as a liberally-educated person who possesses skills and competencies essential to function as a mature and responsible individual in a modern society.

General education courses ensure that, in keeping with Trinity College’s Mission, graduates will have the following competencies:

- Demonstrate effective communication
- Apply critical thinking and problem solving skills
- Demonstrate knowledge of diverse human behaviors in the global environment
- Apply mathematical logic and scientific reasoning skills

Definition of Advanced Science
An advanced science course is a science course that builds from the basic knowledge of definitions and elements and requires application, critical thinking, predictions, and analysis of data. An advanced science course may include organic chemistry, biochemistry, advanced chemistry, physics, a genetics course, or another advanced science course. These courses must include a lab and a total of 4 credit hours. These sciences must use course objectives that require synthesis, analysis, or application of content. A) The chemistry or biochemistry course with a lab must go beyond the fundamental principles of gases, solids, nutrients, and liquids dealing with nomenclature or basic concepts and instead incorporate content on bonding, reactions involving different chemicals, analysis of structures, complex nomenclature, and uses of these chemicals. B) The physics course with a lab must apply principles of motion, make mathematical predictions, or analysis of phenomenon. C) The genetics course with a lab must analyze DNA structures,
incorporate protein metabolism, and correlate genetic aberrations with disease processes. Other advanced science courses will be evaluated for transfer credit based on the course description and course objectives.

**General Education Course Clusters**

Course clusters are categories designed to allow flexibility in fulfilling degree requirements. For example, “Oral Communication” may be fulfilled by taking one course from a “cluster” of courses such as speech, intercultural communication, or interpersonal communication. Course requirements that may be fulfilled from among a cluster of courses are indicated in the College Curriculum Plans. Trinity advisors assist students in the selection of applicable courses to fulfill degree requirements. Students must receive written approval of courses not listed in the clusters from the Dean of Nursing and Health Sciences.

Students should note that some courses listed in the clusters may have prerequisite requirements such as Compass test scores and/or remedial courses determined by the offering institution. The prerequisites will be listed in the course catalog of the offering institution. The following general education clusters are applicable to all degree programs. Any questions about meeting requirements should be directed to the advisor. The Dean of Nursing and Health Sciences has final approval of courses not previously identified as part of a cluster.

</tr>
<tr>
<td>Half-time</td>
<td>5-6 credit hours during a semester</td>
</tr>
<tr>
<td>Less than half-time</td>
<td>1-4 credit hours during a semester</td>
</tr>
</tbody>
</table>

Course Grading System

The course syllabus provided by the instructor will identify the course grading criteria and procedures to be followed in that course. The didactic grading system is based on the percentage system and clinical percentage grade is based on clinical performance evaluations. The clinical grading system is determined by the program. In some programs/courses the didactic and clinical grades are recorded separately. Refer to individual programs for specific grading system information.

Incomplete Grade

A student experiencing exceptional and unforeseeable circumstances may request an Incomplete by submitting an Incomplete Grade Request Form to the course coordinator. The student must obtain an Incomplete Grade Request Form from the College Website. The course coordinator will assist the student to complete the form and submit the completed document to the College Dean. The Dean will review the completed form and either approve or deny the request. The decision of the Dean will be final.

A written plan of completion included on the form identifies due dates for all work to be completed. Specific program department policy may limit the number of clinical or lab hours that may be made up. All final coursework must be completed within 30 calendar days from the end of the term. The list of assignments to be completed may not include any assignments that are past due at the time the Incomplete Grade Request Form is submitted to the Dean.

If the course for which the incomplete grade is a prerequisite to another course, the student may not enroll in that course until completed. Any student wishing to enroll in a course for which the incomplete course is a prerequisite may request permission from the Dean to enroll in the course.

An incomplete grade may impact a student’s financial aid or graduation date. If outstanding coursework is not submitted prior to the deadline specified on the written plan of completion, the Dean will direct the course coordinator to assign a grade of zero (0) for any outstanding coursework. An incomplete, (I) course grade, will then be changed to the earned grade on the student’s academic transcript.
Grade Reports

When a student completes a course, grade reports will be available in My Pulse through the College website. Final grade reports will not be issued over the phone or given to students who attempt to secure them in person. All financial obligations to the College must be fulfilled in order for students to obtain their grades online. Faculty may share unofficial grade reports with the students in their courses.

Grade Point Average

The student’s grade point average is determined by dividing the number of credit hours attempted into the total grade points earned. The WF or WP is not computed in the student’s GPA.

Grading is based on a percentage system. Criteria for didactic and clinical grades are specific to each program.

Examination Proctoring for Online Courses

An alternative approach to asynchronous online testing will be adopted to assure the integrity of examinations. Faculty teaching online courses may use a variety of methods to assess student learning in online courses. These may include but are not limited to: take-home exams, open book exams, weekly quizzes, and time restricted online exams or quizzes. Faculty utilizing objective online exams that constitute a significant percentage of the course grade (major exams such as a midterm or final) can arrange for online students to take such exams via Blackboard Collaborate or have the student arrange for a proctor.

The following options are available to faculty members interested in having a proctored mid-term or final exam: 1) The faculty member proctors his/her exam in a classroom at the college with a date and time arranged by the student; 2) The faculty member requires students to take the exams online through Blackboard Collaborate synchronously on designated dates and times specified by the faculty member; 3) Students may arrange for an agreed upon remote on-site proctor. All proctored testing must be arranged one week (7 days) prior to the examination. The proctor must be a nurse manager or supervisor, certified counselor, college or school registrar, college faculty member, school or college administrator, certified teacher, or a librarian.

The following are unacceptable proctors: a personal tutor, a current student at this or another college, uncertified teachers, staff nurses, family members, friends, or others with a personal connection to the student. The designated proctor will sign a form specifying the rules and obligations of the proctor. The examination will then be sent to the proctor. Neither the proctor nor the student may copy the exam or any part of it or to take any notes associated with the exam. The faculty member’s exam proctoring policy must be communicated to the student at initiation of the course. In addition, the specific dates, times and process for taking the exams should be communicated to students via the course syllabus.

Written Work

Guidelines as published in the current edition of the Publication Manual of the American Psychological Association (7th ed) are to be followed for all written assignments unless the course syllabus specifies another format for a particular assignment.
Family Educational Rights and Privacy Act

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. A detailed explanation of those rights may be found at 34 C.F.R. § 99.1 et. seq. In summary, they are:

1. The right to inspect and review the student’s education records within 45 days of the day Trinity College of Nursing & Health Sciences receives a request for access. Students should submit to the College Registrar a written request that identifies the records(s) they wish to inspect. The Registrar will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the Registrar, he/she will advise the student as to whom the request should be addressed.

2. The right to request an amendment of the student’s education record(s) that the student believes are inaccurate, misleading, or in violation of the student’s right to privacy. Students desiring an amendment to their education record should write the Registrar, and clearly identify the part of the record they want changed, and specify why it is inaccurate, misleading, or in violation of the student’s privacy. The student’s right to request an amendment may not be used to challenge grades.

3. The right to a hearing regarding the request for an amendment of the student’s education records. If the College decides not to amend the record as requested by the student, the College must notify the student of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

4. The right to prevent the College’s disclosure of the student’s personally identifiable information from the student’s education records in most circumstances. The College must obtain the written consent of a student before disclosing that student’s personally identifiable information contained in the student’s education records, except to the extent that FERPA authorizes disclosure without consent. Where required, a student’s consent must specify the records to be disclosed, the purpose of the disclosure, and the party or class of parties to whom disclosure may be made. Among several others, FERPA contains the following exceptions allowing the College to disclose a student’s personally identifiable information:

   a. Disclosure to school officials with legitimate educational interests is permitted without a student’s written consent. A school official is a person employed by the College in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the College has institutional services or functions that the College would otherwise use employees to perform (such as an attorney, auditor, or collection agent); a person serving on the Board of Trustees; a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks; or a student, alumni, or volunteer performing tasks in support of the work of the College under direct control of a College employee. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility. A school official must be under the direct control of the institution with respect to the use and maintenance of information from education records. The agency or institution forwards education records to other agencies or institutions that have requested the records and in which the student seeks or intends to enroll or is already enrolled so long as the disclosure is for purposes related to the student’s enrollment or transfer.

   b. Disclosures to parents are permitted in three situations. First, disclosure of a student’s personally identifiable information to parents is permitted absent a student’s written consent in the event of a health or safety emergency. The College may disclose education records in an emergency if the College determines that there is an articulable and significant threat to the health or safety of the student or other individuals. Second, disclosure of a student’s personally identifiable information is permitted to parents of the student if the student is a dependent pursuant to Section 152 of the Internal Revenue Code of 1986 and notice is given to the student that a parent has requested such information. Third, disclosure of a student’s personally identifiable information to parents is permitted without the student’s written consent if the student is under 21 and has violated a law or College rule or policy governing alcohol or controlled substance consumption or possession.
5. The right to opt out of the disclosure of directory information.
   a. Pursuant to FERPA, the College has classified certain personally identifiable information as directory information, which may be released without the student’s consent. The College defines directory information as the following: student’s name, address, telephone number, email address; dates of attendance; previous institutions attended; major(s); degrees and awards received; honor’s conferred (including dean’s list); degree candidacy; status (full or part-time); and date of birth. Directory information may be released in written form or by other media, such as photographs, video or electronic images.
   b. FERPA permits the College to limit the disclosure of directory information to specific parties, for specific purposes, or both. In the exercise of that authority, the College may release all directory information to members of the College family, defined as administrators, faculty, employees and trustees. Other releases will be limited to those situations in which the College, in its discretion, believes the release would recognize a student for his or her academic or extracurricular achievements or contributions to the College or would otherwise serve to advance the interests and image of the College. Examples of such releases would be the publication of the names of students on the dean’s or honors list in news releases or graduation programs. Another example would be the release of directory information in connection with College sanctioned alumni affairs.
   c. Students who wish to restrict the release of directory information must submit the appropriate form to the Office of the Registrar during the first week of each academic term. This form can be found on the College’s website or at the Office of the Registrar. Upon receipt of such request, the Office of the Registrar will designate that the student’s directory information is confidential and not to be released outside the College except to individuals, institutions, agencies and organizations authorized in the Act. The College will honor all requests to withhold any of the categories of directory information listed above but cannot assume any responsibility to contact the student for subsequent permission to release information. Non-disclosure will be enforced until the information is subsequently released by the student. A student may not, however, opt-out of disclosure of the student’s name, institutional e-mail address, or electronic identifier in the student’s classroom. Regardless of the effect on the student, the College assumes no liability for honoring the request of the student to restrict the disclosure of directory information.

6. The name and address of the office that administers FERPA is:

   Family Policy Compliance Office
   U.S. Department of Education
   400 Maryland Avenue, SW
   Washington, D.C. 20202-5920
   Phone: 800-USA-LEARN (800-872-5327)
Time Limit for Completion of Program
An individual may complete any number of or all of the required General Education courses before beginning major (program) courses. Continuity of matriculation in the major courses is expected due to the ongoing application of knowledge and skills and the rapidly changing health care environment.

Time lapses of more than one year are not acceptable if related to other than availability of course offerings or an approved Leave of Absence. The Dean of Nursing and Health Sciences will determine a time limit for completion of the Program in consultation with the student and the program faculty.

Academic Calendar
The College operates on a semester calendar, which includes summer, fall, and spring semesters.

Unit of Credit/Credit Hour Definition
The unit of credit at Trinity College is the semester credit hour. Traditionally, a unit of didactic credit is earned by attending a non-laboratory or clinical class for one hour a week for 16 weeks. Trinity College offers a variety of course timeframes and delivery formats, depending on the specific course of study. In laboratory classes, one credit hour is granted for two to three hours in the laboratory per week. Clinical and laboratory contact hours are different from didactic courses. Contact hour descriptions are noted within each academic program section of the catalog.

Course Timeframes and Delivery Formats
Course Timeframes
Course timeframes are dependent upon the program of study and the semester in which a course is offered.

Standard Semester – Courses meet one to three times per week for a 16-week semester.

Accelerated – The BSN-Accelerated program at Trinity is a cohort program that requires 15-months of intense study. BSN-A students complete the first year of nursing in two summer sessions, with Session I occurring over a six week period and Session II occurring over a seven week period. Following the first semester, accelerated BSN students connect with other undergraduate nursing students. The BSN-A curriculum consists of two summer, one fall, and one spring semester.

Summer Semester – Courses meet one to five days per week. The semester timeframe is three to thirteen weeks depending upon the course and number of credit hours.

Course Delivery Formats
Courses are offered through one of four course delivery formats.

Face-to-Face Format – Face-to-Face (F2F) courses meet in a classroom for regularly scheduled class meetings throughout the semester.

Online Format – Online (ONL) courses do not meet in a scheduled classroom setting on campus. Course content is primarily delivered through a web-based technology/course management system. This format is recommended for students who are independent learners and comfortable with the use of technology.

Hybrid Format – Hybrid (HYB) courses use both classroom meetings and web-based technology to deliver course content in a planned, pedagogically sound manner. In a blended-course, online delivery replaces a portion of the course meetings that are F2F. The online activities are integrated with the classroom meetings. Students receive the benefit of in-class meetings blended with online learning.

Clinical Format - Clinical (CLIN) is direct or indirect healthcare of individuals, groups or communities.
Good Standing
Undergraduate Programs - To be in good standing, any student while enrolled at Trinity College, regardless of where the hours were earned, must maintain a cumulative GPA of 2.0. Good Standing is recorded on a student’s transcript for each semester that it applies.

Graduate Programs - To be in good standing, any student while enrolled at Trinity College must maintain a cumulative GPA of 3.0. Good Standing is recorded on a student’s transcript for each semester that it applies.

Academic Warning
Undergraduate Programs - Regardless of where the credit was attempted, any student with a cumulative GPA below 2.0 is placed on academic warning. Achieving WF (Withdrawal Failing), C-, D or F in a required course will also place the student on Academic Warning. Academic Warning is recorded on a student’s academic transcript. A student placed on Academic Warning should talk to his/her advisor to discuss a strategy and plan of action to improve the student’s chances of academic success.

Graduate Programs - Any student with a cumulative GPA below 3.0 is placed on academic warning. Achieving WF (Withdrawal Failing), C-, D or F in a required course will also place the student on Academic Warning. Academic Warning is recorded on a student’s academic transcript. A student placed on Academic Warning should talk to his/her advisor to discuss a strategy and plan of action to improve the student’s chances of academic success.

Removal from Academic Warning
Undergraduate Programs - When the student achieves a cumulative GPA of 2.0 and/or successfully repeats the required course, the student will be removed from Academic Warning. The student must resolve the Academic Warning status by the end of the next semester or the next opportunity to repeat the course(s), whichever comes first.

Graduate Programs - When the student achieves a cumulative GPA of 3.0 and/or successfully repeats the required course, the student will be removed from Academic Warning. The student must resolve the Academic Warning status by the end of the next semester or the next opportunity to repeat the course(s), whichever comes first.

Complaint Procedures
The purpose of the Complaint Procedure is to provide a formal process for students to express their concerns regarding existing policies, procedures, or practices.

Academic Complaints
The Dean of Nursing and Health Sciences and Program Coordinators are committed to high quality programs at the College. The Dean and Program Coordinators are open to hearing complaints concerning faculty or curricular matters.

If a student has a complaint concerning faculty, he/she should first consult with the faculty member involved. If the student continues to have a concern, he/she should put that concern in writing and deliver it to the faculty secretary who will set up an appointment with the Dean. If the student has a complaint regarding curricular matters, he/she should first consult with the faculty member involved. If the student continues to have a concern, he/she should put that concern in writing and deliver it to their Program Coordinator, who will set up a time to meet with them to discuss the concerns. These complaints will be addressed by the Program Coordinator in consultation with or referral to the appropriate Director or Dean.

Complaints will remain confidential and only be shared on a need-to-know basis. A written record of formal complaints and their resolution is reported by the Program Coordinators annually to the Dean of Nursing and Health Sciences. Any decisions made in response to a complaint will be final.
Student Services Complaints

Complaints that pertain to admissions, post-secondary enrollment, career development, student organizations and activities should be referred to the Director of Student Services and External Relations. The student should first consult with the person involved, and if a resolution is not satisfactory, he/she should put the concern in writing and deliver it to the student services secretary who will set up an appointment with the Director. The complaint will remain confidential and only be shared on a need-to-know basis. Any decisions made in response to a complaint will be final.

Business Services Complaints

Complaints that pertain to financial aid or business services should be referred to the Director of Business Services. The student should first consult with the person involved, and if a resolution is not satisfactory, he/she should put the concern in writing and deliver it to the student services secretary who will set up an appointment with the Director. The complaint will remain confidential and only be shared on a need-to-know basis. Any decisions made in response to a complaint
HONOR SOCIETIES

Phi Theta Kappa International Honor Society
Founded in 1918, Phi Theta Kappa is the official community college honor society with over 90 years of dedication to recognizing academic excellence.

Phi Theta Kappa recognizes and rewards high-achieving students and provides scholarships for continued studies as well as opportunities to develop such critical leadership skills as problem solving, project planning, team building, effective communication and conflict resolution.

Membership in Phi Theta Kappa carries key advantages for associate degree College students. With a diverse membership, the Phi Theta Kappa Honor Society offers support from fellow scholars of all ages, ethnic backgrounds, economic levels, and fields of study who share a variety of interests and ideas. The special sense of community among society members and faculty advisors allows students to take full advantage of these key opportunities. The commonality is a superior scholarship, and a commitment to the continuing excellence and educational opportunities provided by the two-year program. Phi Theta Kappa requires the student to have completed 12 semester hours of associate degree coursework with a minimum cumulative grade point average of 3.5 (on a 4.0 scale) and to maintain a minimum cumulative grade point average of 3.5. The Trinity College chapter of Phi Theta Kappa is Beta Zeta Beta. The Phi Theta Kappa (PTK) Honor Society induction ceremony is held every spring prior to graduation.

Sigma Theta Tau Nursing Honor Society
September 11, 2015, Trinity College received approval to establish a local chapter of Sigma Theta Tau International Honor Society of Nursing (STTI), Chi Rho. Sigma Theta Tau International Honor Society of Nursing was founded in 1922 by six nurses at the Indiana University Training School for Nurses, which is now Indiana University School of Nursing, in Indianapolis, IN, USA. The founders chose the name from the Greek words storgé, thárros, and time, meaning “love,” “courage,” and “honor.” STTI became incorporated in 1985 as Sigma Theta Tau International Inc., a nonprofit organization with a 501(c) (3) tax status in the United States.

Society Mission
The mission of the Honor Society of Nursing, Sigma Theta Tau International, is advancing world health and celebrating nursing excellence in scholarship, leadership, and service.

Society Vision
Sigma Theta Tau International’s vision is to be the global organization of choice for nursing.

Membership
Sigma Theta Tau International membership is by invitation to baccalaureate and graduate nursing students who demonstrate excellence in scholarship and to nurse leaders exhibiting exceptional achievements in nursing. To be eligible for induction:

• BSN senior nursing students must be in the top 35 percent of their class, and
• Have completed half of their nursing coursework
• MSN nursing students eligibility is determined according to academic achievement and completion of at least ⅔ of the nursing curriculum
Facts about Sigma Theta Tau International

- STTI has more than 135,000 active members.
- Members reside in more than 85 countries.
- 39 percent of active members hold master’s and/or doctoral degrees; 51 percent are in staff positions; 19 percent are administrators or supervisors; 18 percent are faculty/academics; and 12 percent are in advanced practice.
- There are roughly 500 chapters at approximately 695 institutions of higher education throughout Armenia, Australia, Botswana, Brazil, Canada, Columbia, England, Ghana, Hong Kong, Japan, Kenya, Lebanon, Malawi, Mexico, the Netherlands, Pakistan, Portugal, Singapore, South Africa, South Korea, Swaziland, Sweden, Taiwan, Thailand, the United Kingdom, and the United States of America.

Dean’s List

Each semester the College recognizes superior academic performance by mailing the students a letter from the Dean and making a notation on the student’s academic transcript. Students who have achieved a grade point average of 3.5 or higher are eligible for inclusion on the Dean’s List.

To be eligible for fall and spring semester Dean’s List, a student must be in good standing, complete a minimum of 12 semester hours of credit in courses graded (A, B, C, D or F) and receive no grades lower than C.

To be eligible for summer semester Dean’s List, a student must be in good standing, complete a minimum of 6 semester hours, and receive no grades lower than a C.
ACADEMIC ACHIEVEMENT

Valedictorian & Salutatorian

The College Valedictorian is defined as the student with the highest overall grade point average in each degree program with a minimum GPA of 3.5 or higher. A single valedictorian will be selected for each program. Selection may include the number of GPA hours achieved at Trinity College, participation in student organizations, and faculty recommendations. The College valedictorians are offered the opportunity to speak at commencement.

The College Salutatorian is defined as the student with the second highest overall grade point average in each degree program with a minimum GPA of 3.5 or higher. A single salutatorian will be selected for each program. Selection may include the number of GPA hours achieved at Trinity College, participation in student organizations, and faculty recommendations. The College Salutatorians are invited to speak at commencement.

Valedictorians and Salutatorians for May graduation are acknowledged at the spring commencement exercises.

Valedictorians and Salutatorians for August graduation are acknowledged at the summer commencement exercises.

Baccalaureate Degree: Graduating with Academic Distinction

Recognition for academic achievement is based upon a student’s cumulative GPA up to and including the semester prior to graduation. To graduate with academic distinction, candidates must have completed more than fifty percent of their major semester hours at Trinity College of Nursing & Health Sciences, and have attained a College cumulative GPA of at least 3.5 (Cum Laude), 3.7 (Magna Cum Laude), or 3.9 (Summa Cum Laude). Academic distinction is recognized during graduation ceremonies. This will be noted on a student’s final transcript based on all work completed for the degree.

Associate Degree: Graduating with Honors

Trinity College of Nursing & Health Sciences believes that commencement exercises should be specific and personal to the graduating class of a given year. With that in mind, students will be recognized at the graduation ceremony for their academic achievements.

Recognition for academic achievement is based upon a student’s cumulative GPA up to and including the semester prior to graduation. Students earning an Associate Degree with a cumulative GPA of 3.5 or higher on a 4.0 scale graduate with honors. To graduate with honors, candidates must have completed more than fifty percent of their major semester hours at Trinity College of Nursing & Health Sciences.

Commencement Awards

The College wishes to recognize those students who have achieved outstanding academic performance. To receive these awards, students must complete more than fifty percent of their major semester hours at Trinity College. Special awards are conferred at the graduation ceremonies. These awards are presented to students who submit a portfolio to the selection committee for evaluation. The categories for awards are: Service and Leadership.
GRADUATION REQUIREMENTS

Meeting graduation requirements is ultimately the responsibility of the student. Students are encouraged to work with their advisor in selecting courses to meet their educational program requirements.

Students must apply for graduation. An Intent to Graduate form should be completed the semester prior to the term of anticipated graduation. Diplomas are mailed six to eight weeks after the end of the semester in which the students are approved to graduate.

Commencement ceremonies are the culmination of the student’s program of study. Each May and August, Trinity College conducts commencement exercises where the Board of Trustees and special guests, faculty, staff, family, and friends come together to recognize academic achievements. All eligible degree candidates are encouraged to participate in commencement activities.

If the student has six credit hours or less to complete, the student is eligible to participate in commencement exercises. The student must submit a written request to the Dean of Nursing and Health Sciences for approval by the midterm of the spring or summer semester of graduation.

The following degrees may be earned:

- Bachelor of Science in Nursing
- Associate of Applied Science in Radiography
- Bachelor of Science in Health Sciences
- Master of Science in Nursing

Requirements for graduation for degree programs include:

- Successful completion of general education courses and specific major courses required by the appropriate curriculum plan
- Compliance with all special requirements listed by the individual program
- Achievement of a satisfactory cumulative grade point average
- Satisfaction of all financial obligations.
SERVICES TO STUDENTS

My Pulse
My Pulse, Trinity College of Nursing & Health Sciences’ internet portal system, provides a convenient method for students to obtain information. My Pulse is the gateway to important College information and services provided to the student body.

My Pulse allows students to access the following:

- My Ledger – details account ledger of all transactions
- My Grades – lists grades that have been entered for a given term, including GPA
- Course Offering – lists the date and times of classes
- My Financial Aid – lists all financial aid awards available to students
- Calendar – includes a day planner for student use
- Student Portal News - College and personal announcements about events, dates, and activities
- Student Directory – a listing of students in the College directory

E-mail
Email is Trinity College’s official communication tool with students. Students are expected to access their Trinity College email often. Important information concerning registration, financial aid, transfer credit, college events, courses, and graduation will be sent via email. Instructors use email to correspond with students concerning coursework.

Students receive a college email address from Student Services upon enrollment. Students access email from the homepage of the College website: www.trinitycollegeqc.edu. Students may use any computer in the lab or access email on personal devices within the Student Commons using the College’s Wi-Fi hotspot.

Change of Information
It is the responsibility of the student to notify Student Services of a change in name, address, telephone number, and any other record information. Students may go to the College website at www.trinitycollegeqc.edu and select the Change of Information Form.

Counseling Services
All students are eligible to participate in the Student Assistance Program (SAP)* as offered through Precedence, Inc., and UnityPoint Health - Trinity. Counselors are available to assist students with personal or other issues that arise while a student is at the college. Students may seek SAP assistance independently, or can be referred by their academic advisor or the Dean of Nursing and Health Sciences. Brochures are available in Student Services. SAP services are available 365 days per year, 24 hours per day by calling (800) 361-1492 or (309) 779-2273. Services are located at 4600 3rd Street, Suite 108, Moline, Illinois. This is a free, limited, confidential program and will not be part of the student’s academic record.

The SAP resource can assist students in accessing the appropriate resources to deal with concerns that might interfere with their personal and educational development while in College. The service is available to every student who has a difficulty or concern. Included in the service is assistance with personal, social, academic, professional, and vocational concerns. Concerns such as drug and alcohol abuse, marital problems, financial trouble and others can be addressed.

*The student assistance program is part of the Trinity Regional Health System Employee Assistance Program (EAP).
Student Success Center

The Student Success Center offers academic assistance and a quiet place to study for all Trinity College of Nursing & Health Sciences students. The Center, located in the Unity Point-Trinity library, is also a supportive environment. The faculty and staff stand committed to helping students improve upon the critical skills needed to grow and succeed in a rigorous, medically-focused curriculum. Through one-on-one tutoring, peer study groups, tutorials, academic advising, individual counseling, and skills assistance, we can assist students with an array of subjects:

Behavioral sciences  
Biological and physical sciences  
Core nursing content  
NCLEX prep  
Mathematics and Medication calculation skills  
Organizational skills  
Grammar and writing skills  
Study skills  
Time management skills  
Test taking strategies and critical thinking skills  
APA formatting skills

Additional resources are available on Blackboard in the Student Services folder and on the College website at www.trinitycollegeqc.edu, Current Students, Student Success Center.

Tutoring

Tutoring assistance is available for students who feel they need additional academic assistance in major or general education courses. Students may self-identify to the Director of Student Services and External Relations, or may be referred by an academic advisor or course faculty for these services to the Nursing Department Chair. The Nursing Department Chair will attempt to recruit tutors in a timely manner to accommodate requests. Tutors are chosen on a case-by-case basis to meet the specific needs of the student.

Textbooks

Trinity College has partnered with the largest textbook supplier in the nation, MBS Direct. This book store is built around a course-driven system that ensures you order and receive the right book, on time. Your textbooks and course materials are shipped from a state-of-the-art warehouse that is fully operational 24 hours a day, 5 days a week directly to you. Search for required course materials using your course code.

To request to have your books charged to your tuition account you will first need to request a book voucher from the Business Services Specialist. https://bncvirtual.com/tcqc

Career Services

Student Services and academic advisors offer assistance in planning career goals. Students are provided with information regarding specific career opportunities within the health science professions. Assistance with resume and cover letter development is available.

ATMs

ATM machines are available in the lobbies at the Unity Point Health, Trinity Rock Island campus and just off the lobby on the Trinity Moline Campus.
Computer, Health Assessment, and Learning Laboratories

The purpose of the Computer, Health Assessment, and Learning Laboratories is to enhance independent learning. Trinity College believes that learning of “hands-on” health science skills needs to be observed and practiced in simulated and laboratory settings. Use of the Computer, Health Assessment, and Learning Laboratories materials and facilities allows students to pace learning according to their own style/needs.

General Guidelines Include the Following:

- No children are permitted in these areas unless invited by faculty.
- Careful handling of equipment is needed to prevent damage.
- Safe use and handling of equipment is needed to prevent injury.
- These areas need to be maintained by cleaning up after oneself.
- As supplies are needed in these labs, contact the course coordinator.
- Respect for the rights of others is expected; therefore students are to refrain from activities that would disturb others in the area.

Computer Lab Guidelines:

- If required, reservation of Computer Lab time is arranged with the Executive Assistant at 309-779-7730. Faculty with course requirements have priority. Open hours are on a first-come, first-served basis.
- NO FOOD OR DRINKS are permitted in the Computer Lab.
- Hours: 6:00 a.m. to 9:00 p.m. Sunday through Saturday, except holidays.
- DO NOT COPY any apps from the Lab computers. This is a violation of the site license.
- Before leaving the Lab, exit from all open programs per Handbook Guidelines. Remove all personal USB flash drives and push chairs in.

Nursing and Health Sciences Learning Lab Guidelines:

- Hours: 7:30 a.m. to 4:30 p.m. Monday through Friday and as arranged with course faculty.
- Food and/or drinks are prohibited in all labs.
- No lotion, betadine, pen or pencil markings are to be applied to the manikins or equipment.
- Refold linen, if not soiled, for reuse. Return all objects to their appropriate place.
- Dispose of soiled linen in linen hampers. If linen is wet, allow drying on side of linen hamper.
- After use, wash plastic hygiene utensils with soap and water.
- Replace furniture into usual arrangements when finished. Keep sink areas dry.
- Sharp objects may be checked out from course faculty for practice in the Lab. These items must be returned to the faculty member before leaving the Lab.
- Due to quantities available and cost considerations, recycle items as appropriate (i.e., IV catheterization trays, etc.).
- Health assessment equipment may be checked out from course faculty

Injury to Person or Damage to Equipment:

- Take appropriate measures to deal with injury.
- Immediately report injury or damage to faculty or a Trinity College staff member.
- A fee may be charged to students found to be negligent or willful in causing the damage to lab equipment, supplies, or property.
Admission & Enrollment Services

Trinity College of Nursing & Health Sciences admissions advisors work with prospective students and their families during the entire admissions process. Campus visits are designed to review curriculum offerings, and are encouraged. Visits can be arranged to meet the student’s schedule. Hours are Monday through Friday 8:00 a.m. to 4:30 p.m. You may call 309-779-7812 for assistance.

The classroom shadow program is designed to offer high school (junior and senior) students and non-traditional students an opportunity to shadow a Nursing or Radiography classroom and/or laboratory experience at Trinity College of Nursing & Health Sciences.

The shadow visits are offered during the Fall and Spring semesters and consist of the following:

- Pre and post admission meeting
- Classroom observation
- Skills laboratory observation
- Campus tour
- Meeting with Program Coordinator and/or Instructor
- Meeting with Financial Aid Specialist

In addition, Student Services oversees the areas of recruitment, admissions, alumni relations, and the College’s post-secondary enrollment program. The Office of the Registrar and the College Business Services Specialist are also located within Student Services.

The Student Services secretary is available to assist with answering questions and is available Monday through Friday from 8:00 am to 4:30 pm. You may call 309-779-7700 for assistance.
ORGANIZATIONS & ACTIVITIES

Co-Curricular Experiences
Co-Curricular activities at Trinity College of Nursing & Health Sciences are those experiences, activities, and interactions that augment curricular learning as well as the students’ development within a professional practice discipline. Co-Curricular experiences provide the milieu for Trinity College students to “live” the College Values in a manner that aligns with the students emerging professional practice. The Trinity College Values of Best Practice, Caring, Diversity, Integrity, and Lifelong Learning, when aligned with professional codes and discipline-specific practice, provide the foundation for preparing students for a success professional career in nursing or the health sciences.

Co-Curricular experiences at Trinity College are designed and assessed by College students, faculty, staff, and external stakeholders. Co-Curricular experiences at Trinity College reflect the College’s dedication to preparing health care professionals for an ever-changing global community.

Activity Programming Guidelines
Activities that are planned by students must receive approval from the Director of Student Services and External Relations prior to implementation of the event. A request in writing must be made and submitted to Student Services two weeks prior to the event. Students are encouraged to seek programming assistance from Student Services in advance of the two-week deadline. After the request is received, the activity will be reviewed for approval and compliance with Trinity College policies and guidelines.

Organizations Overview
Getting involved in student activities can be the difference between merely attending Trinity College compared to becoming an integral part of the total College experience. Advantages of student involvement include gaining more knowledge about the field of health sciences, establishing new friendships, developing leadership skills, and assisting with community service projects. Participation is available through the Student Government Association and professional honor societies such as Phi Theta Kappa and Sigma Theta Tau. Students expressing an interest in establishing a new student organization are to meet with the Director of Student Services and External Relations. Students may also volunteer to represent all students on College standing committees. Representatives are chosen by the Dean of Nursing and Health Sciences from the volunteers who have identified themselves at the time representatives are needed.

Student Government Association (SGA)
The Student Government Association (SGA) exists to facilitate a positive learning environment, provide professional socialization and also to act as a student voice on policies and issues. Student Government provides an opportunity for individuals to exercise a variety of skills in the areas of leadership, decision-making, planning, organizing, and human relations. Students from all health sciences programs are able to interact in a collaborative manner while providing service to the community as well as the health care profession. All students have the opportunity to become involved in SGA. The officers and committee members for the SGA are elected early in the academic year. All Trinity College students are members of SGA.

Student Representation in Governance
Curriculum Committee
Curriculum Committee ensures the quality of the curriculum, promotes optimal learning, reviews and approves all curricular offerings developed by the faculty, and recommends curriculum changes based on input from the Institutional Effectiveness Committee. This committee also develops, reviews and approves policies related to curriculum and instructional resources. A minimum of two students in good academic standing will serve on this committee.
Student Affairs Committee
Student Affairs Committee develops, reviews, and promotes student activities that enrich the social, cultural, and academic atmosphere and provides opportunities for student growth in leadership, communication and responsibility. The committee also has oversight of the portfolio process and other student related policies, suggestions, and requests that impact students' well-being at the College. A minimum of one student representative from each program is sought to serve on this committee.

Institutional Effectiveness Committee
Institutional Effectiveness Committee adopts appropriate methods for gathering data needed for assessment and measurement of student knowledge, proficiency, culture care values, program satisfaction, and graduation rates on a college-wide and program-specific basis. Student representatives are sought to serve on this committee.

Campus Violence Prevention Committee
The Campus Violence Prevention Committee promotes awareness and responsiveness across campus to avoid or address situations that may involve violence, threats, intimidation or property damage. A minimum of one student representative from each program is sought to serve on this committee.

Social, Recreational and Religious Activities
Students are encouraged to take advantage of the educational, cultural/fine arts, and recreational opportunities available in the Quad Cities area and to participate in extracurricular activities sponsored by Trinity College organizations/societies, Black Hawk College, Eastern Iowa Community College, and Augustana College. Students are encouraged to attend many of UnityPoint Health, Trinity's educational and social functions. Trinity College is non-sectarian and encourages students to continue their religious affiliations in the many houses of worship located in the area.

Health Information Privacy
The Health Insurance Portability and Accountability Act of 1996 ("HIPAA") and its regulations (the "Privacy Rule" and the "Security Rule") protect the privacy of an individual's health information and govern the way certain health care providers and benefit plans collect, maintain, use, and disclose protected health information ("PHI"). Students will receive training relative to compliance with HIPAA regulations. It is unacceptable for students, or any health care provider, to access their own health records or the records of a family member without following the appropriate process for the release of medical records. Any failure to comply with HIPAA regulations will result in disciplinary action.
ANNUAL SECURITY REPORT

The Trinity College of Nursing & Health Sciences Annual Security Report is intended to provide information related to campus security and safety including a description of Trinity College of Nursing & Health Sciences’ security arrangements, policies and procedures; programs that provide education on drug and alcohol abuse, awareness and prevention of sexual misconduct, and procedures the College will take to notify the campus community in the event of an emergency. It also includes crime statistics for the past three years. The provision of this information is in compliance with the requirements of the “Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act” (Public Law 101-542), as amended. These policies are adopted as part of Trinity College of Nursing & Health Sciences’ commitment to the safety and security of all members of the College community and to ensure that the College’s environment supports the academic needs of its students while also maintaining a safe place to work and learn. Trinity College and Trinity Regional Health System are jointly responsible for gathering safety information and crime data for specified geographic locations. Additionally, annual crime data is supplied by the Rock Island Police Department / Office of the City Clerk and is released through the Freedom of Information Request. Questions regarding any of the information may be directed to the Director of Student Services and External Relations at 309-779-7720.

The Annual Security Report is submitted the first day of October and is located on the College webpage. The Crime Statistics are included below.

COLLEGE POLICIES

Academic Computing & Identity Theft Prevention Program Policy

PURPOSE

To verify the identity of students attending Trinity College of Nursing & Health Sciences as required by the UnityPoint Health Identity Theft Prevention Program (Policy 1.1.L.04). Trinity College of Nursing & Health Sciences student accounts qualify as covered accounts as defined in the UnityPoint Health-ITPP program, and therefore, Trinity College of Nursing & Health Sciences is subject to the student verification and subsequent policies and procedures regarding Identity Theft Prevention and Red Flag rules.

POLICY AND PROCEDURE

This policy is effective for all students of Trinity College of Nursing & Health Sciences. Each student must provide a government-issued form of identification upon matriculation to any Trinity College of Nursing & Health Sciences program as proof of identity.

Procedures

1. Upon matriculation to any Trinity College of Nursing & Health Sciences program, the student must submit to the Office of Student Services a government-issued form of identification with photograph (e.g. passport, driver’s license, etc.).
2. The Office of Student Services will confirm that the government-issued photo provided is a match to the matriculated student. A copy of the government-issued form of identification will be made for the College’s record-keeping system.
3. After steps 1 and 2 are completed, a student photo identification badge will be made, which will provide access to Trinity College of Nursing & Health Sciences facilities, events, and services. This badge will also identify Trinity students at their clinical sites.
4. If at any time Trinity College of Nursing & Health Sciences identifies potential red flags regarding a Trinity College student’s identity, College personnel will follow the guidelines set forth in the TRHS-ITPP as required by notifying the Identity Theft Prevention Officer. In such policy, the term “patient” is interchangeable with “student” as deemed necessary.
5. Trinity College of Nursing & Health Sciences provides students with password-protected email accounts and password-protected accounts to the College Portal and course management system.
6. Trinity College of Nursing & Health Sciences provides students with access to computers located on-campus; wireless access to the network, and log-in access from off-campus. Students are to abide by all computer usage policies whether using on-campus computers, wireless access, or to off-campus or wireless-enabled devices.
7. The following policies require students to complete their own work and not to allow others to use their ID or computer access for any purpose:
   • Academic Integrity Policy (college catalog)
   • Use of Student Email and My Pulse Portal Systems.

At orientation or upon matriculation students will receive the Academic Computing Policy and sign the Computer Access and Information Resources Agreement. These forms will be kept in the student’s file.

Privacy Protection: In response to Federal Trade Commission’s recent ruling, steps have been taken to ensure protection of individual’s private information as related to employment and education. Trinity College of Nursing & Health Sciences is required by federal regulations to collect and use social security numbers as identifiers. The use of social security numbers as identifiers is limited to those situations and to those agencies requiring this information in relation to the awarding of student financial aid, loans and/or licensure.
Academic Honesty and Integrity Policy

PURPOSE

It is the goal of Trinity College to promote a sense of honesty and integrity on the part of students in fulfilling their academic requirements.

POLICY AND PROCEDURE

In order for an academic community to teach and support appropriate educational standards, an environment of collaboration, trust, and individual responsibility must be maintained. It is the student’s responsibility to achieve their educational obligations in a fair and honest manner. Students found responsible for plagiarism and/or cheating can face both academic and disciplinary action.

Plagiarism is the act of presenting another’s work as your own. Plagiarism takes several forms. Any of the following, without full acknowledgement of the original source, is plagiarism:

1. Passing of words and/or images of another as one’s own.
2. Passing of the ideas of another as one’s own.
3. Using the original organizational scheme or plot of another as one’s own.

Examples of Plagiarism include, but are not limited to:

- Copying someone else’s words without using quotation marks and citing (giving credit to) the source.
- Misrepresenting someone else’s words or ideas or quoting them inaccurately.
- Citing the wrong source.
- Paraphrasing or summarizing someone else’s words or ideas without citing the source.
- Submitting one’s own work which has already been submitted for a grade in another course or another session of the same course.

If plagiarism is suspected, the faculty member will discuss the “suspect” work with the student. The student in question may prepare a written statement of facts regarding the work in question. If the student has plagiarized, he/she will be entered into corrective action. Corrective action can include any of the following:

- Failing of the assignment/exam
- Requiring the student to re-do the original assignment
- Assigning a failing grade for the course
- Dismissal from the College

Cheating is viewed as an offense of severe nature. Each student is responsible for the authenticity of his/her own work. Students found cheating can be disciplined up to and including dismissal from the College without the opportunity for grievance.
Accessibility Services Policy

PURPOSE

The purpose of this policy is to provide reasonable accommodations for individuals with disabilities as defined by applicable law.

DEFINITIONS

Reasonable Accommodations: Reasonable accommodations may include reasonable modifications to the College’s policies, practices, and procedures where necessary for individuals with disabilities, unless doing so would alter requirements that are essential to the instruction being pursued or to licensing requirements. The College will also provide necessary and reasonable auxiliary aids and services for individuals with disabilities. Further, the College strives to remove barriers for individuals with disabilities and to provide services, facilities, and privileges to achieve equal opportunity for individuals with disabilities. Examples of some of the reasonable accommodations the College makes available include but are not limited to:

- Academic/Program Modifications
- Access to Facilities
- Classroom Access
- Communication Access
- Information Referral
- Parking
- Priority Registration
- Testing Accommodations

POLICY

Trinity College of Nursing & Health Sciences (the “College”) complies with Section 504 of the Rehabilitation Act of 1973, as amended, and the American with Disabilities Act of 1990, as amended. It is the College’s policy to provide individuals with disabilities full and equal enjoyment of the services, facilities, and privileges of the College. Specifically, the College does not discriminate on the basis of disability in its admission, recruitment, academics, research, financial aid, counseling, employment assistance, and/or any other service, facility, or privilege available to students or potential students. Further, the College does not screen out, exclude, expel, limit, or otherwise discriminate against an individual seeking admission as a student, or an individual enrolled as a student, based on disability. The College promotes an environment of respect and support for individuals with disabilities.

The College will make reasonable accommodations for individuals with disabilities as defined by applicable law. Reasonable accommodations may include reasonable modifications to the College’s policies, practices, and procedures where necessary for individuals with disabilities, unless doing so would alter requirements that are essential to the instruction being pursued or to licensing requirements. The College will also provide necessary and reasonable auxiliary aids and services for individuals with disabilities. Further, the College strives to remove barriers for individuals with disabilities and to provide services, facilities, and privileges to achieve equal opportunity for individuals with disabilities. Examples of some of the reasonable accommodations the College makes available include but are not limited to: Academic/Program Modifications, Access to Facilities, Classroom Access, Communication Access, Testing Accommodations, Information Referral, Priority Registration, and Parking. Not all accommodation requests will be granted or deemed reasonable.

The College is committed to providing reasonable accommodations to individuals with disabilities. The professions for which the College offers programs, however, may have cognitive, sensory, affective and psychomotor functional requirements that are essential for the delivery of safe, effective care. Thus, individuals must be able to meet these functional requirements, with or without reasonable accommodation in order to participate in the College’s programs. For example, the functional abilities that are essential to engage in the
practice of nursing and the health sciences, and which are required to be met (with or without reasonable accommodations) to participate in the College’s nursing and health sciences programs derive from the list of Functional Abilities Essential for Competent Nursing Practice, developed by the National Council of State Boards of Nursing. Students and potential students should consult with the Director of Student Services and External Relations for information on the functional abilities essential to the practice of professions for which the College offers programs.

**Requesting Accommodation**

Any applicant, student, or other individual who believes a reasonable accommodation is necessary to enable such a person to seek admission, enroll, or otherwise participate fully and equally in a College program is encouraged to contact the Director of Student Services and External Relations to discuss any needs he/she may have. The Director of Student Services and External Relations will consult with the individual, faculty, staff, and other departments as necessary in an effort to arrive at a reasonable accommodation. It is the responsibility of the student or potential student seeking accommodation to identify his/her condition and provide the requested documentation. Students seeking an accommodation will be scheduled for a confidential meeting with the Director of Student Services and External Relations to discuss the student’s needs and complete an “Accessibility Services Student Intake Form” as provided by the Director. To obtain accommodations by the start of a semester, the student should meet with the Director as soon as possible, preferably at least six weeks before the first day of classes or, if the accommodation relates to a specific class(es), before enrolling in the class(es). However, accommodation requests can be made at any time. Such advance notice will allow students and the Director a reasonable period of time in which to determine whether the requested accommodations are necessary, appropriate and effective, evaluate alternatives if appropriate, and to implement the resources for any necessary aid in a timely manner.

In addition to completing an Accessibility Services Student Intake Form the student will need to meet with the Director and present current documentation regarding the nature of the disability and any accommodations needed. The Director will review the Student Intake Form and all documentation, with assistance of an outside medical professional if necessary. Documentation requirements are outlined further in the section below.

Reasonable accommodations are determined through the collaboration of the Director, the student, faculty, individual departments, and outside professionals as warranted, with consideration for essential standards for courses, programs, services and activities, or status of facilities.

When a reasonable accommodation is deemed necessary, the Director will develop a plan identifying the student’s disability, the circumstances for which accommodations are needed, and the reasonable accommodations recommended by the Director. The plan will be distributed to those with a need to know to put any accommodation in place. Additionally, the Director will contact individual faculty members to discuss, as necessary, the recommended accommodations and the process for implementation. When it has been determined that accommodations are reasonable and necessary, faculty are expected to assist in such implementation. If agreed-upon accommodations are not implemented in an effective or timely manner, then the student is encouraged to contact the Director of Student Services and External Relations.

Individuals seeking admission and progression to clinical courses, and graduation from the College must be able to meet the physical and emotional requirement of their academic program of study. Individuals who pose a direct threat to safety and welfare may be denied admission, progression, or graduation. The College’s individualized assessment of an applicant’s or a student’s threat to the safety and welfare of self or others will be based on current medical evidence or on the best-available objective evidence that assesses the nature, duration, and severity of the risk, and the probability that injury will occur. Students who have concerns about the accommodations provided or not provided or who wish to submit a complaint about discrimination or harassment based upon disability should report their concern to the Director of Student Services and External Relations or to the Dean of Nursing & Health Sciences. The College endeavors to provide prompt and equitable resolution to student concerns.
Required Documentation
The College relies on students to self-report impairments, conditions, and disabilities as well as providing documentation from professionals in order to determine accommodations. Disability documentation from treating health care providers should conform to the following criteria:

1. Documentation must be from a professional who has undergone appropriate and comprehensive training, has relevant experience and licensure appropriate to his/her profession. Documentation must be current (within the past year). If it is not, then the Director of Student Services and External Relations will request current documentation and, if necessary, will provide references for health care providers, including the option of using the Hospital’s assistance program or a referral based on the type of documentation needed.
2. Reports must be on letterhead and signed by the treating health care professional, including titles and license descriptors as appropriate. Additional documentation may be requested.
3. Diagnostic statements must identify each condition, including ICD or DSM codes as appropriate, date/copy of the most recent full evaluation, and dates/copies of additional evaluations.
4. Current impact of the condition(s) described in a clinical narrative and through the provision of specific results from diagnostic procedures. As appropriate to the condition(s) and/or requested accommodation, including impact on major bodily functions (including, but not limited to the functions of the immune system, cell growth, digestive, bowel, bladder, neurological, brain, respiratory, circulatory, endocrine, and reproductive functions), and functional impact on physical (mobility, dexterity and endurance), perceptual, cognitive (attention, distractibility, communication), and behavioral abilities. Descriptions should provide a sense of severity, information on variability over time or circumstances, expected duration of impact, and potential triggers. Descriptions should also include any significant side effects of treatment that may impact physical, perceptual, behavioral or cognitive performance.
5. Recommended accommodations, modifications, and services should be logically related to the functional impact of each condition, to ensure equal access and opportunity at the College. When connections are not obvious, they should be explained. The Director of Student Services and External Relations and the Dean of Nursing & Health Sciences may assist in the College’s evaluation of whether the accommodation is appropriate.
6. Medical information provided by the student will be kept confidential to the extent possible, except that information may be shared as necessary to implement accommodations.
7. Documentation will vary depending on the situation and claimed disability.

Academic Honestly & Integrity
An accommodation based on a student’s disability may relate to the administration of testing, examinations, or other coursework. Students provided with such accommodations must continue to adhere to the College’s academic honesty & integrity policy and to the College’s standards of behavior. Failure to adhere to the academic honesty & integrity policy and the standards of behavior may result in corrective action.

Disability Accessibility
Trinity College is accessible to physically challenged individuals. Special facilities such as restrooms and parking are available to make College activities accessible.

PROCEDURES

1. The student must complete the Accessibility Services Student Intake Form.
2. The student must schedule a confidential meeting with the Director of Student Services and External Relations and provide documentation as noted in the policy preceding policy statements.
3. The Director of Student Services and External relations will review the materials presented by the student and determine what if any reasonable accommodation(s) is/are necessary for the student related to his/her enrollment as a student at Trinity College of Nursing & Health Sciences.
4. Other faculty/staff will be notified of the accommodation on a need to know basis.
5. The reasonable accommodation will be put into place if deemed appropriate.
6. Evaluation of the accommodation put into place for the student after each semester of attendance at the College to determine the necessity of its continuation or modification or elimination.

7. Granted accommodations are not effective retroactively; students will not be able to re-do assignments or re-take exams with accommodations that they originally took before the requested/approved accommodation.

**Training**

The Director of Student Services and External Relations will provide updates to this policy and notify the faculty and staff of the changes.

**Laws and Regulations**

Inquiries regarding federal laws and regulations concerning Trinity College’s compliance with Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990 may be directed to:

U.S. Department of Education  
Office of Civil Rights  
Lyndon Baines Johnson Department of Ed Building

Email: OCRmail@hhs.gov
Active Duty/Reservists/National Guard Service Members Called to Extended Active Duty

PURPOSE

The purpose of this policy is to describe the withdrawal and/or readmission process for Active Duty, Reservists, and/or National Guard Service members who are called to an extended military service assignment within a semester they are actively attending classes at Trinity College of Nursing & Health Sciences.

POLICY AND PROCEDURE

If a student must drop or withdraw from courses due to receipt of military orders and, as a result, is unable to attend classes for the remainder of the semester, the student will not be responsible for any tuition and/or fees incurred for the semester in which the military orders take effect. Receipt of orders may include deployment, mobilization, activation, or a temporary duty assignment. Students that need to withdraw under these circumstances are required to submit a withdrawal form and a copy of their military orders; and a grade of WP (withdrawal passing) or WF (withdrawal failing) will be given depending on the course grade at the date of withdrawal.

The student must notify their Academic Advisor at Trinity College of his/her military deployment, the desire to withdraw and/or the intention to return to school as follows:

• The student (or an appropriate officer of the armed forces or official of the Department of Defense) must give written notice to Trinity College of such service as far in advance as is reasonable under the circumstances. The initial notice does not have to indicate whether the student intends to return to the school and may not be subject to any rule of timeliness. (Timeliness will be determined on a case by case basis based on the facts available in any particular case.) Alternatively, at the time of readmission, the student may submit an attestation of military service that necessitated the student’s absence from the school. No notice is required if precluded by military necessity, such as service in operations that are classified or would be compromised by such notice.

• The student must also give written notice of his/her intent to return to Trinity College within three years after the completion of the period of service. A student who is hospitalized or convalescing due to an illness or injury incurred or aggravated during the performance of service must notify the school within two years after the end of the period needed for recovery from the illness or injury. A student who fails to apply for readmission within these periods does not automatically forfeit eligibility for readmission but is subject to Trinity’s established leave of absence policy and general practices.

If a student is receiving financial aid, the following procedures should be followed:

• Inform Financial Aid Specialist of the need to withdraw due to a military obligation
• Financial aid will be adjusted based on federal and/or state rules and regulations
• To avoid having to begin loan repayment, borrowers must request military deferments on any federal loans by contacting the loan holder directly.

Trinity College will promptly readmit the student/returning service member into the next class or classes in the program after notice of intent to reenroll is received, unless appropriate request for a later date is submitted or unusual circumstances require the College to admit him/her at a later date.

Trinity College will admit the student with the same academic status, which means:

• To the same program to which the student was last admitted or, if that exact program is no longer offered, the program that is most similar to that program
• At the same enrollment status
• With the same number of credit hours or clock hours previously completed, unless the student is readmitted to a different program to which the completed credit hours or clock hours are not transferable, and
• With the same academic standing (e.g., with the same academic progress status) the student previously had.
If the student is readmitted to the same program, for the first academic year in which he/she returns, Trinity College must assess the tuition and fee charges that he/she was or would have been assessed for the academic year during which he/she left the school.

Principles of Excellence

On April 27, 2012, the White House issued EO 13607, which created the Principles of Excellence for education institutions serving service members, veterans, spouses, and other family members. The principles apply to all postsecondary schools that receive funding from federal military and veterans educational benefits programs. Adoption of the principles is voluntary but encouraged. Trinity College of Nursing & Health Sciences has adopted these principles. As such, Trinity College agrees to the following guidelines:

- Provide students with a personalized form covering the total cost of an education program.
- Provide educational plans for all military and veteran education beneficiaries.
- Accommodate service members and reservists absence due to service requirements.
- Designated a point of contact to provide academic and financial advising.
- Ensure accreditation of all new programs prior to enrolling students.
- Align institutional refund policies with those under Title IV, which governs the administration of federal student financial aid programs.

Department of Defense

Students can submit a complaint if they believe their school is failing to follow the Principles of Excellence through the centralized online reporting system accessed via the Department of Defense website. Examples of education-related issues may include, but are not limited to, misrepresentation or deceptive actions with regards to private or institutional loans, high-pressure recruitment tactics, false representations about degree programs, and misleading statements regarding accreditation.

The complaint system is part of the President’s Executive Order establishing Principles of Excellence for educational institutions serving Service Members, Veterans, Spouses, and other Family Members; designed to empower beneficiaries to report experiences related to misleading or unfair acts or practices by educational institutions serving veterans, service members and their families.

Military-connected students using Tuition Assistance (TA) or Military Spouse Career Advancement Accounts (MyCAA) Scholarships can submit feedback at: www.militaryonesource.mil/voluntary-education/complaint. Once a complaint is received, agency staff will contact both the student submitting the complaint as well as the referenced school, working with both parties to fully understand the issue raised and seek resolution.
Attendance Policy

PURPOSE

The purpose of this policy is to describe the attendance policies of Trinity College.

POLICY AND PROCEDURE

Attendance

Regular class attendance is important for academic success, since only with regular attendance are students able to participate fully in discussion and laboratory sessions, and to seek clarification concerning presented materials. Course outcomes are enhanced and success is more likely to occur through attending class. If a student is unable to attend class, it is the responsibility of the student to meet the course outcomes/objectives/requirements for the missed material. The student is expected to follow the established attendance guidelines for the course. Faculty may set individual attendance policies for their course(s), which are delineated in the course syllabus.

Regular online attendance is defined as logging into the course each week and completing the course assignments. Students are expected to read the course syllabi and any other documents presented by the course faculty. Course syllabi will state when discussions and assignments are due, as well as other course expectations and policies.

Clinical experiences are planned to use health care and general education theory and principles. Each student is expected to be in the clinical setting on scheduled clinical days to facilitate learning, experience unrehearsed learning opportunities, and meet clinical outcomes. When students must cancel their participation in planned clinical experiences with less than 24 hours’ notice, they are to notify both faculty and the staff in the clinical setting as soon as possible. If a student is unable to attend clinical, it is the responsibility of the student to arrange to meet course outcomes, clinical objectives, and requirements. Missed clinical experiences are discussed with the clinical faculty and options for meeting objectives/outcomes will be addressed. The student is expected to follow the established attendance guidelines for the College and specific program.

Practicum experiences are planned to facilitate meeting course and program objectives. Students are expected to be in their practicum experience on the scheduled days to facilitate learning and to meet the objectives. When students must cancel their participation in a planned practicum experience with less than 24 hours’ notice, they are to notify both faculty and preceptor as soon as possible. Missed practicum experiences are discussed with the faculty and options for meeting the objectives will be addressed.

Course syllabi will also delineate specific clinical and practicum attendance policies for each course. Students may be required to register for and cover the cost of any clinical make-up unit(s) (CMU) for absences incurred throughout the semester. (See Tuition and Fees Information for CMU charges).

Leave of Absence – Applies only to Baccalaureate Level and Above

Students who are performing satisfactorily and find it necessary to interrupt their course of study for personal reasons may be granted a leave of absence for a single, compulsory term. A leave of absence refers to the specific time period during an ongoing program when a student is not in academic attendance. The student who has an approved leave of absence is considered to remain in an in-school status.

A student will not be granted more than two leaves of absences. The leave of absence begins on the day indicated as the Official Date of Leave of Absence, as recorded on the Course Withdrawal; Leave of Absence form. The student must return the following compulsory term. If a student fails to return from a leave of absence on the re-entry date stated on the Leave of Absence Form, they will be immediately withdrawn from the College by the academic advisor.

A leave of absence will affect financial aid and student loan repayment. Students requesting a leave of absence must meet with the Financial Aid Specialist for counseling. If the student is a Title IV loan recipient, all Title IV funding will stop during the leave of absence period. The student also understands that a leave of absence will affect their current
financial aid and that failure to return from a leave of absence will affect their student loan repayment terms, including the exhaustion of the student’s grace period.

To request a leave of absence:

- Meet with your academic advisor to complete the Course Withdrawal and Leave of Absence Forms
- Meet with the Financial Aid Specialist and Registrar

Because of the nature of the program, associate degree seeking students are not eligible for a leave of absence.
Background Check Policy

PURPOSE
The Joint Commission on the Accreditation of Healthcare Organizations (JCAHO) requires background checks for health science and nursing students working in hospitals. Trinity College employs a third party service to conduct the required criminal background checks on all accepted students. Accepted students are required to complete the background check online process as defined in their Welcome Packet. Students will receive a copy of their criminal background information from this service. All costs associated with this service are the responsibility of the student. Trinity College will accept previous background checks from other authorized agencies that are within 6 months of the start of the academic program. No student will be permitted in a clinical area without verification of a background check. A criminal background check revealing a conviction for certain crimes could result in a ban from participation in clinical rotations and progression in a student’s program. Students may dispute the accuracy and completeness of the information in the background report with the third party, in writing, within 14 days of receipt or the report, by email at clientservices@verifiedcredentials.com or call 800-938.609

POLICY AND PROCEDURE
The Director of Student Services and External Relations will review background checks that reveal a discrepancy against the Illinois Department of Public Health’s Health Care Worker Registry of Disqualifying Convictions at http://www.idph.state.il.us/nar/disconvictions.htm. In accordance with the Health Care Worker Background Check Act [225 ILCS 46] and 77 ILL Adm. Code 955 Section (955.160), returned student background checks will be compared to: 1) those disqualifying offenses that may be considered for a waiver by the submission of a waiver application; 2) offenses that may be considered for a rehabilitation waiver; and 3) offenses that are always disqualifying except through the appeal process.

Additionally, students participating in clinical experiences at UnityPoint Health will undergo Illinois and Iowa criminal background checks – this is further defined by both states. Iowa is to be run through the Iowa state police. For students pursuing non-licensed programs in Illinois, an Illinois fingerprint is required. For students in licensed programs in Illinois, (such as RN, Respiratory, Rad Tech) a name based search through the Illinois state police is required. In Illinois and Iowa child and dependent adult abuse registry checks, Federal Health Care Program Exclusion Screening; HHS/OIG, and General Services Administration (“GSA”) excluded parties’ lists are checked to verify that students are not listed on the excluded parties lists before clinical placement and every 90 days or as required by law. The results of the UnityPoint Health Trinity background checks are only valid within 30 days of the student’s start date in the clinical facility.

Trinity College will keep information contained in the report confidential when obtaining, retaining, using and destroying the report. The College will use the Criminal Background Report only for purpose as authorized and defined by JACHO. Students will be notified in writing by the Director of Student Services & External Relations of the decision to deny admission based on a disqualifying offense. Written notification also includes contact information for the third party conducting the check and a statement that the third party did not make the decision to take the adverse action and is unable to provide the student the specific reasons why the adverse action was taken. The student has the right to obtain a free copy of the report from the third party if, within 60 days after receipt of written notification; he or she requests an additional copy. It’s the student’s right under the Federal Consumer Reporting Agency [FCRA] to dispute with the third party the accuracy or completeness of any information in the report. Denial of placement in the clinical setting is ultimately a decision that is made by the clinical agency and not the College.

NOTE: If a student is required to drop his/her program of study due to the results of this background check, all tuition and fee charges owed will be assessed as appropriate based on College policy. It is the student’s responsibility to inform the Director of Student Services and External Relations and/or their Program Coordinator of any offense that may occur after admission to the program.
If a student’s enrollment is interrupted by a student initiated withdrawal or an administrative withdrawal, a new background check must be completed prior to a student’s return to the clinical setting. Students on approved leave of absence are exempt from submitting a new background check.
Campus Violence Prevention Policy

PURPOSE

The safety and security of the Trinity College of Nursing & Health Sciences ("Trinity" and/or "College") campus and community are very important. Students, employees, and visitors should be able to pursue their education, work, and other activities in a safe, non-threatening environment. College safety and security is based on the ability to set forth guidelines and have a plan with response options in the event of an act of campus violence. Safety and prevention of violence is everyone's responsibility. Trinity College of Nursing & Health Sciences complies with the Higher Education Opportunity Act, which includes Campus Safety and Security (PL 110-315).

DEFINITIONS

Violence: Violence is the use of physical force or activity that causes harm, damage, including domestic violence, dating violence, sexual assault or abuse of an individual or property. This includes physical force and/or activity which cause mental anguish. An act of campus violence constitutes an emergency and may involve one or more persons engaging dangerous and or deadly weapons. This type of incident can last for minutes or hours, range over a large and constantly changing area, and threaten everyone within close proximity of the aggressor(s). Students and staff may or may not receive advance warning of an act of campus violence. A witness, personal observation, or the sound of weapons discharging may be the only alert received, leaving little time to react.

Threat or Threatening Behavior: A threat is any statement or action, expressed or implied, that could cause a reasonable person to fear for the safety of him/herself, that of another person, and/or for College property. Examples of threats include, but are not limited to words or actions which intimidate; harassment; stalking or following someone with the intent to harass, intimidate, harm, or cause other malicious activity; and the use of communication mediums to threaten such as telephone, fax, electronic, or conventional mail.

Weapons: Weapons are not permitted on College-controlled property except for purposes of law enforcement and as specially authorized for the purposes of instruction, research, or service and as approved in writing by the Chancellor. To ensure compliance with Illinois Firearm Concealed Carry Act (430 ILCS 66/1) entrances to campus property and facilities are clearly posted to notify people that the College is a prohibited area. Under Illinois’ law, property owned or leased by a private college is a “prohibited area” where concealed carry is not allowed, except those people with a valid concealed carry permit who can keep their firearms locked in their personal vehicles.

Prohibited weapons include, but are not limited to any: (1) firearm, firearm ammunition, BB gun, pellet gun, paintball gun, tear gas gun, taser, or other dangerous or deadly device of similar type; (2) knife with a blade of at least 3 inches in length (except ordinary eating utensil), dagger, dirk, switchblade, knife, stiletto, ax, hatchet, or other deadly or dangerous weapon or instrument of similar type; (3) bludgeon, blackjack, slingshot, sandbag, sand club, metal knuckles, billy club, throwing star, nunchaku, or other dangerous or deadly weapon of similar type; (4) bomb, bombshell, grenade, firework, bottle or other container containing an explosive, toxic or noxious substance, unless under academic/classroom supervision, (other than an object containing a nonlethal noxious liquid, gas, or substance designed solely for personal defense possessed by a person 18 years of age or older); (5) souvenir weapon or other weapon that has been rendered permanently inoperative; and any weapons outlined in the Illinois Compiled Statutes on Armed Violence (720ILCS 5/33A-l, et seq.)

POLICY

Violence Not Tolerated

Trinity College is committed to a safe and secure environment for all employees, students, and visitors. Conduct that threatens the health or safety of any person, or creates a reasonable fear that such a result will occur, including but not limited to: acts of violence, threats of violence, possession of weapon(s) on college-controlled property, without proper written authorization, threatening behavior, and/or reckless disregard for the health or safety of any person are not acceptable conduct at Trinity College and will not be tolerated. Violation of this policy and/or the Code of
Student Conduct will result in disciplinary action up to and including termination of employment and/or dismissal from the College.

**Responsibility**
The entire College community shares the responsibility for a safe and secure campus. Knowledge of violent acts or threats planned or carried out are to be reported to supervisors or other appropriate campus administrators immediately. In case of emergency, please call 911 and/or press one of the College's panic alarms or blue light for assistance.

**Application**
This policy covers all persons:
- On College property;
- At College-sponsored events;
- Fulfilling duties of a college student off-campus (such as work in the clinical setting);
- Engaging in any action having direct impact on the College community.

**PROCEDURE**

**Reporting On Campus**
The College has procedures for responding to and addressing conduct that violates this policy and urges all students, employees, and visitors to be alert to the possibility of violence on campus. As part of the College community, all students, employees, and visitors are responsible for reporting violence they experience or witness.

Students, faculty, staff, and visitors should address emergencies by calling 911. Violence or threats against self or others should not be ignored or disregarded. If experiencing or observing an immediate threat or violent situation, local law enforcement is to be alerted as soon as possible. Delayed reporting may unnecessarily allow the behavior to continue, cause harm, or jeopardize the investigation due to the passage of time, fading memories, or departure of witnesses.

The A.L.I.C.E. response utilizes five steps to increase chances of survival during a surprise act of violence on campus. The A.L.I.C.E. response does not follow a set of required actions. Survival is paramount in this situation. It may be appropriate to use only one or two parts of the response plan or utilize all five parts. In this type of incident, perception is the reality and individuals will decide what appropriate action to take; dealing with known information and disregarding unknown information.

1. **Alert**- Announcement of the onset of the emergency can be anything.
   - Gunfire
   - Witness
   - Phone alert

2. **Lockdown**- This is a semi-secure starting point from which to make survival decisions. **Internal lockdown** should occur immediately by all who decide not to evacuate.
   - Secure the room
   - Lock the door
   - Cover any windows in the door if possible
   - Tie down the door, if possible, using belts, purse straps, shoe laces, etc.
   - Barricade the door with anything available (desks, chairs, etc.)
   - Look for alternate escape routes (windows, other doors)
   - Call 911
   - Pull the panic alarm found near the door
   - Move out of the doorway in case gunfire comes through
   - Silence or place cell phones on vibrate
   - Once room is secured, do not open the door for anyone. Police will enter the room when the situation is over
• Gather weapons (coffee cups, chairs, books, pens, etc.) and mentally prepare to defend yourself or others
• Put yourself in position to surprise the active shooter should they enter the room
• If you are in lockdown for a long period of time, give consideration to issues such as bathroom use, keeping people calm, etc.
• Be prepared to provide first aid

**External lockdown** - Exterior campus lockdown will be determined by law enforcement based on the circumstances of the incident.

3. **Inform** - Use any means necessary to pass on real time information.
   • Can be derived from 911 calls
   • Give in plain language
   • Tell who you are
   • Explain what is happening - active aggressor/active killer shooting on site
   • Describe where on campus and what room
   • Describe how - shots fired/multiple-burst of shots fired, include type of weapon(s)
   • Include movements and actions of the suspect(s) if known

4. **Counter** - This is the use of simple, proactive techniques should students and/or staff be confronted by the aggressor(s); counter techniques interrupt the violent actions of the suspect.
   • Anything can be a weapon
   • Throw things at the aggressor’s head to disrupt their aim
   • Create as much noise as possible
   • Attack in a group (swarm)
   • Grab the aggressor’s limbs and head and take them to the ground and hold them there
   • Fight dirty - bite, kick, scratch, gouge eyes, etc.
   • If you have control of the aggressor call 911 and tell the police your location and listen to their commands when officers arrive on scene

5. **Evacuate** - Remove yourself from the danger zone as quickly as possible.
   • Decide if you can safely evacuate
   • Run in a zigzag pattern as fast as you can
   • Do not stop running until you are far away from the area
   • Bring something to throw with you in case you would encounter the aggressor(s)
   • Break out windows and attempt to quickly clear glass from the frame
   • Do not attempt to drive from the area

**Reporting on Clinical**
The UnityPoint - Trinity Medical Center phones (Rock Island, Moline and Bettendorf) can also be used to report emergencies by dialing “6000”. A switchboard operator will recognize this as a priority call. The operator will notify security officers to report to the needed area.

**Non-Emergency Concerns**
Members of the College community are encouraged to report other behavior that is unusual or threatening even if it is not perceived as an immediate, dangerous, or imminent risk. To report concerns that may not pose an immediate threat, an Incident Form should be completed. Faculty or the Director of Student Services and External Relations should be contacted. The Incident Form is located on the College website. Concerns over the conduct of a student, employee, or visitor on campus, may be reported to the following persons:

1. Faculty, Dean of Nursing and Health Sciences, or the Director of Student Services and External Relations if the concern is about a student
2. The Director of Student Services and External Relations if the concern is about a student, College employee, or visitor
3. The Chancellor, Dean of Nursing and Health Sciences, or the UnityPoint Health - Trinity Human Resources Employee Relations Manager, if the concern is about a College or UnityPoint Health-Trinity employee

Concerns should include the behaviors involved and the feelings and reaction evoked by the behaviors. List any observers to the incident. Non-emergency concerns require documentation on the Incident Form to be submitted to the Director of Student Services and External Relations.

**Protective Orders/Restraining Orders Issued by a Court**
Members of the College community who have an Order of Protection should provide a copy of the order to the Director of Student Services and External Relations who will notify College staff and UnityPoint Health - Trinity Security as appropriate.

**Notification and Preparedness**
Trinity College, as part of its annual communication on safety, will inform individuals of this policy and its related procedures and resources. The policy is available online and as part of the Annual Campus Crime and Security Report (www.trinitycollegeqc.edu). Notifications and testing occur annually. Campus violence prevention is included in New Student Orientation and is a specialty computer-based learning module accessed via the NetLearning Management System. This training includes College faculty, staff, and students.

**Emergency Alert System**
This alert system is used to notify the campus community of threats to physical safety in emergency situations (tornado, violence, hazardous material incident, College closure, severe weather, etc.). The Trinity Alert allows Trinity College administrators to send recorded or electronic emergency messages to Trinity College students, faculty, and staff simultaneously by cell phone, home phone, and e-mail using contact information from the College Directory. In an emergency situation the College will, without delay, send out an announcement taking into account the content of the notification, and initiate the Trinity Alert System, unless the notification will, in the professional judgment of authorities, compromise efforts to assist victims or to contain, respond to, or otherwise mitigate the emergency.

Administration or designated law enforcement personnel will determine the severity and extent of the emergency and to whom the alerts should be sent. Administration or the designated person will determine the content of the message and subsequently initiate the notification system. The Director of Student Services and External Relations is the primary contact person for the Trinity Alert System.

The Trinity Alert System is built upon the Connect-ED System, developed specifically for schools, colleges, and universities by Blackboard Connect. Emergency Alerts will also be posted on the website.

The Emergency Alert System will be tested at least once annually.

**Confidentiality**
Confidentiality of complaints and parties will be preserved to the greatest extent possible, understanding that the College may have an obligation to take some action even if the complainant is reluctant to proceed. Parties and witnesses to a complaint are also expected to maintain confidentiality of the matter, understanding that they will often not have all the facts and they could impair the investigation by divulging information to persons outside of the investigatory process.

**Non-Retaliation and False Claims**
The College prohibits retaliation against persons who in good faith report violations of policy or cooperate in an investigation. The College also prohibits the filing of knowingly false or misleading reports and providing knowingly false or misleading information in an investigation. Discipline or other action can result from either of these acts of violation of policy.

**Threat Management**
The Campus Violence Prevention Committee, Threat Assessment Team, and Critical Incident Team are formed to promote awareness and responsiveness across campus to avoid or address situations that may involve violence, threats, intimidation, or property damage. Leaders of the respective teams communicate with each other and
collaborate when there is an issue involving an individual not affiliated with the College and when a particular concern about a student, faculty or staff member has implications for the campus community.

**Campus Violence Prevention Committee**
The Campus Violence Prevention Committee is a standing committee that functions to provide support, assistance, research, and policy review in regard to violence prevention on campus. The Committee is chaired by the Director of Student Services and External Relations and shall include representatives from the Faculty/Staff/Students, and other departments or units when deemed appropriate.

The Committee shall be responsible for the following:

- Incorporate violence prevention strategies into related policies and/or procedures;
- Encourage zero tolerance policy statements that reaffirm violence prevention strategies;
- Integrate existing campus programs and policies that deal with associated issues (e.g. workplace violence, suicide prevention, anti-bullying, stigma reduction, sexual assault prevention);
- Evaluate physical facilities and grounds and make recommendations to improve safety and further the goal of violence prevention;
- Assist with the implementation of the Campus Violence Prevention Plan throughout campus; and
- Determine methods of communication and education for the College community with regard to violence prevention, safety measures, and environmental security

The Committee shall ensure that campus safety is integral to new student orientation sessions and that all faculty, staff, and students complete an annual NetLearning module on Responding to Acts of Campus Violence.

**Threat Assessment Team**
Team members request a meeting whenever a potential or actual act of campus violence issue is brought to light. Meetings shall be convened and facilitated by the Director of Student Services and External Relations. Members shall share information and make decisions about next steps to be taken. Membership shall include the Director of Student Services and External Relations, Chair of the Student Affairs Committee, Dean of Nursing and Health Sciences, College Chancellor, and the UnityPoint Health-Trinity Employee Assistance Program Counselor as appropriate.

The Threat Assessment team will identify, monitor, and when deemed necessary, recommend appropriate interventions for Trinity students, faculty, and staff who display unhealthy, threatening, and/or dangerous patterns of behavior. Such behaviors include, but are not limited to:

1. Suggesting intent to harm self or others.
2. Creating disruptions in the work/learning environment.
3. Intimidating other faculty, staff, and/or students.
4. Stalking or following someone with the intent to harass, intimidate, harm, or cause other malicious activity.
5. Acting in a frightening or threatening manner.

Team Responsibilities include:

1. Issue/concern is identified by or reported to Director of Student Services and External Relations by submission of the Incident Form by phone or in person.
2. The Threat Assessment Team assesses the behaviors of concern based on:
   a. Investigation of incident.
   b. Review of the student/staff/faculty record and previous incidents.
   c. The NaBITA Threat Assessment Tool.
   d. Additional pertinent information discovered through investigation.
   e. Communication with administration, faculty, and supervisors as appropriate.
3. Recommend appropriate action/intervention[s] to the Critical Incident Team.
4. Point person is identified to monitor the situation. This may be faculty, staff, or an administrator.
5. Point person provides regular updates to Threat Assessment Team until the issue is resolved.
6. In some cases, it may be reasonable for the College to take interim measures or impose restrictions on contact with persons who may be subject to a threat of violence. In addition, the College may also revoke permission of persons violating this policy from remaining on campus.
7. A factual description of the response will be documented, as appropriate, including the incident report and additional information. Report will be kept by the Director of Student Services and External Relations in a designated folder.

Critical Incident Team
Trinity College has a values based commitment to creating an optimal learning environment for all College students. These values include providing a supportive environment of a small-college experience. The Critical Incident Team is chaired by the Chancellor or designee and membership shall include the Director of Student Services and External Relations and the Dean of Nursing and Health Sciences. The Critical Incident Team serves as a coordinating entity in responding to critical incidents affecting students; to assist local emergency agencies with their response to critical incidents affecting students; and to assist students to return to normal activities following a critical incident.

Definition of a Critical Incident
A critical incident is an adverse event that causes or has the potential to cause harm to an individual student, group of students, or the College and requires immediate response from the Critical Incident Team. The Campus Violence Prevention Committee has defined the critical incidents to which they may respond to include:

- Suicide attempt/threat
- Non-suicidal self-injurious behavior that is disruptive, requires medical attention, occurs under the influence of alcohol and/or drugs
- Homicidal threat/significant homicidal ideation
- Death of a student (on or off campus)
- Fire/explosion or significant damage to property affecting students
- Communicable disease
- Life threatening injury or illness of a student
- Missing person
- Sexual assault
- Natural disaster affecting students

Trinity College recognizes that the above list may not cover all situations that warrant intervention.

Recovery from Violent Situation
After a violent situation occurs, the affected employees, students, or families may often face difficulties in resolving their feelings and concerns. As situations are assessed, the Trinity College Campus Violence Prevention Committee can, in collaboration with the Critical Incident Team, facilitate group discussions or debriefing sessions as needed for the affected area to provide some understanding of and closure to the situation. Accommodations may be made for those students affected by acts of violence.

External Resources
Department of Children and Family Services – The State of Illinois Public Act 97-0711 amended the Abused and Neglected Child Reporting Act (ANCRA) to mandate that all personnel of higher education institutions report cases of suspected child abuse or neglect to the Department of Children and Family Services (DCFS) toll-free, 24-hour Child Abuse Hotline at 1-800-24-ABUSE (22873). UnityPoint Health, Trinity Net Learning – includes the following required certifications of faculty, staff and students:

- Illinois DCFS Child Abuse Mandatory Reporting Training
- Iowa Mandatory Abuse – Child
- Iowa Mandatory Abuse – Adult
Mental Health: Student Assistance Program (SAP): All students are eligible to participate in the Student Assistance Program (SAP)* as offered through Precedence, Inc. and UnityPoint Health. Counselors are available to assist students with personal or other issues that arise while a student is at the College. Students may seek SAP assistance independently, or can be referred by their Advisor/Program Coordinator or Dean. Brochures are available in Student Services or from an Academic Advisor. SAP services are available 365 days per year, 24 hours per day by calling (800) 383-7900 or (309) 779-2273. Services are located at 3416 Blackhawk Rd., Rock Island, Illinois. This is a free, limited, confidential program and will not be part of the student’s academic record.

The SAP resource can assist students in accessing the appropriate resources to deal with concerns that might interfere with their personal and educational development while in college. The service is available to every student who has a difficulty or concern. Included in the service is assistance with personal, social, academic, professional, and vocational concerns. Concerns such as drug and alcohol abuse, marital problems, financial trouble, and others can be addressed.

*The Student Assistance Program is part of the UnityPoint Health Employee Assistance Program (EAP).

Employee Assistance Program (EAP): This program is an employer-sponsored program utilizing counselors who specialize in the assessment of personal problems. EAP deals with human problems – the kinds that affect personal well-being or ability to perform your job. Confidential assistance for personal problems, at no cost to the employee, is available by calling (800) 383-7900 or (309) 779-2273 to schedule an appointment.

Federal and State Laws and Regulations: The following Federal and State laws provide regulatory compliance with regard to issues of campus safety and violence at public institutions of higher education:

1. The Federal Student Right to Know and Campus Security Act (Clergy)
2. Federal Safety and Drug Free Schools and Communities Act
6. Uniform Crime Reporting (Both State and Federal)
7. Federal and State Alcohol, Drug and Weapon Laws
9. Illinois Victims of Trafficking and Violence Prevention Act of 2000 (Sex Offender)
10. Illinois Education Sexual Assault Awareness Act
11. Illinois Mental Health and Developmental Disabilities and Confidentiality Act
12. Illinois Human Rights Act (P.A. 96-0574)
14. Pending Survivor Outreach & Support Act (introduced July 2014)
15. Pending Campus Accountability & Safety Act (introduced July 2014)

Environmental Health and Safety:

Exterior Lighting - Exterior lighting for parking lots and buildings are monitored by the security guards. Any deficiencies are reported to UnityPoint Health - Trinity’s Facilities Services department. Security guards patrol all building and parking facilities 24/7. Students are encouraged to report any lighting or security concerns to the Student Services staff as soon as they occur.

Blue Light Station - Located in the Trinity College of Nursing & Health Sciences parking lot is a BLUE LIGHT EMERGENCY STATION. This is a direct line to the UnityPoint Health - Trinity Safety and Security department. This 9' tall tower acts as a crime deterrent and serves as an emergency communication system. This tower is wheelchair accessible and has a highly visible push button on its faceplate. A single touch on the push button summons campus officers to the location and triggers the bright blue police-type strobe light on top of the tower, which brightly lights the surrounding area.
**Panic Alarms** - Panic alarms are located in all classrooms and in other key areas, such as offices and restrooms. Students and staff who believe they are in danger may pull these alarms. This will set off an overhead sound system to alert all others in the building and at the same time will transmit an alarm to Per Mar Security. Per Mar Security will notify the local police as well as UnityPoint Health -Trinity security department to respond.

If the panic alarm is heard throughout the building, all classroom doors should be closed and locked, and the lights turned off unless in the affected area. Students, faculty, and staff should stay away from windows and doors. Windows may be used for evacuation purposes if the situation warrants. If faculty and staff are in the impacted area, they need to seek safety in another part of the building or evacuate. When police officers and/or campus security officers arrive, they will handle the emergent situation. Administration/faculty/staff will work with security personnel to diffuse the situation in the safest and most efficient way possible.

**ID Badges** - Each student, faculty, staff member, and Trinity employee can be identified with a Trinity ID badge. Anyone who is not wearing an ID badge can be asked whether he/she needs assistance and asked their purpose for being on campus.

**Approval and Revisions**

This plan has been approved by the Chancellor, the highest executive official at Trinity College, on behalf of the Board of Trustees of Trinity College in accordance with the College's approval and notification policies and procedures.
Copyright and Peer-to-Peer File Sharing Policy

PURPOSE

Trinity College of Nursing & Health Sciences computer users are prohibited from distributing copyrighted materials through illegal downloading, via web pages, email, or peer-to-peer distribution of illegal property. The policy applies to both college-owned and personally-owned computers that have access to the College network. The distribution of copyrighted material from any computer that includes music, games, videos, etc., for which users do not have the owner’s permission, is a violation of federal, law (Digital Millennium Copyright Act).

POLICY AND PROCEDURE

The College’s plan to combat the unauthorized distribution of copyrighted material by users of College networks includes:

1. Utilizing one or more technology-based deterrents
2. Educating and informing the College community about appropriate and inappropriate use of copyrighted material
3. Providing consumer information upon request to prospective and enrolled students
4. Procedures for handling unauthorized distribution of copyrighted material, including disciplinary action
5. Offer legal alternatives to illegal downloading or otherwise acquiring copyrighted material
6. Reviewing the effectiveness of the plan on an annual basis

All students, faculty, and staff will be provided with a disclosure letter at the beginning of each academic year. Refer to College Website for complete policy information.

Statement of Penalties for Copyright Infringement

Summary of Civil and Criminal Penalties for Violation of Federal Copyright Laws Copyright infringement is the act of exercising, without permission or legal authority, one or more of the exclusive rights granted to the copyright owner under section 106 of the Copyright Act (Title 17 of the United States Code). These rights include the right to reproduce or distribute a copyrighted work. In the filesharing context, downloading or uploading substantial parts of a copyrighted work without authority constitutes an infringement.

Penalties for copyright infringement include civil and criminal penalties. In general, anyone found liable for civil copyright infringement may be ordered to pay either actual damages or “statutory” damages affixed at not less than $750 and not more than $30,000 per work infringed. For “willful” infringement, a court may award up to $150,000 per work infringed. A court can, in its discretion, also assess costs and attorneys’ fees. For details, see Title 17, United States Code, Sections 504, 505.

Willful copyright infringement can also result in criminal penalties, including imprisonment of up to five years and fines of up to $250,000 per offense. For more information, please see the website of the U.S. Copyright Office at https://copyright.gov.
Corrective Action Policy

PURPOSE

Quality health care education requires recognition of and adherence to established policies, procedures, regulations, practices and high standards of performance. Trinity College retains the authority to withdraw from class, clinical experience or observation area any students whose conduct may have a detrimental effect on themselves, the College, employees, patients, visitors, clients, or other students.

POLICY AND PROCEDURE

College administration, faculty, or staff may initiate corrective action when a student’s behavior or disregard for College policies and procedures warrants such action. Violations determined to threaten or cause imminent danger or harm, or are of such a serious nature that immediate action is required, may result in a student’s withdrawal from their course of study and/or dismissal from the College. In situations where unacceptable behavior can be effectively addressed through a corrective action plan, the following procedure will prevail:

- Verbal discussion and assessment of the situation and behavior (with written documentation on the corrective action form in a confidential file in possession of the Dean of Nursing and Health Sciences)
- Written corrective plan of action
- Assessment of improvement
- Verbal and written notification of warning
- Withdrawal from course of study
- Dismissal from the College.

The corrective action will depend upon the scope, seriousness, and/or repetitiveness of the violation. The number and sequence of corrective steps required may vary according to the seriousness of the offense.
Course Repeat Policy

PURPOSE

The purpose of this policy is to describe the guidelines for repeating a course offered by Trinity College.

POLICY AND PROCEDURE

Students may repeat a course only when one of the following conditions is met:

1. If the student has not completed the course with a grade of C or better and the course is necessary to satisfy requirements for a degree, the course may be repeated once.
2. If the student needs to raise their grade point average to the required level for graduation, a course may be repeated once.

Students who must repeat a course, and are ineligible for other courses offered in the curriculum plan during a particular semester, must withdraw from the College and reapply for the term in which courses are offered for which the student is eligible. In a repeated course, only the highest grade will be counted in the grade point average. Students’ transcripts will reflect a repeated course by placing an R next to the first course grade. Failure to receive a C or above in a repeated course, or in more than two courses in a program, may result in dismissal from the College.

Students who are dismissed for failure to make satisfactory academic progress may not be considered for readmission. A student who fails to pass a course (receives a grade of C-, D, F WP, or WF in theory and/or clinical for the semester grade) may not be allowed to progress to the next semester when the failed course is a prerequisite for the course(s) that follow.
Electronic Device Policy

PURPOSE

The purpose of this policy is to describe the safe and effective use of electronic devices at Trinity College and affiliated outside agencies comprising the educational endeavor.

POLICY AND PROCEDURE

Classroom use
Technology used in the classroom is intended to enhance the learning environment for all students. The appropriate academic use of electronic devices during class is determined and directed by the faculty. Students are expected to refrain from electronic messaging, texting, emailing, internet browsing, phone calls or any other use of a device that may distract others. In addition, all device sounds must be silenced during class. A student intending to record the classroom period must obtain the consent of the individual faculty member or have an approved accommodation, prior to recording.

Each student has a responsibility to the other students in a classroom to maintain an environment conducive to learning. A student found in violation of this policy will be asked to discontinue the activity. Repeated violations will be addressed through the Corrective Action process.

Testing and Test Review
No electronic devices may be brought into the testing or test review area, including computer testing as indicated, with the exception of a personal computer when required for electronic testing. This includes phones, tablets, watches, or any other electronic devices. Students found to be in violation of this policy will be asked to remove the device from the room. Repeated violations will be addressed through the Corrective Action process. See also the Academic Honesty and Integrity Policy and any program specific testing policies.

Clinical
No personal electronic devices may be used in any patient care area. See specific program policies for further information. A student found to be in violation will be asked to discontinue the activity. Further violations will be addressed through the Corrective Action process.

Emergency Contacts
Students should use the main College number, (309) 779-7700, to receive emergency messages during class, testing, or clinical. The Student Services staff will relay urgent messages to students during class, testing, or clinical.
Fair Treatment Policy for Students

PURPOSE

To assure fair and equitable treatment of all students through open communication between involved parties; to provide students with direction to voice concerns; to protect student's rights under the 14th amendment; to protect faculty’s right to freedom of instruction; and to ensure equal and fair student evaluation by the involved parties.

DEFINITIONS

Grievance
A student's claim of unfair and/or non-equitable treatment regarding established policies, procedures, rules and regulations.

Academic Grievances
The Dean of Nursing & Health Sciences is committed to high quality programs at the College. The Dean of Nursing & Health Sciences is open to hearing grievances concerning faculty or curricular matters.

Student Services Grievances
Grievances that pertain to financial aid, bursar, admission, enrollment, career development, student organizations and activities should be referred to the Director of Student Services and External Relations.

POLICY

The purpose of the Fair Treatment Policy is to address situations in which a student (or group of students) believes that the treatment they have received is unfair. This process is formalized when a student proceeds with a grievance, which is a student’s claim of unfair and/or non-equitable treatment regarding established policies, procedures, rules and regulations of Trinity College of Nursing & Health Sciences.

The student has the right to express grievances without prejudice, penalty, or recrimination. Also, those whom the grievance is being made against have the right to know what is being grieved and who is filing the grievance. Anonymous grievances will not be accepted.

The Fair Treatment Policy cannot be used to challenge an outcome of academic judgments. It may be used if the student believes the judgment was reached by an unfair implementation of the process.

All steps of the grievance procedure must be completed in proper sequence with no more than fourteen calendar days elapsing between each step. If a resolution of the grievance is obtained in any given step, that resolution is considered finalized.

It is expected students will observe Standards of Behavior as published in the catalog throughout this process.

The student may seek counsel at any time from appropriate persons, such as hospital chaplain, employee assistance program (EAP), student services staff, involved parties’ advisor, or college administration.

The Fair Treatment Policy shall be used when other means of resolving the conflict are not possible or effective. In most instances, grievances may be satisfactorily addressed and resolved by communication between the involved parties. Dissatisfaction often arises from misunderstandings between the student and the involved parties. Thus, the student(s) shall discuss the situation of unfair treatment with the involved parties prior to invoking use of the grievance procedure. If informal methods are unsuccessful, the student shall refer to this policy to proceed with a grievance through the steps outlined in the procedure.
Prior to using the grievance procedure, the student shall schedule a conference with the involved parties. The conference must be scheduled within one month of the occurrence or no later than fourteen days after semester grades are posted if the grievance relates to information not known by the student until the end of the semester.

All original documents relating to the grievance shall be maintained in a secure location in the college administrative office in a confidential grievance file. These documents will be maintained a minimum of three years.

If any involved parties are part of the fair treatment/grievance process (Student Affairs Chair, Dean of Nursing & Health Sciences, Director of Student Services & External Relations, Chancellor, etc.) an appropriate substitution will be made.

**PROCEDURES**

**Step I**
If the student is unable to resolve the issue directly with the involved parties, the student may file a signed written request with the Dean of Nursing & Health Sciences of the College/Director of Student Services & External Relations. The signed written request shall be filed within fourteen calendar days following the conference with the involved parties. The signed written request must contain a statement of the grievance, the date or dates in which a meeting(s) was held with the involved parties, and a statement outlining the student’s perception of the outcome of the conference.

The student shall make three copies of the signed original written request. One shall be kept by the student. Two copies shall be submitted to the Dean of Nursing & Health Sciences of the College/Director of Student Services & External Relations who shall submit one to the involved parties and the original shall be placed in the confidential grievance file.

The Dean of Nursing & Health Sciences of the College/Director of Student Services & External Relations shall request the involved parties to write out in narrative form his/her response to the grievance. Three copies shall be made by the involved party. One copy shall be kept by the involved party. Two copies shall be submitted to the Dean of Nursing & Health Sciences of the College/Director of Student Services & External Relations who shall submit one to the student and the original shall be placed in the confidential grievance file.

The Dean of Nursing & Health Sciences of the College/Director of Student Services & External Relations shall arrange to meet individually and/or together with both the student and the involved parties no later than five working days following receipt of the student’s written request. The involved parties shall receive a written response to the grievance from the Dean of Nursing & Health Sciences of the College/Director of Student Services & External Relations within fourteen calendar days of the conference. The original copy of the written response shall be placed in the confidential grievance file.

**Step II**
If the grievance remains unresolved, either involved party may request, in writing, that the Dean of Nursing & Health Sciences of the College/Director of Student Services & External Relations notify the Student Affairs Committee Chair. This request must be made no later than five working days after receipt of the academic unit administrator’s written response in Step II.

No later than fourteen calendar days following receipt of this request, the Student Affairs Committee chair shall then set up a panel to include:

1. a minimum of one member of the Student Affairs Committee
2. one neutral faculty member from another discipline
3. one neutral student from another discipline
4. a Director at the College
The panel shall conduct a meeting for the purpose of formulating a recommendation regarding the student's grievance. The following meeting guidelines shall be used:

1. The Chair of the Student Affairs Committee or appropriate designee shall serve as chairperson of the panel. The chairperson shall serve as a non-voting member of the panel.
2. The Dean of Nursing & Health Sciences of the College/Director of Student Services & External Relations shall serve as a non-voting member of the panel.
3. The student may bring a support person who is not allowed to participate in the proceedings if he/she so desires.
4. The involved party may bring a support person who is not allowed to participate in the proceedings if he/she so desires.
5. All involved parties shall inform the Dean of Nursing & Health Sciences of the College/Director of Student Services & External Relations of any support persons who will be attending the meeting at least 24 hours prior to the meeting. The involved parties shall sign a release of information allowing any non-college support persons to be in attendance at the meeting.
6. All involved parties shall provide the Dean of Nursing & Health Sciences of the College/Director of Student Services & External Relations with electronic evidence they wish to present at least 24 hours prior to the meeting.
7. No electronic devices including cellular phones will be allowed at the meeting.
8. Meetings are closed.
9. Meetings are formal and confidential. Minutes shall be taken by an appointed secretary. Minutes of the meeting shall be submitted to the Dean of Nursing & Health Sciences and placed in the confidential grievance file.
10. Proceedings of the meeting may be audio recorded to aid the panel in making a decision. The audio recording will be available for review by both the student and the involved parties if they desire.
11. Each panel member shall have access to written statements prior to the meeting.
12. To the extent that new information is pertinent to the case under consideration, the panel or either party may ask members of the academic community (students, involved parties, and staff) to present information.
13. The members of the panel may question both involved parties. Questions must be relevant to the issues of the grievance. Upon request from the panel, it is expected that the involved parties shall make available such documents as are pertinent to the grievance. The confidential nature of these documents shall be safeguarded.
14. A simple majority shall be required to make a decision.

The panel shall prepare a written recommendation and provide a copy to both involved parties no later than five working days following the panel’s decision. The original copy of the written response shall be submitted to the Dean of Nursing & Health Sciences and placed in the confidential grievance file.

Step III

In the event that either involved party does not accept the recommendation of the panel, the involved student or involved parties may request the Chancellor review the student’s grievance and the action taken. This written request must be made by the involved party no later than five working days following receipt of the panel’s recommendation. The Chancellor will collaborate with the Dean of Nursing & Health Sciences of the College/Director of Student Services & External Relations and members of the involved parties panel (identified in Step II) to reach a decision about the grievance. The involved parties shall receive a written response to the grievance from the Chancellor within seven working days following the receipt of the request. The original copy of the written response shall be submitted to the college administrative office to be placed in the confidential grievance file. The decision made at this step is final.

**Decision Statement:**
Financial Aid Policy

PURPOSE

Financial Aid Program
The goal of the financial aid program is to help remove the economic barriers to higher education for all students who qualify. Trinity College attempts to provide financial assistance for students through scholarships, grants, loans, military education benefits, and/or federal work study. Financial Aid information is described in detail on the College website at www.trinitycollegeqc.edu. The Financial Aid Office is open Monday through Friday 8:00 a.m. to 4:30 p.m. You can call 309-779-7740 to schedule an appointment to meet with the Financial Aid Specialist.

Financial Aid is the available federal, state and/or private funding that a student may receive to be used toward educationally related expenses. Financial aid is not intended to cover a student’s total educational expense. However, it is intended to act as a supplement to the family’s contribution to the student’s educational expenses. Educational expenses are considered the responsibility of the student and, if dependent, their parents. All questions and concerns should be directed to the Financial Aid Specialist in Business Services.

POLICY AND PROCEDURES

Application Procedure
Students interested in receiving financial assistance must complete the Free Application for Federal Student Aid (FAFSA). Online applications can be completed at www.fafsa.ed.gov. The completed FAFSA is used to determine eligibility for the Federal Pell Grant, Federal Supplemental Educational Opportunity Grant (FSEOG), Federal Direct Loans (Subsidized, Unsubsidized and Parent PLUS), and the Illinois Monetary Award Program Grant (MAP). Students will need to enter the institutional code for Trinity College (006225). Also, if eligible, a student may receive funding from the Veterans Administration, and Trinity College of Nursing & Health Sciences Scholarships.

A Student Aid Report (SAR) will be sent to the student via US mail and/or email. The SAR should be reviewed by the student and/or parent to determine if any updates or corrections are needed. Changes can be made by going to www.FAFSA.ed.gov and logging in using your FSA ID. You will select the FAFSA that needs changes and resubmit your application. If any additional documentation is needed, the College Financial Aid Specialist will contact the student via phone and/or through email. Once all required paperwork is received, an estimated financial aid award letter will be created by the College and made available via My Pulse through the College website. The award letter outlines the types and amounts of assistance that the student may receive for the academic year.

Student Classification for Financial Aid Purposes

<table>

<td>90 &amp; above</td>
</tr>
</tbody>
</table>

Student Reporting Responsibility

1. The student must report any funds received from outside sources such as scholarships, tuition assistance, and military benefits. These funds are part of the overall financial aid package and will count towards the student cost of attendance calculation.

2. Any change in enrollment status must also be reported (e.g. full vs. part-time). The financial assistance package will be revised in accordance with the awarding guidelines.

3. The student must respond timely to any requests for information that is sent by Trinity College staff members. Failure to comply with such requests will delay processing of the student’s financial aid award.

Renewal of Financial Aid Awards
Financial Aid is not renewed automatically from one year to the next. The student must complete a FAFSA application every year the student wishes to be considered for Federal Financial Aid. The student’s eligibility will be evaluated for
demonstrated financial need and for satisfactory academic progress according to College and Department of Education policies.

Stipend Procedure
For students that have excess funding after all tuition and fees for the semester have been paid every attempt will be made to issue authorized refund checks by the end of the fifth week of classes. Questions concerning refund eligibility and exceptions to this policy are referred to Business Services, and questions concerning amounts refunded are referred to the Business Services Specialist. Refunds are processed by the Business Services Specialist and will be made payable to, and mailed to the student.

Return of Federal Financial Aid
If a student completely withdraws (WP or WF) during the semester after federal financial aid payment has been received, the student might be required to return a portion of the federal financial aid awarded. If a student partially withdraws, financial aid payment is calculated based on the drop/add period. The federal financial aid formula requires a return of funds if the student received assistance from Title IV aid - the Pell Grant, Federal Supplemental Education Opportunity Grant, and/or Federal Direct Loans (Subsidized, Unsubsidized, Parent PLUS) and withdrew on or before completing 60% of the semester. The calculation is based on the percentage of the semester completed. Trinity College must determine the student’s withdrawal date. The withdrawal date is defined as:

- the date the student officially notified the College of their intent to withdraw; or
- the students last date of attendance.

The calculation required determines a student’s earned and unearned portions of Title IV aid based on the percentage of the enrollment period completed by the student. The percentage of the period that the student remained enrolled is determined by dividing the number of days the student attended by the number of days in the period. Calendar days (including weekends) are used, but breaks of at least five days or more are excluded from the numerator and denominator (also excluding the weekends of that five day period). The Financial Aid Specialist uses The Department of Education refund Calculation worksheet for the formula above. Barring any outstanding or incomplete documentation (C-Codes, verification, etc.) the Department of Education R2T4 Calculation will determine if a disbursement is due to the student. If so, the post withdrawal disbursement form must be signed by the student within 30 days to received Title IV funding after the last date of attendance.

Until a student has passed the 60% point of an enrollment period, only a portion of the student’s aid has been earned. A student who remains enrolled beyond the 60% of the enrollment period is considered to have earned all Title IV awarded aid. Unless the withdrawal is an end of term (EOT) withdrawal, financial aid will use the refund calculation to verify any return of funds necessary. The return of Title IV funds follows this sequence: Unsubsidized Federal Stafford Loan, Subsidized Federal Stafford Loan, Direct PLUS Loan, Federal Pell Grant, and the Federal Supplemental Education Opportunity Grant (FSEOG), other Title IV assistance, State funding, private funding, and finally student funding.

All the details regarding a student’s specific withdraw and Title IV refund calculation will be discussed in details during the exit interview with the Financial Aid Specialist.

Last Day of Attendance
Trinity College of Nursing & Health Sciences complies with all Department of Education (DOE) rules and regulations in regard to the Last Day of Attendance (LDA) reporting for an institution that is not required to take attendance.

A student withdrawing from Trinity College of Nursing & Health Sciences must secure a signed College Withdrawal Form from the Faculty Advisor in order to “officially withdraw”. The official withdrawal date will be determined by the Financial Aid Specialist.

A student withdrawing from Trinity College of Nursing & Health Sciences who fails to notify the College and does not complete the withdrawal process is considered an “unofficial withdrawal” and will be dropped from all coursework and withdrawn from the College as determined by the College. The last day of attendance is determined in
compliance with federal regulations. Either the date at which Trinity College becomes aware of the student’s withdrawal, or the mid-point of the term, whichever is earliest.

Any student who fails to register for classes prior to the start of a semester will be considered to have withdrawn from the College. The last day of attendance will be reported as the last academic day of the preceding semester.

Students who withdraw and have financial aid (including loans) must complete an exit interview with the Financial Aid Specialist. Exit material will be mailed to “unofficial withdrawals” for completion.

**Enrollment and Eligibility**
Following are the enrollment requirements for the various aid programs. If a student changes enrollment after financial aid is awarded, the aid may be adjusted.

- Enrollment level (three credits or higher) – Pell Grant, SEOG and Illinois State Grant (MAP)
- At least half-time (6 credits per semester) – Federal Direct Loans, Plus Loans, GradPLUS Loans
- Less than half time (less than 6 credits per semester) – Ineligible for Federal Direct Loans, Plus Loans or GradPLUS Loans

** Individual eligibility for the various aid programs will be determined by the Financial Aid Specials.

**Verification**
Selection for verification is randomly determined by the U.S. Department of Education. Students will receive a message on their FAFSA results known as a Student Aid Report (SAR) indicating the FAFSA has been selected for verification and what documentation will be required to submit to the Financial Aid Specialist for processing. Students must submit a signed and complete verification worksheet, all requested tax documents, and any other documentation requested by the Financial Aid Specialist. The IRS data retrieval tool may be used on the FAFSA website to transfer your tax data into your FAFSA in lieu of the submitting tax return transcript. Verification must be complete before any federal financial aid or state aid can be disbursed. All documents must be submitted by the beginning of the semester. Failure to complete the verification process may result in loss of aid and an administrative withdrawal.

**Revisions of Aid Packages**
The Financial Aid Office has the right to revise financial aid packages according to federal, state, and institutional policies and regulations. Aid packages will be revised any time there are changes in originally reported information or when additional funding is received.

**Federal and State Grants**
Grants are considered gift aid; students are not required to repay them after completing their program of study. There are several types of federal and state grants. The Pell Grant and Supplement Educational Opportunity Grant (SEOG) are grants funded by the federal government.

The State of Illinois funds the Illinois Monetary Assistance Program (MAP) grant. Trinity College of Nursing & Health Sciences is an Illinois higher learning institution. Illinois state grants are based on “approved” funding by the state.

Grants are awarded based on need as determined by the expected family contribution (EFC) of the FAFSA, per federal and state regulations.

**Federal Loans**
Federal loans offered through Trinity College include the Federal Direct Loan Programs, the Federal Nursing Student Loan Program, Federal Direct Parent Plus Loan, and the Federal Direct Graduate Plus Loan. Students and families may also apply for private consumer educational loan programs available from a variety of lending institutions. These loans have varying interest rates and repayment terms and the approval is based on current income and credit score and might require a co-signer for approval. The private lender will determine the approvals and denials of private
student loans. The Financial Aid Office in Business Services will certify a private student loan up to student’s cost of attendance minus all other financial aid the student has received.

**Veteran Educational Benefits**
Trinity College is approved by the Department of Veterans Affairs to certify students eligible to receive military education benefits. Applications for VA education benefits is completed online at [www.gibill.va.gov](http://www.gibill.va.gov). Certification of veterans for educational benefits will be processed by the Business Services Office.

To find out more about VA benefits, you may contact the VA at 888-442-4551 or visit their website at [www.gibill.va.gov](http://www.gibill.va.gov). Additional information about the application for admission to Trinity College, financial aid and registration procedures can be found on the Trinity College website at [www.trinitycollegeqc.edu](http://www.trinitycollegeqc.edu).

**GoArmyEd**
GoArmyEd is the virtual gateway for all eligible Army Active Duty, National Guard and Army Reserve Service Members to request Tuition Assistance (TA) online, anytime, anywhere for classroom and distance learning. It allows the Service Members to manage their education records including college classes, testing, on-duty classes and Army Education Counselor support. Additional information about GoArmyEd can be found at [www.goarmyed.com](http://www.goarmyed.com). All applications for tuition assistance must be submitted and approved prior to the first day of classes.
Financial Obligation Policy

PURPOSE

The financial integrity and sustainability of Trinity College of Nursing & Health Sciences depends on its ability to collect tuition and fees from students, both active and inactive, who have failed to meet their financial obligations. The Director of Business Services is responsible for the oversight of the financial management of the institution and collaborates with College administration, faculty, and staff to assure proper billing and collection of tuition and fees. This policy will be reviewed on an annual basis since college tuition and fees are approved by the College Governing Board in October of each year.

POLICY & PROCEDURE

Registration for classes creates a financial obligation by the registrant to pay tuition, fees, and other charges which constitutes an understanding and acceptance of this responsibility. Students are expected to have made the necessary financial arrangements prior to enrolling in classes. The Financial Aid Specialist is available for consultation to assist with financial needs.

To be considered in good financial standing, a student must complete financial arrangements on or before the start of each semester. For returning students or for students who seek re-admission, all prior balances must be paid in full. A student will not be re-admitted if there is a financial hold on his/her account. Students must abide by progression policies for their specific programs of study as outlined in the catalog.

To remain in good financial standing, each student must complete all required financial aid procedures, make appropriate arrangements to pay balances remaining after aid is applied, and meet all payment deadlines. Failure to do so will result in the account being delinquent (in default). Students with delinquent balances will have holds placed on their accounts, and they will not be allowed to register and/or attend classes for subsequent semesters nor will they receive grades, transcripts, certificates, diplomas, or other student services. For students in default, testing/exam boards will not be notified of the student’s program completion. Also see the Program Progression Policy and College Withdrawal Policy.

The College will make three attempts to collect on a student’s account prior to placing it with a collection agency. If the student does not settle the account prior to collections, he/she will be responsible for the College’s total cost of collection including collection agency costs, reasonable attorney fees, and any penalties and interest incurred to collect the account. If Trinity College places the account with a collection agency due to non-payment, a collection agency fee of 25% (33% for second placements) or the maximum amount allowable by law, whichever is lower, will be assessed and will be due and owing at the time of the placement.

Tuition Rates and Fees

Trinity College of Nursing & Health Sciences bases student charges on credit hour tuition (See tuition schedule). Students are responsible for course-related charges and College fees as outlined in the tuition and fee schedule.

Billing and Payment Options

Tuition, fees, and other authorized charges for the semester are billed and available electronically through the student portal, My Pulse, by 4:30 PM on the 15th of the month that classes begin. Payment is due the first day of the month following the start of classes (February 1st for spring semester, June 1st for summer semester, and September 1st for fall semester). It is the student’s responsibility to review his/her account monthly via My Pulse for any outstanding account balance and to notify Business Services if they are unable to access the student portal. In the event that a student’s financial aid, loans, and scholarships do not fully cover tuition and fee charged, students must pay the balance of their account in full or elect to pay their account balance in installments via the Deferred Payment Option (see below). The College accepts cash, checks, Visa, MasterCard, American Express, and Discover. Checks should be made payable to Trinity College of Nursing & Health Sciences and should be mailed/delivered to the College address at 2122 – 25th Avenue, Rock Island, IL 61201-5317. Credit and debit card payments can be made via My Pulse or by contacting the Business Services Specialist in person or by phone.
Deferred Payment Option
A student who is not able to make a lump sum payment may select the Deferred Payment Option (DPO). The DPO provides students a way to make payments in equal installments throughout the semester. The student must complete the DPO form prior to the date that tuition and fees are due for the semester. The College reserves the right to refuse late applications for the DPO. The form can be found on the College website (go to Current Students, Forms and Resources, Deferred Payment Option Form), the form can also be completed with the Business Services Specialist or Financial Aid Specialist. There is a $25.00 per semester non-refundable DPO application fee.

If a deferred payment plan is approved, the minimum balance stated on the deferred payment agreement is due by the 1st of each month. Fall semester payments are due the 1st of September, October, November, and December. Spring semester payments are due the 1st of February, March, April, and May. Summer semester payments are due the 1st of June, July, and August (note three payments in summer). If payment is not received by the 1st of each month (as listed above) the account will be charged a $30.00 late fee for each month payment is late. Questions about the DPO should be directed to the Business Services Specialist at (309) 779-7733.

Service Charge
Students who do not pay their account balance (after financial aid is applied) in full by the payment due date (February 1st for spring semester, June 1st for summer semester, September 1st for fall semester) nor elect to participate in the deferred payment option by the payment due date will be assessed a service charge of $120.00. This fee will not be waived for students who subsequently enroll in the deferred payment option after the payment due date.

Return of Excess Funds
Refund checks are issued to those students who have a credit balance on their account. Refund checks will be processed weekly for students with a credit balance resulting from financial aid payments, scholarships, or adjustments to tuition charges.

Withdrawal and Account Balances
A student who withdraws from the College and has a balance will be permitted to pay the balance in equal monthly installments of at least $50.00 per month. The first payment is due 30 days from the date of withdrawal, and the total amount must be paid within six months of the date of withdrawal from the College. A written agreement (promissory note) must be signed and dated with the Business Services Specialist. Missing a single payment is grounds for cancellation of the arrangement, and the account will be placed with a collection agency. Transcripts and other student services from Trinity College of Nursing & Health Sciences will be held until the outstanding balance is paid in full.
General Standards of Behavior Policy

PURPOSE

The purpose of this policy is to delineate the Code of Conduct expected of students enrolled in programs at Trinity College.

POLICY AND PROCEDURE

Code of Conduct

Students are expected to conduct themselves in a manner that is respectful of the rights of others. This includes the property of other students, property owned or managed by Trinity College of Nursing & Health Sciences, UnityPoint Health, and other community clinical educational settings and their employees. When a student’s behavior becomes a concern to College administration, faculty/staff members, or is observed by other students to be a threat or potential threat to self or others, the student will be contacted and the situation assessed. Standards that will be utilized in the evaluation of expected behavior and the determination of unprofessional behavior include the following:

- Existing federal, state, county and municipal laws, ordinances and regulations
- UnityPoint Health, Trinity/Non-Trinity policies, procedures, rules and regulations
- Trinity College policies, procedures, rules and regulations
- Code for Nurses of the American Nurses’ Association 2015
- American Registry of Radiologic Technology Code of Ethics 2019
- Critical Objectives Policy

Students are expected to recognize their professional responsibility to themselves, patients, families and other health care professionals. They are also expected to adhere to a code of conduct that is considered acceptable as a professional health care student. Students are advised to read the specific program sections for program standards. Examples of expected behavior include, but are not limited to, the following:

- Display professional behavior in college and health care environments.
- Practice within the legal and ethical limits of professional health care, recognizing the Standard Code of Ethics for the specific program of study.
- Conform to codes, regulations and policies governing employees and students in clinical settings.
- Respect and maintain confidentiality.
- Protect privacy of information.
- Use principles of safety.

Examples of unacceptable behavior include, but are not limited to, the following:

- Conviction of any crime under the laws of any jurisdiction of the United States: (i) which is a felony, (ii) which is a misdemeanor, and an essential element of which is dishonesty, or (iii) any crime that is directly related to the practice of the profession
- Engaging in dishonorable, unethical, or unprofessional conduct of a character likely to deceive, degrade, or harm the public
- Disorderly conduct
- Plagiarism (use of another’s materials without crediting the source)
- Cheating (giving, receiving, or using unauthorized information)
- Taking digital images of exams or recording test-related information during a test or test review is strictly prohibited and is considered cheating. (See Academic Honesty and Integrity)
- Theft (acquisition and/or possession of property belonging to another without authorized consent)
- Theft or abuse of electronic communication equipment or systems (including, but not limited to, computer hardware, software, and use of the internet, social media and electronic downloads)
• Vandalism (willful destruction or defacement of property)
• Alcohol and/or other drug use (the purchase, possession, use or abuse, sale, distribution, or manufacture of illegal narcotics or the illegal use of alcohol, stimulants, or other chemical agents which might result in a student’s inability to practice health care)
• Unauthorized entry into property owned or supervised by Trinity College of Nursing & Health Sciences, UnityPoint Health
• Physical, mental, or emotional harassment directed toward any college student, employee, visitor, patient, family member, or member of the health care team
• Possession of firearms or unauthorized use or other dangerous weapons on College property or at functions sponsored or supervised by the College
• Failure to follow department or clinical rules and regulations
• Threatening others with physical or mental harm.
• Violating the Social Media Policy, which includes cyberbullying/cyberstalking.
• Unauthorized printing or copying any part of the client’s medical record and removing it from the facility.
Health and Safety Requirements Policy

PURPOSE

It is the student’s responsibility to meet the health and safety requirements of the College throughout a student’s program of study, to provide the College with updated documentation of meeting the requirements, and to maintain immunizations, tuberculosis testing, and educational (CPR & OSHA) records. Denial of access to clinical experiences and failure of clinical courses will result if the health and safety requirements are not completed according to established protocols or if the procedure for documentation of release for clinical experiences (see below) is not followed.

DEFINITIONS

Illness

- Students should report all health problems that necessitate absence from class or clinical to the Course Coordinator or Clinical Faculty. Students should call the Course Coordinator if reporting they are ill and will not be in class. Students should call the appropriate clinical faculty member to report an illness necessitating a clinical absence. Students are expected to report all absences. Clinical absences may result in loss of grade points as described in specific program policies or require clinical make-up.
- Students are not to seek medical advice from physicians while on the clinical units, but are encouraged to seek medical advice from their personal physician.
- Upon graduation from the College, all students may request a copy of their health records. The College recommends that students retain these records. During the program, the student can review his/her health record upon request to the Student Services Secretary.
- If a student’s status becomes questionable due to a health problem, the recommendation of the student’s physician concerning attendance or continuation of the program will be honored.
- Contracts with other agencies define treatment of students who become ill at their facility. Contract specifications are followed up by the appropriate Program Coordinator.
- Trinity College will abide by the medical center policy regarding whether a student can be on clinical with a medical device/restrictions such as a cast. Generally such devices prohibit ability to perform direct patient care and are therefore not permitted.
- Students must bring a physician release to the Program Coordinator before returning to class/clinical after surgery, childbirth, medical-surgical health problems, or workmen’s compensation absence.
- Students may choose to receive their health care at any of the UnityPoint Health, Trinity Express Care locations. The nearest Express Care is located at 106 19th Avenue, Moline, Illinois, 309-779-7050.

Infection Control

All students must adhere to the following:

- Complete blood-borne pathogen Net Learning module by assigned completion date. Students who are UnityPoint Health, Trinity employees must have attended UnityPoint Health, Trinity orientation and provide documentation of attendance to Program Coordinator/Student Services.
- Adhere to the principles of handwashing prior to and following patient care for each patient.
- Practice good personal hygiene in care of self and clothing, i.e., scrubs and uniforms.
- Practice techniques taught in fundamentals classes to protect from injuries with needles and sharp objects.
- Report any possible communicable disease to the Program Coordinator for an evaluation prior to participating in clinical care or attending classes. A student may be asked to provide a physician’s evaluation of a condition prior to returning to clinical and classes.
- Report any Unusual Occurrence, such as exposure to a communicable disease, accidental injury, or other injury to the Clinical Instructor immediately so an evaluation of the injury, Unusual Occurrence Report, and further treatment/evaluation follow-up can be carried out.
- Blood-borne pathogen exposure from a sharps injury is reported immediately to the Clinical Instructor. An Occurrence Report is completed and lab testing for the student and the source is drawn immediately. The
student will report to the Employee Health Department for counseling and discussion of further testing at three and six months.

POLICY

General Health Requirements
Upon entering the College all students are required to acknowledge, by signature, on the Clinical Performance Standards Form, that they are physically able to perform (with or without reasonable accommodations) the essential functions required of a health sciences or nursing student.

Prior to beginning courses, students must provide a health examination report, which is less than one year old and signed by a physician, nurse practitioner, or physician assistant. The form must be submitted to Student Services confirming that they have the physical and mental ability to provide safe and effective care. Students must also provide documentation indicating that they are immune to or have been immunized against:

- Measles, Mumps, Rubella
- Varicella (Chicken Pox)
- Hepatitis B
- Tuberculosis (TB)
- Tetanus
- Pertussis (Optional, but highly recommended)

Measles, Mumps, and Rubella immunity can be documented with any one of these records:

- a physician’s statement that the student was treated for the disease
- records of two immunizations against Measles, Mumps, & Rubella (baseline and one month from baseline)
- positive results of antibody titers for all three diseases

Protection against tetanus is demonstrated by documentation of a tetanus immunization. Tetanus must be updated with any breach in skin integrity.

Varicella immunity can be documented with these papers:

- a stated history of the disease from the student
- records of the immunization against Varicella (Varivax series if no history of Varicella)
- positive results of a Varicella antibody titer

Hepatitis B immunity must be documented by records of three hepatitis B immunizations or a positive hepatitis antibody titer report. The recommended hepatitis B series is three shots, the second shot being given one month after the first, and the third shot being given six months after the first. The hepatitis B antibody titer should be drawn 1-5 months after the series is completed but may be drawn at any interval following the completion of the series. Positive titer results at any time are believed to infer lifelong immunity, even if later titers report negative results.

Students who do not have documented immunity to hepatitis B must have received the first of three hepatitis immunizations in the first series in order to matriculate. The student must continue to provide documentation that the remaining immunizations are being received at the designated intervals in order to enter and continue in clinical courses. If at the end of the series of three immunizations, the student’s titer does not demonstrate immunity to hepatitis B, the student is encouraged to repeat the series and titer. If the titer again does not show immunity, the student is considered to be non-immune to Hepatitis B. The student will be counseled about lack of immunity and asked to sign a statement acknowledging responsibility for practicing in health care without hepatitis B immunity. In some circumstances, students may be granted a waiver of the hepatitis B immunity requirement after the first series if they have been counseled about the health risks and have signed a statement of responsibility. The waiver remains in effect throughout the entire time the student attends classes at the College.
Tuberculosis testing for new and returning Bachelor of Science in Health Sciences and Associate of Science in Radiography students is required by following a two-step tuberculosis (TB) test process. One TB test must have been completed and documented within 12 months prior to entrance into the program of study. The second step of the TB test must be performed within three months prior to starting classes at the college. Retesting and documentation are required every four years after a documented two-step TB test process.

Nursing & Respiratory Care students and other students attending clinical at any Genesis Health System site must also show documentation that they are free from active tuberculosis. This should be documented by a QuantiFERON®– TB Gold test. If the QuantiFERON®– TB Gold test is positive, a chest x-ray confirming the student is free of active tuberculosis is required. QuantiFERON®– TB Gold tests will be accepted if completed within six months prior to entering the College.

Pertussis vaccine is optional for students, but highly recommended.

Annual Seasonal Influenza immunizations are required for all students. The vaccination is administered, free of charge, to students at the College or UnityPoint Health, Trinity in the fall of each year. If a student has received a seasonal influenza immunization elsewhere, the student must provide Student Services with documentation of the immunization to be in compliance of this hospital requirement.

Safety Training
Mandatory Occupational Health and Safety Administration (OSHA) training prior to clinical participation is required to be updated annually for continuing students. Students must also complete all required safety education that a clinical site may require before attending clinical.

Cardio-Pulmonary Resuscitation (CPR) Certification
Prior to matriculation into the College, students must provide Student Services with proof of completion of CPR for Health Care Providers from the American Heart Association. An educational transcript from an approved health care employer showing the date of prior CPR training is sufficient evidence of course completion. The College, in collaboration with UnityPoint Health, provides CPR course offerings throughout the summer.

CPR certification must be renewed every two years and documentation of current certification must be provided to Student Services. Current CPR certification is required for participation in clinical experiences.

Students are not permitted to attend clinical without meeting all of the health and safety requirements of the College.

PROCEDURES

Health Record Clinical Authorization
Prior to matriculation and at designated intervals in a program, students must provide Student Services with the required health and safety information. It is the student’s responsibility to maintain records of immunization, CPR, and TB testing throughout the educational program and to submit copies of updated records to Student Services. Efforts will be made to return all original health records to the student. Any copies will be destroyed unless the student requests retention of the record by Trinity College for later pick up.
Human Subjects Review Committee: Policy & Procedure

PURPOSE

The purpose of the Human Subjects Review Committee is to safeguard subjects of faculty and student investigators, and to safeguard faculty and students as subjects of investigators external to the College who petition to study subjects and/or faculty and/or students.

It is the policy of Trinity College that any research or clinical project conducted with, on, or by students, faculty, or employees of the College which involves human subjects, shall be approved and monitored by the Trinity College Human Subjects Review Committee (further referenced as the Committee).

No potential subjects should be approached, nor any data collected before written Committee approval is received by the principal investigator (PI). A formal contractual relationship must be implemented between the PI and the research subjects.

Definition of Human Subjects

Human subjects are individuals who participate in research development, as subjects of a research study, or related activities. This includes record review for the purpose of research. Excluded from this definition are records and statistical data maintained as part of the College’s Systematic Evaluation Plan.

Philosophical Statement on Research Use of Human Subjects:

The faculty of Trinity College subscribe to the principles of the Belmont Report of 1979. It is our position that research directed at theory development, and at diagnostic, therapeutic, and educational improvement goals will be given priority.

PROCEDURE:

Function:

To fulfill these purposes, the Committee has the following functions:

1. To develop and implement Human Subjects Protection policies and guidelines.
2. To insure the guidelines as approved by faculty for protection of human subjects are followed.
3. To develop and revise procedures and methods for review of research proposals and monitoring of ongoing research in terms of protection of human subjects.
4. To report, as necessary, to faculty common and persistent human subjects’ protection problems, improvement in proposals that are reviewed, national trends in approaches to review, ethics, and violations of human subject procedures.

Committee Structure:

1. Membership: there shall be a minimum of 5 individuals on the committee. The College of Nursing & Health Sciences shall be represented by a minimum of three faculty; two nursing faculty, and one non-nursing faculty, if available. Two community individuals will serve on the committee. All members will have a minimum of a master’s degree.
2. Terms and Appointment: members shall be appointed and reviewed yearly by the Dean of Nursing & Health Sciences. Members may serve consecutive 2 year terms on the Committee. One member must hold a research doctorate degree. Completion of IRB training is required to be a committee member.
3. Officers: there shall be a Chair, appointed by the Dean of Nursing & Health Sciences, who will set the agenda and preside over the meetings and keep records. The meeting record and committee correspondence shall be assigned as needed by the Chair.
4. Guidelines for review of research proposals are contained in the Trinity College Human Subjects Review Procedures and Applications Packet. The Committee will review and update the packet as needed.
   a. Following approval of the first three chapters of the student’s proposal, the Chair will have the graduate student prepare the ‘Application for Initial Research Protocol’ to be submitted to the Trinity College Human Subjects Review Committee by the Chair. The Trinity College Human Subjects Review Committee
will determine the status of the proposal (exempt, expedited, full). The Human Subjects Chair will sign-off on all exempt requests. For expedited requests, independent reviews by the Committee members may take place via e-mail within 1-2 weeks of the request. For a full review, the proposal will be independently reviewed by all committee members followed by a meeting of the Committee to determine if the study/project is approved, disapproved, or tabled for information.

b. The Human Subjects Review Committee Chair will notify the graduate student and his/her Chair of the Committee action and provide the signed approval form.

c. Study/project procedures may not be initiated until receipt of signed Human Subjects Request/Approval Form. Failure of Trinity College faculty/staff/students to obtain Human Subjects Review Committee approval before initiation of research will result in possible disciplinary outcome.
Minors on Campus Policy

PURPOSE

Trinity College of Nursing & Health Sciences conducts its educational operations in a manner that coincides with its mission, vision, and values. Minors may be on campus for brief periods of time visiting or participating in College-sponsored activities. At no time while on campus should a minor be unsupervised. Minors should be under the supervision of a faculty member, staff member, or in the care of their parent or adult guardian. For currently enrolled minor students, the supervising College representative is either the faculty member or the clinical supervisor. In addition to this policy, the visits of minors are subject to the same conditions as any other visitors to the College. Any College employee who suspects that a minor who is on College property or is participating in College activity at another location, is/ has been the victim of child abuse or neglect shall immediately report the suspected child abuse or neglect to the Department of Children and Family Services (DCFS) toll-free, 24-hour Child Abuse Hotline at 1-800-25-ABUSE (22873). The changes became effective June 27, 2012 when the State of Illinois Public Act 97-0711 amended the Abused and Neglected Child Reporting Act (ANCRA) to mandate that all personnel of higher education institutions report cases of suspected child abuse or neglect to the Department of Children and Family Services (DCFS).

DEFINITIONS

Minor(s): Anyone under the age of 18 is covered by this policy.

Authorized Adult: For purposes of this policy means a parent, legal guardian, or other adult, including, but not limited to faculty/staff/employee/student who is responsible for supervising the minor(s) while on campus or at a College-sponsored activity located off-campus.

Employee: For purposes of this policy includes those faculty/staff/volunteers/medical center staff/students who are employed or volunteer for Trinity College of Nursing & Health Sciences or UnityPoint Health - Trinity.

POLICY

1. Minors must be supervised by an “Authorized Adult” at all times while on the grounds of Trinity College of Nursing & Health Sciences or while participating in an activity located off-campus.
2. Minors are permitted in the general areas of the College and in other areas as permitted by the faculty/staff of the College.
3. Even when accompanied by an “Authorized Adult,” pre-school age minors not participating in a College-sponsored program on college property, or an official activity in an off-campus location are prohibited from the learning laboratories, and other areas where significant potential safety hazards may exist.
4. Minors and Authorized Adults who do not meet the College Standards of Behavior will be asked to leave the College.
5. Minors are not permitted in the classroom while classes are in session unless permission is granted in advance from the faculty member. If the minor becomes disruptive, the Authorized Adult and minor will be asked to leave the classroom. At no time is a minor permitted in the clinical area with an Authorized Adult who is completing curricular requirements. Enrolled students are under the supervision of their clinical supervisor and may be in the clinical area; however, if a student violates the College Standards of Behavior he/she will be subject to disciplinary action and may be withdrawn from the course.
6. Any College employee or student in the clinical area is required by Iowa and Illinois law to be a mandatory reporter of child abuse.
PROCEDURES

Trinity College of Nursing & Health Sciences is strongly committed to providing a safe and secure environment for children. The following procedures should be taken when children are scheduled to be on campus.

Faculty/Staff/Employees/Students of the College or UnityPoint Health - Trinity must notify the Director of Student Services and External Relations at least 14 days prior to the scheduled activity when minors will be on campus or in a college-related activity located off-campus.

Reporting suspected child abuse or neglect
If a College employee or volunteer reasonably suspects or observes signs of child abuse or neglect, he/she should immediately do the following, (and must do the following if a mandated reporter):

1. As required by state law, report cases of suspected child abuse or neglect to the Department of Children and Family Services (DCFS) to the toll-free 24-hour Child Abuse Hotline at 1-800-ABUSE (22873).
2. Written Confirmation must be sent to DCFS within 48 hours of the call:
   a. DCFS
      406 East Monroe Street
      Station 122
      Springfield, Illinois 62701
3. Mandated Reporters making a good faith report cannot be held liable for civil damages, BUT failure to report suspected instances of child abuse or neglect constitutes a Class A misdemeanor.

Background Checks
Trinity College of Nursing & Health Sciences requires background checks of all faculty/staff/employees/volunteers/students. UnityPoint Health - Trinity requires background checks of all of its employees/volunteers.

Training
Training for faculty/staff/employees/volunteers will be conducted on an annual basis.
Non-Discrimination Policy

I. Introduction

Trinity College of Nursing & Health Sciences (“the College”) is committed to providing an academic and working environment free from discrimination and harassment. Discrimination, harassment and retaliation on the basis of a protected status are strictly prohibited. Persons who engage in such conduct are subject to discipline up to and including termination or dismissal.

Preventing prohibited discrimination, harassment and retaliation is the responsibility of all members of the College Community. Faculty, staff, and third parties should report a potential violation of this Policy as soon as possible to the Director of Student Services and External Relations:

Hilary Henke
Student Services Office
Hilary.henke@trinitycollegeqc.edu
309-779-7720

Students and prospective students should report a potential violation of this Policy as soon as possible to the Director of Student Services and External Relations:

Hilary Henke
Student Services Office
Hilary.henke@trinitycollegeqc.edu
309-779-7720

The College will respond to reports of perceived prohibited conduct in a reasonable, thorough, and prompt manner, as set forth below. If the College determines that discrimination, harassment, or retaliation has occurred, appropriate corrective and remedial actions will be taken.

II. Scope

This Policy applies to reports of discrimination, harassment, and retaliation on the basis of a protected category, other than discrimination, harassment, and retaliation on the basis of sex, which are governed exclusively by the College’s Sexual Misconduct Policy.

This Policy governs reports of discrimination, harassment, and retaliation in all the College’s programs and activities and applies to all members of the College Community, including employees, students, applicants for employment or admission, contractors, vendors, visitors, and guests. It applies to discrimination, harassment, and retaliation that occurs on campus, during or at an official College program or activity (regardless of location), and to off campus conduct when the conduct could deny or limit a person’s ability to participate in or benefit from the College’s programs and activities.

III. Prohibited Conduct

a. Discrimination

Discrimination is adverse treatment of an individual based on a protected category. It is a violation of this policy to discriminate on the basis of a protected status in any of the College’s programs and activities. A list of protected categories is located in Section III(e) below.
b. **Harassment**

Harassment consists of unwelcome verbal, non-verbal, or physical conduct that denigrates or shows hostility or aversion toward an employee, student, or other members of the College Community, including third-parties, because of a protected category. Harassment constitutes a form of prohibited discrimination if it denies or limits a person’s ability to participate in or benefit from the College’s programs and activities (“discriminatory harassment”).

Examples of conduct prohibited by this policy may include, but are not limited to, jokes or pranks that are hostile or demeaning with regard to a person’s protected status or have the purpose or effect of creating an intimidating, hostile, abusive or offensive working or academic environment.

c. **Retaliation**

The College prohibits retaliation against anyone for reporting discrimination or harassment, assisting in making a report, cooperating in an investigation, or otherwise exercising their rights or responsibilities under this Policy and applicable federal, state, and local laws. Retaliation prohibited by this Policy consists of materially adverse action, such as disparaging comments, uncivil behavior, or other negative treatment of an employee, student, or other member of the College Community because a report has been made pursuant to this Policy or because an individual otherwise cooperated with the College’s investigation.

d. **Sexual Misconduct**

The College’s Sexual Misconduct Policy governs the reporting, investigation, and determination of reports of sex discrimination, sexual harassment, and related retaliation. All reports of sex discrimination, sexual harassment, sexual violence, dating violence, domestic violence, stalking, and related retaliation will be investigated and resolved pursuant to the College’s Sexual Misconduct Policy.

e. **Protected Status**

“Protected status” is defined as an individual’s race, color, creed, ethnicity, ancestry, national origin, genetic information, sex, gender, gender identity or expression, sexual orientation, age, religion, marital status, veteran status, disability or physical ability, socioeconomic background, or other legally protected classification.

### IV. Investigation and Resolution Procedures

The College will respond to reports of perceived prohibited conduct in an adequate, reliable, impartial, thorough, and prompt manner, as set forth below. If the College determines that discrimination has occurred, appropriate corrective and remedial actions will be taken.

a. **Mandatory Reporting of Discrimination, Harassment, and Retaliation**

This policy requires all College employees, unless designated as confidential employees because of professional confidentiality, to immediately report any complaints, reports, observations, or other information of alleged discrimination, harassment, or retaliation, to the Director of Student Services and External Relations.

b. **Reports Alleging Misconduct By A Student**

If a report of discrimination, harassment, or retaliation alleging misconduct on the part of a student is received, the report will be referred to the Director of Student Services and External Relations for investigation and resolution pursuant to the process for handling other types of student misconduct as contained in the Corrective Action policy.

c. **Reports Alleging Misconduct By Any Other Person**

When a report of discrimination, harassment or retaliation alleging misconduct on the part of any other person is received, a College official will be designated to investigate the report. During the investigation, both the complainant and respondent will have the opportunity to identify witnesses and evidence. Investigations will be handled discreetly, with information shared only with those persons who need to know
the information in order for there to be a full and fair investigation. The investigator may impose interim measures during the pendency of the investigation to protect and separate the parties. The investigator will prepare a written report summarizing the results of the investigation and deliver it to the Director of Student Services and External Relations. The Director of Student Services and External Relations will review the report, consult with other College administrators and officials as the Director deems appropriate, and issue a determination as to whether or not the report of misconduct is substantiated and, if so, what remedial measures will be taken to address the misconduct, including discipline for the respondent or initiation of disciplinary proceedings pursuant to other applicable College policies. Substantiated incidents of conduct prohibited by this policy can lead to discipline up to and including termination or dismissal. If either the complainant or respondent disagrees with the determination, a grievance may be made via the Fair Treatment and Grievance policy.

d. Timing of the Complaint
The College encourages persons to make complaints of discrimination and harassment as soon as possible because late reporting may limit the College’s ability to investigate and respond to the conduct complained of.

e. Conduct that Constitutes a Crime
Any complainant has the right to file a criminal complaint at any time—before, during or after the College’s internal investigation. A complainant who wishes to make a complaint of discrimination or harassment that also constitutes a crime—including hate crimes, assault, or property offences—is encouraged to make a complaint with local law enforcement or UnityPoint Health Security. If requested, the College will assist the complainant in notifying the appropriate law enforcement authorities. In the event of an emergency, please contact 911. A victim may decline to notify such authorities.

f. Vendors, Contractors, Visitors, and Other Third-Parties
This policy applies to the conduct by and toward vendors, contractors, visitors, and other third parties. Persons who believe they have been discriminated, harassed, or retaliated against in violation of this policy should report immediately to the Director of Student Services and External Relations.

g. Retaliation
It is a violation of this policy to retaliate against any member of the College Community who reports or assists in making a complaint or who participates in the investigation of a complaint in any way. Persons who believe they have been retaliated against in violation of this policy should make a complaint in the manner set forth in this Policy.
Registration Policy

PURPOSE

Student Responsibilities
Upon enrollment at Trinity College, the student enters into a contractual agreement with the College. Inherent in this agreement is the obligation that the student will abide by the policies, rules, and regulations that govern the institution. It is the student’s responsibility to register for classes at the designated times. The individual student is responsible for satisfying the requirements of his/her selected program curriculum. Registration for classes creates a financial obligation by the registrant to pay tuition and fees and constitutes an understanding and acceptance of this responsibility. Students will not be permitted to register if an outstanding balance appears on the billing statement or a billing hold appears on the account.

DEFINITIONS

Office of the Registrar
This office is responsible for scheduling of classes, transfer evaluation, degree audits, graduation approval, in-school deferment requests and transcripts, in addition to other academic services.

Hours are Monday through Friday. You may also call 309-779-7704 for assistance or to request an appointment.

In order to participate in an online or hybrid learning course, students must have access to a computer PC or MAC and the internet. Online orientation modules are offered to students currently enrolled in one of the College’s online or hybrid courses. The purpose of these modules is to familiarize students with the “Blackboard” platform used by the College. These modules can be accessed from the College webpage using the quick links menu found on the home page.

Blackboard Learn Help for Students is available at: https://help.blackboard.com/Learn/Student

Note: Students are able to access the internet through the computer lab at the College.

POLICY

Academic Advising
Each student at Trinity College is assigned a faculty advisor. The advisor guides the student throughout the program and facilitates course selection, career development, and academic progress. Although periodic advising sessions are scheduled to review progression toward completion of the academic requirements, the final responsibility for completion of these requirements remains with the student.

The academic advisor will administratively withdraw current or returning students who do not register for coursework or initiate a leave of absence at the end of the term. This excludes students who are unable to register due to a billing hold. The student can subsequently apply for readmission into the program. Applicable forms and fees apply for readmission.

Auditing a Course
Some courses at Trinity College may be audited with permission of the faculty. The faculty member and the student who is auditing the course determine the level of participation in classroom activities by mutual consent. Students who are auditing may not be subject to exams, reports, or projects. Arrangements for auditing must be completed with the related course faculty during the registration period. Students may register for a partial number of course hours as agreed to by course faculty. Audit enrollment receives no course credit and is not included in the student’s total course load for that semester for purposes of enrollment certification and financial aid. Transcripts will reflect the designation of “AU” for an audited course. Courses taken for audit can be repeated one time for credit. The ‘per credit hour’ fee for audited courses is the same as the fee for courses taken for credit. Once enrolled, a student may not change class registration status from audit to credit or from credit to audit.
Course Cancellation
The College reserves the right to cancel any course. The College Registrar in conjunction with the Dean of Nursing & Health Sciences will determine cancellation of courses; students will be notified of cancellations and assisted in identifying appropriate registration options.

PROCEDURES

Registration Procedure
To register, students must follow these steps:

1. Review your curriculum plan in the College Catalog to determine courses needed for registration.
2. Contact your advisor prior to registration to confirm course selection and academic progress.
3. Check the number of credits needed for financial aid. If in question check with the Financial Aid Office.
4. Register online through the Student Portal for all Trinity College classes.
5. Meet with your assigned Trinity College faculty advisor to complete all necessary paperwork to register for general education classes through cooperating institutions.
6. Complete registration within the designated timeframe or a late registration fee will be assessed.

Students registering late for a course are still responsible for all coursework missed and penalties for non-attendance.
Satisfactory Academic Progress Policy; Financial Aid

PURPOSE:

The purpose of this policy is to describe the Satisfactory Academic Progress (SAP) policies of Trinity College.

POLICY:

When students receive federal and/or state financial aid, federal guidelines require that they make real and measurable progress toward their degree in order to continue to receive federal and/or state financial aid. This requirement is called Satisfactory Academic Progress (SAP).

The Satisfactory Academic Progress Policy addresses student academic progress during all terms of their enrollment at Trinity College of Nursing & Health Sciences, including summer, whether or not the student receives financial aid during these terms. At Trinity College of Nursing & Health Sciences, this policy applies to federal, state, and need-based institutional aid, and most forms of institutional merit-based or talent-based aid. Note that institutional aid programs may have specific eligibility or renewal requirements in addition to the minimum requirements of the Satisfactory Academic Progress Policy.

There are three parts to the Satisfactory Academic Progress Policy:

1. Qualitative Measure or Grade Point Average (GPA)
2. Quantitative Measure or Cumulative (Overall) Progress
3. Academic Program completion

Students must comply with all requirements to remain eligible for aid.

1. Qualitative Measure or Grade Point Average (GPA)

The SAP Policy requires that students maintain a minimum cumulative GPA in order to remain eligible for financial aid.

Undergraduate Students: The minimum cumulative GPA requirement is 2.0.

Graduate/Professional Students: The minimum cumulative GPA requirement is 3.0.

2. Quantitative Measure or Cumulative (Overall) Progress

The SAP Policy contains a quantitative component, meaning that students are required to make steady progress toward their degree program by completing at least two-thirds (66.67%) of all of the attempted courses. This is measured by dividing the students’ completed credit hours by attempted credit hours (e.g. 16 completed credit hours / 24 attempted credit hours = 66.67% pace). All courses attempted are considered in this calculation.

Students who fall below these minimums (qualitative and/or quantitative) will be placed on Academic Warning for one semester (no appeal is required and status cannot be appealed). If the student fails to make Satisfactory Academic Progress by the end of the warning period, they will have their financial aid suspended.

The qualitative and quantitative measures used to judge academic progress include all periods of the student’s enrollment, even periods in which the student did not receive Federal Student Aid (FSA) funds.
3. Academic Program Completion (Pace)

Students must be on track to complete their program of study within 150% of their program length as measured in credit hours. For example, a 40 credit hour program times 150% equals a maximum time frame (MTF) of 60 attempted credits for which they may receive federal and/or state financial aid.

If a student changes majors, they are still expected to complete their program within the maximum timeframe. In limited circumstances, appeals will be considered.

Federal and state financial aid is limited to the pursuit of the students declared degree. Once it has been determined the student has completed the requirements for their degree and/or have no further enrollment requirements, they are no longer eligible for federal and/or state financial aid, and the options for institutional assistance are limited, based on the terms and availability of the students institutional aid program. This is true even if the student has not applied for graduation and/or their degree has not been officially conferred.

Evaluation Periods
Trinity College of Nursing & Health Sciences checks SAP at the end of every payment period (semester).

Withdrawals/Drops
Classes dropped during the 100% refund period do not count as attempted hours. Courses dropped after that period receive a “WP” or “WF” grade and count as attempted hours. WPs and WFs do not impact GPA.

Incompletes
Grades of incomplete (I) are not factored into determining SAP, both qualitative and quantitative measurement, until the incomplete grade becomes the grade of record. The grade of record will be used in the next official SAP checkpoint after the grade is finalized.

Repetitions
For repeat courses, only one course will be factored in both the qualitative and quantitative measure (the course with the highest grade).

Any student receiving a WF or grade below a C may use financial aid to retake the course and have all credits applied toward the total hours attempted. The student must follow their specific program progression policy regarding limitations on repeating courses.

Transfer Credit (between schools)
Credit hours that transfer into and count as credit in the student’s program of study will count as both earned and attempted credits. Transfer credit will not be factored into the student’s GPA. Any additional credit hours on the student’s transcripts that are not accepted into the student’s program of study will not be factored into the GPA, pace or MTF SAP calculations. Transfer hours that are accepted anytime after an official checkpoint will be factored into SAP at the next official checkpoint.

Transfer Credit (between programs)
If a student changes programs, only those credit hours that transfer into the new program for credit will count as both attempted and earned hours in the quantitative measurement and will count in the GPA for the qualitative measurement.

Students wishing to change their major or change options within the designated major must:

- Withdraw from the current plan of study.
- Follow admission policy and procedure for the desired major/degree program option.
- All courses attempted in previous major are calculated in the quantitative SAP calculation.
Notification
Students will be notified via designated school email of any changes to their FSA eligibility (positive or negative) as a result of a SAP issue. Notifications include financial aid warning status, appeal decisions, loss of eligibility or regaining of eligibility.

Financial Aid Warning
Any student that fails to maintain SAP will automatically be placed in a Financial Aid Warning status for one payment period or semester. During a Financial Aid Warning period, students are not making SAP but continue to be eligible for FSA aid. If a student continues to fail to achieve SAP at the end of a financial aid warning period, he or she will lose FSA eligibility. There is no limit on the number of times a student can be placed in a warning status, except that the warning periods can never be consecutive.

Financial Aid Suspension
A factor of student eligibility is maintaining SAP. A student who is not maintaining SAP and who has exhausted their financial aid warning status is suspended from FSA eligibility.

The Office of Financial Aid reserves the right to suspend students who completely withdraw — i.e., students who fail to demonstrate any measurable progress within a given term. If a student withdraws completely or fails to complete courses in a term, the student’s aid may be suspended. The student may appeal this status.

Appeal Process
A student suspended from FSA eligibility may appeal that loss due to special or mitigating circumstances. Special or mitigating circumstances outside of the student’s control may include but are not limited to, the following:

- Student illness or injury
- Family member illness, injury, or death

Students must submit an appeal in writing to the Financial Aid Specialist within 60 days of notification of suspension. In addition, a student must provide all applicable supporting documentation. The appeal must explain why the student failed to maintain SAP and what has changed to allow the student to make SAP at the end of the probationary period.

Appeals are reviewed by the Trinity College of Nursing & Health Science’s SAP Appeal Committee. The Appeal Committee may review the failure of any SAP measurement. As part of the appeal process, the SAP Appeal Committee may implement any of these three options:

- Approval based on circumstances and student can mathematically meet the general SAP standards by the end of the probationary period.
- Approval based on circumstances and the school places the student on an academic plan.
- Denial based on circumstances.

If the appeal is approved, the student will be placed on probation for one semester. If the student passes all of the registered coursework and maintains a 2.00 GPA for that semester, the student can stay on probation for the next semester.

Students who fail to pass all courses for the probationary semester and do not meet the grade point average requirement for the hours taken, will be ineligible for additional financial aid until they can reestablish their eligibility by meeting the required SAP criteria.

Academic Plans
Academic plans will be tailored to meet the individual student needs and will have a defined end point (e.g. date, end of 2nd semester, etc.) at which point the student is expected to meet the general SAP standards or complete the program.
Academic plans can extend over several semesters depending on the severity of the SAP issues. While on an academic plan, the student is required to meet the plan requirements. While on a multi-semester plan, the student is in a probationary status during the first semester of the plan. During subsequent semesters in which the student is meeting the plan requirements, the student is considered to be maintaining SAP. The student continues to be FSA eligible as long as they are on a plan and meet the plan requirements or meet the general SAP standards.

**Financial Aid Probation**

If a student’s appeal is approved by the SAP Appeal Committee, the student will be placed on Financial Aid Probation, which can never exceed one payment period or semester. While on Financial Aid Probation, a student is not making SAP but remains eligible for FSA.

**Reestablishing FSA Eligibility After Suspension of Benefits**

A student who has lost FSA eligibility can regain access to FSA by either successfully appealing the loss of eligibility or meeting the general SAP standards.
Sexual Harassment Policy

POLICY STATEMENT

Trinity College of Nursing & Health Sciences (the “College”) is committed to providing a learning, working, and living environment that promotes personal integrity, civility, and mutual respect in an environment free of Sexual Harassment. Consistent with this commitment, the College’s Non-Discrimination Notice, and the U.S. Department of Education’s implementing regulations for Title IX of the Education Amendments of 1972 (“Title IX”) (see 34 C.F.R. § 106 et seq.), the College prohibits Sexual Harassment that occurs within its Education Programs and Activities pursuant to this Sexual Harassment Policy (“Policy”).

For purposes of this Policy, Sexual Harassment includes Quid Pro Quo Sexual Harassment, Hostile Environment Sexual Harassment, Sexual Assault, Domestic Violence, Dating Violence, and Stalking.

Administrators, faculty members, staff, students, contractors, guests, and other members of the College community who commit Sexual Harassment are subject to the full range of College discipline including verbal reprimand; written reprimand; mandatory training, coaching, or counseling; mandatory monitoring; partial or full probation; partial or full suspension; fines; permanent separation from the institution (that is, termination or dismissal); physical restriction from College property; cancellation of contracts; and any combination of the same.

The College will provide persons who have experienced Sexual Harassment ongoing remedies as reasonably necessary to restore or preserve access to the College’s Education Programs and Activities.

SCOPE

This Policy applies to Sexual Harassment that occurs within the College’s Education Programs and Activities and that is committed by an administrator, faculty member, staff, student, contractor, guest, or other member of the College community.

This Policy does not apply to Sexual Harassment that occurs off-campus, in a private setting, and outside the scope of the College’s Education Programs and Activities. This Policy does not apply to Sexual Harassment that occurs outside the geographic boundaries of the United States, even if the Sexual Harassment occurs in the College’s Education Programs and Activities, such as a study abroad program. Sexual Harassment that occurs either off-campus, in a private setting, and outside the geographic boundaries of the United States is governed by the Student Code of Conduct if committed by a student, the Faculty Handbook if committed by a faculty member, or other College policies and standards if committed by an employee, including but not limited to the Workplace and Sexual Harassment policy.

DEFINITIONS

A. “Sexual Harassment” is conduct on the basis of sex that constitutes Quid Pro Quo Sexual Harassment, Hostile Environment Sexual Harassment, Sexual Assault, Domestic Violence, Dating Violence, or Stalking.

B. “Quid Pro Quo Sexual Harassment” is an employee of the College conditioning the provision of an aid, benefit, or service of the College on an individual’s participation in unwelcome sexual conduct.

C. “Hostile Environment Sexual Harassment” is unwelcome conduct determined by a reasonable person to be so severe, pervasive, and objectively offensive that it effectively denies a person access to the College’s Education Programs and Activities.
D. “Sexual Assault” includes the sex offenses of Rape, Sodomy, Sexual Assault with an Object, Fondling, Incest, and Statutory Rape.¹

1. “Rape” is the carnal knowledge of a person, without the consent of the victim, including instances where the victim is incapable of giving consent because of his/her age or because of his/her temporary or permanent mental or physical incapacity. There is “carnal knowledge” if there is the slightest penetration of the vagina or penis by the sexual organ of the other person. Attempted Rape is included.

2. “Sodomy” is oral or anal sexual intercourse with another person, without the consent of the victim, including instances where the victim is incapable of giving consent because of his/her age or because of his/her temporary or permanent mental or physical incapacity.

3. “Sexual Assault with an Object” is using an object or instrument to unlawfully penetrate, however slightly, the genital or anal opening of the body of another person, without the consent of the victim, including instances where the victim is incapable of giving consent because of his/her age or because of his/her temporary or permanent mental or physical incapacity. An “object” or “instrument” is anything used by the offender other than the offender’s genitalia.

4. “Fondling” is the touching of the private body parts of another person for the purpose of sexual gratification, without the consent of the victim, including instances where the victim is incapable of giving consent because of his/her age or because of his/her temporary or permanent mental or physical incapacity.

5. “Incest” is sexual intercourse between persons who are related to each other within the degrees wherein marriage is prohibited by Illinois law.

6. “Statutory Rape” is sexual intercourse with a person who is under the statutory age of consent as defined by Illinois law.

E. “Domestic Violence” is felony or misdemeanor crimes of violence committed by a current or former spouse or intimate partner of the victim, by a person with whom the victim shares a child in common, by a person who is cohabitating with or has cohabitated with the victim as a spouse or intimate partner, by a person similarly situated to a spouse of the victim under the domestic or family violence laws of Illinois, or by any other person against an adult or youth victim who is protected from that person’s acts under the domestic or family violence laws of Illinois.

F. “Dating Violence” is violence committed by a person –

1. Who is or has been in a social relationship of a romantic or intimate nature with the victim; and

2. Where the existence of such a relationship will be determined based on a consideration of the following factors:

   - The length of the relationship;
   - The type of relationship; and
   - The frequency of interaction between the persons involved in the relationship.

G. “Stalking” is engaging in a course of conduct directed at a specific person that would cause a reasonable person to:

   - Fear for their safety or the safety of others; or
   - Suffer substantial emotional distress.

H. “Consent” refers to words or actions that a reasonable person in the perspective of the Respondent would understand as agreement to engage in the sexual conduct at issue. A person who is Incapacitated is not capable of giving Consent.

¹ The College’s definition of “Sexual Assault” is mandated by federal regulations implementing Title IX of the Education Amendments of 1972. Those regulations require the College to adopt a definition of “Sexual Assault” that incorporates various forcible and non-forcible sex crimes as defined by the FBI’s Uniform Crime Reporting System. See 34 C.F.R. § 106.30(a).
I. “Coercion” is direct or implied threat of force, violence, danger, hardship, or retribution sufficient to persuade a reasonable person of ordinary susceptibility to perform an act which otherwise would not have been performed or acquiesce in an act to which one would otherwise not have submitted. Coercion can include unreasonable and sustained pressure for sexual activity. Coercive behavior differs from seductive behavior based on the type of pressure someone uses to get consent from another. A person’s words or conduct cannot amount to Coercion for purposes of this Policy unless they wrongfully impair the other’s freedom of will and ability to choose whether or not to engage in sexual activity.

J. “Incapacitated” refers to the state where a person does not appreciate the nature or fact of sexual activity due to the effect of drugs or alcohol consumption, medical condition or disability, or due to a state of unconsciousness or sleep.

K. “Retaliation” is intimidation, threats, coercion, or discrimination against any individual for the purpose of interfering with any right or privilege secured by Title IX and its implementing regulations or because an individual has made a report or complaint, testified, assisted, or participated or refused to participate in any manner in an investigation, proceeding, or hearing under this Policy.

L. “Complainant” means an individual who is alleged to be the victim of conduct that could constitute Sexual Harassment.

M. “Respondent” means an individual who has been reported to be the perpetrator of conduct that could constitute Sexual Harassment.

N. “Formal Complaint” means a document filed by a Complainant or signed by the Title IX Coordinator alleging Sexual Harassment against a Respondent and requesting that the College investigate the allegation of Sexual Harassment in accordance with this Policy. At the time of filing a Formal Complaint, a Complainant must be participating in or attempting to participate in the College’s Education Programs and Activities. A “document filed by a Complainant” means a document or electronic submission (such as an email) that contains the Complainant’s physical or electronic signature or otherwise indicates that the Complainant is the person filing the Complaint.

O. “Supportive Measures” are non-disciplinary, non-punitive individualized services offered, as appropriate, and reasonably available, and without fee or charge, that are designed to restore or preserve equal access to the College’s Education Programs and Activities without unreasonably burdening another party, including measures designed to protect the safety of all parties implicated by a report or the College’s education environment, or to deter Sexual Harassment. Supportive measures may include: counseling, extensions of academic or other deadlines, course-related adjustments, modifications to work or class schedules, campus escort services, changes in work or housing locations, leaves of absence, increased security and monitoring of certain areas of campus, other changes to academic, living, dining, transportation, and working situations, honoring an order of protection or no contact order entered by a State civil or criminal court, and other similar measures. Supportive Measures may also include mutual restrictions on contact between the parties implicated by a report.

P. “Education Programs and Activities” refers to all the operations of the College, including, but not limited to, in-person and online educational instruction, employment, research activities, extracurricular activities, athletics, residence life, dining services, performances, and community engagement and outreach programs. The term applies to all activity that occurs on campus or on other property owned or occupied by the College. It also includes off-campus locations, events, or circumstances over which the College exercises substantial control over the Respondent and the context in which the Sexual Harassment occurs, including Sexual Harassment occurring in any building owned or controlled by a student organization that is officially recognized by the College.
UNDERSTANDING HOSTILE ENVIRONMENT SEXUAL HARASSMENT

In determining whether a hostile environment exists, the College will consider the totality of circumstances, including factors such as the actual impact the conduct has had on the Complainant; the nature and severity of the conduct at issue; the frequency and duration of the conduct; the relationship between the parties (including accounting for whether one individual has power or authority over the other); the respective ages of the parties; the context in which the conduct occurred; and the number of persons affected. The College will evaluate the totality of circumstances from the perspective of a reasonable person in the Complainant’s position. A person’s adverse subjective reaction to conduct is not sufficient, in and of itself, to establish the existence of a hostile environment.

The College encourages members of the College community to report any and all instances of Sexual Harassment, even if they are unsure whether the conduct rises to the level of a Policy violation.

Some specific examples of conduct that may constitute Sexual Harassment if unwelcome include, but are not limited to:

- Unreasonable pressure for a dating, romantic, or intimate relationship or sexual contact
- Unwelcome kissing, hugging, or massaging.
- Sexual innuendos, jokes, or humor
- Displaying sexual graffiti, pictures, videos, or posters
- Using sexually explicit profanity
- Asking about, or telling about, sexual fantasies, sexual preferences, or sexual activities
- E-mail, internet, or other electronic use that violates this Policy.
- Leering or staring at someone in a sexual way, such as staring at a person’s breasts or groin
- Sending sexually explicit emails, text messages, or social media posts
- Commenting on a person’s dress in a sexual manner
- Giving unwelcome personal gifts such as lingerie that suggest the desire for a romantic relationship
- Insulting, demeaning, or degrading another person based on gender or gender stereotypes.

UNDERSTANDING CONSENT AND INCAPACITATION

A. Consent

Lack of consent is a critical factor in determining whether Sexual Harassment has occurred. As defined above, consent is an informed, freely given, and mutually understood agreement to participate in specific sexual acts with another person that is not achieved through unreasonable manipulation or coercion—or any kind of physical force or weapon—and requires having cognitive ability to agree to participate. Consent requires an outward demonstration, through mutually understandable words, conduct or action, indicating that an individual has freely chosen to engage in the specific sexual acts. A verbal “no” constitutes lack of consent, even if it sounds insincere or indecisive.

- Silence or lack of physical or verbal resistance does not imply consent.
- If coercion, intimidation, threats, and/or physical force are used, there is no consent.
- Consent cannot be inferred from a person’s manner of dress.
- Consent to one form of sexual activity does not imply consent to other forms of sexual activity.
- Consent to engage in sexual activity with one person does not imply consent to engage in sexual activity with another.
- Consent to past sexual activity does not constitute consent to future sexual activity.
- Consent can be withdrawn at any time. A person who initially consents to sexual activity is deemed not to have consented to any sexual activity that occurs after he or she withdraws consent. When consent is withdrawn, sexual activity must immediately stop.
- Being in a romantic relationship with someone does not imply consent to sexual activity. Even in the context of an ongoing relationship, consent must be sought and freely given for each specific sexual act.
- Effective consent may not exist when there is a disparity in power between the parties (e.g., faculty/student, supervisor/employee).
A person cannot consent to sexual activity if that person is unable to understand the nature of the activity or give knowing consent due to circumstances, including without limitation the following:
- The individual is incapacitated due to drug or alcohol consumption, either voluntarily or involuntarily;
- The individual is unconscious, asleep, or otherwise unaware that sexual activity is occurring;
- The individual is below the minimum age of consent in the applicable jurisdiction (17 years in Illinois); or
- The individual has a mental disability that impairs his or her ability to provide consent.

B. Incapacitation

Incapacitation is a state where an individual cannot make an informed and rational decision to consent to engage in sexual contact because the individual lacks conscious knowledge of the nature of the act (e.g., to understand the “who, what, where, when, why or how” of the sexual interaction) and/or is physically or mentally helpless. An individual is also considered incapacitated, and therefore unable to give consent, when asleep, unconscious, or otherwise unaware that sexual contact is occurring.

Incapacitation can only be found when the Respondent knew or should have known that the Complainant was incapacitated when viewed from the position of a sober, reasonable person. One’s own intoxication is not an excuse for failure to recognize another person’s incapacitation.

Incapacitation may result from the use of alcohol and/or other drugs; however, consumption of alcohol of other drugs, inebriation, or intoxication alone are insufficient to establish incapacitation. Incapacitation is beyond mere drunkenness or intoxication. The impact of alcohol or drugs varies from person to person, and evaluating incapacitation requires an assessment of how consumption of alcohol and/or drugs impacts an individual’s:

- Decision-making ability
- Awareness of consequences
- Ability to make informed judgments
- Capacity to appreciate the nature of circumstances of the act.

No single factor is determinative of incapacitation. Some common signs that someone may be incapacitated include slurred speech, confusion, shaky balance, stumbling or falling down, vomiting, and unconsciousness.

REPORTING SEXUAL HARASSMENT

A. Reporting to the College

Any person may report Sexual Harassment to the Title IX Coordinator. Reports may be made by complainants, third parties, witnesses, or bystanders, and may be made in person, by regular mail, telephone, electronic mail, or by any other means that results in the Title IX Coordinator receiving the person’s verbal or written report. In-person reports must be made during normal business hours, but reports can be made by regular mail, telephone, or electronic mail at any time, including outside normal business hours.

Title IX Coordinator
Hilary Henke
Student Services-Office 106
2122 25th Ave
Rock Island, IL 61201
(309) 779-7720
Hilary.Henke@trinitycollegeqc.edu

In addition to reporting to the Title IX Coordinator, any person may report Sexual Harassment to the following Departments or employees:
Deputy Title IX Coordinator
Rosemary Brower
Student Services-Office 106
2122 25th Ave
Rock Island, IL 61201
(309) 779-7762
Rosemary.Brower@trinitycollegeqc.edu.edu

UnityPoint Health-Trinity Campus Security
309-779-6000

Reporting Officials

College employees who have the authority to take corrective action (Chancellor, Deans, Directors, and faculty members) have a duty to report Sexual Harassment to the Title IX Coordinator when they receive a report of such conduct, witness such conduct, or otherwise obtain information about such conduct. This includes employees who may have a professional license requiring confidentiality if they are not employed by the College in that professional role. An employee with the authority to take corrective action who does not report Sexual Harassment as required by this Policy may be disciplined accordingly, up to and including termination.

To File A Report Electronically and/or Anonymously

Individuals, including third parties and bystanders, can submit a report of Sexual Harassment electronically by completing the form found at:
https://www.trinitycollegeqc.edu/filesimages/Current%20Student%20Forms/Fillable_IncidentReportForm.pdf

Electronic reports made through the College’s webpage can be submitted anonymously.

Upon filing an electronic report, the electronic reporter (if not anonymous) will receive an electronic response within 12 hours. These reports will be sent to the Title IX Coordinator who will make every effort to respond or take other corrective action, but the College’s ability to respond or take corrective action following an anonymous report may be limited. This reporting mechanism is not a substitute for the obligation of all College employees, except for the confidential resources identified, to make a report as described above.

Information Regarding the Rights and Options of the Parties

Once a report of Sexual Assault, Domestic Violence, Dating Violence, or Stalking is made, the victim has several options such as, but not limited to:

- obtaining Supportive Measures
- contacting parents or a relative
- seeking legal advice
- seeking personal counseling (always recommended)
- pursuing legal action against the perpetrator
- filing a Formal Complaint
- requesting that no further action be taken

Upon receiving a report of an incident of Sexual Harassment prohibited under this Policy, the College will provide the Complainant with a written document (separate from this Policy) listing, in plain, concise language, the Complainant’s available rights, options and resources, as well as a description of the College’s procedures for investigating and resolving the report. The College will also provide the Respondent with a written document (separate from this Policy) listing, in plain and concise language, the Respondent’s available rights, options and resources, as well as a description of the College’s procedures for investigating and resolving the report.
SPECIAL ADVICE FOR INDIVIDUALS REPORTING SEXUAL ASSAULT, DOMESTIC VIOLENCE, DATING VIOLENCE, OR STALKING

A. Reporting to Law Enforcement

Individuals who feel they have experienced Sexual Assault, Domestic Violence, Dating Violence, or Stalking have the option to pursue a criminal complaint with the appropriate law enforcement agency, to pursue a complaint with the College through its Complaint Resolution Procedures or to pursue both processes consecutively or concurrently. A victim of Sexual Assault, Domestic Violence, Dating Violence, or Stalking also has the right not to pursue any complaint to either the College or to a law enforcement agency.

For more information regarding the option to pursue a criminal complaint, contact:

**Rock Island Police Department**
1212 5th Avenue
Rock Island, IL 61201
309-732-2677

The Title IX Coordinator and the Campus Security Department are available to assist students with making contact with appropriate law enforcement authorities. (For more information on the extent of a particular law enforcement agency’s reporting obligations to other entities or its ability to protect an individual’s privacy or have confidential communications during the criminal complaint process, contact the appropriate law enforcement agency.)

In addition to having the option of pursuing a criminal complaint, individuals also have the right to request that law enforcement issue emergency protective restraining orders or to pursue such orders through the court process. The College can assist parties who wish to do so. Individuals who receive emergency or permanent protective or restraining orders through a criminal or civil process should notify the Title IX Coordinator so that the College can work with the individual and the subject of the restraining order to manage compliance with the order on campus. For more information about such orders see:

**Rock Island County Courthouse**
General Division of the Circuit Clerk’s Office (3rd floor)
210 15th Street
Rock Island, IL 61201

More information is available online:
http://www.rockislandcounty.org/OrdersOfProtection/FAQs/

The Title IX Coordinator and the Campus Security Department will assist individuals with transportation to a hospital if they so request, with making contact with appropriate law enforcement authorities upon request, and with accessing all appropriate resources and support, including on- and off-campus confidential victim services and Sexual Assault crisis support.

Whether or not criminal charges are filed, the College will initiate an investigation as provided in this Policy where appropriate. The “Requesting Confidentiality to a Non-Confidential Source” Section below includes additional information regarding requests for confidentiality or requests that no investigation be conducted. Any pending criminal investigation or criminal proceeding may have some impact on the timing of the College’s investigation, but the College will commence or resume its own investigation as soon as is practicable under the circumstances. The College reserves the right to commence and/or complete its own investigation prior to the completion of any criminal investigation or criminal proceeding. The College also may, in some circumstances, be required by law enforcement to defer the fact-finding portion of its investigation for a limited time while law enforcement gathers evidence. In such cases, the Title IX Coordinator shall inform the parties of the need to defer the College’s fact-finding, provide regular updates on the status of the investigation and notify the parties when the College’s fact-finding resumes. During this time period, the College will take any additional measures necessary to protect and support the parties.
and the College community. The College's authority to sanction members of the College community applies only to the violation of College rules, policies and procedures.

Because the standards for finding a violation of criminal law are different from the standards for finding a violation of Sexual Assault, Dating Violence, Domestic Violence, or Stalking under this Policy, criminal investigations or reports are not determinative of whether Sexual Assault, Dating Violence, Domestic Violence, or Stalking, for purposes of this Policy, has occurred. In other words, conduct may constitute Sexual Assault, Dating Violence, Domestic Violence, or Stalking under this Policy even if law enforcement agencies lack sufficient evidence of a crime and therefore decline to investigate or prosecute.

B. Medical Assistance and Preserving Evidence

If you believe you are the victim of Sexual Assault, Domestic Violence, or Dating Violence, get to safety and do everything possible to preserve evidence by making certain that the crime scene is not disturbed. Preservation of evidence may be necessary for proof of the crime or in obtaining a protection order. The College also encourages all individuals who feel they have been victims of Sexual Assault, Domestic Violence, Dating Violence, or Stalking to seek immediate assistance from a medical provider for emergency services, including treatment of any injury.

Seeking medical attention and preserving evidence helps preserve the full range of options for an individual, including the options of working through the College’s Complaint Resolution Procedures and/or legal options including obtaining a protective order from a court, pursuing a civil action, and/or participating in a law enforcement investigation and criminal prosecution.

Even if an individual has not been physically hurt, a timely medical examination is recommended so that forensic evidence can be collected and preserved. An individual may choose to allow the collection of evidence by medical personnel even if they choose not to make a report to the police.

Local medical assistance can be obtained at:

UnityPoint Health-Trinity Rock Island Campus
2701 17th Street
Rock Island, IL 61201
309-779-5000

Genesis Medical Center, Silvis
801 Illini Drive
Silvis, IL 61282
309-792-9363

The College recommends the following for individuals who believe they are victims of Sexual Assault, Dating Violence, Domestic Violence or Stalking:

- Get to a safe place as soon as possible.
- Try to preserve all physical evidence of the crime — avoid showering, bathing, using the toilet, rinsing one’s mouth, smoking, or changing clothes. If it is necessary, put all clothing that was worn at the time of the incident in a paper bag, not a plastic one.
- Do not launder or discard bedding or otherwise clean the area where the assault occurred - preserve for law enforcement.
- Preserve all forms of electronic communication that occurred before, during, or after the assault.
- Contact law enforcement by calling 911.
- Seek medical attention as soon as possible — all medical injuries are not immediately apparent. This will is also necessary to help collect evidence that may be needed in case the individual decides to press charges. Local hospitals have evidence collection kits necessary for criminal prosecution should the victim wish to pursue charges. Take a full change of clothing, including shoes, for use after a medical examination.
• Contact a trusted person, such as a friend or family member for support.
• Talk with a professional licensed counselor, College chaplain, or health care provider who can help explain options, give information, and provide emotional support.
• Make a report to the Title IX Coordinator.
• Explore this Policy and avenues for resolution under this Policy.

It is also important to take steps to preserve evidence in cases of Stalking, to the extent such evidence exists. Such evidence is more likely to be in the form of letters, emails, text messages, electronic images, etc. rather than evidence of physical contact and violence. This type of non-physical evidence will also be useful in all types of Sexual Harassment investigations.

Under Illinois law, forensic medical examinations (i.e., evidence collection) sought subsequent to instances of sexual violence are free of charge to the patient. Victims can obtain a free forensic medical examination at:

UnityPoint Health-Trinity Rock Island Campus
2701 17th Street
Rock Island, IL 61201
309-779-5000

Medical personnel may be covered by federal and/or state privacy laws, such as the Health Insurance Portability and Accountability Act. Under Illinois law, medical personnel are required to alert police when it reasonably appears that the individual requesting the treatment has received an injury sustained as a victim of a criminal offense, including Sexual Assault. However, it is the individual’s choice whether they want to speak to the police.

C. Confidential Reporting

The College recognizes that individuals who feel they have been victims of Sexual Assault, Dating Violence, Domestic Violence, or Stalking may require time and support in considering whether or how to participate in any College or law enforcement process. The College also recognizes that individuals who have been accused of Sexual Assault, Dating Violence, Domestic Violence, or Stalking may also require support. There are confidential resources on campus and in the community available to any individual who needs support or assistance.

1. On-Campus Confidential Advisors

Individuals wishing to obtain confidential assistance without making a report to the College may speak with the College’s confidential advisor. The confidential advisor is available to discuss incidents or accusations of Sexual Assault, Dating Violence, Domestic Violence, or Stalking with both Complainants and Respondents in confidence, and provide emotional support in a safe and confidential space. The confidential advisor generally only reports to the College that an incident is alleged to have occurred without revealing any personally identifying information. Disclosures to the confidential advisor will not trigger the College’s investigation into an incident.

The College’s confidential advisor shall receive forty hours (40) of initial training regarding sexual violence and participate in six (6) hours of annual continuing education thereafter. In addition to providing confidential counseling, the confidential advisor also provides emergency and ongoing support to individuals who have experienced or been accused of Sexual Assault, Dating Violence, Domestic Violence, or Stalking including:

• Providing information regarding the individual’s reporting options and possible outcomes, including making a report or a Formal Complaint under this Policy and notifying local law enforcement;
• Providing information about available resources and services, including but not limited to services available on campus and through community-based resources such as sexual assault crisis centers, medical treatment facilities, counseling services, legal resources, medical forensic services and mental health services;
• Providing information regarding orders of protection, no contact orders or similar lawful orders issued by the College or a criminal or civil court;
• An explanation of the individual’s right to have privileged, confidential communications with the confidential advisor consistent with applicable law;
• Upon request and as appropriate, providing assistance in contacting campus officials, community-based sexual assault crisis centers, campus security, and/or local law enforcement; and/or
• Upon request, providing assistance with securing Supportive Measures and accommodations.

Confidential Advisor Contact Information:

Emilee Goad, LMSW
Direct: 563-468-2324
Office: 563-322-1200
emileeg@famres.org

2. Confidential Resources in the Community

The following off-campus agencies also employ individuals available to assist members of the College community with issues relating to Sexual Assault, Dating Violence, Domestic Violence, or Stalking in confidence. Disclosures to these entities will not trigger the College’s investigation into an incident. Please note that limitations of confidentiality may exist for individuals under the age of 18.

National Sexual Assault Telephone Hotline: 800-656-HOPE (4673)
State of Illinois Domestic Violence Hotline: 877-863-6338
Student Assistance Program (SAP): 800-383-7900
Family Resources SafePath Survivor Resources: 309-797-1777

D. Requesting Confidentiality to a Non-Confidential Source

In some cases, an individual may disclose an incident of Sexual Assault, Dating Violence, Domestic Violence, or Stalking to a non-confidential source but wish to maintain confidentiality or request that no investigation into a particular incident be conducted or disciplinary action be taken. The College has designated the Title IX Coordinator to evaluate requests for confidentiality or that no formal action be taken and oversee the College’s response to reports of alleged Sexual Assault, Dating Violence, Domestic Violence, or Stalking.

If a Complainant discloses an incident, but requests confidentiality or is unwilling to participate in any investigation or adjudication process, the Title IX Coordinator, in consultation with other College administrators, will weigh the request against the College’s obligation to provide a safe, non-discriminatory environment for all students, including the Complainant and the alleged Respondent. When weighing a Complainant’s request for confidentiality or that no investigation or resolution be pursued, the Title IX Coordinator will consider a range of factors, which may include but are not limited to, whether:

• The alleged Respondent is likely to commit additional acts of Sexual Harassment, such as:
  o Whether there have been other Sexual Harassment complaints about the same alleged Respondent;
  o Whether the alleged Respondent has a history of arrests or records from a prior school indicating a history of violence;
  o Whether the alleged Respondent threatened further Sexual Harassment against the Complainant or others;
• Whether the Title IX Sexual Harassment was committed by multiple perpetrators.
• The Title IX Sexual Harassment was perpetrated with a weapon;
• The Complainant is a minor;
• The College possesses other means to obtain relevant evidence of the Sexual Harassment (e.g., security cameras or personnel, physical evidence);
• The Complainant’s report reveals a pattern of perpetration (e.g., via illicit use of drugs or alcohol) at a given location or by a particular group.
If none of these factors are present, the College is more likely to respect the Complainant’s request. If the College honors a Complainant’s request for confidentiality or request that no investigation or resolution be pursued, the College’s ability to investigate the incident comprehensively or pursue disciplinary action against the alleged Respondent(s) may potentially be limited.

The presence of one or more of the above factors could lead the Title IX Coordinator to file a Formal Complaint on behalf of the College, if doing so is not clearly unreasonable, as set forth below (“Formal Complaint”). If the Title IX Coordinator determines that the College cannot maintain a Complainant’s confidentiality, the Title IX Coordinator will inform the Complainant prior to filing the Formal Complaint.

AMNESTY

The College recognizes that students who have consumed alcohol when they are not 21 years of age or who have been using illegal drugs may be hesitant to report Sexual Harassment perpetrated against them or others. To encourage reporting, the College offers amnesty to any student who reports, in good faith, an alleged violation of this Policy involving Sexual Assault, Dating Violence, Domestic Violence, or Stalking direct at them or another person. A student who makes such a report will not be subject to disciplinary action by the College for a violation of the College’s Code of Conduct, such as underage drinking or possession or use of a controlled substance, that is related to or revealed in the course of the Sexual Harassment report or investigation, unless the College determines that the violation was serious and/or endangered the health or well-being of any other individual. However, the College reserves the right to require counseling, education, or other preventative measures to help prevent alcohol or drug violations in the future. The College’s commitment to amnesty in these situations does not prevent action by police or other legal authorities against an individual who has illegally consumed alcohol or drugs.

PRELIMINARY ASSESSMENT

After receiving a report under “Reporting Sexual Harassment,” the Title IX Coordinator will conduct a preliminary assessment to determine:

- Whether the conduct, as reported, falls or could fall within the scope of this Policy (see “Scope”); and
- Whether the conduct, as reported, constitutes or could constitute Sexual Harassment.

If the Title IX Coordinator determines that the conduct reported could not fall within the scope of this Policy, and/or could not constitute Sexual Harassment, even if investigated, the Title Coordinator will close the matter under this Policy and may notify the reporting party if doing so is consistent with the Family Educational Rights and Privacy Act (“FERPA”). The Title IX Coordinator may refer the report to other College offices, as appropriate, including for potential assessment under the under the Student Code of Conduct in the case of students and other College policies and standards, as applicable, for other persons.

If the Title IX Coordinator determines that the conduct reported could fall within the scope of this Policy, and/or could constitute Sexual Harassment, if investigated, the Title IX Coordinator will proceed to contact the Complainant (see “Contacting the Complainant”).

As part of the preliminary assessment, the Title IX Coordinator may take investigative steps to determine the identity of the Complainant, if it is not apparent from the report.

CONTACTING THE COMPLAINANT

If a report is not closed as a result of the preliminary assessment (see “Preliminary Assessment”) and the Complainant’s identity is known, the Title IX Coordinator will promptly contact the Complainant to discuss the availability of Supportive Measures (see “Supportive Measures”); to discuss and consider the Complainant’s wishes with respect to Supportive Measures; to inform the Complainant about the availability of Supportive Measures with or without filing a Formal Complaint; and to explain the process for filing and pursuing a Formal Complaint. The Complainant will also be provided options for filing complaints with the local police and information about resources that are available on campus and in the community.
SUPPORTIVE MEASURES

If a report is not closed as a result of the preliminary assessment (see “Preliminary Assessment”), the College will offer and make available Supportive Measures to the Complainant regardless of whether the Complainant elects to file a Formal Complaint.

Contemporaneously with the Respondent being notified of a Formal Complaint, the Title IX Coordinator will notify the Respondent of the availability of Supportive Measures for the Respondent, and the College will offer and make available Supportive Measures to the Respondent in the same manner in which it offers and makes them available to the Complainant. The College will also offer and make available Supportive Measures to the Respondent prior to the Respondent being notified of a Formal Complaint, if the Respondent requests such measures.

The Title IX Coordinator will provide the Complainant and Respondent with a written document (separate from this Policy) listing the available rights, options, and resources, including Supportive Measures, and describing of the College’s procedures for investigating and resolving reports of Sexual Harassment in plain, concise language.

The College will maintain the confidentiality of Supportive Measures provided to either a Complainant or Respondent, to the extent that maintaining such confidentiality does not impair the College’s ability to provide the Supportive Measures in question.

INTERIM REMOVAL

At any time after receiving a report of Sexual Harassment, the Title IX Coordinator may remove a student Respondent from one or more of the College’s Education Programs and Activities on an temporary basis if an individualized safety and risk analysis determines that an immediate threat to the physical health or safety of any student or other individual arising from the allegations of Sexual Harassment justifies removal. In the event the Title IX Coordinator imposes an interim removal, the Title IX Coordinator must offer to meet with the Respondent within twenty-four hours and provide the Respondent an opportunity to challenge the interim removal.

In the case of a Respondent who is a non-student employee (administrator, faculty, or staff), and in its discretion, the College may place the Respondent on administrative leave at any time after receiving a report of Sexual Harassment, including during the pendency of the investigation and adjudication process (see “Investigation” and “Adjudication”).

For all other Respondents, including independent contractors and guests, the College retains broad discretion to prohibit such persons from entering onto its campus and other properties at any time, and for any reason, whether after receiving a report of Sexual Harassment or otherwise.

FORMAL COMPLAINT

A Complainant may file a Formal Complaint with the Title IX Coordinator requesting that the College investigate and adjudicate a report of Sexual Harassment in accordance with the provisions “Investigation” and “Adjudication.” Provided, however, that at the time the Complainant submits a Formal Complaint, the Complainant must be participating in, or attempting to participate in, one or more of the College’s Education Programs or Activities.

A Complainant may file a Formal Complaint with the Title IX Coordinator in person, by regular mail, or by email using the contact information specified in “Reporting Sexual Harassment.” No person may submit a Formal Complaint on the Complainant’s behalf.

In any case, including a case where a Complainant elects not to file a Formal Complaint, the Title IX Coordinator may file a Formal Complaint on behalf of the College if doing so is not clearly unreasonable. Such action will normally be taken in limited circumstances involving serious or repeated conduct or where the alleged perpetrator may pose a continuing threat to the College Community. Factors the Title IX Coordinator may consider include (but are not limited to):

- The alleged Respondent is likely to commit additional acts of Sexual Harassment, such as:
Whether there have been other Sexual Harassment complaints about the same alleged Respondent;  
Whether the alleged Respondent has a history of arrests or records from a prior school indicating a history of violence;  
Whether the alleged Respondent threatened further Sexual Harassment against the Complainant or others;  
Whether the Title IX Sexual Harassment was committed by multiple perpetrators  
• The Title IX Sexual Harassment was perpetrated with a weapon  
• The Complainant is a minor  
• The College possesses other means to obtain relevant evidence of the Sexual Harassment (e.g., security cameras or personnel, physical evidence)  
• The Complainant’s report reveals a pattern of perpetration (e.g., via illicit use of drugs or alcohol) at a given location or by a particular group.

If the Complainant or the Title IX Coordinator files a Formal Complaint, then the College will commence an investigation as specified in “Reporting Sexual Harassment” and proceed to adjudicate the matter as specified in “Adjudication,” below. In all cases where a Formal Complaint is filed, the Complainant will be treated as a party, irrespective of the party’s level of participation.

In a case where the Title IX Coordinator files a Formal Complaint, the Title IX Coordinator will not act as a Complainant or otherwise as a party for purposes of the investigation and adjudication processes.

If neither the Reporting Party nor the Title IX Coordinator files a Formal Complaint, the complaint resolution provisions of this Policy will not be applied, but the Title IX Coordinator may refer the report to other College offices as appropriate.

CONSOLIDATION OF FORMAL COMPLAINTS

The College may consolidate Formal Complaints as to allegations of Sexual Harassment against more than one Respondent, or by more than one Complainant against one or more Respondents, or by one party against the other party, where the allegations of Sexual Harassment arise out of the same facts or circumstances. Where the investigation and adjudication process involve more than one Complainant or more than one Respondent, references in this Policy to the singular “party,” “Complainant,” or “Respondent” include the plural, as applicable. A Formal Complaint of Retaliation may be consolidated with a Formal Complaint of Sexual Harassment.

DISMISSAL PRIOR TO COMMENCEMENT OF INVESTIGATION

In a case where the Complainant files a Formal Complaint, the Title IX Coordinator will evaluate the Formal Complaint and must dismiss it if the Title IX Coordinator determines:

• The conduct alleged in the Formal Complaint would not constitute Sexual Harassment, even if proved; or
• The conduct alleged in the Formal Complaint falls outside the scope of the Policy specified in “Scope” (that is, because the alleged conduct did not occur in the College’s Education Programs and Activities and/or the alleged conduct occurred outside the geographic boundaries of the United States).

In the event the Title IX Coordinator determines the Formal Complaint should be dismissed pursuant to this Section, the Title IX Coordinator will provide written notice of dismissal to the parties and advise them of their right to appeal as specified in “Appeal.” The Title IX Coordinator may refer the subject matter of the Formal Complaint to other College offices, as appropriate. A dismissal pursuant to this Section is presumptively a final determination for purposes of this Policy, unless otherwise specified in writing by the Title IX Coordinator in the written notice of dismissal.
NOTICE OF FORMAL COMPLAINT

Within five (5) days of the Title IX Coordinator receiving a Formal Complaint, the Title IX Coordinator will transmit a written notice to the Complainant and Respondent that includes:

- A physical copy of this Policy or a hyperlink to this Policy;
- Sufficient details known at the time so that the parties may prepare for an initial interview with the investigator, to include the identities of the parties involved in the incident (if known), the conduct allegedly constituting Sexual Harassment, and the date and location of the alleged incident (if known);
- A statement that the Respondent is presumed not responsible for the alleged Sexual Harassment and that a determination of responsibility will not be made until the conclusion of the adjudication and any appeal;
- Notifying the Complainant and Respondent of their right to be accompanied by an advisor of their choice, as specified in “Advisor of Choice.”
- Notifying the Complainant and Respondent of their right to inspect and review evidence as specified in “Access to Evidence.”
- Notifying the Complainant and Respondent of the College’s prohibitions on retaliation and false statements specified in Sections “Bad Faith Complaints and False Information” and “Retaliation.”
- Information about resources that are available on campus and in the community.

Should the College elect, at any point, to investigate allegations that are materially beyond the scope of the initial written notice, the College will provide a supplemental written notice describing the additional allegations to be investigated.

INVESTIGATION

A. Commencement and Timing

After the written notice of Formal Complaint is transmitted to the parties, an investigator selected by the Title IX Coordinator or his/her designee will undertake an investigation to gather evidence relevant to the alleged misconduct, including inculpatory and exculpatory evidence. The burden of gathering evidence sufficient to reach a determination in the adjudication lies with the College and not with the parties. The investigation will culminate in a written investigation report, specified in “Investigation Report,” that will be submitted to the adjudicator during the selected adjudication process. Although the length of each investigation may vary depending on the totality of the circumstances, the College strives to complete each investigation within thirty (30) to forty-five (45) days of the transmittal of the written notice of Formal Complaint.

B. Equal Opportunity

During the investigation, the investigator will provide an equal opportunity for the parties to be interviewed, to present witnesses (including fact and expert witnesses), and to present other inculpatory and exculpatory evidence. Notwithstanding the foregoing, the investigator retains discretion to limit the number of witness interviews the investigator conducts if the investigator finds that testimony would be unreasonably cumulative, if the witnesses are offered solely as character references and do not have information relevant to the allegations at issue, or if the witnesses are offered to render testimony that is categorically inadmissible, such as testimony concerning sexual history of the Complainant, as specified in “Sexual History.” The investigator will not restrict the ability of the parties to gather and present relevant evidence on their own.

The investigation is a party’s opportunity to present testimonial and other evidence that the party believes is relevant to resolution of the allegations in the Formal Complaint. A party that is aware of and has a reasonable opportunity to present particular evidence and/or identify particular witnesses during the investigation, and elects not to, will be prohibited from introducing any such evidence during the adjudication absent a showing of mistake, inadvertence, surprise, or excusable neglect.
C. Documentation of Investigation

The investigator will take reasonable steps to ensure the investigation is documented. Interviews of the parties and witnesses may be documented by the investigator’s notes, audio recorded, video recorded, or transcribed. The particular method utilized to record the interviews of parties and witnesses will determined by the investigator in the investigator’s sole discretion, although whatever method is chosen shall be used consistently throughout a particular investigation.

D. Access to the Evidence

At the conclusion of the evidence-gathering phase of the investigation, but prior to the completion of the investigation report, the Investigating Officer will transmit to each party and their advisor, in either electronic or hard copy form, all evidence obtained as part of the investigation that is directly related to the allegations raised in the Formal Complaint, including evidence the College may choose not to rely on at any hearing and inculpatory or exculpatory evidence whether obtained from a party or some other source. Thereafter, the parties will have ten (10) days in which to submit to the investigator a written response, which the investigator will consider prior to completing the investigation report.

The parties and their advisors are permitted to review the evidence solely for the purposes of this grievance process and may not duplicate or disseminate the evidence to the public.

E. Investigation Report

After the period for the parties to provide any written response as specified “Access to Evidence” has expired, the investigator will complete a written investigation report that fairly summarizes the various steps taken during the investigation, summarizes the relevant evidence collected, lists material facts on which the parties agree, and lists material facts on which the parties do not agree. When the investigation report is complete, the investigator will transmit a copy to the Title IX Coordinator. The investigator will also transmit the investigation report to each party and their advisor, in either electronic or hard copy form.

ADJUDICATION PROCESS SELECTION

After the investigator has sent the investigation report to the parties, the Title IX Coordinator will transmit to each party a notice advising the party of the two different adjudication processes specified in “Adjudication.” The notice will explain that the hearing process specified in “Hearing Process” is the default process for adjudicating all Formal Complaints and will be utilized unless both parties voluntarily consent to administrative adjudication as specified in “Administrative Adjudication (Optional)” as a form of informal resolution. The notice will be accompanied by a written consent to administrative adjudication and will advise each party that, if both parties execute the written consent to administrative adjudication, then the administrative adjudication process will be used in lieu of the hearing process. Parties are urged to carefully review this Policy (including the entirety of “Adjudication”), consult with their advisor, and consult with other persons as they deem appropriate (including an attorney) prior to consenting to administrative adjudication.

Each party will have three (3) days from transmittal of the notice specified in this Section to return the signed written consent form to the Title IX Coordinator. If either party does not timely return the signed written consent, that party will be deemed not to have consented to administrative adjudication and the Formal Complaint will be adjudicated pursuant to the hearing process.

ADJUDICATION

A. Hearing Process

The default process for adjudicating Formal Complaints is the hearing process specified in this Section (“Hearing Process”). The hearing process will be used to adjudicate all Formal Complaints unless both parties timely consent to administrative adjudication as specified in “Adjudication Process Selection.”
1. Hearing Officer

After selection of the hearing process as the form of administrative adjudication, the Title IX Coordinator will promptly appoint a hearing officer who will oversee the hearing process and render a determination of responsibility for the allegations in the Formal Complaint, at the conclusion of the hearing process. The Title IX Coordinator will see that the hearing officer is provided a copy of the investigation report and a copy of all evidence transmitted to the parties by the investigator as specified in “Access to Evidence.”

2. Hearing Notice and Response to the Investigation Report

After the hearing officer is appointed by the Title IX Coordinator, the hearing officer will promptly transmit written notice to the parties notifying the parties of the hearing officer’s appointment; setting a deadline for the parties to submit any written response to the investigation report; setting a date for the pre-hearing conference; setting a date and time for the hearing; and providing a copy of the College’s Hearing Procedures. Neither the pre-hearing conference, nor the hearing itself, may be held any earlier than ten (10) days from the date of transmittal of the written notice specified in this Section (“Hearing Notice and Response to the Investigation Report”).

A party’s written response to the investigation report must include:

- To the extent the party disagrees with the investigation report, any argument or commentary regarding such disagreement;
- Any argument that evidence should be categorically excluded from consideration at the hearing based on privilege, relevancy, the prohibition on the use of sexual history specified in “Sexual History,” or for any other reason;
- A list of any witnesses that the party contends should be requested to attend the hearing pursuant to an attendance notice issued by the hearing officer;
- A list of any witnesses that the party intends to bring to the hearing without an attendance notice issued by the hearing officer;
- Any objection that the party has to the College’s Hearing Procedures;
- Any request that the parties be separated physically during the pre-hearing conference and/or hearing;
- The name and contact information of the advisor who will accompany the party at the pre-hearing conference and hearing;
- If the party does not have an advisor who will accompany the party at the hearing, a request that the College provide an advisor for purposes of conducting questioning as specified in “Hearing.”

A party’s written response to the investigation report may also include:

- Argument regarding whether any of the allegations in the Formal Complaint are supported by a preponderance of the evidence; and
- Argument regarding whether any of the allegations in the Formal Complaint constitute Sexual Harassment.

3. Pre-Hearing Conference

Prior to the hearing, the hearing officer will conduct a pre-hearing conference with the parties and their advisors. The pre-hearing conference will be conducted live, with simultaneous and contemporaneous participation by the parties and their advisors. By default, the pre-hearing conference will be conducted with the hearing officer, the parties, the advisors, and other necessary College personnel together in the same physical location. However, upon request of either party, the parties will be separated into different rooms with technology enabling the parties to participate simultaneously and contemporaneously by video and audio.

In the hearing officer’s discretion, the pre-hearing conference may be conducted virtually, by use of video and audio technology, where all participants participate simultaneously and contemporaneously by use of such technology.
During the pre-hearing conference, the hearing officer will discuss the hearing procedures with the parties; address matters raised in the parties’ written responses to the investigation report, as the hearing officer deems appropriate; discuss whether any stipulations may be made to expedite the hearing; discuss the witnesses the parties have requested be served with notices of attendance and/or witnesses the parties plan to bring to the hearing without a notice of attendance; and resolve any other matters that the hearing officer determines, in the hearing officer’s discretion, should be resolved before the hearing.

4. Issuance of Notices of Attendance

After the pre-hearing conference, the hearing officer will transmit notices of attendance to any College employee (including administrator, faculty, or staff) or student whose attendance is requested at the hearing as a witness. The notice will advise the subject of the specified date and time of the hearing and advise the subject to contact the hearing officer immediately if there is a material and unavoidable conflict.

The subject of an attendance notice should notify any manager, faculty member, coach, or other supervisor, as necessary, if attendance at the hearing will conflict with job duties, classes, or other obligations. All such managers, faculty members, coaches, and other supervisors are required to excuse the subject of the obligation, or provide some other accommodation, so that the subject may attend the hearing as specified in the notice.

The College will not issue a notice of attendance to any witness who is not an employee or a student.

5. Hearing

After the pre-hearing conference, the hearing officer will convene and conduct a hearing pursuant to the College’s Hearing Procedures. The hearing will be audio recorded. The audio recording will be made available to the parties for inspection and review on reasonable notice, including for use in preparing any subsequent appeal.

The hearing will be conducted live, with simultaneous and contemporaneous participation by the parties and their advisors. By default, the hearing will be conducted with the hearing officer, the parties, the advisors, witnesses, and other necessary College personnel together in the same physical location. However, upon request of either party, the parties will be separated into different rooms with technology enabling the parties to participate simultaneously and contemporaneously by video and audio. Neither party will be compelled to testify in the physical presence of the other party.

In the hearing officer’s discretion, the hearing may be conducted virtually, by use of video and audio technology, where all participants participate simultaneously and contemporaneously by use of such technology.

While the Hearing Procedures and rulings from the hearing officer will govern the particulars of the hearing, each hearing will include, at a minimum:

- Opportunity for each party to address the hearing officer directly and to respond to questions posed by the hearing officer;
- Opportunity for each party’s advisor to ask directly, orally, and in real time, relevant questions, and follow up questions, of the other party and any witnesses, including questions that support or challenge credibility;
- Opportunity for each party to raise contemporaneous objections to testimonial or non-testimonial evidence and to have such objections ruled on by the hearing officer and a reason for the ruling provided;
- Opportunity for each party to submit evidence that the party did not present during the investigation due to mistake, inadvertence, surprise, or excusable neglect;
- Opportunity for each party to make a brief closing argument.

Except as otherwise permitted by the hearing officer, the hearing will be closed to all persons except the parties, their advisors, the investigator, the hearing officer, the Title IX Coordinator, and other necessary College personnel. With the exception of the investigator and the parties, witnesses will be sequestered until such time as their testimony is complete. The parties will not be permitted to question the other party directly.
During the hearing, the parties and their advisors will have access to the investigation report and evidence that was transmitted to them pursuant to “Access to Evidence.”

While a party has the right to attend and participate in the hearing with an advisor, a party and/or advisor who materially and repeatedly violates the rules of the hearing in such a way as to be materially disruptive, may be barred from further participation and/or have their participation limited, as the case may be, in the discretion of the hearing officer.

Subject to the minimum requirements specified in this Section (“Hearing”), the hearing officer will have sole discretion to determine the manner and particulars of any given hearing, including with respect to the length of the hearing, the order of the hearing, and questions of admissibility. The hearing officer will independently and contemporaneously screen questions for relevance in addition to resolving any contemporaneous objections raised by the parties and will explain the rational for any evidentiary rulings.

The hearing is not a formal judicial proceeding and strict rules of evidence do not apply. The hearing officer will have discretion to modify the Hearing Procedures, when good cause exists to do so, and provided the minimal requirements specified in this Section (“Hearing”) are met.

6. Subjection to Questioning

In the event that any party or witness refuses to attend the hearing, or attends but refuses to submit to questioning by the parties’ advisors, the statements of that party or witness, as the case may be, whether given during the investigation or during the hearing, will not be considered by the hearing officer in reaching a determination of responsibility.

Notwithstanding the foregoing, the hearing officer may consider the testimony of any party or witness, whether given during the investigation or during the hearing, if the parties jointly stipulate that the testimony may be considered or in the case where neither party requested attendance of the witness at the hearing.

In applying this Section (“Subjection to Questioning”), the hearing officer will not draw an inference about the determination regarding responsibility based solely on a party or a witness’s absence from the live hearing and/or refusal to submit to questioning by the parties’ advisors.

Notwithstanding any provisions of this Policy, if a matter subject to a hearing is referred for consideration under the Student Code of Conduct, Faculty Handbook, or other applicable College policy or procedure, any information collected from a party or witness who refuses to attend a hearing under this Policy or attends but refuses to submit to questioning by the parties’ advisors, including testimony collected during the investigation under this Policy, may be evaluated and considered under the Code of Conduct, Faculty Handbook, or other applicable policy or procedure.

7. Deliberation and Determination

After the hearing is complete, the hearing officer will objectively evaluate all relevant evidence collected during the investigation, including both inculpatory and exculpatory evidence, together with testimony and non-testimony evidence received at the hearing, and ensure that any credibility determinations made are not based on a person’s status as a Complainant, Respondent, or witness. The hearing officer will take care to exclude from consideration any evidence that was ruled inadmissible at the pre-hearing conference, during the hearing, or by operation of “Subjection to Questioning.” The hearing officer will resolve disputed facts using a preponderance of the evidence (that is, “more likely than not”) standard and reach a determination regarding whether the facts that are supported by a preponderance of the evidence constitute one or more violations of the Policy as alleged in the Formal Complaint.
8. Discipline and Remedies

In the event the hearing officer determines that the Respondent is responsible for violating this Policy, the hearing officer will, prior to issuing a written decision, consult with an appropriate College official with disciplinary authority over the Respondent and such official will determine any discipline to be imposed. The hearing officer will also, prior to issuing a written decision, consult with the Title IX Coordinator who will determine whether and to what extent ongoing support measures or other remedies will be provided to the Complainant.

9. Written Decision

After reaching a determination and consulting with the appropriate College official and Title IX Coordinator as required by “Discipline and Remedies,” the hearing officer will prepare a written decision that will include:

- Identification of the allegations potentially constituting Sexual Harassment made in the Formal Complaint;
- A description of the procedural steps taken by the College upon receipt of the Formal Complaint, through issuance of the written decision, including notification to the parties, interviews with the parties and witnesses, site visits, methods used to gather non-testimonial evidence, and the date, location, and people who were present at or presented testimony at the hearing;
- Articulate findings of fact, made under a preponderance of the evidence standard, that support the determination;
- A statement of, and rationale for, each allegation that constitutes a separate potential incident of Sexual Harassment, including a determination regarding responsibility for each separate potential incident;
- The discipline determined by the appropriate College official as referenced in “Discipline and Remedies”;
- Whether the Complainant will receive any ongoing support measures or other remedies as determined by the Title IX Coordinator; and
- A description of the College’s process and grounds for appeal, as specified in “Appeal.”

The hearing officer’s written determination, which will include information regarding appeal rights, will be transmitted to the parties. Transmittal of the written determination to the parties concludes the hearing process, subject to any right of appeal as specified in “Appeal.”

Although the length of each adjudication by hearing will vary depending on the totality of the circumstances, the College strives to issue the hearing officer’s written determination within seven (7) days of the decision.

B. Administrative Adjudication (Optional)

In lieu of the hearing process, the parties may consent to have a Formal Complaint resolved by administrative adjudication as a form of informal resolution. Administrative adjudication is voluntary and must be consented to in writing by both parties and approved by the Title IX Coordinator as specified in “Adjudication Process Selection.” At any time prior to the issuance of the administrative officer’s determination, a party has the right to withdraw from administrative adjudication and request a live hearing as specified in “Hearing Process.”

If administrative adjudication is selected, the Title IX Coordinator will appoint an administrative officer. The Title IX Coordinator will see that the administrative adjudicator is provided a copy of the investigation report and a copy of all the evidence transmitted to the parties by the investigator as specified in “Access to Evidence.”

The administrative officer will promptly send written notice to the parties notifying the parties of the administrative officer’s appointment; setting a deadline for the parties to submit any written response to the investigation report; and setting a date and time for each party to meet with the administrative officer separately. The administrative officer’s meetings with the parties will not be held any earlier than ten (10) days from the date of transmittal of the written notice specified in this paragraph.
A party’s written response to the investigation report must include:

- To the extent the party disagrees with the investigation report, any argument or commentary regarding such disagreement;
- Any argument that a particular piece or class of evidence should be categorically excluded from consideration at the hearing based on privilege, relevancy, the prohibition on the use of sexual history specified in “Sexual History,” or for any other reason;
- Argument regarding whether any of the allegations in the Formal Complaint are supported by a preponderance of the evidence;
- Argument regarding whether any of the allegations in the Formal Complaint constitute Sexual Harassment.

After reviewing the parties’ written responses, the administrative officer will meet separately with each party to provide the party with an opportunity make any oral argument or commentary the party wishes to make and for the administrative officer to ask questions concerning the party’s written response, the investigative report, and/or the evidence collected during the investigation.

After meeting with each party, the administrative officer will objectively revaluate all relevant evidence, including both inculpatory and exculpatory evidence and ensure that any credibility determinations made are not based on a person’s status as a Complainant, Respondent, or witness. The administrative officer will take care to exclude from consideration any evidence that the administrative officer determines should be ruled inadmissible based on the objections and arguments raised by the parties in their respective written responses to the investigation report. The administrative officer will resolve disputed facts using a preponderance of the evidence (that is, “more likely than not”) standard and reach a determination regarding whether the facts that are supported by a preponderance of the evidence constitute one or more violations of the Policy as alleged in the Formal Complaint.

Thereafter, the administrative officer will consult with any College official and the Title IX Coordinator, in the manner specified in “Deliberation and Determination” and will prepare and transmit a written decision in the manner as specified in “Written Decision” which shall serve as a resolution for purposes of informal resolution.

Transmittal of the administrative officer’s written determination concludes the administrative adjudication, subject to any right of appeal as specified in “Appeal.”

Although the length of each administrative adjudication will vary depending on the totality of the circumstances, the College strives to issue the administrative officer’s written determination within twenty-one (21) days of the transmittal of the initiating written notice specified in this Section (“Administrative Adjudication”).

Other language in this Section notwithstanding, informal resolution will not be permitted if the Respondent is a non-student employee accused of committing Sexual Harassment against a student.

DISMISSAL DURING INVESTIGATION OR ADJUDICATION

The College shall dismiss a Formal Complaint at any point during the investigation or adjudication process if the Title IX Coordinator determines that one or more of the following is true:

- The conduct alleged in the Formal Complaint would not constitute Sexual Harassment, even if proved; or
- The conduct alleged in the Formal Complaint falls outside the scope of the Policy specified in “Scope” (that is, because the alleged conduct did not occur in the College’s Education Programs and Activities and/or the alleged conduct occurred outside the geographic boundaries of the United States).

The College may dismiss a Formal Complaint at any point during the investigation or adjudication process if the Title IX Coordinator determines that any one or more of the following is true:
• The Complainant provides the Title IX Coordinator written notice that the Complainant wishes to withdraw the Formal Complaint or any discrete allegations therein (in which case those discrete allegations may be dismissed);
• The Respondent is no longer enrolled or employed by the College, as the case may be; or
• Specific circumstances prevent the College from gathering evidence sufficient to reach a determination as to the Formal Complaint, or any discrete allegations therein (in which case those discrete allegations may be dismissed).

In the event the Title IX Coordinator dismisses a Formal Complaint pursuant to this Section, the Title IX Coordinator will provide written notice of dismissal to the parties and advise them of their right to appeal as specified in “Appeal.” The Title IX Coordinator may refer the subject matter of the Formal Complaint to other College offices, as appropriate. A dismissal pursuant to this Section is presumptively a final determination as it pertains to this Policy, unless otherwise specified in writing by the Title IX Coordinator in the written notice of dismissal.

APPEAL

Either party may appeal the determination of an adjudication, or a dismissal of a Formal Complaint, on one or more of the following grounds:

• A procedural irregularity affected the outcome;
• There is new evidence that was not reasonably available at the time the determination or dismissal was made, that could have affected the outcome;
• The Title IX Coordinator, investigator, hearing officer, or administrative officer, as the case may be, had a conflict of interest or bias for or against complainants or respondents generally, or against the individual Complainant or Respondent, that affected the outcome.
• The sanction is disproportionate with the outcome.

No other grounds for appeal are permitted.

A party must file an appeal within seven (7) days of the date they receive notice of dismissal or determination appealed from, or, if the other party appeals, within thee (3) days of the other party appealing, whichever is later. The appeal must be submitted in writing to the Dean of Nursing and Health Sciences, Teresa Wischmann, who serves as the appeal officer. The appeal must specifically identify the determination and/or dismissal appealed from, articulate which one or more of the three grounds for appeal are being asserted, explain in detail why the appealing party believes the appeal should be granted, and articulate what specific relief the appealing party seeks.

Promptly upon receipt of an appeal, the appeal officer will conduct an initial evaluation to confirm that the appeal is timely filed and that it invokes at least one of the permitted grounds for appeal. If the appeal officer determines that the appeal is not timely, or that it fails to invoke a permitted ground for appeal, the appeal officer will dismiss the appeal and provide written notice of the same to the parties.

If the appeal officer confirms that the appeal is timely and invokes at least one permitted ground for appeal, the appeal officer will provide written notice to the other party that an appeal has been filed and that the other party may submit a written opposition to the appeal within seven (7) days. The appeal officer shall also promptly obtain from the Title IX Coordinator any records from the investigation and adjudication necessary to resolve the grounds raised in the appeal.

Upon receipt of any opposition, or after the time period for submission of an opposition has passed without one being filed, the appeal officer will promptly decide the appeal and transmit a written decision within seven (7) days to the parties that explains the outcome of the appeal and the rationale.

The determination of a Formal Complaint, including any discipline, becomes final when the time for appeal has passed with no party filing an appeal or, if any appeal is filed, at the point when the appeal officer has resolved all appeals, either by dismissal or by transmittal of a written decision.
No further review beyond the appeal is permitted.

Although the length of each appeal will vary depending on the totality of the circumstances, the College strives to issue the appeal officer’s written decision within (21) days of an appeal being filed.

**POTENTIAL OUTCOMES FOLLOWING A FINDING OF A POLICY VIOLATION**

**A. Sanctions**

When a final determination is made that an individual has violated this Policy, the appropriate sanctions are determined based on several factors, including the severity of the conduct and any prior policy violations. Sanctions and corrective actions can include, but are not limited to: verbal warning, written warning, disciplinary hold on academic and/or financial records, performance improvement/management process, required counseling, required training or education, campus access restrictions, no trespass order (with respect to campus locations), no contact directive (with respect to an individual), loss of privileges, loss of oversight, teaching or supervisory responsibility, probation, demotion, loss of pay increase, transfer (employment), revocation of offer (employment or admission), disciplinary suspension, suspension with pay, suspension without pay, expulsion, degree revocation, termination of employment, revocation of tenure, termination of contract (for contractors).

**B. Remedies**

After a final decision is made that an individual has violated this Policy, the College may also offer additional measures, and/or take other action, to eliminate any hostile environment caused by the Sexual Harassment, prevent the recurrence of any Sexual Harassment, and remedy the effects of the Sexual Harassment on the Complainant and the College community. Remedies that may be offered or provided to a Complainant may include the same individualized services described as Supportive Measures; however, remedies need not be non-disciplinary or non-punitive and need not avoid burdening the Respondent.

**ADVISOR OF CHOICE**

From the point a Formal Complaint is made, and until an investigation, adjudication, and appeal are complete, the Complainant and Respondent will have the right to be accompanied by an advisor of their choice to all meetings, interviews, and hearings that are part of the investigation, adjudication, and appeal process. The advisor may be, but is not required to be, an attorney.

Except for the questioning of witnesses during the hearing specified in “Hearing,” the advisor will play a passive role and is not permitted to communicate on behalf of a party, insist that communication flow through the advisor, or communicate with the College about the matter without the party being included in the communication. In the event a party’s advisor of choice engages in material violation of the parameters specified in this Section and “Hearing,” the College may preclude the advisor from further participation, in which case the party may select a new advisor of their choice.

In the event a party is not able to secure an advisor to attend the hearing specified in “Hearing,” and requests the College to provide an advisor, the College will provide the party an advisor, without fee or charge, who will conduct questioning on behalf of the party at the hearing. The College will have sole discretion to select the advisor it provides. The advisor the College provides may be, but is not required to be, an attorney.

The College is not required to provide a party with an advisor in any circumstance except where the party does not have an advisor present at the hearing specified in "Hearing," and requests that the College provide an advisor.

**TREATMENT RECORDS AND OTHER PRIVILEGED INFORMATION**

During the investigation and adjudication processes, the investigator and adjudicator, as the case may be, are not permitted to access, consider, disclose, permit questioning concerning, or otherwise use:
A party’s records that are made or maintained by a physician, psychiatrist, psychologist, or other recognized professional or paraprofessional acting in the professional or paraprofessional’s capacity, or assisting in that capacity, and which are made and maintained in connection with the provision of treatment to the party; or

- Information or records protected from disclosure by any other legally-recognized privilege, such as the attorney client privilege;
- unless the College has obtained the party’s voluntary, written consent to do so for the purposes of the investigation and adjudication process.

Notwithstanding the foregoing, the investigator and/or adjudicator, as the case may be, may consider any such records or information otherwise covered by this Section if the party holding the privilege affirmatively discloses the records or information to support their allegation or defense, as the case may be.

**SEXUAL HISTORY**

During the investigation and adjudication processes, questioning regarding a Complainant’s sexual predisposition or prior sexual behavior are not relevant, unless such questions and evidence about the Complainant’s prior sexual behavior are offered to prove that someone other than the Respondent committed the conduct alleged, or if the questions and evidence concern specific incidents of the Complainant’s prior sexual behavior with respect to the Respondent and are offered to prove consent. Notwithstanding the foregoing, a Complainant who affirmatively uses information otherwise considered irrelevant by this Section for the purpose of supporting the Complainant’s allegations, may be deemed to have waived the protections of this Section.

**INFORMAL RESOLUTION**

At any time after the parties are provided written notice of the Formal Complaint as specified in “Notice of Formal Complaint,” and before the completion of any appeal specified in “Appeal,” the parties may voluntarily consent, with the Title IX Coordinator’s approval, to engage in mediation, facilitated resolution, or other form of dispute resolution the goal of which is to enter into a final resolution resolving the allegations raised in the Formal Complaint by agreement of the parties. Administrative Adjudication as specified in “Administrative Adjudication” is a form of informal resolution.

The specific manner of any informal resolution process will be determined by the parties and the Title IX Coordinator, in consultation together. Prior to commencing the informal resolution process agreed upon, the Title IX Coordinator will transmit a written notice to the parties that:

- Describes the parameters and requirements of the informal resolution process to be utilized;
- Identifies the individual responsible for facilitating the informal resolution (who may be the Title IX Coordinator, another College official, or a suitable third-party);
- Explains the effect of participating in informal resolution and/or reaching a final resolution will have on a party’s ability to resume the investigation and adjudication of the allegations at issue in the Formal Complaint; and
- Explains any other consequence resulting from participation in the informal resolution process, including a description of records that will be generated, maintained, and/or shared.

After receiving the written notice specified in this paragraph, each party must voluntarily provide written consent to the Title IX Coordinator, before the informal resolution may commence.

During the pendency of the informal resolution process, the investigation and adjudication processes that would otherwise occur are stayed and all related deadlines are suspended.

If the parties reach a resolution through the informal resolution process, and the Title IX Coordinator agrees that the resolution is not clearly unreasonable, the Title IX Coordinator will reduce the terms of the agreed resolution to writing and present the resolution to the parties for their written signature. Once both parties and the Title IX
Coordinator sign the resolution, the resolution is final, and the allegations addressed by the resolution are considered
resolved and will not be subject to further investigation, adjudication, remediation, or discipline by the College,
except as otherwise provided in the resolution itself, absent a showing that a party induced the resolution by fraud,
misrepresentation, or other misconduct or where required to avoid a manifest injustice to either party or to the
College. Notwithstanding the forgoing if the form of informal resolution is Administrative Adjudication as specified in
“Administrative Adjudication,” there shall not be an agreed resolution requiring the parties’ signatures; instead, the
determination issued by the administrative officer shall serve as the resolution and conclude the informal resolution
process, subject only to any right of appeal. With the exception of a resolution resulting from the Administrative
Adjudication process specified in “Administrative Adjudication,” all other forms of informal resolution pursuant to this
Section are not subject to appeal.

A party may withdraw their consent to participate in informal resolution at any time before a resolution has been
finalized.

Absent extension by the Title IX Coordinator, any informal resolution process must be completed within twenty-one
(21) days. If an informal resolution process does not result in a resolution within twenty-one (21) days, and absent an
extension, abeyance, or other contrary ruling by the Title IX Coordinator, the informal resolution process will be
deemed terminated, and the Formal Complaint will be resolved pursuant to the investigation and adjudication
procedures. The Title IX Coordinator may adjust any time periods or deadlines in the investigation and/or
adjudication process that were suspended due to the informal resolution.

Other language in this Section notwithstanding, informal resolution will not be permitted if the Respondent is a non-
student employee accused of committing Sexual Harassment against a student.

PRESCRIPTION OF NON-RESPONSIBILITY

From the time a report or Formal Complaint is made, a Respondent is presumed not responsible for the alleged
misconduct until a determination regarding responsibility is made final.

RESOURCES

Any individual affected by or accused of Sexual Harassment will have equal access to support and counseling services
offered through the College. The College encourages any individual who has questions or concerns to seek support of
College identified resources. The Title IX Coordinator is available to provide information about the College’s Policy
and procedure and to provide assistance. A list of existing counseling, health, mental health, victim advocacy, legal
assistance, visa and immigration assistance, student financial aid, and other services and resources available is
located at the following link: https://www.trinitycollegeqc.edu/community-resources.aspx

CONFLICTS OF INTEREST, BIAS, AND PROCEDURAL COMPLAINTS

The Title IX Coordinator, investigator, hearing officer, administrative officer, appeals officer, and informal resolution
facilitator will be free of any material conflicts of interest or material bias. Any party who believes one or more of
these College officials has a material conflict of interest or material bias must raise the concern promptly so that the
College may evaluate the concern and find a substitute, if appropriate. The parties will be notified of the identities of
the decision maker and appeal reviewer for their proceeding before those individual(s) initiate contact with either
party. The failure of a party to timely raise a concern of a conflict of interest or bias may result in a waiver of the issue
for purposes of any appeal specified in “Appeal,” or otherwise.

OBJECTIONS GENERALLY

Parties are expected to raise any objections, concerns, or complaints about the investigation, adjudication, and
appeals process in a prompt and timely manner so that the College may evaluate the matter and address it, if
appropriate.
ACADEMIC FREEDOM

The College will construe and apply this Policy consistent with the principles of academic freedom specified in the Faculty Handbook. In no case will a Respondent be found to have committed Sexual Harassment based on expressive conduct that is protected by the principles of academic freedom specified in the Faculty Handbook.

RECORDINGS

Wherever this Policy specifies that an audio or video recording will be made, the recording will be made only by the College and is considered property of the College, subject to any right of access that a party may have under this Policy, FERPA, and other applicable federal, state, or local laws. Only the College is permitted to make audio or video recordings under this Policy. The surreptitious recording of any meeting, interview, hearing, or other interaction contemplated under this Policy is strictly prohibited. Any party who wishes to transcribe a hearing by use of a transcriptionist must seek pre-approval from the hearing officer.

VENDORS, CONTRACTORS AND THIRD PARTIES

The College does business with various vendors, contractors, and other third-parties who are not students or employees of the College. Notwithstanding any rights that a given vendor, contractor, or third-party Respondent may have under this Policy, the College retains its right to limit any vendor, contractor, or third-party’s access to campus for any reason. And the College retains all rights it enjoys by contract or law to terminate its relationship with any vendor, contractor, or third-party irrespective of any process or outcome under this Policy.

BAD FAITH COMPLAINTS AND FALSE INFORMATION

It is a violation of this Policy for any person to submit a report or Formal Complaint that the person knows, at the time the report or Formal Complaint is submitted, to be false or frivolous. It is also a violation of this Policy for any person to knowingly make a materially false statement during the course of an investigation, adjudication, or appeal under this Policy. Violations of this Section are not subject to the investigation and adjudication processes in this Policy; instead, they will be addressed under the Code of Student Conduct in the case of students and other College policies and standards, as applicable, for other persons.

RETAILATION

It is a violation of this Policy to engage in Retaliation. Reports and Formal Complaints of retaliation may be made in the manner specified in “Reporting Sexual Harassment,” and “Formal Complaint.” Any report or Formal Complaint of Retaliation will be processed under this Policy in the same manner as a report or Formal Complaint of Sexual Harassment, as the case may be. The College retains discretion to consolidate a Formal Complaint of Retaliation with a Formal Complaint of Sexual Harassment for investigation and/or adjudication purposes if the two Formal Complaints share a common nexus.

Individuals who engage in Retaliation may be subject to disciplinary action that may include, but is not limited to, the sanctions listed in this Policy (“Potential Outcomes Following a Finding of a Policy Violation”), up to and including dismissal or other separation from the College.

CONFIDENTIALITY

The College will keep confidential the identity of any individual who has made a report or Formal Complaint of Sexual Harassment or Retaliation including any Complainant, the identity of any individual who has been reported to be a perpetrator of Sexual Harassment or Retaliation including any Respondent, and the identity of any witness. The College will also maintain the confidentiality of its various records generated in response to reports and Formal Complaints, including, but not limited to, information concerning Supportive Measures, notices, investigation materials, adjudication records, and appeal records. Notwithstanding the foregoing, the College may reveal the identity of any person or the contents of any record if permitted by FERPA, if necessary to carry out the College’s obligations under Title IX and its implementing regulations including the conduct of any investigation, adjudication, or
appeal under this Policy or any subsequent judicial proceeding, or as otherwise required by law. Further, notwithstanding the College’s general obligation to maintain confidentiality as specified herein, the parties to a report or Formal Complaint will be given access to investigation and adjudication materials in the circumstances specified in this Policy.

While the College will maintain confidentiality specified in this Section, the College will not limit the ability of the parties to discuss the allegations at issue in a particular case. Parties are advised, however, that the manner in which they communicate about, or discuss a particular case, may constitute Sexual Harassment or Retaliation in certain circumstances and be subject to discipline pursuant to the processes specified in this Policy.

Note that certain types of Sexual Harassment are considered crimes for which the College must disclose crime statistics in its Annual Security Report that is provided to the campus community and available to the public. These disclosures will be made without including personally identifying information.

OTHER VIOLATIONS OF THIS POLICY

Alleged violations of this Policy, other than violations of the prohibitions on Sexual Harassment and Retaliation, will be subject to review under the Student Code of Conduct for students, the Faculty Handbook for faculty, or other College policies and standards for employees.

SIGNATURES AND FORM OF CONSENT

For purposes of this Policy, either a physical signature or digital signature will be sufficient to satisfy any obligation that a document be signed. Where this policy provides that written consent must be provided, consent in either physical or electronic form, containing a physical or digital signature, as the case may be, will suffice.

DEADLINES, TIME, NOTICES, AND METHOD OF TRANSMITTAL

Where this Policy specifies a period of days by which some act must be performed, the following method of calculation applies:

- Exclude the day of the event that triggers the period;
- Count every day, including intermediate Saturdays, Sundays, and legal holidays recognized by the federal government;
- Include the last day of the period until 5:00 p.m. central time, but if the last day is a Saturday, Sunday, or legal holiday recognized by the federal government, the period continues to run until 5:00 p.m. central time on the next day that is not a Saturday, Sunday, or legal holiday recognized by the federal government.

All deadlines and other time periods specified in this Policy are subject to modification by the College where, in the College’s sole discretion, good cause exists. Good cause may include, but is not limited to, the unavailability of parties or witnesses; the complexities of a given case; extended holidays or closures; sickness of the investigator, adjudicator, or the parties; the need to consult with the College’s legal counsel; unforeseen weather events; and the like.

Any party who wishes to seek an extension of any deadline or other time period may do so by filing a request with the investigator, hearing officer, administrative officer, appeal officer, or Title IX Coordinator, as the case may be, depending on the phase of the process. Such request must state the extension sought and explain what good cause exists for the requested extension. The College officer resolving the request for extension may, but is not required to, give the other party an opportunity to object. Whether to grant such a requested extension will be in the sole discretion of the College.

The parties will be provided written notice of the modification of any deadline or time period specified in this Policy, along with the reasons for the modification.
Where this Policy refers to notice being given to parties “simultaneously,” notice will be deemed simultaneous if it is provided in relative proximity on the same day. It is not necessary that notice be provided at exactly the same hour and minute.

Unless otherwise specified in this Policy, the default method of transmission for all notices, reports, responses, and other forms of communication specified in this Policy will be email using College email addresses.

A party is deemed to have received notice upon transmittal of an email to their College email address. In the event notice is provided by mail, a party will be deemed to have received notice three (3) days after the notice in question is postmarked.

Any notice inviting or requiring a party or witness to attend a meeting, interview, or hearing will be provided with sufficient time for the party to prepare for the meeting, interview, or hearing as the case may be, and will include relevant details such as the date, time, location, purpose, and participants. Unless a specific number of days is specified elsewhere in this Policy, the sufficient time to be provided will be determined in the sole discretion of the College, considering all the facts and circumstances, including, but not limited to, the nature of the meeting, interview, or hearing; the nature and complexity of the allegations at issue; the schedules of relevant College officials; approaching holidays or closures; and the number and length of extensions already granted.

OTHER FORMS OF DISCRIMINATION

This Policy applies only to Sexual Harassment as defined herein. Complaints of other forms of sex discrimination are governed by the College’s Non-Discrimination Policy.

EDUCATION

Because the College recognizes that the prevention of Sexual Harassment, including Sexual Assault, Domestic Violence, Dating Violence, and Stalking, is important, it offers educational programming to a variety of groups such as: campus personnel; incoming students and new employees participating in orientation; and members of student organizations. Among other elements, such training will cover relevant definitions, procedures, and sanctions; will provide safe and positive options for bystander intervention; and will provide risk reduction information, including recognizing warning signs of abusive behavior and how to avoid potential attacks. The College’s educational programming will comply with the Illinois Preventing Sexual Violence in Higher Education Act and any other applicable federal or state law. To learn more about education resources, please contact the Title IX Coordinator.

OUTSIDE APPOINTMENTS, DUAL APPOINTMENTS, AND DELEGATIONS

The College retains discretion to retain and appoint suitably qualified persons who are not College employees to fulfill any function of the College under this Policy, including, but not limited to, the investigator, hearing officer, administrative officer, informal resolution officer, and/or appeals officer.

The College also retains discretion to appoint two or more persons to jointly fulfill the role of investigator, hearing officer, administrative officer, informal resolution officer, and/or appeals officer.

The functions assigned to a given College official under this Policy, including but not limited to the functions assigned to the Title IX Coordinator, investigator, hearing officer, administrative officer, informal resolution officer, and appeals officer, may, in the College’s discretion, be delegated by such College official to any suitably qualified individual and such delegation may be recalled by the College at any time.

TRAINING

The College will ensure that College officials acting under this Policy, including but not limited to the Title IX Coordinator, investigators, hearing officers, administrative officers, informal resolution facilitators, College provided advisors, and appeals officers receive training in compliance with 34 C.F.R. § 106.45(b)(1)(iii), the Illinois Preventing Sexual Violence in Higher Education Act, and any other applicable federal or state law.
RECORDKEEPING

The College will retain those records specified in 34 C.F.R. § 106.45(b)(10) for a period of seven years after which point in time they may be destroyed, or continue to be retained, in the College’s sole discretion. The records specified in 34 C.F.R. § 106.45(b)(10) will be made available for inspection, and/or published, to the extent required by 34 C.F.R. § 106.45(b)(10) and consistent with any other applicable federal or state law, including FERPA.

DEFINITIONS

Words used in this Policy will have those meanings defined herein and if not defined herein will be construed according to their plain and ordinary meaning.

DISCRETION IN APPLICATION

The College retains discretion to interpret and apply this Policy in a manner that is not clearly unreasonable, even if the College’s interpretation or application differs from the interpretation of the parties.

Despite the College’s reasonable efforts to anticipate all eventualities in drafting this Policy, it is possible unanticipated or extraordinary circumstances may not be specifically or reasonably addressed by the express Policy language, in which case the College retains discretion to respond to the unanticipated or extraordinary circumstance in a way that is not clearly unreasonable.

The provisions of this Policy and the Hearing Procedures referenced in “Hearing” are not contractual in nature, whether in their own right, or as part of any other express or implied contract. Accordingly, the College retains discretion to revise this Policy and the Hearing Procedures at any time, and for any reason. The College may apply Policy revisions to an active case provided that doing so is not clearly unreasonable.
Social Media Policy

PURPOSE

The purpose of this policy is to delineate the Social Media Policy of Trinity College.

POLICY AND PROCEDURE

Although the College does not seek to control a student’s right to personal communications on his or her own time, publishing and engaging in conversations on the internet via a social media site may affect the College or UnityPoint Health. Appropriate use of systems and features, as well as the appropriate content of electronic communication, is required.

- Students who are posting to a non-UnityPoint Health sponsored social media site should write in the first person, use a personal email address, and where the student’s connection to UnityPoint Health or the College is apparent, make clear he/she is speaking for him/herself and not on behalf of the College or UnityPoint Health. Students may want to include this disclaimer “The views expressed on this blog are my own and do not reflect the views of my College or UnityPoint Health.”
- Use of the internet for purposes not authorized by the College or faculty and use of social media or networking sites during class or clinical time is strictly prohibited.
- All applicable laws, regulations and UnityPoint Health policies should be followed when communicating on a social media site (HIPAA, anti-harassment, workplace violence, etc.)
- Students are prohibited from posting any content that includes client personal health information or College or UnityPoint Health related information (such that someone could deduce the identity of the person referenced in the posting) and patient images, on any social media site.
- Students should be respectful and professional regarding fellow students, faculty, staff, employees, and business partners of the College or UnityPoint Health.
- Students are legally responsible for their postings and, therefore, may be held liable if the posts are found to be defamatory, harassing, tortuous or in violation of any other applicable law.
- Any student who believes this policy has been violated should report these findings to the program coordinator.
- Any violation of this policy by a Trinity College student is grounds for action under the General Standards of Behavior Policy and may result in corrective action (see Corrective Action Policy) which may result in dismissal from the College.
- Cyberbullying/cyberstalking will not be tolerated at Trinity College of Nursing & Health Sciences. Cyberbullying is defined as the intimidation or harassment that causes a reasonable student to fear for his or her person, safety, and property. Cyberbullying includes but is not limited to the use of computers, websites, internet, cell phones, text messaging, chat rooms, and instant messages to ridicule, harass, intimidate, humiliate or otherwise bully a student. Cyberstalking is defined as sending repeated unwanted online messages that often include threats that make some victims fear for their personal safety. Cyberbullying/cyberstalking will be included under Trinity College’s Standards of Behavior.
Student Dress Code Policy

PURPOSE

The purpose of the dress code is to provide direction to students so they may optimally reflect professional standards in their appearance. An acceptable level of personal hygiene and a clean, neat and professional appearance is required in all clinical-related activities and College-related activities. A general approach of moderation and good taste should serve as a basis for choices. Classroom attire can be comfortable and casual but should be appropriate at all times.

POLICY AND PROCEDURES

The following apply when students are in uniform attire and/or on most clinical units in the student role.

College Uniform

- While at clinical, the College uniform is the designated blue gray top with College patch fixed to the left sleeve two inches from the shoulder seam and navy blue pants.
- Uniform should be clean, neat, pressed (not wrinkled), and free of tears/holes.
- For additional warmth students may wear a navy blue cover-up jacket with the College insignia fixed to the left sleeve two inches from the shoulder seam or a long sleeve plain white, black, gray or navy blue knit shirt (or turtleneck) beneath the College uniform top.

Shoes & Socks

- Shoe wear consists of clean, non-permeable, flat professional, nursing or athletic shoes with closed toes and backs, and slip resistant soles, with no holes.
- A small colored shoe logo is acceptable.
- The majority color of the shoe should be white, black, gray or navy blue with corresponding shoe laces.
- Socks should be white, black, gray or navy blue and cover the ankle.

Name badge* (see below for further information)

- Trinity student identification badges must be worn at all times while on clinical assignments.
- The badge must be visible, above the waist level, and with no adornments of any kind.

Hygiene

- Proper body cleanliness, oral hygiene, and use of deodorant must be maintained.
- Strong scents are prohibited, including but not limited to: perfume, aftershave, lotions, hair gel, and/or smoke.
- Makeup should be in moderation.

Fingernails

- Hands are to be clean and free of open or infectious lesions.
- Nails must be neatly manicured, no longer than ¼ inch beyond the fingertip.
- Clear unchipped nail polish is permitted. (Nail polish is not permitted in OR and L&D)
- Artificial nail enhancements including tips, wraps, overlays, appliques, acrylics, gels, nail jewelry or other similar items are NOT permitted.

Hair/Eyelashes

- Head bands (if worn) should be solid white, black, gray or navy blue in color.
- Hair should be clean, neat, and natural in color.
- Hair should be secured in a way that avoids falling over the shoulders or face.
- Hair accessories (if used) should be professional and compliment the uniform.
- False eyelashes are not permitted.
- For male students a neatly trimmed beard or mustache is acceptable.
Jewelry/Piercings

- Jewelry is limited to wedding and engagement ring, wrist watch with second hand, and two small button-style earrings per ear. Gauges are permitted.
- Medic Alert jewelry is permitted.
- Jewelry embedded in the skin (transdermal implant) is permitted with a clear retainer.
- Hoop earrings are not permitted.
- Smartwatches are acceptable if they have a second hand capability. They must be kept on silent mode at all times and are not to be used as a communication device.
- Visible nose, tongue, eyebrow, facial, and/or wrist jewelry are not permitted, including clear retainers.
- Visible body art is to follow the individual clinical site policy. The Dean of the College will make the final determination regarding appropriate body art.
- Some individual courses/programs have additional dress code requirements. Refer to those sections of the course syllabi or program handbook.

To avoid confusion with on-duty personnel, students who are off clinical, but have occasion to be at a clinical site or visiting patients, should not wear the College uniform, navy blue cover-up jacket, or name badge.

Some course activities, as specified by the faculty, may require the navy blue cover-up jacket. Cover-up jacket with the name badge is worn over dress street clothing when the student’s presence is required on clinical units for reasons other than giving direct client care.

*Name Badges*

Student name badges are distributed through Student Services. The name badge is utilized for identification purposes. The name badge is an official part of the College uniform. The student’s name badge must be worn during clinical assignments and at any time the student is on College or UnityPoint Health premises in the role of student (including the Health Sciences Library, College campus, off-site Trinity facilities, medical center facilities or clinical assignments at other health care facilities). It should be affixed to the collar or lapel so that the name can be easily read. The name badge gives access to campus, the commons, the resource room, and the computer lab daily from 4:30 am – 9:00 pm.

If a name badge is lost, Student Services must be notified and a replacement will be made available. Students will be assessed a $25.00 fee for the replacement badge. Badges must be returned at the time of graduation or withdrawal from the College. Students will be assessed a $25.00 fee for badges that are not returned upon graduation or program withdrawal.
Substance Abuse Policy

PURPOSE

Trinity College of Nursing & Health Sciences has a zero tolerance policy regarding drugs and alcohol. It is the policy of the College to prohibit the purchase, possession, use or abuse, sale, distribution, or manufacture of any controlled substance on campus. Any student bringing non-prescribed or illegal drugs or alcoholic beverages to the campus, using these on the grounds, or dispensing, manufacturing, or selling them on the premises will be immediately dismissed from the College.

POLICY AND PROCEDURE

Trinity College recognizes chemical dependency as an illness and a major health problem. It also recognizes substance abuse as a potential health, safety, and security problem. It is the student’s responsibility to report to Trinity College of Nursing & Health Sciences and perform all assignments in a safe and appropriate manner.

Students who are performing in an unsafe manner, and/or whose behaviors are suspect, may be subject to an assessment by a health care provider. For purposes of the policy an assessment may include, but not be limited to drug/alcohol screen, medical or mental assessment, and/or rehabilitation. Action and/or pattern of a behavior that may warrant an assessment include:

- Sudden changes in work performance
- Violation of safety policies
- Repeatedly not following work direction
- Disorientation
- Personality changes
- Behavior problems
- Drowsiness
- Slurred speech
- Staggered gait
- Glassy eyes
- Smell of alcohol or marijuana
- Frequent absences

Any faculty or staff member who identifies behavior similar or consistent with the examples given above has the responsibility to confront the student with his/her suspicions. The faculty or staff member will contact the Dean of Nursing and Health Sciences or the Director of Student Services and External Relations that there is suspected violation of the Drug-Free Policy. The faculty/staff member will escort the student to the nearest Unity Point Health – Trinity Emergency Room for drug testing/evaluation. In this case, the College will assume the costs of the testing/evaluation. Failure to participate in an assessment at the request of a Trinity College of Nursing & Health Sciences faculty or staff member will result in the assessment being considered a violation of the Drug-Free Policy.

Local statues adhere to State guidelines regarding sanction for alcohol violations. Illinois State law considers the illegal possession and use of alcohol punishable with the following penalties:

OFFENSE: Illegal sale/furnishing of alcohol
PENTALTY-FINE/JAIL: Up to $1000 and/or 364 days

OFFENSE: Illegal possession
PENTALTY-FINE/JAIL: Up to $500 and/or 6 months

OFFENSE: Use of false identification card (can be charged as either a felony or a misdemeanor)
PENTALTY-FINE/JAIL: The penalty can range from a possible fine of $10,000 or 3 years in jail.
The Federal Government has a total of 38 alcohol-related laws established. Reference these laws at http://nationalsubstanceabuseindex.org/alcohollaws.htm

Local statues adhere to State guidelines regarding sanction for violations of controlled substances, Illinois State law considers the illegal possession and use of controlled substances punishable with penalties outlined at http://www.ilga.gov/legislation/cls5?ActID=1941&ChapterID=53

Federal law supports a zero tolerance policy regarding controlled substances on College campuses; this includes the use of medical marijuana.

If the results are positive, the student will be immediately suspended from the College by the Dean of Nursing and Health Sciences, and will be granted Due Process through the Student Code of Conduct in the General Standards of Behavior Policy.

Students who are dismissed from the College are not eligible for readmission for one year. Individuals who wish to re-enter Trinity College of Nursing & Health Sciences must comply with all provisions of the readmission policy in force at the time the re-entry is requested.

At the time of any incident, the student may request immediate blood/urine tests to disprove allegations. If this is done, all costs of the blood/urine tests are the student’s responsibility.

The Substance Abuse Policy applies to students anytime he/she is using facilities at Trinity College of Nursing & Sciences (i.e., Computer Labs, Library, Unity Point Health – Trinity, or other clinical sites; or when participating in Trinity College of Nursing & Health Sciences sponsored activities.

A substance abuse prevention program is provided in an effort to educate students. This program is part of Net Learning for students, faculty, and staff.

The purpose of the Drug and Alcohol Abuse Prevention regulations is to implement Section 22 of the Drug-Free Schools and Communities Act Amendments of 1989, which added Section 1213 to the Higher Education Act. These amendments require that, as a condition of receiving funds or any other form of financial assistance under any Federal program, an institution of higher education (IHE) must certify that it has adopted and implemented a drug prevention program as described in this part.

Campus and Community Resources
Substance abuse and addictions counseling services are available to employees and students through UnityPoint Health, Trinity and the Student Assistance Program (SAP). To request information or to set an appointment with SAP call 800-383-7900.

For assistance with contacting community resources, students can meet with the Director of Student Services and External Relations or their academic advisor. Listed below are examples of agencies and resources available in the community:

Counseling:

- **Family Resources**
  
  2800 Eastern Avenue  
  Davenport, IA 52803  
  563-326-6431

- **Vera French Community Mental Health**
  
  1441 W. Central Park Avenue  
  Davenport IA 52804  
  563-383-1900
Treatment:

- **Riverside Outpatient Center**
  UnityPoint Health, Trinity Rock Island Campus
  2701 17th Street
  Rock Island IL 61201
  309-779-2800

- **Rock Island County Council on Addictions**
  1607 John Deere Road
  East Moline, IL 61244
  309-792-0292

Support Groups:

- **Narcotics Anonymous**
  1706 Brady Street
  Davenport, IA 52803
  563-328-5228

- **Alcoholics Anonymous, Illowa Intergroup**
  1707 Brady Street
  Suite 201
  Davenport, IA 52803
  309-764-1016 - 24 HR Answering Services

Other treatment, counseling and support groups may be available in the area. Trinity College of Nursing & Health Sciences does not endorse any one agency over another.
Transcript Policy

PURPOSE

Transcripts will include all courses taken at the College, and its cooperating institutions while enrolled as a Trinity student.

POLICY AND PROCEDURE

Transcript Requests
Transcripts must be requested online through Parchment, located on the College Website at www.trinitycollegeqc.edu.

Transcripts that are picked up by the student are stamped as being "Issued to Student." If you require transcripts without this stamp, please have them sent directly to the intended recipient. **Transcripts will not be released if the student’s account is on hold for noncompliance of the Financial Aid Obligation Policy.**

Transcript Retention
Transcripts submitted to the College for admission or transfer credit become the property of the College and cannot be returned to the student or forwarded to other institutions.

Transcripts submitted by individuals who do not enroll at Trinity College will remain on file for one academic year at which time they will be destroyed.
Transfer Credit Policy

PURPOSE

Academic credit is accepted from institutions that are either regionally or nationally accredited. The Dean of Nursing & Health Sciences and/or the Registrar must approve transfer credit. Only those credits that are applicable to the student’s curriculum at the College will be accepted for transfer. All transfer credit will be equated to semester hours of credit. All transcripts become the official property of the College and will not be returned to the student or issued to another institution.

DEFINITION

A transfer student is defined as a student who has earned college credit at a postsecondary institution and who desires to transfer or use that credit at another post-secondary institution. Applicants who wish to transfer into the College will be considered for admission after they complete the application process. Transfer students follow the same application schedule as all other students in applying for admission to the College.

POLICY AND PROCEDURE

Credit that is acceptable for transfer will not impact the student’s cumulative grade point average at the College. The student’s transcript will indicate the institutions where the approved transfer courses were taken and the semester hours that were earned. Transfer credit is indicated on the College transcript as credit (CR). Only courses with a grade of C or above (2.0 GPA on a 4.0 scale) will be considered for transfer credit.

Evaluation of International Transcripts Policy

Academic records obtained outside the U.S. must be evaluated by Educational Perspectives, a company recognized by the National Association of Credential Evaluation Services (NACES). Applicants will be asked to submit their transcripts directly to Educational Perspectives, and request a Catalog Match. If you do not use Catalog Match, your evaluation will NOT meet the requirement. Please visit https://www.edperspective.org/ Trinity College reviews transcript reports on a case by case basis.

CLEP and DSST Credits

CLEP (College Level Examination Program) and DSST (Dantes Subject Standardized Tests) are both credit-by-examination programs. CLEP and DSST subject level exams test the student’s comprehension of the material presented in an equivalent college-level course. Official transcripts for CLEP or DSST credit by examination must be submitted to the Registrar’s office for transfer credit evaluation. For more information contact the Registrar at Trinity College of Nursing & Health Sciences or you may visit the websites. The website for CLEP is clep.collegeboard.org; and the website for DSST is getcollegecredit.com.

Advanced Placement Credits

Advanced Placement (AP) is a Program designed to recognize high school students who take college-level courses in secondary school. Participating students may opt to take the subject Advanced Placement Exam. Trinity College of Nursing & Health Sciences accepts scores of 3 or higher on placement exams. Official transcripts for CLEP or DSST credit by examination must be submitted to the Registrar’s office for transfer credit evaluation.

Transfer credit shall be determined on the following basis:

Recognizing that each College Program is separate, College credit shall only be transferred into the student’s program of study. As applicable, additional credit will be transferred upon acceptance into another College Program. In general, college-level courses in which grades of “C” (2.0) or above are acceptable for transfer to Trinity College.

Current students seeking transfer credit advisement for an additional program must request a review of transcript(s). Transcripts will be reviewed for relevant transfer credit. This process can be initiated through the Registrar.
General Education Courses and Cooperative Agreements

General education provides students with foundational knowledge upon which health science education is built. The faculty believe that behavioral changes occur through the acquisition of knowledge, skills, and attitudes. The faculty recognize that students need broad areas of learning in order to function responsibly in a rapidly changing, global environment. General education fosters an appreciation of the environment and cultural differences. Students grow in wisdom and develop the intellectual skills of accurate observation, problem-solving, and critical thinking. General education encourages clear and effective communication using the written and spoken word.

All academic degree programs require general education as a component of the curriculum, which is designed to help each student develop as a liberally-educated person who possesses skills and competencies essential to function as a mature and responsible individual in a modern society.

General education courses ensure that, in keeping with Trinity College’s Mission, graduates will have the following competencies:

- Demonstrate effective communication through writing and speaking.
- Apply critical thinking and problem solving skills.
- Demonstrate knowledge of diverse human behaviors in the global environment.
- Apply mathematical logic and scientific reasoning skills.

The College maintains cooperative agreements with other colleges to provide general education courses for the College’s academic programs. Registration, billing, and financial aid for all coursework are completed through Trinity College once accepted and registered as a Trinity College student. General education courses are not offered at Trinity College, and thus are evaluated to determine how each course fulfills the College’s general education requirements.

Trinity College uses course descriptions and syllabi from Black Hawk College (BHC), Eastern Iowa Community College (EICC), and Portage (POR) to measure general education course standards for general education transfer credit. To be eligible for transfer credit, a course must be substantially equivalent to a similar BHC, EICC, or POR course in terms of content and rigor. Course descriptions and syllabi from the institution the student attended, are used to determine whether courses are suitable for transfer credit.

Courses not Meeting Credit Hour Requirements

If a course does not meet the credit hour requirement, credits may be “borrowed” from a discipline-related course for the remaining credit hours. The Registrar will evaluate, complete, and upload an Acknowledgement of Transfer Credit form for courses approved to make up for the deficient credit hours on a case-by-case basis. If a course meets the requirement for transfer credit based on the Transfer Credit Policy in the College Catalog, and the content of the course is equivalent to the course approved for transfer credit in the General Education Course Clusters list of the catalog, credits may be “borrowed” from a discipline-related course for the remaining credit hours. Credit hours will be borrowed from a course that is similar in content, and has prefix relating to the Cluster Option Category of the College Catalog for the course deficient in credit hours. To ensure credit hour requirements are met, transfer credit will not be awarded until successful completion of the discipline-related course.
Tuition & Fee Refund Policy

PURPOSE

The College uses the following guidelines and policy in determining tuition and fee refunds for students. It is very important to be aware of the Refund Policy for Trinity College, as well as all other institutions, including Black Hawk College, Eastern Iowa Community College District, and Portage Learning. The Refund Policy varies by institution in which the courses are offered; therefore students should check the Refund Policy for each institution.

In the event the College cancels a class, and an alternative class is not available, 100% of the class tuition will be refunded.

POLICY

A student is financially responsible for all tuition and fees for all classes not officially dropped by the appropriate refund date. For accelerated semesters, it is important for students to note the last day of the 100% refund period if they are not able to secure funds to pay tuition and fees. Students who are unable to arrange payment with the College should drop their courses within the refund period to avoid incurring non-refundable tuition, fees, and other charges. It is the student’s responsibility for dropping a course or courses (face-to-face and/or online).

If a student stops attending a course or courses without officially dropping or withdrawing, the student may receive an F due to absence from the classroom/clinical rotations and/or be withdrawn administratively by faculty. If a student never attends a course in which they are enrolled, the faculty will drop the student because of non-attendance and/or non-participation.

Withdrawal and/or non-attendance might result in change to financial aid eligibility. If a withdrawal request is sent by mail, the date the request is received by the College will determine the percentage of the refund. No refunds are granted if a student is dismissed for disciplinary reasons.

Students need to review the Financial Obligations policy and the Financial Aid policy for a detailed explanation regarding the required refund of Federal Financial Aid when withdrawing from a course or all courses.

Weather and Fire Safety Policy

PURPOSE

The purpose of this policy is to describe Trinity College’s policy for responding to actual or potential adverse or severe weather conditions.

POLICY AND PROCEDURES

Emergency Weather Closure

The Chancellor or designee will make the decision to officially close the College due to inclement weather. It is the student’s responsibility on any questionable day of bad weather to check the College website, Facebook, or call 309-779-7700 to access messages regarding cancellation of classes or clinical experiences. In addition, if classes or clinical experiences are cancelled, a call will be made to the following television stations: WQAD Channel 8, and KWQC Channel 6. The announcement will also be posted on the College website. The announcement will be made by 5:00am. Upon cancellation, the College is cancelled for the entire day, including evening (PM) experiences. If the weather becomes severe during the daytime, evening (PM) experiences will be cancelled as soon as possible.

Tornado/Severe Weather

The following information and procedures are to provide an effective plan of action in the event of a tornado alert or an actual tornado. The Chancellor, Dean of Nursing and Health Sciences or a delegated person shall decide when the plan is to be put into effect. The Trinity Alert system will be activated.

Definitions:

Tornado/Severe Thunderstorm Watch: A watch means weather conditions are right for the development of severe weather such as tornadoes or severe thunderstorms.

Tornado/Severe Thunderstorm Warning: A warning means a tornado or severe thunderstorm has been sighted or detected by radar and is posing a threat to people. When a warning issued for the geographic area, take immediate protective action. A Watch may or may not be in effect at the time of the warning.

Siren Signals: A steady sound for three minutes means a tornado has been sighted or detected and a Warning is in effect.

Procedure:

- If the National Weather Service advises UnityPoint Health, Trinity of a Tornado/Severe Thunderstorm Watch the Switchboard operator will notify the College.
- If the National Weather Service reports the direct sighting of a tornado or a funnel cloud within a five-mile radius of the Medical Center, and/or the Siren Signal is activated, the following will occur:
  - Switchboard (when at clinical site):
    o The Switchboard will make the following announcement: “Attention All Medical Center Personnel: Operation Weather Warning” and repeat three times”.
    o If a Tornado/Severe Weather Drill is being announced, the Switchboard operator will make the following announcement: “Attention All Medical Center Personnel: Operation Weather Warning Drill” and repeat three times”.
- If at the College, the faculty, staff and students, should turn on all lights, close doors and blinds. All faculty/staff/students in building should move to the following safe locations: Executive Conference Room, Storage Room by Classroom 120, Men’s Bathroom, Women’s Bathroom, or Leininger Conference Room.
Fire Plan and Evacuation
Fire and evacuation routes are posted in each classroom, office areas, and hallways. Students need to become familiar with these routes and are provided information at orientation. If a fire is discovered, an individual should:

- R – Rescue any visitors/staff/others from immediate danger.
- A – Alarm (Pull area alarm and call “6000” to report location).
- C – Contain (Close all doors and windows throughout facility when alarm is sounded and never break an automatic closure fire door unless evacuating).
- E – Extinguish (Attempt to control the fire using the proper extinguisher).

A Code Red All Clear will be announced by UnityPoint Health, Trinity Safety and Security Personnel or the Fire Department personnel when it is safe to return to the building.

Trinity College of Nursing & Health Sciences conducts fire drills to ensure the integrity of the system and process. All students and personnel are required to evacuate the facility using the designated routes and exits as posted.

Emergency Services/Messages
In case of emergency, individuals can call Student Services at 309-779-7700 to locate a student on campus. Every effort is made to contact the student and relay a message.

Smoke Free Campus
Trinity College is committed to providing a safe and healthy environment for students, employees, and visitors and seeks to provide a smoke-free campus and grounds that promote wellness. Smoking is not permitted inside the College, on the College grounds or in the parking lot. Students, faculty and staff are not allowed to smoke or use tobacco products on or in any clinical site.

Definitions
“Smoking” for purposes of this policy is defined as the lighting, smoking or carrying of a lighted cigarette, pipe, cigar, or electronic smoking device.

Electronic smoking device means an electronic device that can be used to deliver nicotine or other substances to the person inhaling from the device, including, but not limited to, an electronic cigarette, cigar, cigarillo, or pipe

“Tobacco” includes the use of smokeless tobacco products other than those used to aide in the cessation of smoking or tobacco use.

“Environmental smoke” is defined as smoke emergent from the burning end of a cigarette, pipe, electronic smoking device, or cigar during active smoking, including the smoke exhaled by the smoker.

Assistance is available for students, faculty, and staff who smoke and/or who use prohibited tobacco products:

- In IA: 1-800-QUITNOW
- In IL: 1-866-QUITYES
UNDERGRADUATE PROGRAMS
BACHELOR OF SCIENCE IN HEALTH SCIENCES

History
The Bachelor of Science in Health Sciences (BSHS) program began in the fall of 2013.

Program Description
The BSHS program is a full or part-time course of study designed for students with a previous associate degree in radiography or respiratory care to earn a baccalaureate degree in Health Sciences. This degree program may be completed by other allied health professionals if the original course of study was from an accredited allied health program. The Bachelor of Science in Health Sciences program builds upon previous education and aims to broaden the skillset of the allied health professional. Graduates of the Bachelor of Science in Health Sciences program will be prepared to meet the changing needs of health care institutions in a variety of settings. Additionally, graduates will be prepared to assume leadership responsibilities and affect patient outcomes.

Graduates will be prepared to function as collaborative members within the health care team. Knowledge of leadership and management, health provider systems, communication, critical thinking, legal-ethical, teaching-learning principles, evidence-based practice, accounting, and culture care values will be integrated into the Bachelor of Science in Health Sciences curriculum.

Students will learn to critique research findings for applicability to practice, study current trends in health care, examine historical and political influences in the health care system, and apply evidence-based research and practices in the clinical setting.

Graduates will be educated to demonstrate the knowledge, proficiency, and cultural competence of an educated person, including the ability to synthesize general and professional education into clinical practice. The BSHS degree will further reinforce accountability for lifelong learning and professional career development. Graduates will be prepared to practice in diverse health care roles, including leadership and management positions, and provide knowledgeable and competent care across many health care settings.

Program Philosophy
The purpose of the BSHS program is to teach students to apply the contents of scientific inquiry within an ethical, cultural, historical, and philosophical framework. This BSHS completion program strives to provide students with the opportunity to examine the philosophical foundation, principles, methods, and assumptions of professional scientific disciplines and to explore how these disciplines interact with other disciplines in the provision of evidence-based health care.

General education and health science courses are designed to meet the changing needs of health care institutions and to prepare the graduate for leadership responsibilities. Faculty and students partner in a collaborative manner to achieve educational outcomes. Program faculty facilitate this learning process by designing learning methods and environments that are challenging and increasingly complex. Students are responsible for the quality and quantity of effort put forth in the educational endeavor. The career-ladder approach to professional education and practice is one valid choice for students and forms the basis for lifelong learning within the BSHS program.
Program Goals

Knowledge
- Analyze theoretical concepts of management utilized within the health care environment.
- Utilize accounting and supply principles to assess health care cost efficiency.
- Analyze the impact of past, present, and future trends on the delivery of health care and health care management.
- Solve complex problems and think reflectively.

Proficiency
- Demonstrate an awareness of and implement evidence-based practice pertinent to the individual’s chosen health field.
- Communicate professionally using interpersonal, oral and written skills.
- Collaborate as a member of the interdisciplinary health care team to provide comprehensive care.

Culture Care Values
- Demonstrate ability to provide culturally congruent competent care by preserving/maintaining cultural identities and diverse lifeways of healthcare consumers.
- Analyze and evaluate ethical behavior within the framework of professional standards, values, and codes.
- Practice professionalism within the program, in the health care setting, and encourage participation in the professional associations.

Admission Requirements

Admission requirements for the BSHS degree program are as follows:
- Graduation from a professionally accredited allied health program
- Current, unencumbered license/certification as a Radiographer, Respiratory Therapist, or other approved allied health profession
- Demonstration of Statistics readiness through placement testing or prior coursework
- Minimum GPA of 2.5 or higher

Note:
- Respiratory Therapists and Radiographers graduating from an accredited diploma program may be considered for admission and will be required to complete the following undergraduate courses from an accredited institution of higher education: written communication, oral communication, humanities, psychology, and college level algebra. These courses are in addition to the required general education courses required for the BSHS degree. Students graduating from allied health programs other than Radiography and Respiratory Care will have credits evaluated by the Registrar and respective Program Coordinators on a case-by-case basis.
- There is no time limit on the acceptance of credits obtained for professional licensure/certification.
- Only courses completed with a grade of “C” or above will be accepted for transfer credit.
Limited Acceptance into the Bachelor of Science in Health Sciences Program

Students currently enrolled in an approved associate degree allied health program (radiography, respiratory care, or similar program) may request Limited Acceptance (LA) into the Trinity College Bachelor of Science in Health Sciences Program. To be eligible for this limited acceptance the student must:

- Have all general education requirements for the associate degree program of study and the BSHS program completed with a 2.0 or higher GPA.
- Have completed 2 semesters in the associate degree allied health program with a 2.5 cumulative GPA or better.
- Must have a recommendation from the allied health Program Coordinator.
- Must maintain a GPA of 2.5 or better in the allied health program until graduation from the A.A.S. program.
- Take no more than 4 BSHS credits in any one semester.
- Take no more than a total of 15 BSHS credits while meeting allied health degree requirements.

Limited Acceptance students must complete a BSHS-LA form to begin the enrollment process. This form can be accessed from the College website.

Students should be aware that BSHS coursework may not be covered under their current financial aid package. If the student is using financial aid, it is required that the student meet with the Financial Aid Specialist to discuss options. BSHS classes will be billed at the current BSHS tuition rate and the student will be subject to fees associated with the enrolled course.

Bachelor of Sciences in Health Sciences Attendance Policy

Regular class attendance is important for academic success. Only with regular attendance and participation are students able to engage fully in discussion, whether online or in person, and to seek clarification concerning presented materials. Students are expected to participate in class each week.

Contact Hour Description

The unit of credit at Trinity College is the semester credit hour. Traditionally, a unit of didactic credit is earned by attending a non-laboratory class for one hour a week for 16 weeks. The BSHS program is offered through an online delivery format. Coursework is completed using an online learning platform. One semester hour for the clinical internship is calculated based on four contact hours for 16 weeks. This clinical internship is a preceptored clinical experience that is guided by a Health Sciences faculty member.

Dress Code

BSHS students must adhere to the College dress code policy concerning name badges, grooming, and jewelry.

Students in the BSHS program may, if they choose, wear a clean, college uniform, with the College insignia sewn on the left sleeve two inches down from the shoulder seam. BSHS students are expected to purchase a plain, washable lab coat/jacket with the College insignia sewn on the left sleeve two inches down from the shoulder seam for use during the clinical internship, BHS 419.

Internship

Goals of the internship include:

- Provide the intern with a broad based clinical experience offering them the necessary knowledge, skills and abilities to be leaders and educators in healthcare who can adapt in this rapidly changing environment
- Equip interns with experience and confidence to function in current and future health care systems through the use of projects and authentic assessments
- Develop communication skills to effectively interact with healthcare team members and a diverse patient population
- Provide an educational experience that will support and comply with the Code of Ethics and Scope of Practice of the Professions

Program Progression

This program is designed for the working allied health professional. As such, the BSHS curriculum allows flexibility in course progression, yet requires accountability of communication. The academic advisor will work with each student to develop an individualized plan to complete the BSHS program. Once a student enters the BSHS program, continuity of registration is expected. Continuity is defined as continuous enrollment in at least one BSHS major or general education course during the fall and spring semesters. Summer courses may be offered, but summer enrollment is not required. If a student cannot maintain continuous enrollment, the student must contact his/her academic advisor and complete either a Leave of Absence or Withdrawal form (refer to Leave of Absence and Withdrawal policies). Only two interruptions in the program of study are permitted during the BSHS program. It is the student’s responsibility to initiate the leave of absence. If a student does not either register for coursework or initiate a leave of absence, the student will be administratively withdrawn from the BSHS program at the end of the current term. The student can subsequently apply for readmission into the program but there is no guarantee of admission. Applicable forms and fees apply for readmission. A ten year maximum time limit from time of admission is set for program completion.

Students in the BSHS program who are unsuccessful in one major course must meet with their academic advisor to devise a plan for successful progression through the curriculum. Any student who receives a WF or grade below a C in two major BSHS courses will be withdrawn from the BSHS program. All general education courses must be completed with a grade of C or above.
Graduation Requirements for BSHS

Requirements for a BSHS Degree include meeting all of the following requirements:

- Fulfill the course requirements of the Baccalaureate of Science in Health Sciences curriculum
- Complete 20 semester hours in Health Sciences at the College
- Earn a minimum of 120 semester hours of credit attaining a C (2.0) cumulative grade point average which includes a C or above in each required health sciences and general education course in the curriculum
- Meet all financial obligations incurred with the College
- Be recommended by Faculty and approved by the College Governing Board to graduate.

Critical Objectives

Critical objectives are objectives deemed to be of such importance to the practice of healthcare that satisfactory performance in each objective must be maintained throughout the BSHS program. An infraction of any critical objective may result in corrective action (see Corrective Action Policy). However, corrective action may vary according to the scope and seriousness of the behavior. Infractions may result in immediate failure of the course and/or dismissal from the College. If a student demonstrates behaviors that require corrective action within a course, the student must correct the behaviors in order to pass the course. Corrective action information may be communicated between faculty within the program to maintain consistency of behavior and monitor progress. Course-related corrective actions related to critical objectives should be carefully documented by faculty, shared with students and program coordinator, and maintained in a secure file in the office of the Dean of Nursing & Health Sciences.

Critical objectives are applicable while providing patient care and when interacting with the health care team, clients, peers, faculty and others both in clinical and classroom situations. Critical objectives are listed under course outcomes in the syllabi. The expectation/outcome is that the student will demonstrate individual accountability for professional behavior.

To meet the critical objectives, the student will:

- Follow dress code
- Display professional attitude, actions, and respect when interacting with the client, family/significant others, health care team, peers, faculty, others
- Act to preserve/maintain the cultural identities of others and accommodate/negotiate diverse lifeways
- Practice within legal limits of the respective allied health profession as defined in the Illinois and Iowa Acts and Rules, policies and procedures of the assigned health care organization and/or healthcare unit/department, and recognized written standards of practice, including the health and safety requirements of the College for tuberculosis testing, CPR certification, immunizations, and OSHA and HIPAA training
- Use principles of safety including practicing within the scope of skills and knowledge when implementing care based upon the client’s physical and psychological condition, age, development level, and environment
- Demonstrate emotional and physical stability when providing care and when interacting with health care team, peers, faculty, and others
- Use honest, accurate, objective verbal and written communication in reporting and recording care, written assignments, and interacting with the health care team, clients, peers, faculty, and others
- Demonstrate ethical behaviors in complying with the standards set forth in the respective allied health Code of Ethics by reflecting integrity and confidentiality at all times
- Demonstrate accountability in attendance at clinical experience with punctuality, completion of commitments, and reporting of absences according to College policy as identified previously in this Catalog and individual course syllabus
- Demonstrate timely preparation for the clinical experience in verbal and written communication and patient care.
# BACHELOR OF SCIENCE IN HEALTH SCIENCES PROGRAM CURRICULUM PLAN

Upon acceptance, 75 credits of approved general education prerequisite requirements will be awarded toward the BSHS degree.

*A MINIMUM OF 20 SEMESTER HOURS OF PROGRAM MAJOR COURSES WITHIN THE BSHS PROGRAM MUST BE COMPLETED AT TRINITY COLLEGE OF NURSING & HEALTH SCIENCES TO MEET GRADUATION REQUIREMENTS.*
BACHELOR OF SCIENCE IN NURSING PROGRAM

History
The College Nursing Program has a rich history and a reputation for quality nursing education and service to the community. As a result of the mergers of several hospitals, there are six predecessor diploma schools of nursing with more than 4000 alumni and 100 plus years of nursing education. All alumni and nursing graduates are consolidated into the Trinity College Alumni Association, an important source of support and advocacy for the College.

The initial feasibility study for the College and its related Associate and Baccalaureate Programs in Nursing was approved in July 1992 by the Illinois Department of Professional Regulation. The College has been authorized to operate and grant degrees by the Illinois Board of Higher Education since 1994. The College opened its nursing programs in the fall of 1994.

Program Philosophy
The following nursing program philosophy at Trinity College of Nursing & Health Sciences serves as the philosophy for both the BSN and MSN programs.

Faculty believe that nursing education enables the student to acquire the knowledge and proficiencies necessary to meet the changing needs of diverse populations. Faculty embrace the tenets of culturally congruent nursing care. Caring is the unifying and dominant essence of nursing. Faculty believe in life-long learning.

Both faculty and students are responsible for educational outcomes. Faculty facilitate learning by designing learning methods and environments that are challenging and increasingly complex. Students are responsible for the quality and quantity of effort expended in their educational endeavor. Learning takes place both in formal curriculum based experiences and informal extracurricular experiences.

Faculty believe that nursing education enables the student to use the nursing process, evidence-based practice, critical thinking skills, clinical judgment, technology, and communication to manage safe, quality patient care across the health-illness continuum. Health includes the physical, mental, social, and spiritual well-being of individuals, families, groups, communities, and populations. Faculty believe that the focus of professional nursing care is wellness, health promotion, disease prevention, and quality of life across the lifespan. Faculty believe that nursing education enables the student to exhibit leadership and integrity across all healthcare settings, and integrate ethical principles from professional codes.

Learning Domains and Program Goals
The goals of the Bachelor of Science in Nursing (BSN) are organized according to the College domains of learning: knowledge, proficiency, and culture care values. All goals begin with knowledge attained from the nursing and general education courses. Knowledge, proficiency, and culture care values are integrated and dynamic.

Programs of Study
The Undergraduate Department of Nursing offers a Bachelor of Science in Nursing.
Bachelor of Science in Nursing Program Options and Descriptions

The Bachelor of Science in Nursing Program (BSN) offers three options for obtaining a BSN degree: The Accelerated Bachelor of Science in Nursing option (BSN-A), the Basic Bachelor of Science in Nursing option (BSN-B), and the Bachelor of Science in Nursing Completion option (BSN-C).

BSN-A

The Accelerated BSN (BSN-A) option is a full-time course of study designed to enable students with a previous baccalaureate degree to earn a Bachelor of Science in Nursing. This is an intensive, fast-paced program, which builds upon previous education while providing the nursing art and science content in a 15-month program. The 15-month program combines both didactic and clinical nursing experiences.

BSN-B

The Basic Bachelor of Science in Nursing (BSN-B) option is a basic or generic option that allows a student who has completed all general education courses required in a baccalaureate nursing program to take the nursing courses for a baccalaureate nursing degree over six semesters. The basic program also combines both didactic and clinical nursing experiences.

Both the BSN-A and BSN-B program option allow the graduate to apply for the National Council Licensure Examination for Registered Nurses (NCLEX-RN) to qualify for practice as a licensed Registered Professional Nurse.

BSN-C

The BSN-C is an RN to BSN Completion option that provides advanced education for the graduate of an associate degree or diploma nursing program who has passed the NCLEX-RN and already has a nursing license. The two-year program of study combines didactic and clinical nursing courses and general education courses. Students may pursue the BSN-C in a full-time or part-time capacity.

BSN graduates demonstrate the knowledge, proficiency, and cultural competence of an educated person including the ability to synthesize general and professional education and experience. The Bachelor of Science in Nursing prepares professional nurses to function as providers, managers, and leaders of direct and indirect comprehensive care in a variety of health care settings. The care is provided for diverse individuals, families, groups, and communities. Graduates of the BSN program function as collaborative members within the discipline of nursing and the interprofessional health care team. Graduates of the BSN program critique research findings for evidence-based practice and are aware of current trends and issues facing nursing. Expanded knowledge of communication, culture, leadership, and management, critical thinking, therapeutic nursing and system interventions, legal-ethical and teaching-learning principles, standardized languages, and informatics are integrated into nursing practice. Education is emphasized as a major nursing function when providing/directing care for both health promotion and illness management. The BSN program further reinforces accountability for lifelong learning and professional career development.
BSN Program Goals

Upon graduation of the BSN Degree Program at Trinity College, the graduate should be able to:

Knowledge

- Synthesize knowledge from the natural and social sciences, humanities and nursing to provide and evaluate holistic nursing care (AACN Essentials I)
- Integrate the nursing process to assist families, groups, and communities with a variety of complex and critical health needs and problems (AACN Essentials VII; IX)
- Analyze the impact of past, current, and future trends and issues on the delivery of nursing care and health care organizations and systems (AACN Essentials II; V)

Proficiency

- Incorporate evidence-based practice for delivering and evaluating nursing practice and outcomes (AACN Essentials III)
- Collaborate as a member of the interdisciplinary health care team to manage comprehensive care for individuals, families, groups, and communities (AACN Essentials VI)
- Communicate professionally using interpersonal, oral and written skills (AACN Essentials VI)
- Evaluate health promotion, risk reduction, and disease prevention modalities for use in a variety of settings (AACN Essentials VII)

Culture Care Values

- Integrate cultural care values (preservation, accommodation, restructuring) when providing nursing care to individuals, families, groups, and communities (AACN Essentials VIII; IX)
- Evaluate nursing within the framework of regulatory and professional standards, values and codes (AACN Essentials VIII)
- Integrate information technology into professional nursing practice (AACN Essentials IV)

BSN Admission

Accelerated BSN (BSN-A) Program Option Admission Policy:

Admission to the BSN-A option is highly selective and is based upon proven academic achievement attesting to the student’s ability to successfully complete an academically rigorous curriculum. In addition to the general College admission requirements, students seeking entrance into the BSN-A program must meet the following criteria:

- Hold a baccalaureate or higher degree in a non-nursing discipline
- Minimum degree GPA of 3.0 on a 4.0 scale
- Completion of all required prerequisite general education courses with a grade of C or higher
- Personal essay in a letter form addressing candidate’s professional attributes, ability to manage an accelerated curriculum and career goals

The BSN-A option student will be awarded 30 credit hours of advanced standing credit upon transcript evaluation of their non-nursing bachelor's degree. In addition, the Registrar will evaluate the student transcript to formally approve the following specific courses that must be completed with a C or above.

1. Anatomy & Physiology I – 4 semester credit hours with a lab
2. Anatomy & Physiology II – 4 semester credit hours with a lab
3. Microbiology – 4 semester credit hours with a lab
4. Advanced Science – 4 semester credit hours with a lab
5. Human Growth & Development – 3 semester credit hours
6. Statistics – 3 semester credit hours
Note: BSN-A and BSN-B students must progress through the curriculum as prescribed. A student cannot change program options or their curriculum plan “at will.” A change would necessitate a meeting with your Academic Advisor to discuss a Change of Curriculum Plan, and the completion of the Request for Change in Program or Graduation Date Form.

BSN-B Program Option Admission Policy:
In addition to the general college admission requirements, students seeking entrance into the BSN-B program option must have met the following criteria:

- Minimum cumulative GPA of 2.75 on a 4.0 scale
- Completion of all required prerequisite general education courses with a grade of C or higher
- Science courses must be completed within the last seven years prior to the date of enrollment in the program, unless the applicant has already earned a non-nursing bachelor’s degree.

The Registrar will evaluate the student transcript to formally approve the following specific courses that must be completed with a C or above. One of the following courses may be taken in the first semester of the BSN-B program (with the exception of Anatomy & Physiology I or II or Microbiology) in order to be full-time.

</tbody>
</table>

For a BSN-B applicant with a previous non-nursing baccalaureate degree; the student will be awarded 30 credit hours upon transcript analysis. In addition, the Registrar will evaluate the transcript for the following specific courses that must be completed with a C or above:

- Anatomy & Physiology I – 4 semester credit hours with a lab
- Anatomy & Physiology II – 4 semester credit hours with a lab
- Microbiology – 4 semester credit hours with a lab
- Advanced Science – 4 semester credit hours with a lab
- Human Growth & Development – 3 semester credit hours
- Statistics – 3 semester credit hours

Note: BSN-A and BSN-B students must progress through the curriculum as prescribed. A student cannot change program options or their curriculum plan “at will.” A change would necessitate a meeting with your Academic Advisor to discuss a Change of Curriculum Plan, and the completion of the Request for Change in Program or Graduation Date Form.

BSN-C Admission Policy:
The BSN-C policy will vary according to whether a student has a non-nursing bachelor’s degree. Below are the policies:
A. BSN-C (for student without a non-nursing bachelor’s degree)

In addition to the general College admission requirements, students seeking entrance into the BSN-C program must have:

- Proof of unencumbered licensure from a state board of nursing prior to the end of the first semester
- Minimum cumulative GPA 2.5 on a 4.0 scale

Students with an associate degree or diploma in nursing who have been officially accepted into the RN-BSN Completion option are awarded 71 credit hours upon transcript evaluation for their basic RN program. If the student has taken any courses in the RN-BSN Completion curriculum, these courses will be credited on an individual basis.

B. RN to BSN-C (with a non-nursing bachelor’s degree)

In addition to the general College admission requirements, students seeking entrance into the BSN-C program must have:

- Proof of unencumbered licensure from a state board of nursing prior to the end of the first semester
- Minimum cumulative GPA 2.5 or higher on a 4.0 scale

The RN-BSN Completion option student, who has already earned a non-nursing bachelor’s degree, will be awarded 71 credit hours upon transcript evaluation for their RN program. In addition, this student will be granted 12 credit hours of advanced standing upon transcript evaluation toward the BSN degree. There is no time limit on the acceptance of credits. The Registrar will evaluate student transcripts and complete a credit guide to formally approve the following specific courses that must be taken with a C or above:

1. Advanced Science with a lab
2. Statistics

Program Progression BSN-A Option

Students must progress through the curriculum as prescribed in the Accelerated BSN curriculum option. Students receiving a WF or grade below a C in a nursing course are unable to remain in the Accelerated BSN curriculum. There is no part-time BSN-A option. Students who are unsuccessful in one course are eligible to apply for readmission in the following curriculum cycle or transfer into the BSN-B option. Students who wish to transfer to the BSN-B option need to meet with the program coordinator and complete the “Request for Change in Program and/or Graduation Date.” Neither readmission in the BSN-A option or admission in the BSN-B program option is guaranteed and is based on seat availability. A student will be considered for only one readmission into the nursing program.

It is the student’s responsibility to meet with the Program Coordinator regarding curriculum options. If the student chooses the BSN-B option, an individual curriculum plan will be developed to integrate into the BSN-B curriculum.

Any student receiving two grades of WF or two grades below a C (or a combination of the two) will be withdrawn from the program and the College.

Program Progression BSN-B Option

BSN-B students receiving a WF or grade below a C in a required course are unable to progress full-time in the BSN-B curriculum. The student who wishes to remain in the BSN-B program must meet with the BSN Coordinator to complete the “Request for Change in Program &/or Graduation Date” form and complete an individualized/revised curriculum plan with a later graduation date. If the student is not eligible to continue in the curriculum due to course availability for which pre-requisites have been met, the student must withdraw from the College. The student may apply for readmission to the nursing program the following academic year. Readmission is not guaranteed. Readmission will be based on ranking and seat availability. The student will only be considered for one readmission into the BSN Program. The student must complete a College application with applicable fees.
BSN-B students must progress through the curriculum as prescribed by their approved curriculum plan. Students receiving financial aid must also consult with the Financial Aid Specialist.

Any student who is re-admitted to the BSN Program after receiving a grade below a C or a WF will be withdrawn from the College if they receive a subsequent WF or grade below a C.

Any student receiving two grades of WF or two grades below a C (or any combination of the two) will be withdrawn from the BSN Program and the College.

**Program Progression BSN-C Option**

The BSN Completion program is designed for the working RN. As such, the BSN Completion curriculum plan allows flexibility in course progression, yet requires continuity of enrollment. The academic advisor will work with each student to develop an individualized plan to complete the curriculum. Once a student enters the RN-BSN Completion program, continuity of registration is required. Continuity is defined as continuous enrollment in at least one nursing or general education course during the fall and spring semesters. Summer courses are offered in the BSN-C option, but summer enrollment is not required. If a student cannot maintain continuous enrollment, the student must contact their academic advisor and complete either a Leave of Absence or College Withdrawal form. The Leave of Absence may not exceed one academic year (two regular semesters, not counting summer term). Only two leaves of absence are allowed during the BSN-C curriculum. It is the student’s responsibility to initiate the leave of absence. Current or returning students who do not register for coursework or initiate a leave of absence will be administratively withdrawn by their academic advisor at the end of the term. The student may apply for readmission into the program. Applicable forms and fees apply for readmission.

Students in the BSN program who do not successfully progress through the curriculum due to achieving a WF or grade below C in one nursing course may continue in the program as long as the subsequent course’s pre-requisites have been met. Any student receiving a WF or grade below a C in two or more nursing courses will be withdrawn from the College.

**Standardized Assessment Test Requirement for BSN-A & BSN-B**

A standardized nursing assessment test, the ATI Comprehensive Predictor, must be passed as a requirement in order to graduate and, therefore, before taking the NCLEX-RN. The minimum required score for passing is a 95% probability and is based on national norms. The student will have two opportunities to pass the ATI Comprehensive Predictor. If a student does not pass by the second attempt, graduation will be delayed. The student will continue to work with a Virtual ATI coach until released to take the NCLEX-RN. When the College receives notification of this release, the standardized nursing assessment requirement will be met.

Students who do not meet the 95% probability score with the second attempt will be billed one general service fee unit each semester until the student is released by ATI.
Graduation Requirements for a BSN Degree

Requirements for a Bachelor of Science in Nursing Degree in the BSN-A option include meeting all of the following requirements:

- Fulfill the course requirements for the Accelerated Bachelor of Science in Nursing curriculum
- Meet all 52 credits of pre-requisite general education requirements
- Complete a minimum of 35 semester hours of nursing at the College
- Earn a minimum of 69 semester hours in nursing with a C (2.0) cumulative grade point average which includes a grade of C or above in each required nursing course
- Meet all financial obligations incurred with the College
- Attain a passing score on the standardized nursing assessment test or be released by the Virtual ATI coach to take the NCLEX-RN examination
- Be recommended by Faculty and approved by the College Governing Board to graduate

(No degree will be awarded until all requirements are met)

Requirements for a Bachelor of Science in Nursing Degree in the BSN-B option include meeting all of the following requirements:

- Fulfill the course requirements of the BSN-B curriculum option of the Bachelor of Science in Nursing
- Complete a minimum of 35 semester hours of nursing at the College
- Earn a minimum of 122 semester hours of credit attaining a C (2.0) cumulative grade point average which includes a C or above in each required nursing course and general education course in the curriculum. BSN students who transfer from the BSN-A option to the BSN-B option may graduate with 121 credits.
- Meet all financial obligations incurred with the College
- Attain a passing score on the standardized nursing assessment test or be released by the Virtual ATI coach to take the NCLEX-RN examination
- Be recommended by Faculty and approved by the College Governing Board to graduate

(No degree will be awarded until all requirements are met)

Requirements for a Bachelor of Science in Nursing Degree in the BSN-C option include meeting all of the following requirements:

- Fulfill the course requirements of the BSN-C curriculum of the Baccalaureate of Science in Nursing Program
- Complete the last 19 semester hours in Nursing at the College
- Earn a minimum of 122 semester hours of credit attaining a C (2.0) cumulative grade point average which includes a C or above in each required nursing and general education courses in the curriculum
- Meet all financial obligations incurred with the College
- Be recommended by Faculty and approved by the College Governing Board to graduate

(No degree will be awarded until all requirements are met)
Licensed Practical Nurses (LPN Nurses) Admission and Advanced Standing

**Application:** LPN’s may apply to the BSN-B nursing program. LPN’s complete all steps in the application procedure. Applicants must provide proof of the following:
- Current unencumbered LPN licensure
- Current LPN practice (practice as an LPN in the last two years or graduation from an LPN program within 8 months prior to starting the BSN program)
- Minimum GPA of 2.75 on a 4.0 scale
- All general education pre-requisite courses completed with a C or better. (Note: three general education courses from the pre-requisite list may be taken during the first semester. These courses may not include Anatomy & Physiology I, Anatomy & Physiology II, or Microbiology. These courses must be taken prior to starting the program.)
- Placement exam results (which determine the appropriate entry point and coursework required in the curriculum).

**Advanced Standing:** Advanced standing for LPNs in the Bachelor of Science in Nursing BSN-B program option is a selective process based upon an evaluation of previous academic and work experience, and results of a placement exam.

The placement exam is the National League for Nursing, Nursing Acceleration Challenge Exam (ACE) I: PN to RN Foundations of Nursing. The placement exam is scheduled by Student Services upon receipt of all application materials and approval of the nursing selection committee.

- Applicants who answer 78% or more of the questions on the placement exam correctly are awarded credit for NUR 101. Accepted applicants enter in the fall semester of their curriculum and take NUR 410: Transcultural Nursing and three general education courses if needed.
- Applicants who answer less than 78% of the questions on the placement exam correctly must complete the entire BSN-B curriculum with no advanced standing credit given.

Military Medic Admission and Advanced Standing

**Application:** Military Medics may apply to the BSN-B nursing program. Military Medics complete all steps in the College application procedure. Applicants must provide proof of the following:
- Meet minimum Military/Reservist medical experience requirements with additional civilian health care experience as needed.
  - Served in select military classifications: Army medics, Navy hospital corpsmen, Air Force flight medics, and other military medical specialists regardless of branch of service.
  - Were discharged in the last two (2) years or within five (5) years for those who have been employed in a civilian health care role.
- Minimum GPA of 2.75 on a 4.0 scale
- All general education pre-requisite courses completed with a C or better. (Note: two general education courses from the pre-requisite list may be taken during the first semester. These courses may not include Anatomy & Physiology I, Anatomy & Physiology II, or Microbiology. These courses must be taken prior to starting the program.)

**Advanced Standing:** Advanced standing for Military Medics in the Bachelor of Science in Nursing BSN-B program option is a selective process based upon an evaluation of previous academic and work experience. Accepted applicants enter in the fall semester of their curriculum.

- Qualifying military service member applicants may be awarded a total of nine (9) credits for their military training, which include:
  - NUR 101 The Art and Science of Nursing Practice - 2 credits
  - NUR 102 Adult Health Nursing - 1 credit
  - NUR 410 Transcultural Nursing - 3 credits
  - NUR 402 Professional Issues in Nursing - 3 credits
General Nursing Department Information

Critical Objectives

Critical objectives are objectives deemed to be of such importance to the practice of nursing that satisfactory performance in each objective must be maintained throughout the nursing program. An infraction of any critical objective will result in corrective action (see Corrective Action Policy). However, corrective action may vary according to the scope and seriousness of the behavior. Infractions may result in immediate failure of the course and/or dismissal from the College. If a student demonstrates behaviors that require corrective action within a course, the student must correct the behaviors in order to pass the course. Corrective action information may be communicated between faculty within the program to maintain consistency of behavior and monitor progress. Course-related corrective actions related to the course critical objectives must be carefully documented by faculty, shared with the student, Program Coordinator and Dean, and maintained in secure files in the office of the Dean of Nursing and Health Sciences.

Critical objectives are applicable while providing nursing care and when interacting with the health care team, clients, peers, faculty and others both in clinical and classroom situations. Critical objectives are listed under course outcomes in the syllabi. The expectation/outcome is that the student will demonstrate individual accountability for professional behavior.

To meet the critical objectives, the student will:

- Follow dress code
- Display professional attitude, actions, and respect when interacting with the client, family/significant others, health care team, peers, faculty, others
- Act to preserve/maintain the cultural identities of others and accommodate/negotiate diverse lifeways
- Practice within legal limits of nursing complying with established standards of care as defined in the Illinois and Iowa Nursing Acts and Rules, policies and procedures of the assigned health care organization and/or nursing unit, and recognized written standards of practice, including the health and safety requirements of the College for tuberculosis testing, CPR certification, immunizations, and OSHA and HIPAA training
- Use principles of safety including practicing within the scope of skills, knowledge, and the approved clinical guidelines of the course when implementing nursing care based upon the client’s physical and psychological condition, age, development level, and environment
- Demonstrate emotional and physical stability when providing nursing care and when interacting with health care team, peers, faculty, and others
- Use honest, accurate, objective verbal and written communication in reporting and recording nursing care, written assignments, and interacting with the health care team, clients, peers, faculty, and others
- Demonstrate ethical behaviors in complying with the standards set forth in the American Nurses Association Code of Ethics by reflecting integrity and confidentiality at all times
- Demonstrate accountability in attendance at clinical experiences with punctuality, completion of commitments, and reporting of absences according to College policy as identified previously in this Catalog and individual course syllabus
- Demonstrate timely preparation for the clinical experience in verbal and written communication and nursing care

Nursing Department Dress Code

In addition to strict adherence to the College dress code policy students on clinical rotations must have:

- a watch that displays seconds
- bandage scissors
- a stethoscope
- a black ink pen
Math for Medication Administration Requirement

Core nursing courses NUR 101A, NUR 102, NUR 102A, NUR 201, NUR 202, and NUR 203 integrate math for medication administration. A math for medication administration test appropriate to the course and delineated in each course syllabus must be passed at a level of 78% or better in order to successfully complete the course. If a student fails the first attempt, the student must undergo remediation. Following remediation, the student must retake an alternate form of the math exam and achieve a minimum of 78%. Only 3 retakes are allowed. If unsuccessful, the student will fail the course. For grading purposes, the initial score will be posted as the official test grade. In core nursing course NUR 101, math for medication administration instruction and examinations are incorporated into the course content. Students must achieve a minimum 78% average on the math content examinations in NUR 101 to meet the Math for Medication Administration requirement in NUR 101. A student who fails to meet the math for medication administration requirement in NUR 101 must retake the course.

Clinical Grading

The nursing program utilizes a Pass/Fail system for clinical evaluation. The course Clinical Evaluation Tool delineates clinical outcomes and objectives that must be met by the end of the course. Students must meet all clinical objectives and outcomes to successfully complete a course. Failure to pass the clinical component of a course results in a grade of F regardless of the didactic score.

Clinical Contact Hour Description

In the BSN Nursing program, one clinical and/or laboratory semester hour of course credit will be presented as 48 contact hours of clinical/laboratory activity over the term of the course. For a semester-length course, one clinical/laboratory semester hour of credit requires three hours of clinical/laboratory activity per week for 16 weeks. Course faculty may offer individual schedule variations.

Standardized Testing

In order to support success on the NCLEX-RN, to improve test-taking skills, and to provide additional feedback on student academic progress, various standardized exams are scheduled in the BSN curricula. The test scores will be included in final course grades.
Licensure

Upon completion, an eligible graduate who has successfully completed all requirements of the accredited program earns the opportunity to apply for the National Council Licensure Examination for Registered Nurses (NCLEX-RN) to qualify to practice as a licensed Registered Professional Nurse. For more information on obtaining a RN licensure in the state of Illinois please contact:

Illinois Department of Financial and Professional Regulation – Nursing Programs
320 West Washington Street, Third Floor
Springfield, Illinois 62786

Nursing Glossary of Terms

Code of Ethics for Nurses

© American Nurses Association, 2015

Provision 1: The nurse practices with compassion and respect for the inherent dignity, worth, and unique attributes of every person.

Provision 2: The nurse's primary commitment is to the patient, whether an individual, family, group, community, or population.

Provision 3: The nurse promotes, advocates for, and protects the rights, health, and safety of the patient.

Provision 4: The nurse has authority, accountability, and responsibility for nursing practice; makes decisions; and takes action consistent with the obligation to promote health and to provide optimal care.

Provision 5: The nurse owes the same duties to self as to others, including the responsibility to promote health and safety, preserve wholeness of character and integrity, maintain competence, and continue personal and professional growth.

Provision 6: The nurse, through individual and collaborative effort, establishes, maintains, and improves the ethical environment of the work setting and conditions of employment that are conducive to safe, quality health care.

Provision 7: The nurse, in all roles and settings, advances the profession through research and scholarly inquiry, professional standards development, and the generation of both nursing and health policy.

Provision 8: The nurse collaborates with other health professionals and the public to protect human rights, promote health diplomacy, and reduce health disparities.

Provision 9: The profession of nursing collectively through its professional organizations, must articulate nursing values, maintain the integrity of the profession, and integrate principles of social justice into nursing and health policy.

A MINIMUM OF 19 SEMESTER HOURS OF NURSING COURSES MUST BE COMPLETED AT TRINITY COLLEGE OF NURSING & HEALTH SCIENCES TO MEET GRADUATION REQUIREMENTS
RADIOGRAPHY PROGRAM

History
The Associate of Applied Science in Radiography Degree Program is a two-year course of study (four semesters and two summer sessions) combining didactic and clinical radiography courses. It continues a history of radiographic education begun in 1951 at St. Anthony’s Hospital, the predecessor to Franciscan Medical Center, and in 1952 at both Moline Public and Lutheran Hospitals, which combined to form United Medical Center. UnityPoint Health, Trinity was formed in 1992 with the consolidation of United and Franciscan Medical Centers. Today UnityPoint Health, Trinity consists of four major facilities: Rock Island Campus, Moline Campus, Bettendorf and Muscatine Campus. All of the institutions were and still are acute care facilities and Trinity is now one value-based organization with a comprehensive approach to health care in both Illinois and Iowa.

Occupational Description
Radiographers use radiographic equipment to produce images of the tissues, organs, bones, and vessels of the body, as prescribed by physicians, to assist in the diagnosis of disease or injury. Radiographers continually strive to provide quality patient care and are particularly concerned with limiting radiation exposure to patients, themselves, and others. Radiographers use problem-solving and critical-thinking skills to perform medical imaging procedures by adapting variable technical parameters of the procedure to the condition of the patient.

Job Description
Radiographers apply knowledge of anatomy, physiology, positioning, radiographic technique, and radiation biology and protection in the performance of their responsibilities. They must be able to communicate effectively with patients, other health professionals, and the public. Additional duties may include evaluating radiologic equipment, conducting a radiographic quality assurance program, providing patient education, and managing a medical imaging department. The radiographer must display competence and compassion in meeting the special needs of the patient.

Program Description
The Associate of Applied Science in Radiography degree curriculum includes 54 radiography semester hours as well as 23 general education semester hours of credit. General education courses promote the practice of oral and written communication skills, the use of mathematics and utilization of human and social awareness that promote reflective thinking and problem solving. Application of general education knowledge is an expectation for today’s health care graduates.

The dedicated curriculum prepares the graduate to practice as a professional entry-level radiographer. The curriculum is primarily sequential, combining theory classes and clinical experience to facilitate mastery of the learning process. During the educational program, students study subjects such as anatomy, biology, radiation safety and physics. The student acquires and manipulates computer images and works with some of the most technologically advanced equipment in the medical field. The student develops patient communication skills, problem solving skills and teamwork within the health care system. Emphasis is placed on developing the ability to provide culturally congruent patient care that is accurate and compassionate. Students are assigned clinical experiences using the facilities of UnityPoint Health and other health institutions within the area. The Radiography Program requires that all graduates demonstrate competency in didactic coursework and a specified list of clinical competencies to include those mandated by the American Registry of Radiologic Technologists (ARRT).

The Radiography Program has been continually accredited by the JRCERT (Joint Review Committee on Education in Radiologic Technology, 20 N. Wacker Drive, Suite 2850, Chicago, IL 60606-3182, phone: 312-704-5300) since 1961. The JRCERT accreditation process offers both a means of providing public assurance of a program meeting accreditation standards and a stimulus to programmatic improvement. JRCERT’s website can be accessed by clicking on the following link: www.jrcert.org

www.trinitycollegeqc.edu  (309) 779-7700  171
Program Philosophy
The Trinity Radiography Program prepares competent ethical and culturally sensitive radiographers that contribute to the global health care community.

Program Goals
The Program prepares graduates to:

Knowledge
- Think reflectively and problem solve

Proficiency
- Communicate effectively.
- Practice as competent entry-level radiographers

Culture Care
- Practice professionalism

Program Core Values
Faculty Believe:

- A quality curriculum provides measurable outcomes and learning activities that promote the synthesis of theory, use of current technology, competent clinical practice and professional values.
- All enrolled students have the ability and desire to learn and deserve equal educational opportunities and treatment regardless of race, color, religion, gender, age, disability and national origin.
- Learning occurs best when students are active participants in structured, guided clinical and didactic experiences utilizing active learning and adult teaching techniques. The curriculum incorporates communication, humanities, social, mathematics, and biologic sciences to support and enhance radiography education and practice.
- The student’s desire to learn is supported by a safe and progressive learning environment rich in experiences that address intellectual, creative, emotional, and physical needs.
- An education should promote the recognition, sensitivity, and appreciation of the diverse culture that is inherent throughout the global health care community.
- The graduate earns the opportunity to seek certification and licensure as a registered radiographer, to offer a significant contribution in the health care community and to enhance avenues for lifelong learning.
Certification/Licensure

Upon completion, an eligible graduate who has successfully demonstrated competency in both clinical and didactic phases of the accredited program earns the opportunity to take the National Certifying Examination in Radiography, which is administered by the American Registry of Radiologic Technologists (ARRT). Candidates are allowed three attempts to successfully complete this exam. Application for examination must be made within five years of program completion. All candidates must comply with the eligibility Rules of Ethics more fully defined later in this section.

Once registered, the graduate is qualified for employment as a Registered Technologist in Radiography (R.T.(R.)). The RT(R) must acquire 24 hours of continuing education credits every two years to maintain ARRT certification.

In addition to the ARRT requirements for continuing education, approximately two thirds of the states have licensing laws covering the practice of radiologic technology. Administration of licensing laws differs from state to state. The Illinois Emergency Management (IEMA) Division of Nuclear Safety enforces the Radiation Protection Act of 1987. This Act states Radiologic Technologists who “practice the science and art of applying x-radiation to human being for diagnostic purposes” must be accredited (ARRT) and maintain one hour of continuing education for every month since the issuance of the last accreditation. Please reference the IEMA address below or the ARRT.org web page for more information concerning state licensure.

Illinois Emergency Management Agency
Division of Nuclear Safety
1035 Outer Park Drive
Springfield, Illinois 52704
Telephone: 217-785-6133
http://www.state.il.us/iema

The student/graduate is eligible for membership in the American Society of Radiologic Technologists (ASRT), and affiliate State Societies of Radiologic Technologists.

1 Indicates course may be chosen from among approved clusters listed in the academic section of the College Catalog/Handbook
2 General education courses are taken at another institution or transferred into the major, and may be completed prior to or concurrent with major courses.

- Clinical ratio equals 64 contact hours per one semester hour of credit

| General Education Total | 23 SH |
| Major Total | 54 SH |
| AAS Program Total | 77 SH |

A MINIMUM OF 27 SEMESTER HOURS OF PROGRAM MAJOR COURSES MUST BE COMPLETED AT TRINITY COLLEGE OF NURSING & HEALTH SCIENCES TO MEET GRADUATION REQUIREMENTS
Radiography Attendance
All students are expected to attend classes on a full-time basis, which consists of a maximum of 40 hours per week, and is relative to the particular term of study. The Radiography curriculum does not allow for part-time study.

Lab/Clinical Contact Hour Description
In the radiography program, one lab course credit is presented as 32 hours of activity over the term of the course and one clinical semester hour is presented as 64 hours of activity over the term of the course. For example, for a semester-length 16-week course, one lab semester hour of credit requires two hours of lab activity per week and one clinical hour of credit requires four hours of activity per week (for 16 weeks). Course faculty may offer individual schedule variations. Students should be aware that travel will be required to clinical rotation sites. All clinical education settings are within a fifty mile radius of the College.

Dress Code
In addition to strict adherence to the College dress code policy, students on clinical rotations must wear/carry:

- A radiation monitoring device
- Anatomical lead markers

</tbody>
</table>

Exam Average
In the Radiography program an overall exam average of 77% or above must be achieved in each radiography course in order to successfully complete the course. The average will include unit exams and the final exam in each course. Courses may have additional grading requirements, which will be communicated in the syllabus at the beginning of each course. Students who do not meet the 77% exam average within a specific course will be assigned a course grade of D or F based on the percentage grade attained for exams.

Clinical Grading Scale
Grades of 83% or below are considered unacceptable in the clinical area. The clinical grading scale is higher than the didactic scale because of the strong emphasis to prepare individuals to become professional and competent entry-level radiographers. Students performing below an 84% in clinical courses will not be allowed to progress in the program.

A = 95-100%
B = 89-94%
C = 84-88%
Program Progression
Radiography students receiving a WF or grade below a C in required radiography course may be prohibited from progressing in the Radiography curriculum and will be withdrawn from the Program. Students must apply for readmission to the Radiography Program for the following academic year. Readmission is not guaranteed. Students will be ranked by the Admissions Selection Committee. Readmission will be based upon ranking and seat availability. Students wishing to be considered for readmission must complete a College application. This process must be initiated by the student. It is the student’s responsibility to complete this process in order to be considered for readmission into the Radiography Program. A student will only be considered for one readmission into the Program.

Students receiving a WF or grade below a C in two radiography courses will be withdrawn from the College and will not be considered for readmission.

Graduation Requirement for an AAS Degree in Radiography
To meet graduation requirements, students must:

- Fulfill the course requirements of the Associate of Applied Science in Radiography curriculum
- Complete a minimum of 27 semester hours in Radiography at the College
- Earn a minimum of 77 hours of credit attaining a C (2.0) cumulative grade point average, which includes a C or above in each required radiography course and general education course in the curriculum
- Meet all financial obligations incurred with the College
- Be recommended by faculty and approved for graduation by the College Governing Board

(No degree will be awarded until all requirements are met.)

Ionizing Radiation and Protection
Due to participation in the administration of ionizing radiation, the student must be aware of policies and procedures utilized in assuring safety and minimizing radiation exposure to patients, students, and others. Radiation exposure should always be kept to the lowest possible level. Students are provided with NCRP Report No. 105 concerning biological effects of radiation exposure and are advised of the separate policy regarding pregnancy. In addition, the following practices are enforced.

- Time, Distance, and Shielding are the basic components to minimize radiation exposure: The least time, the greatest distance from the source, and protective shielding with devices such as lead aprons.
- Appropriate radiation protective devices are available to students and utilization is enforced. Students must wear a personal lead apron any time a permanent barrier will not protect them from exposure. The use of a leaded thyroid shield is strongly recommended. Holding a patient during an exposure can result in direct beam exposure to unprotected areas of the body; therefore, holding of patients during exposure is prohibited.
- A radiation monitoring device is issued to each student. It must be worn at all times during clinical assignments and fastened at the collar level, outside of the lead apron. This badge is changed quarterly. Students are advised of their dosimetry reports, which are maintained by the Program and available to students.
- All students are directly supervised pre- competency and indirectly supervised post- competency by a qualified radiographer.
- Any unsatisfactory radiograph that is repeated must be directly supervised regardless of the level of student education.
- All equipment is in compliance with federal and state safety policies and regulations.
- A separate policy is available for pregnant students.
Pregnancy

It is the option of the pregnant student to inform the Program Coordinator/Clinical Coordinator of her pregnancy. If the student chooses to voluntarily inform officials of her pregnancy, it must be in writing and indicate the expected date of delivery. In the absence of this voluntary, written disclosure, a student cannot be considered pregnant. If the student chooses to disclose her pregnancy, she will receive counseling on the options available to make an informed decision based on individual needs and preferences. The options are:

- Continue both the didactic and clinical education phases
  - All clinical as well as didactic objectives must be fulfilled prior to graduation
  - The attending physician must provide written approval
- Continue only the didactic educational phase
  - All clinical as well as didactic objectives must be fulfilled prior to graduation.
  - Allowance will be made for reinstatement in the clinical phase post pregnancy
- Leave of absence from the Radiography Program
  - Discontinue didactic and clinical education phases
  - Re-enter program based on College readmission criteria

The ultimate decision regarding the previous options will be the student’s tempered by the gestation period and the student’s level of progress in the educational program. Students are required to sign a statement acknowledging explanation of options and stating option choice.

Pregnant students choosing to remain in all educational phases:

- Must wear an additional radiation monitoring device near the lower abdominal area and under the lead apron
- Must closely monitor personal monthly radiation dosimetry reports
- Will be assigned to the same clinical rotations as the non-pregnant student
- It is recommended that pregnant students observe the following precautions:
  - Stay out of the field of radiation and, other than during fluoroscopy, remain in the control booth during the exposure period
  - Wear additional lead apron or aprons in fluoroscopy, during portable exams or when otherwise necessary
- A pregnant student has the right to rescind her declaration of pregnancy at any time during gestation. If rescinded the student is no longer considered pregnant and no allowances for her condition will be made. This must be done in writing and submitted to the clinical coordinator.
Radiography Critical Objectives

Critical objectives are objectives deemed to be of such importance to the practice of healthcare that satisfactory performance in each objective must be maintained throughout the Radiography program. An infraction of any critical objective may result in corrective action (See Corrective Action Policy). However, corrective action may vary according to the scope and seriousness of the behavior. Infractions may result in immediate failure of the course and/or dismissal from the College. If a student demonstrates behaviors that require corrective action within a course, the student must correct the behaviors in order to pass the course. Corrective action information may be communicated between faculty within the program to maintain consistency of behavior and monitor progress. Course-related corrective actions related to the course critical objectives should be carefully documented by faculty, shared with the student and program coordinator and maintained in a secure file in the office of the Dean of Nursing & Health Sciences.

Critical objectives are applicable while providing patient care and when interacting with the health care team, clients, peers, faculty and others both in the clinical and classroom situations. The expectation/outcome is that the student will demonstrate individual accountability for professional behavior.

- Follow the dress code
- Display professional attitude, actions, and respect when interacting with patient, family/significant others, health care team, peers, faculty and others.
- Act to preserve/maintain the cultural identities of others and accommodate/negotiate diverse lifeways.
- Practice within legal limits of radiography complying with established standards of care as defined in:
  - Policies and procedures of assigned health care organization and recognized written standards of practice including the health and safety requirements of the college for tuberculosis, CPR certification, immunizations, and OSHA and HIPPA training.
  - Code of Ethics: American Society of Radiologic Technologist (ASRT) website: http://www.asrt.org
  - ARRT Standard of Ethics, Website: http://www.arrt.org
- Use principles of safety including practicing within the scope of skills and knowledge when implementing care based upon the patient’s physical and psychological condition, age, development level and environment.
  - Including the use of two approved patient identifiers
  - Confirm correct exam and diagnosis
  - Manipulate equipment safely so not harm is caused to the patient
- Demonstrate emotional and physical stability when providing care and when interacting with health care team, peers, faculty and others.
- Use honest, accurate, objective verbal and written communication in reporting and recording care, written assignments, and interacting with health care team, patients, peers, faculty and others.
- Demonstrate ethical behaviors
  - Complying with the standards set forth in the Code of Ethics of the ASRT and ARRT.
  - Reflecting integrity and confidentiality at all times. Following the rules and regulations in HIPAA and keeping all passwords secure and confidential.
- Demonstrate accountability in attendance at clinical experience with punctuality, completion of commitments, and reporting of absences according to Radiography Program clinical manual of education and individual course syllabi.
- Demonstrate timely preparation for the clinical experience in verbal and written communication and patient care.
- Demonstrate respect and care for radiographic equipment, supplies and teaching aides
- Assume personal responsibility for personnel radiation monitoring device, wear it at all times in the clinical area.
- Have personal ID lead markers at all times in clinic, appropriately marking images.
- Submit only correctly labeled radiographic images
- Follow the program direct and indirect supervision policies at all times.
Professional Code of Ethics

The American Registry of Radiologic Technologists (2013) establishes the following code of ethics. “The Code of Ethics shall serve as a guide by which Registered Technologists and Candidates may evaluate their professional conduct as it relates to patients, health care consumers, employers, colleagues and other members of the health care team. The Code of Ethics is intended to assist Registered Technologists and Candidates in maintaining a high level of ethical conduct and in providing for the protection, safety and comfort of patients. The Code of Ethics is aspirational:

1. The radiologic technologist conducts herself or himself in a professional manner, responds to patient needs and supports colleagues and associates in providing quality patient care.
2. The radiologic technologist acts to advance the principle objective of the profession to provide services to humanity with full respect for the dignity of mankind.
3. The radiologic technologist delivers patient care and service unrestricted by the concerns of personal attributes or the nature of the disease or illness, and without discrimination on the basis of sex, race, creed, religion or socioeconomic status.
4. The radiologic technologist practices technology founded upon theoretical knowledge and concepts, uses equipment and accessories consistent with the purposes for which they were designed, and employs procedures and techniques appropriately.
5. The radiologic technologist assesses situations; exercises care discretion and judgment; assumes responsibility for professional decisions; and acts in the best interest of the patient.
6. The radiologic technologist acts as an agent through observation and communication to obtain pertinent information for the physician to aid in the diagnosis and treatment of the patient and recognizes that interpretation and diagnosis are outside the scope of practice for the profession.
7. The radiologic technologist uses equipment and accessories, employs techniques and procedures, performs services in accordance with an accepted standard of practice, and demonstrates expertise in minimizing radiation exposure to the patient, self and other members of the health care team.
8. The radiologic technologist practices ethical conduct appropriate to the profession and protects the patient’s right to quality radiologic technology care.
9. The radiologic technologist respects confidences entrusted in the course of professional practice, respects the patient’s right to privacy and reveals confidential information only as required by law or to protect the welfare of the individual or the community.
10. The radiologic technologist continually strives to improve knowledge and skills by participating in continuing education and professional activities, sharing knowledge with colleagues and investigating new aspects of professional practice”.

American Registry of Radiologic Technologists (ARRT) Certification

At completion of the Trinity Radiography Program course curriculum, graduates are eligible to take the national certifying examination in radiography administered by the ARRT. Once registered, the graduate is qualified for entry level employment as a Registered Technologist, Radiography (R.T.(R.)). The following general qualifications apply.

“Candidates must comply with the Rules of Ethics contained in the ARRT Standards of Ethics. The Rules of Ethics are standards of minimally acceptable professional conduct for all Registered Technologists and applicants. The Rules of Ethics are intended to promote the protection, safety, and comfort of patients. Registered Technologists and applicants engaging in any of the conduct or activities noted in the Rules of Ethics, or who permit the occurrence of said conduct or activities with respect to them, have violated the Rules of Ethics and are subject to actions as described.”

One issue addressed by the Rules of Ethics is the conviction of a crime, including a felony, a gross misdemeanor, or a misdemeanor with the sole exception of speeding and parking violations. All alcohol and/or drug related violations must be reported.

All potential violations must be investigated by the ARRT in order to determine eligibility. Registered Technologists and applicants who violate the Rules of Ethics must provide the ARRT with a written explanation, including court documentation of the charges, with the application for examination. The court documentation must verify the nature of the conviction, the nature of the sentence imposed by the courts, and the current status of the sentence. If an applicant is convicted between the time of application and the exam administration date, it is the applicant’s responsibility to inform the ARRT immediately and begin the review process.

Individuals who have violated the Rules of Ethics may request a pre-application review of the violation in order to obtain a ruling of the impact on their eligibility for ARRT examination. The individual may submit a pre-application form at any time either before or after entry into an approved educational program. This review may enable the individual to avoid delays in processing the application for examination that is made at the time of graduation. The pre-application must be requested directly from the ARRT. Submission of a pre-application request form does not waive the application for examination fee, the application deadline or any of the other application procedures.
Computed Tomography Clinical Internship

In cooperation with the University of Iowa Hospitals Radiography Program, Trinity College offers the graduate technologist, who has successfully passed the ARRT certification examination, the opportunity to complete a Clinical Internship in Computed Tomography. This course is designed to enhance the registered radiographer’s skills with the science and practice of computed tomography. Students apply to the University of Iowa’s Radiography Clinical Internship Program and request to perform the clinical component at Trinity College. ([www.medicine.uiowa.edu/RadSci/](http://www.medicine.uiowa.edu/RadSci/)). The student will then apply to complete the clinical component through Trinity College. Interns are chosen on a selective process based on previous coursework completion, GPA, and clinical competency. Online didactic coursework is offered by University of Iowa. Clinical coursework is offered and transcripted through Trinity. Students will complete 640 hours of clinical coursework. The student will complete procedures in head, neck, spine/musculoskeletal, chest abdomen, pelvis and special procedures as well as quality assurance and image display/post processing. The goal is for the student to be prepared for the clinical competency requirements of the ARRT national certification examination in Computed Tomography.

The University of Iowa didactic courses complimenting the clinical component are Vascular Anatomy, Electrocardiogram and Hemodynamics, Sectional Anatomy for Imaging Sciences, CT Procedures, CT/MRI Pathology, Computed Tomography Procedures I, Computed Tomography Procedures II, and Computed Tomography Physical Principles and QC. These courses may be taken prior, during, or following the clinical component. It is strongly recommended that Sectional Anatomy for the Imaging Sciences be completed before beginning the clinical component.

Cardiovascular Interventional Clinical Internship

In cooperation with the University of Iowa Hospitals Radiography Program, Trinity College offers the graduate technologist who has successfully passed the ARRT certification examination the opportunity to complete a Clinical Internship in Cardiovascular Interventional Imaging. This course is designed to enhance the registered radiographer’s skills with the science and practice of cardiovascular imaging. Students apply to the University of Iowa’s Radiography Clinical Internship Program and request to perform the clinical component at Trinity College. ([www.medicine.uiowa.edu/RadSci/](http://www.medicine.uiowa.edu/RadSci/)). The student will then apply to complete the clinical component through Trinity College. Interns are chosen on a selective process based on previous coursework completion, GPA, and clinical competency. Online didactic coursework is offered by University of Iowa. Clinical coursework is offered and transcripted through Trinity. Students will complete 640 hours of clinical coursework. The student will complete competencies in cardiac, peripheral vascular and interventional procedures as well as sterile technique and image display/post processing. The goal is for the student to be prepared for the clinical competency requirements of the ARRT national certification examination in Cardiovascular Interventional Imaging.

The University of Iowa didactic courses complimenting the clinical component are Vascular Anatomy, CVI Principles, Electrocardiogram and Hemodynamics, CVI Peripheral Procedures and Pathology, CVI Neurology and Nonvascular Procedures and Pathology, CVI Cardiac Procedures and Pathology, and Sectional Anatomy for Imaging Sciences. It is strongly recommended that Vascular Anatomy be completed before beginning the clinical component.
## COMPUTED TOMOGRAPHY CLINICAL INTERNSHIP CURRICULUM PLAN

### OPTION 1

| Summer Semester: | | | |
|------------------|-----------------|--------------------------|
| **Course #:**    | **Description:** | **Semester Hours** |
| RSCT 4100        | Sectional Anatomy for Radiation Sciences | 3 SH |
|                  | **TOTAL**       | 3 SH |
| **Fall Semester:** | | | |
| RSCT 4120        | CT Procedures I | 3 SH |
| RSCT 4130        | CT Physical Principals & Quality Control | 4 SH |
| RT 331 CT        | Clinical Internship | 6 SH |
|                  | **TOTAL**       | 13 SH |
| **Spring Semester:** | | | |
| RSCT 4110        | CT/MRI Pathology | 3 SH |
| RSCT 4125        | CT Procedures II | 3 SH |
|                  | **TOTAL**       | 6 SH |

### OPTION 2

| Summer Semester: | | | |
|------------------|-----------------|--------------------------|
| RSCT 4100        | Sectional Anatomy For Radiation Sciences | 3 SH |
|                  | **TOTAL**       | 3 SH |
| **Fall Semester: 16 weeks** | | | |
| RSCT 4120        | CT Procedures I | 3 SH |
| RSCT 4130        | CT Physical Principals & Quality Control | 4 SH |
|                  | **TOTAL**       | 7 SH |
| **Spring Semester** | | | |
| RSCT 4110        | CT/MRI Pathology | 3 SH |
| RSCT 4125        | CT Procedures II | 3 SH |
| RT 331 CT        | Clinical Internship | 6 SH |
|                  | **TOTAL**       | 12 SH |

| CT Didactic Education Total | 16 SH |
| Clinical Internship Total  | 6 SH |
| CT Internship Program Total| 22 SH |

All “4100” courses are offered online through the University of Iowa CT Clinical Internship Program. RT 331 CT Clinical Internship is completed through Trinity College of Nursing & Health Sciences. Students must be officially accepted through the U. of Iowa to be eligible for the Clinical Internship. Registration for the University of Iowa courses is completed through U. Iowa system and may be limited. RT 331 will be registered through Trinity College Radiography Program.

All “4100” courses are offered online through the University of Iowa CVI Clinical Internship Program. RT 332 CVI Clinical Internship is completed through Trinity College of Nursing & Health Sciences. Students must be officially accepted through the U. of Iowa to be eligible for the Clinical Internship. Registration for the University of Iowa courses is completed through U. Iowa system and may be limited. RT 332 will be registered through Trinity College Radiography Program.

*RSC 4100 Sectional Anatomy for Imaging Services – 3 SH is required for the BSRS degree. It is offered each semester.*
GRADUATE NURSING PROGRAM

Program Overview

The Master of Science in Nursing (MSN) Program is based on the recommendations by the American Association of Colleges of Nursing in *The Essentials of Master’s Education in Nursing* (2011). Trinity College of Nursing & Health Sciences offers a prelicensure direct entry option and a post-licensure educator option. Both options prepare graduates to:

- Lead change to improve quality outcomes
- Advance a culture of excellence through lifelong learning
- Build and lead collaborative interprofessional care teams
- Navigate and integrate care services across the healthcare system
- Design innovative nursing practices
- Translate evidence into practice

Core courses in the MSN curricula include pathophysiology, advanced health assessment, pharmacology, healthcare policy, economics, finance, evidence-based practice, quality improvement, safety, leadership, informatics, technology, and population health.

In addition to core courses, each MSN option includes specific courses. The MSN educator option curriculum includes courses in educational theory and a practicum that prepares licensed registered nurses to provide education in a variety of settings including but not limited to colleges and health care organizations. The direct entry option curriculum includes courses that prepare the student for licensure as a registered nurse.

Graduates of the MSN program are uniquely qualified to provide care in an ever-changing global community. Education in both the classroom and clinical setting fosters mastery of higher-level thinking and broad concepts that facilitates the transformation of students into leaders who are knowledgeable, caring, and who assume accountability for professional practice and quality care outcomes.

Nursing Department Philosophy

The following nursing program philosophy at Trinity College of Nursing & Health Sciences serves as the philosophy for both the BSN and MSN programs. Faculty believe that nursing education enables the student to acquire the knowledge and proficiencies necessary to meet the changing needs of diverse populations. Faculty embrace the tenets of culturally congruent nursing care. Caring is the unifying and dominant essence of nursing. Faculty believe in life-long learning. Both faculty and students are responsible for educational outcomes. Faculty facilitate learning by designing learning methods and environments that are challenging and increasingly complex. Students are responsible for the quality and quantity of effort expended in their educational endeavor. Learning takes place both in formal curriculum-based experiences and informal extracurricular experiences. Faculty believe that nursing education enables the student to use the nursing process, evidence-based practice, critical thinking skills, clinical judgment, technology, and communication to manage safe, quality patient care across the health-illness continuum. Health includes the physical, mental, social, and spiritual well-being of individuals, families, groups, communities, and populations. Faculty believe that the focus of professional nursing care is wellness, health promotion, disease prevention, and quality of life across the lifespan. Faculty believe that nursing education enables the student to exhibit leadership and integrity across all healthcare settings and integrate ethical principles from professional codes.

Programs of Study

The College of Nursing offers a Nurse Educator and Direct Entry options.
MSN Program Goals
The goals of the Master of Science in Nursing (MSN) are organized according to the College domains of learning: knowledge, proficiency, and culture care values. All goals begin with knowledge attained from nursing and general education courses. Knowledge, proficiency, and culture care values are integrated and dynamic.

Knowledge

- Apply knowledge of the concepts and theories from nursing, education, and related disciplines to guide nursing practice. (AACN Essentials 1 - Background for Practice from Sciences and Humanities)
- Apply knowledge of information systems and effective communication skills to promote optimal patient outcomes. (AACN Essentials 5 – Informatics and Healthcare Technologies; 7 – Interprofessional Collaboration for Improving Patient and Population Health Outcomes; 9 Master’s Level Nursing Practice)

Proficiency

- Provide leadership in clinical practice, education, research utilization, and service. (AACN Essentials 2 – Organizational and Systems Leadership; 9 - Master’s –Level Nursing Practice)
- Use the process of scientific inquiry to foster best practices, validate and translate evidence into practice, and promote life-long learning. (AACN Essentials 4 – Translating and Integrating Scholarship into Practice)
- Evaluate quality and safety initiatives to assure optimum individual and population health outcomes (AACN Essentials 3 – Quality improvement & safety; 9 - Master’s – Level Nursing Practice)

Culture Care Values

- Demonstrate caring that recognizes the uniqueness and cultural diversity among individuals, families, communities, and the population. (AACN Essentials 8 – Clinical Prevention and Population Health for Improving Health)
- Practice evidence-based nursing within the framework of professional standards, values and codes, with ethical and legal considerations. (AACN Essentials 6 – Health Policy and Advocacy; 9 - Master’s Level Nursing Practice)

Graduate Program Admission Information
Specific admission requirements for both MSN program tracks can be found in this catalog under Programmatic Admission Requirements and Placement Standards.

Trinity College maintains a selective admission process that provides access to graduate education in nursing for individuals who have the skills and attributes for success in a challenging health career program. Students are offered acceptance into an MSN specialty option based on committee review of the applications received.

Application Deadlines
Applications may be submitted at any time during the year for admission consideration into the graduate nursing programs. Each of the MSN program options may have a different start date that affects application deadlines.
Transfer Credit
Recognizing that each College Program is separate, College credit shall only be transferred into the student’s program of study. As applicable, additional credit will be transferred upon acceptance into another College Program.

Current students seeking transfer credit advisement for an additional program must request a review of transcript(s). Transcripts will be reviewed for relevant transfer credit. This process can be initiated through the Registrar.

Academic credit is accepted only from institutions that are accredited by one of the regional institutional accrediting organizations. Up to six (6) credits of graduate study taken at another accredited institution may be accepted. Transfer of courses must have been completed within five (5) years of admission to the MSN program with an earned grade of 3.00 or better on a 4.00 scale for each course. Courses will be evaluated on an individual basis by the Registrar and/or Dean of Nursing & Health Sciences.

Non-Matriculated Students
Students who wish to enroll in graduate courses at the College without entering a degree program must have permission of the course faculty and/or Dean of Nursing & Health Sciences. Students may take no more than three Master of Science in Nursing (MSN) courses without matriculating into the MSN program. In addition, students must submit to Student Services:

- Proof of appropriate licensure (if required)
- Proof of course prerequisites (if any)
- Trinity College application form and fee
- Applicable tuition and fees
- Health documents (if applicable)

Admission Decisions
The materials of each prospective student are reviewed and careful consideration is given to the information included in the application packet. Admission decisions are based on the review of all materials by a selection committee, which is comprised of the program coordinator and program faculty. Trinity College does not discriminate against prospective students based on race, color, religion, age, national and ethnic origin, sexual orientation, gender, disability, or military status.

When a prospective student has completed the application process, one of the following decisions will be made:

1. Full Acceptance in Good Standing
2. Conditional Acceptance – After review of the application materials the selection committee defines the conditions of admission in a letter of conditional acceptance. Conditional applicants are those persons requesting admission with a GPA below the stated requirement for the program option; those not meeting all prerequisite course requirements.
   a. Applicants to the MSN Nursing Educator option not holding an RN license at the time of admission will be limited to 3 credits in the first semester, and a GPA of less than 3.0 will be required to submit official GRE scores (within last 5 years) and complete nine credit hours of non-clinical graduate course work with a cumulative GPA of 3.0 or above before conditional status is removed; others must satisfy course deficiencies to have conditional status removed. Upon completion of the conditions and submission of appropriate evidence, the student will receive a Letter of Acceptance indicating Full Acceptance.
3. Denied Acceptance – Students who do not meet the admission requirements of the College are denied admission. An applicant may appeal the decision in writing to the Dean of Nursing & Health Sciences. An applicant may re-apply to Trinity College of Nursing & Health Sciences if he/she fulfills the requirements of admission at a later date.
4. Wait List – Students who meet the admission criteria for the MSN program may be placed on a wait list. Students may be selected from the wait list if a seat becomes available within a specific specialty option. Students placed on a wait list are not guaranteed acceptance.
Fully qualified applicants will be admitted before conditional applicants with a GPA below the requirement.

**Critical Objectives**

Critical objectives are objectives deemed to be of such importance to the practice of nursing that satisfactory performance in each objective must be maintained throughout the nursing program. An infraction of any critical objective will result in corrective action (see Corrective Action Policy). However, corrective action may vary according to the scope and seriousness of the behavior. Infractions may result in immediate failure of the course and/or dismissal from the College. If a student demonstrates behaviors that require corrective action within a course, the student must correct the behaviors in order to pass the course. Corrective action information may be communicated between faculty within the program to maintain consistency of behavior and monitor progress. Course-related corrective actions related to the course critical objectives must be carefully documented by faculty, shared with the student, Program Coordinator and Dean, and maintained in secure files in the office of the Dean of Nursing and Health Sciences.

Critical objectives are applicable while providing nursing care and when interacting with the health care team, clients, peers, faculty and others both in clinical and classroom situations. Critical objectives are listed under course outcomes in the syllabi. The expectation/outcome is that the student will demonstrate individual accountability for professional behavior.

To meet the critical objectives, the student will:

- Follow dress code
- Display professional attitude, actions, and respect when interacting with the client, family/significant others, health care team, peers, faculty, others
- Act to preserve/maintain the cultural identities of others and accommodate/negotiate diverse lifeways
- Practice within legal limits of nursing complying with established standards of care as defined in the Illinois and Iowa Nursing Acts and Rules, policies and procedures of the assigned health care organization and/or nursing unit, and recognized written standards of practice, including the health and safety requirements of the College for tuberculosis testing, CPR certification, immunizations, and OSHA and HIPAA training
- Use principles of safety including practicing within the scope of skills, knowledge, and the approved clinical guidelines of the course when implementing nursing care based upon the client’s physical and psychological condition, age, development level, and environment
- Demonstrate emotional and physical stability when providing nursing care and when interacting with health care team, peers, faculty, and others
- Use honest, accurate, objective verbal and written communication in reporting and recording nursing care, written assignments, and interacting with the health care team, clients, peers, faculty, and others
- Demonstrate ethical behaviors in complying with the standards set forth in the American Nurses Association Code of Ethics by reflecting integrity and confidentiality at all times
- Demonstrate accountability in attendance at clinical experiences with punctuality, completion of commitments, and reporting of absences according to College policy as identified previously in this Catalog and individual course syllabus
- Demonstrate timely preparation for the clinical experience in verbal and written communication and nursing care
Grade Point Average

The student’s grade point average is determined by dividing the number of credit hours attempted into the total grade points earned. The WF or WP are not computed in the student’s GPA.

Grading is based on a percentage system. Criteria for theory and clinical grades are specific to each major discipline. Refer to each program section for specific grading scales and grading policies.

**Clinical Grading**

The course Clinical Evaluation Tool delineates clinical outcomes and objectives that must be met by the end of the course. Students must meet all clinical objectives and outcomes to successfully complete a course. Failure to pass the clinical component of a course results in a grade of F regardless of the didactic score.
Clinical Contact Hour Description
In the Nursing program, one clinical and/or laboratory semester hour of course credit will be presented as 48 contact hours of clinical/laboratory activity over the term of the course. For a semester-length course, one clinical/laboratory semester hour of credit requires three hours of clinical/laboratory activity per week for 16 weeks. Course faculty may offer individual schedule variations.

Nursing Department Dress Code
In addition to strict adherence to the College dress code policy students on clinical rotations must have:
- a watch that displays seconds
- bandage scissors
- a stethoscope
- Nursing students may not chew gum while in uniform.

Good Standing
To be in good standing, any graduate student while enrolled at Trinity College, regardless of where the hours were earned, must maintain a cumulative GPA of 3.0. Good Standing is recorded on a student’s transcript for each semester that it applies.

Academic Warning
Regardless of where the credit was attempted, any student with a cumulative GPA below 3.0 is placed on academic warning. Achieving WF (Withdrawal Failing) C, D or F in a required course may place the student on Academic Warning. Academic Warning is noted on a student’s academic transcript. A student placed on Academic Warning should talk to his/her advisor to discuss a strategy and action plan to improve the student’s chances of academic success.
MSN Educator Program Option
The Master of Science in Nursing degree in Nursing Education prepares licensed, registered nurses who have completed baccalaureate nursing studies and at least one year of clinical experience for a successful career as a nurse educator in a clinic, hospital, or college/university setting. The on-line program offers flexibility needed to pursue graduate education and continue the responsibilities of home and work.

Admission Requirements
1. Graduation from an ACEN or CCNE accredited baccalaureate nursing program with a GPA of 3.0 or higher on a 4.0 scale. Graduate Record Exam scores (within 5 years) are required for GPA less than 3.0.
2. Evidence of a current unrestricted professional registered nursing license or RN license prior to second semester of enrollment in MSN Program.
3. At least one year of nursing practice or currently practicing as an RN
4. Completion of the following courses with a grade of C or better:
   • Community Health Nursing
   • Statistics
   • Health Assessment (N304)
   • Nursing Research
5. Confirmation of fluency in the English Language or a minimum Test of English as a Foreign Language (TOEFL) score of 550 (written), 213 (computer-based), or 79-80 (internet-based) with a score of at least 23 on the speaking portion of the exam if applicable.
6. Faculty interview
7. Three letters of recommendation from nursing professionals, recent employers, or professors (form can be obtained from college website and uploaded with application)
8. One or two page written essay describing educational and career goals.

RN Applicants with a non-nursing bachelor’s degree
The RN applicant with a bachelor’s degree in a field other than nursing must meet the following content requirement in addition to general admission requirement for the MSN program.

1. Statistics – 3 credit hour undergraduate course
2. Nursing Research – 3 credit hour undergraduate course
3. Nursing in the Community – 4 credit hour undergraduate course
4. Health Assessment – 3 credit hour undergraduate course

Progression Requirements
• All degree requirements must be completed within seven (7) calendar years of initial enrollment in Trinity’s Graduate Nursing Program.
• Students must maintain a 3.00 GPA in graduate work. Grades of less than a B are not acceptable.
• The Admission and Academic Standards Committee will meet to review students each semester who earn a grade of ‘C’ or less in any course to determine progression in the program. Students who earn a grade of less than a B in any course may be dropped from the program or allowed to progress on academic warning.
• Student’s placed on academic warning will have two semesters to achieve a grade point average of 3.0 or higher. If the desired grade point average of 3.0 or higher is not achieved within the two semesters following the initial academic warning, the student will be dropped from the program.
• Students must maintain current registered nurse licensure, CPR, and health status documentation.
Graduation Requirements

- All degree requirements must be completed within seven (7) calendar years of initial enrollment in Trinity's Graduate Nursing Program.
- Fulfill the course requirements for the Master of Science in Nursing Educator curriculum
- Earn a minimum of 36 semester hours in nursing with a B (3.0) cumulative grade point average
- Meet all financial obligations incurred with the College.
- Application for graduation must be made in the semester prior to anticipated graduation.
- Be recommended by Graduate Faculty and conferred by the College Governing Board to graduate.
MSN Direct Entry Program Option

The Direct Entry Master’s Generalist into Nursing Practice is designed for individuals who already hold a non-nursing bachelor’s degree and are interested in entering the nursing profession. The 74 credit program builds upon previous, broad educational preparation and provides a rigorous, nursing curriculum. Following 24 months of full-time study, students take the NCLEX-RN examination and graduate with a Master of Science in Nursing (MSN - generalist).

Admission Requirements

1. Hold a baccalaureate or higher degree in a non-nursing discipline
2. College GPA of 3.20 or higher on a 4.0 scale
3. Completion of the following courses with a grade of C or higher:
   - Anatomy and Physiology I – 4 semester credit undergraduate course with a lab
   - Anatomy and Physiology II – 4 semester credit undergraduate course with a lab
   - Microbiology – 4 semester credit undergraduate course with a lab
   - Advanced Science – 4 semester credit undergraduate course with a lab
   - Human Growth and Development – 3 semester credit undergraduate course
   - Statistics – 3 semester credit undergraduate course
   - Research (Research may be taken during the first semester of the curriculum) – 3 semester credit undergraduate course
4. Personal essay in a letter form addressing candidate’s professional attributes, ability to manage a rigorous curriculum, and career goals
5. Confirmation of fluency in the English Language or a minimum Test of English as a Foreign Language (TOEFL) score of 550 (written), 213 (computer-based), or 79-80 (internet-based) with a score of at least 23 on the speaking portion of the exam if applicable.

Nursing Department Dress Code

In addition to strict adherence to the College dress code policy students on clinical rotations must have:

- a watch that displays seconds
- bandage scissors
- a stethoscope
- a black ink pen

Nursing students may not chew gum while in uniform.

Standardized Testing

In order to support success on the NCLEX-RN, to improve test-taking skills, and to provide additional feedback on student academic progress, various standardized exams are scheduled in the MSN Direct Entry curricula. The test scores will be included in final course grades.

Standardized Assessment Test Requirement

A standardized nursing assessment test, the ATI Comprehensive Predictor, must be passed as a requirement in order to graduate and, therefore, before taking the NCLEX-RN. The minimum required score for passing is a 95% probability and is based on national norms. The assessment test is given in NUR 520. The student will have two opportunities to pass the ATI Comprehensive Predictor. If a student does not pass by the second attempt, graduation will be delayed. The student will continue to work with a virtual ATI coach until “released” to take the NCLEX-RN. When the College receives notification of this release, the standardized nursing assessment requirement will be met. Students who do not meet the 95% probability score with the second attempt will be billed one general service fee unit each semester until the student is released by ATI.
MSN Direct Entry Progression Requirements

- Students must maintain a 3.00 GPA in the graduate program.
- If a student fails to meet a 3.00 GPA at the end of any semester the program coordinator, course faculty, and Dean of Nursing & Health Sciences will meet to review the student’s progress. Students may be dropped from the program or allowed to progress on academic warning.
- Student’s placed on academic warning will have two semesters to achieve a grade point average of 3.0 or higher. If the desired grade point average of 3.0 or higher is not achieved within the two semesters following the initial academic warning, the student will be dropped from the program.
  - Because the following courses contain core nursing content essential for nursing practice, students who do not successfully complete NUR 511, 512, 521, 522, or 523 with a B (79.5%) or higher must repeat the course. If students do not achieve a B (79.5%) or higher in the course that they repeat, they will be dropped from the program.
- Students must maintain current CPR, and health status documentation.

Graduation Requirements

- All degree requirements must be completed within seven (7) calendar years of initial enrollment in Trinity’s Graduate Nursing Program.
- Application for graduation must be made in the semester prior to anticipated graduation.
- Fulfill the course requirements for the Master of Science in Nursing Direct Entry curriculum
- Earn a minimum of 74 semester hours in nursing with a B (3.0) cumulative grade point average
- Meet all financial obligations incurred with the College
- Attain a passing score on the standardized nursing assessment test or be released by ATI coach
- Be recommended by Faculty and approved by the College Governing Board to graduate

Licensure

Upon completion, an eligible graduate who has successfully completed all requirements of the accredited program earns the opportunity to apply for the National Council Licensure Examination for Registered Nurses (NCLEX-RN) to qualify to practice as a licensed Registered Professional Nurse. For more information on obtaining a RN licensure in the state of Illinois please contact:

Illinois Department of Financial and Professional Regulation – Nursing Programs

Code of Ethics for Nurses
© American Nurses Association, 2015

Provision 1: The nurse practices with compassion and respect for the inherent dignity, worth, and unique attributes of every person.

Provision 2: The nurse's primary commitment is to the patient, whether an individual, family, group, community, or population.

Provision 3: The nurse promotes, advocates for, and protects the rights, health, and safety of the patient.

Provision 4: The nurse has authority, accountability, and responsibility for nursing practice; makes decisions; and takes action consistent with the obligation to promote health and to provide optimal care.

Provision 5: The nurse owes the same duties to self as to others, including the responsibility to promote health and safety, preserve wholeness of character and integrity, maintain competence, and continue personal and professional growth.

Provision 6: The nurse, through individual and collaborative effort, establishes, maintains, and improves the ethical environment of the work setting and conditions of employment that are conducive to safe, quality health care.

Provision 7: The nurse, in all roles and settings, advances the profession through research and scholarly inquiry, professional standards development, and the generation of both nursing and health policy.

Provision 8: The nurse collaborates with other health professionals and the public to protect human rights, promote health diplomacy, and reduce health disparities.

Provision 9: The profession of nursing collectively through its professional organizations, must articulate nursing values, maintain the integrity of the profession, and integrate principles of social justice into nursing and health policy.

* Research from the prerequisite list may be taken during the first semester.
COLLEGE COURSE DESCRIPTIONS

All nursing and health science courses include the course number, semester hours, prerequisites, and a course description. The semester is 16 weeks unless otherwise noted.

Course descriptions for all cluster courses are available through Student Services or the providing institution.

Students are required to meet with their Academic Advisor for course approval and to follow the curriculum plan for their specific program.

NOTE: The Dean of Nursing and Health Sciences may approve additional courses.

BHS 300 EDUCATION PRINCIPLES IN HEALTH CARE – 3 Credits (ONL)

Education Principles gives students the basics of andrological theory for use in planning, implementation, and evaluation of employee training and development. The course emphasizes the learning process, reinforcement, and monitoring success. Principles and practices of organizational learning, performance, and change will be addressed, as well as methods of educating the health care consumer.

BHS 301 HEALTH CARE DELIVERY SYSTEMS – 3 Credits (ONL)

Health Care Delivery Systems provides a historical perspective of the growth and development of the dynamically changing health care systems in America. The current status and future of these complex systems will be assessed and analyzed, along with the respective professional and allied health roles that are vital to continued success. The impact of the political, legislative, and economic forces on health care systems will be examined.

BHS 302 HEALTH CARE LEADERSHIP – 3 Credits (ONL)

The Health Care Leadership course presents didactic concepts preparing the student for leadership and management responsibilities. Management concepts basic to management (planning, organizing, leading, and controlling) will be presented. Strategies for managing a diverse workforce will be explored. Theories of leadership and motivation, as well as conflict management, change, politics and power will be presented. The health care manager’s role in the interdisciplinary health care team will be discussed.

BHS 303 MANAGERIAL COMMUNICATION – 3 Credits (ONL)

Co-requisite or Pre-requisite: Health Care Leadership
Managerial Communication will give the student the opportunity to strengthen communication skills that are necessary to be successful in leadership and managerial situations. Knowledge from general education communication courses will be used and applied specifically to routine managerial varieties of written communication documents and presentations. Professional formats for memos, reports to superiors, white papers, and accreditation documents will be developed. Common management presentation skills may include conducting staff meetings, introducing departmental change, motivating employees in small and large groups, and giving effective employee feedback.

www.trinitycollegeqc.edu (309) 779-7700 197
BHS 410 HEALTH SCIENCES RESEARCH – 3 Credits (ONL)
Pre-requisite: Statistics
The Health Sciences Research course provides an introduction to the theoretical foundation for scientific investigation, the research process, contributions of research to the Allied Health Professions, and the impact of research on historical, current, and future trends. Major emphasis is on the application of the research process for use in practice as well as the process of critiquing research. Various types of research and research methods will be addressed. The health professional’s role in research, including the rights and responsibilities toward human subjects and additional legal-ethical concerns are discussed. Evidence based practice and using research in the practice settings are stressed. Statistical knowledge and qualitative analysis from the required general educational math courses will be integrated.

BHS 411 ETHICS FOR HEALTH CARE PROFESSIONALS – 4 Credits (ONL)
Pre-requisite: College level ethics
This course examines the influence of ethical and moral principles of behavior and the ethical decision-making process. Opportunities are provided in this course to foster development of the ethical decision-making process through case studies and comparison of institutional practices. This course will heighten awareness of ethical health care practice, fostering improved decision-making, and resulting in a better understanding of health care issues.

BHS 412 ACCOUNTING BASICS FOR HEALTH PROFESSIONALS – 3 Credits (ONL)
Accounting Basics includes an overall explanation of financial accounting terminology, review of financial reports, income statements, balance sheets, budgets, and cost reports. It is intended that this course develop health care professionals with an appreciation for and understanding of the financial implications of operational and strategic management. Case studies will use examples from hospitals, long term care facilities, and home health care to prepare students to read, analyze, use, and understand financial statements and budgets.

BHS 419 CLINICAL INTERNSHIP – 4-6 Credits (CLIN)
Pre-requisite: All courses in the BSHS program; or Co-requisite: Best Practices in Health Science
Students will complete a four to six semester hour internship with a health care manager or educator. The Clinical Internship is designed to give the student the opportunity to apply previously learned knowledge in the health care setting. The student will apply leadership skills, managerial communication, and accounting basics in the clinical setting.

BHS 420 BEST PRACTICES IN HEALTH SCIENCES – 4 Credits (ONL)
Pre-requisite: BHS 410 Health Sciences Research. BHS 420 is to be taken in the final semester of the Program unless prior approval from the Program Coordinator is received.
This course provides a framework guiding an independent student paper/project which demonstrates integration, synthesis, and application of concepts of courses in the BHS curriculum. Students will review the literature on a self-selected health care delivery issue and then develop a strategy to address that issue. Collaboration with classmates will be used to refine and evaluate paper/projects. Attainment of the BSHS Program Goals will be assessed as part of this final course.

CMU 400 CLINICAL MAKE-UP UNIT 400 – 0 Credits (CLIN)
Clinical Make-up Unit 400 is a course designed for undergraduate students requiring clinical and/or laboratory make-up hours for a Nursing course with a clinical and/or laboratory component. Clinical/laboratory make-up will be held at a predetermined date and time designated by course faculty and will be conducted by a program-specific faculty member. This make-up time may be scheduled for an evening, night or weekend shift. It is the student’s responsibility to adjust their schedule to meet the predetermined dates/times/shifts. Refer to the specific course syllabus for CMU registration guidelines. Refer to Tuition and Fees for charges.

CMU 500 CLINICAL MAKE-UP UNIT 500 – 0 Credits (CLIN)
Clinical Make-up Unit 500 is a course designed for graduate students requiring clinical and/or laboratory make-up hours for a Nursing course with a clinical and/or laboratory component. Clinical/laboratory make-up will be held at a predetermined date and time designated by course faculty and will be conducted by a program-specific faculty member. This make-up time may be scheduled for an evening, night or weekend shift. It is the student’s responsibility
to adjust their schedule to meet the predetermined dates/times/shifts. Refer to the specific course syllabus for CMU registration guidelines. Refer to Tuition and Fees for charges.

NUR 101 THE ART AND SCIENCE OF NURSING PRACTICE - 8 Credits (HYB)
Prerequisite: Admission to the Basic BSN program (BSN-B)
BSN-B: Co-requisite of one allowed general education course if not completed prior to admission.
The Art and Science of Nursing Practice presents didactic concepts and clinical/laboratory practice and clinical experiences emphasizing therapeutic nursing interventions, cultural awareness, technical nursing skills, and knowledge basic to nursing practice. Also discussed is the history of mental health nursing and contemporary practice, including practice models. Learning unfolds from the wellness/illness continuum emphasizing health promotion and holistic care. Learning focuses on assessment of basic human needs, including physiological needs such as hygiene, nutrition, oxygenation and urinary/bowel elimination and psychosocial needs such as self-esteem, spirituality, culture, and sexuality. The nursing process is utilized for assessment, diagnosis, planning, implementation, evaluation and teaching of the client and family. The concepts of caring, culturally competent care and various nursing roles are presented. Common health problems as they relate to mobility, sensory perception, and stress and adaptation are discussed. Basic health assessment, critical thinking/reflective thinking skills and techniques of medication administration are presented and practiced. The student will become comfortable with medication and IV calculations. Basic math skills will be reviewed and applied to clinical practice. Step by step rules, explanations and examples, followed by practice problems and exercises that will test and reinforce the student’s knowledge will be offered. The tasks associated with the development of a therapeutic interpersonal relationship are emphasized. Therapeutic communication skills will be practiced in the lab and clinical setting. Legal, professional standards and ethical principles related to nursing, the rights of clients and families, and the importance of the Illinois Nursing Practice Act and Rules are emphasized. In addition to the learning laboratory, clinical experiences occur in acute care client settings.
6 Credits Didactic (1 Credit Mental Health), 2 Credits Clinical/Learning Laboratory

NUR 101A THE ART AND SCIENCE OF NURSING PRACTICE - 7 Credits (HYB)
Prerequisite: Admission to the Accelerated BSN program (BSN-A)
The Art and Science of Nursing Practice presents didactic concepts, clinical/laboratory practice and clinical experiences emphasizing therapeutic nursing interventions, cultural awareness, technical nursing skills, and knowledge basic to nursing practice. Also, discussed is the history of mental health nursing and contemporary practice, including practice models. Learning unfolds from the wellness/illness continuum, emphasizing health promotion and holistic care. Learning focuses on assessment of basic human needs, including physiological needs such as hygiene, nutrition, oxygenation and urinary/bowel elimination and psychosocial needs such as self-esteem, spirituality, culture, and sexuality. The nursing process is utilized for assessment, diagnosis, planning, implementation, evaluation and teaching of the client and family. The concepts of caring, culturally competent care and various nursing roles are presented. Common health problems as they relate to mobility, sensory perception, and stress and adaptation are discussed. Basic health assessment, critical thinking/reflective thinking skills and techniques of medication administration are presented and practiced. The tasks associated with the development of a therapeutic interpersonal relationship are emphasized. Therapeutic communication skills will be practiced in the lab setting. Legal, professional standards and ethical principles related to nursing, the rights of clients and families, and the importance of the Illinois Nursing Practice Act and Rules are emphasized. In addition to the learning laboratory, clinical experiences occur in acute care client settings.
5 Credits Didactic (1 Credit Mental Health), 2 Credits Clinical/Learning Laboratory

NUR 102 ADULT HEALTH NURSING - 9 Credits (HYB)
Prerequisites: NUR 101 The Art and Science of Nursing Practice and completion of all required general education courses
BSN-B: Completion of approved general education concurrent with NUR 101.
This course builds on the knowledge and skills from Nursing 101: The Art and Science of Nursing Practice. Adult Health Nursing presents didactic concepts and clinical experiences to allow the student to apply the nursing process to the care of the adult client who is experiencing common health problems that are acute or chronic in nature as well as to clients with acute and chronic mental health needs and problems. Mental health problems dealing with cognition, mood, anxiety, and substance abuse are discussed. Learning is directed toward problems requiring therapeutic nursing interventions of a well-defined nature leading toward providing culturally competent care. The
client is seen as a valued member of a family, social network, and community. Technical skills such as IV access, urinary catheterization, NG insertion, and dressing changes will be introduced. Interpersonal skills, communication skills (written and oral), family theories, group process and assessment skills are strongly emphasized. Previously learned technical skills will continue to be practiced and refined. Medication administration will continue to be emphasized. The concepts of nutrition, pharmacology, legal and ethical considerations and problem-solving are integrated. The course will introduce the student to the evolving roles of the nurse as a provider and manager of health care and as a member of the health care team. Clinical experience may occur in the acute care, peri-operative, medical surgical skilled nursing, mental health, and community-based health facilities.

5.5 Credits Didactic (1.5 Credits Mental Health) and 3.5 Credits Clinical/Learning Laboratory (0.5 Credits Mental Health)

NUR 102A ADULT HEALTH NURSING - 9 Credits (HYB)
Prerequisites: NUR 101A The Art and Science of Nursing Practice. Accelerated BSN (BSN-A) Curriculum Plan students only.
This course builds on the knowledge and skills from Nursing 101: The Art and Science of Nursing Practice. Adult Health Nursing presents didactic concepts and clinical experiences to allow the student to apply the nursing process to the care of the adult client who is experiencing common health problems that are acute or chronic in nature as well as to clients with acute and chronic mental health needs and problems. Mental health problems dealing with cognition, mood, anxiety, and substance abuse are discussed. Learning is directed toward problems requiring therapeutic nursing interventions of a well-defined nature leading toward providing culturally competent care. The client is seen as a valued member of a family, social network, and community. Technical skills such as IV access, urinary catheterization, NG insertion, and dressing changes will be introduced. Interpersonal skills, communication skills (written and oral), family theories, group process and assessment skills are strongly emphasized. Previously learned technical skills will continue to be practiced and refined. Medication administration will continue to be emphasized. The concepts of nutrition, pharmacology, legal and ethical considerations and problem-solving are integrated. The course will introduce the student to the evolving roles of the nurse as a provider and manager of health care and as a member of the health care team. Clinical experience may occur in the acute care, peri-operative, medical surgical skilled nursing, mental health, and community-based health facilities.

5.5 Credits Didactic (1.5 Credits Mental Health) and 3.5 Credits Clinical/Learning Laboratory (0.5 Credits Mental Health)

NUR 200 HUMAN DISEASE PROCESSES – 3 Credits (HYB)
Prerequisites: NUR 102 or NUR 102A Adult Health Nursing and NUR 212 or NUR 212A Pharmacology I.
Human Disease Processes provides the student with a scientific background and understanding of pathophysiology as it relates to the assessment of diverse client populations. The course will emphasize functioning at the cellular level and will augment the student’s ability to correlate various disease states with clinical manifestations, common diagnostic tests and therapeutic, evidence-based nursing interventions. Disease processes such as fluid-electrolyte imbalance, homeostasis, hemodynamics, acid-base imbalance, infective disorders, immune disorders, and genetic considerations will be emphasized.

NUR 201 LIFE SPAN NURSING I – 9 Credits (HYB)
Prerequisites: NUR 102 or NUR 102A Adult Health Nursing and NUR 212 or NUR 212A Pharmacology I.
Pre or Co-requisite: NUR 302 Advanced Health Assessment
Life Span I is the first of two courses that presents didactic concepts and clinical experiences that examine the health status of individuals throughout their life span. There is a focus on health maintenance as well as management of acute and chronic health problems. Both the physical and mental health needs of the client are considered. There is an emphasis on family involvement, especially in the care of children. Culturally sensitive care giving and cultural maintenance are emphasized. The student will learn how to manage individuals and groups of patients with increasingly complex health issues. Clinical experiences are in the acute care setting as well as the community environment.

6 Credits Didactic (0.5 Credits Mental Health, 1.25 Credits Pediatrics), 3 Credits Clinical/Learning Laboratory (0.5 Credits Mental Health and 0.75 Credits Pediatrics)
**NUR 202 LIFE SPAN NURSING II – 8 Credits (HYB)**
Prerequisite: NUR 201 Life Span Nursing I
Life Span Nursing II is the second of two courses that presents didactic and clinical experiences that examine the health status of individuals throughout the life span. The focus is on health maintenance, management of acute and chronic health conditions and critical care, emergent care and neurological conditions. In addition, the course focuses on the transition of the learner into the practice role of the RN. The concepts of leadership and management will be provided and leadership/management skills will be applied in the clinical setting.
4 Credits Didactic (1.25 Credits Pediatrics), 4 Credits Clinical/Learning Laboratory (0.75 Credits Pediatrics)

**NUR 203 MATERNAL – NEWBORN NURSING – 4 Credits (HYB)**
Prerequisites: NUR 102 or NUR 102A Adult Health Nursing, NUR 212 or NUR 212A Pharmacology I, and NUR 200 Human Disease Processes
Maternal-Newborn Nursing presents didactic and clinical experiences that emphasize the care of families during childbearing. Pregnancy is considered a normal developmental occurrence; however, risk factors and selected health problems that may occur during the child-bearing experience are considered. The nursing process is utilized when giving nursing care during the antepartum, intrapartum, postpartum and neonatal periods. The social, cultural, economic, sexual, physiological and psychological aspects of childbearing are considered. Nutrition, pharmacology, legal standards, ethical principles, critical thinking, and communication are integrated. Historical aspects in relation to contemporary trends and issues are discussed. Physical assessment skills related to fetal well-being and the mother and newborn are presented. Clinical experiences include the obstetric acute care units, evidence based practice lab and clinical simulation lab.
2.5 Credits Didactic, 1.5 Credits Clinical/Learning Lab

**NUR 212 PHARMACOLOGY I – 1 Credit (HYB)**
Pre or Co-requisite: NUR 102 Adult Health Nursing
This hybrid course is designed to present the principles underlying pharmacology and their relationship to the registered nurse’s role in drug administration. This course builds on nursing skills, math, and the natural sciences (especially knowledge of anatomy & physiology and microbiology) to explore the concepts of pharmacokinetics, pharmacodynamics and pharmacotherapeutics. Emphasis is placed on how drugs are utilized and processed in the body, the body’s reaction to these drugs, and potential drug interactions. Further studies of major drug categories will be used with drug prototypes as examples of these basic concepts. The student will apply basic pharmacological principles to new situations in order to improve the effectiveness of drugs and prevent/minimize the complications of drug therapy. Course concepts include the principles of drug action and the nursing process as it applies to the therapeutic use of drugs (including safety and patient education).

**NUR 212A PHARMACOLOGY I - 1 Credit (HYB)**
Pre or Co-requisite: NUR 102A Adult Health Nursing. Accelerated BSN (BSN-A) Curriculum Plan students only
This course is designed to present the principles underlying pharmacology and their relationship to the registered nurse’s role in drug administration. This course builds on nursing skills, math, and the natural sciences (especially knowledge of anatomy, physiology, and microbiology) to explore the concepts of pharmacokinetics, pharmacodynamics and pharmacotherapeutics. Emphasis is placed on how drugs are utilized and processed in the body, the body’s reaction to these drugs, and potential drug interactions. Further studies of major drug categories will be used with drug prototypes as examples of these basic concepts. The student will apply basic pharmacological principles to new situations in order to improve the effectiveness of drugs and prevent/minimize the complications of drug therapy. Course concepts include the principles of drug action and the nursing process as it applies to the therapeutic use of drugs (including safety and patient education).

**NUR 213A PHARMACOLOGY II - 1 Credit (HYB)**
Prerequisites: NUR 200 Human Disease Processes and NUR 212 or NUR 212A Pharmacology I
Pre or Co-requisite: NUR 302 Advanced Health Assessment
This course explores the pharmacological treatment of various disease processes. The effects of medications, both therapeutic and adverse, on the human body are investigated.
NUR 301A NURSING LEADERSHIP AND MANAGEMENT – 4 Credits (HYB)
Prerequisite: Must be taken in the final semester of the program
Nursing Leadership and Management presents didactic concepts preparing the student for leadership and management responsibilities. Management concepts discussed include organizational theory and structure, fiscal planning, delegation and managing human and material resources. Strategies for managing a culturally diverse workforce will be explored. Theories of leadership and motivation, as well as conflict management, change theory and persuasion and negotiation will be presented. Additional concepts of power and authority, nursing care delivery systems, and quality improvement are addressed. The nurse’s role in the interdisciplinary health care team, health care delivery systems, critical thinking strategies, and decision-making processes are discussed and operationalized. Integrated concepts include communication principles and legal and ethical considerations. Opportunities and experiences are provided to foster development of leadership abilities and management skills for the learner.
3 Credits Didactic, 1 Credit Clinical

NUR 301C NURSING LEADERSHIP AND MANAGEMENT – 3 Credits (ONL)
Prerequisite: Admission to the BSN Completion program (BSN-C)
Leadership and Management presents didactic concepts preparing the student for leadership and management responsibilities. Management concepts discussed include organizational theory and structure, fiscal planning, delegation and managing human and material resources. Strategies for managing a culturally diverse workforce will be explored. Theories of leadership and motivation, as well as conflict management, change theory and persuasion and negotiation will be presented. Additional concepts of power and authority, nursing care delivery systems, and quality improvement are addressed. The nurse’s role in the interdisciplinary health care team, health care delivery systems, critical thinking strategies, and decision-making processes are discussed and operationalized. Integrated concepts include communication principles and legal and ethical considerations. Opportunities and experiences are provided to foster development of leadership abilities and management skills for the learner.

NUR 302 ADVANCED HEALTH ASSESSMENT – 3 Credits (HYB)
Prerequisites: NUR 102 or NUR 102A Adult Health Nursing and NUR 212 or NUR 212A Pharmacology I
Advanced Health Assessment presents didactic concepts and laboratory experiences related to advanced assessment and builds on knowledge from natural and social sciences, humanities, and nursing, including physical health assessment. The student is provided with the opportunity to develop and enhance advanced skills in interviewing and data collection, as well as systematically examining clients who are at various stages in the lifespan. Comprehensive assessment concepts and advanced techniques will be addressed using a systems approach. A holistic emphasis to health assessment is used including cognitive, physical, psychological, nutritional, cultural, economic, spiritual and environmental considerations. Students will be provided the opportunity to expand communication skills through in-depth interviews of individuals. The didactic component emphasizes the nurse’s role as a member of the interdisciplinary team in health assessment. Course expectations include fostering critical thinking and advanced psychomotor skills leading to the course outcome performance of a complete health assessment of an individual.
2.33 Credits Didactic, 0.67 Credit Learning Laboratory

NUR 303 NURSING PATHOPHYSIOLOGY – 3 Credits (ONL)
Prerequisites: BSN-A or BSN-B: NUR 200 Human Disease Processes and NUR 302 Advanced Health Assessment.
Nursing Pathophysiology focuses on alterations in physiologic mechanisms involved in disease. Topics for this course include mechanisms of disease, cellular biology, cell injury and death, neurological pathophysiology, cardiovascular pathophysiology, renal pathophysiology and endocrine pathophysiology. The etiology, pathogenesis, manifestations and nursing care for selected diseases will be presented. Evidence-based nursing practice will be emphasized.

NUR 304 ADVANCED HEALTH ASSESSMENT FOR THE RN – 3 Credits (ONL)
Prerequisite: Admission to the BSN Completion program (BSN-C)
Advanced Health Assessment presents didactic concepts and online laboratory experiences related to advanced assessment and builds on knowledge from natural and social sciences, humanities, and nursing, including physical health assessment. The student is provided with the opportunity to develop and enhance advanced skills in interviewing and data collection, as well as systematically examining clients who are at various stages in the lifespan. Comprehensive assessment concepts and advanced techniques will be addressed using a system’s approach. A holistic emphasis to health assessment is used including cognitive, physical, psychological, nutritional, cultural, economic, spiritual and environmental considerations. Students will be provided the opportunity to expand
communication skills through in-depth interviews of individuals. The course emphasizes the nurse’s role as a member of the interdisciplinary team in health assessment. Course expectations include fostering critical thinking and advanced psychomotor skills leading to the course outcome performance of a complete health assessment of an individual.

2.33 Credits Didactic, 0.67 Credit Learning Laboratory

**NUR 320 NURSING INFORMATICS – 3 Credits (ONL)**
Prerequisite: Admission to the BSN Completion program (BSN-C)
Nursing Informatics is an online course focusing on the use of computer science, information science and nursing science. Documenting, researching and aggregating of data to make decisions related to culturally competent nursing care of patients will be emphasized. The course focuses on how technology supports clinical practice, research, education and nursing administration. In addition to a paper on a selected topic requiring a search of the professional literature, quizzes, discussions, and a professional resume are required.

**NUR 402 PROFESSIONAL ISSUES IN NURSING – 3 Credits (ONL)**
Prerequisite (BSN-A or BSN-B): NUR 101 or NUR 101A The Art and Science of Nursing Practice
This didactic course is designed to foster professionalism and the use of collaborative strategies to address nursing practice issues. Special attention is focused on the evolution of professional nursing and issues that impact current nursing practice. Nursing theorists and their organizing frameworks are presented. Health policy, financing, cultural/social competency and other timely issues will be discussed.

**NUR 403 COMMUNITY HEALTH NURSING – 4 Credits (HYB)**
Prerequisites: NUR 102 or NUR 102A Adult Health Nursing, NUR 212 or NUR 212A Pharmacology I, and NUR 302 Advanced Health Assessment. BSN-Basic (BSN-B) students only.
Community Health Nursing focuses on collaborative strategies to improve the health of populations. Public health concepts such as epidemiology, levels of prevention, and screening are applied to the study of communicable and chronic diseases as well as to the environment. Other major course topics include community and family assessment, provision of culturally appropriate care to aggregates, and the historical and political aspects of nursing roles.
3 Credits Didactic, 1 Credit Clinical

**NUR 405 COMMUNITY HEALTH NURSING FOR THE RN – 4 Credits (ONL)**
Community Health Nursing for the RN focuses on collaborative strategies to improve the health of populations. Public health concepts such as epidemiology, levels of prevention, and screening are applied to the study of communicable and chronic diseases as well as to the environment. Other major course topics include community and family assessment, provision of culturally appropriate care to aggregates, and the historical and political aspects of community nursing roles.
3 Credits Didactic, 1 Credit Clinical

**NUR 410 TRANSCULTURAL NURSING – 3 Credits (ONL)**
Prerequisite: Admission to the BSN program
This course examines transcultural nursing concepts, theories and practices in relationship to human caring. Frameworks for performing a cultural assessment and for planning and implementing culturally appropriate nursing care are explored. Cultural influences on beliefs, values, and practices in relation to health, illness, and health-seeking behaviors are examined. This course provides opportunity for students to reflect on culture in relation to oneself and nursing practice roles.

**NUR 411 NURSING RESEARCH – 3 Credits (ONL)**
Prerequisite: Undergraduate statistics course which is acceptable for the statistics requirement.
Nursing Research provides an introduction to the theoretical foundation for scientific investigation, the research process, contributions of research to the Nursing Profession, and the impact of research on historical, current, and future trends. Major emphasis is on the application of the research process for use in practice as well as the process of critiquing research. Various types of research and research methods will be addressed. The nurse’s role in research, including the rights and responsibilities toward human subjects and additional legal-ethical concerns are discussed. Evidence based nursing and using research in the practice setting are stressed. Statistical knowledge and quantitative analysis from the required general education math course will be integrated.
NUR 412 GENETICS AND GENOMICS – 3 Credits (ONL)
This BSN-C course is designed to provide an overview of inheritance patterns, discussion of genetic disorders and discussion of influence of heredity on the development of acute and chronic health problems throughout the life span, the effects of environment, culture, and behavior on the genetic makeup of individuals will be considered.

NUR 413 GERONTOLOGICAL NURSING – 3 Credits (ONL)
Prerequisite: Admission to the BSN Completion (BSN-C) program
This online course provides the opportunity for the BSN-C student to continue building a positive perspective towards the aging process and the older adult. This didactic course focuses on the current status of attitudes toward the older adult, and theories of aging. Myths and stereotypes of the older adult, utilization of support services by the older adult, and trends in gerontological nursing will be explored. The interrelatedness of the biophysical and psychosocial alterations and health problems resulting from the aging process are studied. Health assessment, promotion of wellness, presentation of illness and nursing and pharmacological problems in the older adult will be discussed. Additionally principles of teaching-learning and legal-ethical considerations will be applied to the special needs of the older adult. The student evaluates issues of retirement, alternatives to institutionalized care, economic concerns, and legal-ethical issues related to the older adult. Course expectations include examining current research related to gerontological nursing and the exploration of gerontological nursing case studies.

NUR 420A SENIOR SEMINAR - 4 Credits (HYB)
Prerequisite: Must be taken in the final semester of the program
This course provides a framework for assisting students to integrate the BSN program goals. Students will select a nursing oriented clinical problem for exploration, review the related literature, and develop a strategy to address the issue. A formal paper is written to present this information. The clinical component whereby the student works with a practicing RN in a realistic assignment will assist in the transition from education to practice. Attainment of the BSN Program Goals and readiness for NCLEX-RN will be assessed through standardized testing and questionnaires.
1 Credit Didactic; 3 Credits Clinical

NUR 420C SENIOR SEMINAR – 1 Credit (ONL)
Prerequisite: Must be taken in the final semester of the program
This course provides a framework guiding an independent student paper which demonstrates integration, synthesis, and application of concepts from courses in the curriculum. Students will review the literature on a self-selected health care delivery issue and then develop a strategy to address that issue. Attainment of the BSN-Completion Program Goals will be assessed as part of this final course in the BSN-Completion curriculum.

NUR 501 ORGANIZATIONAL & SYSTEMS LEADERSHIP - 3 Credits (ONL)
This online course focuses on leadership, roles, and skills essential to promoting excellence in practice as well as maintaining effective working relationships with inter-professional teams. Leadership styles, change theory and change management, coaching for performance, communication, and conflict and conflict management will be emphasized.

NUR 502 HEALTH CARE POLICY, TRENDS, & ISSUES - 3 Credits (ONL)
This online course examines healthcare policy relevant to the U.S., the history of health services, healthcare funding, nursing education financing, quality improvement models, nurse sensitive indicators, patient safety, national benchmarks, just culture, ethics and how nursing practice is impacted by regulations and policy.

NUR 503 NURSING THEORY & EVIDENCE-BASED PRACTICE - 3 Credits (ONL)
Prerequisite: Undergraduate research and statistics courses.
This online course focuses on the use of nursing theory and models in research, internal and external validity, psychometric properties of instruments, analysis of selected quantitative and qualitative research designs, and the application of evidence-based practices within the clinical setting. Students will critique applied research, determine evidence or gaps in the literature related to a clinical nursing problem or nursing education practice, and assess the evidence-based research as it relates to a specific problem.
NUR 504 POPULATION HEALTH & DISPARITIES - 3 Credits (ONL)
This online course focuses on social determinants of health, population-based nursing, health disparities and outcomes, access to care, epidemiologic methods of analysis, evidence-based practice, transcultural nursing care, and health literacy.

NUR 505 TECHNOLOGY IN HEALTH CARE - 3 Credits (ONL)
This online course prepares the nurse to manage health information systems critical to the mission of healthcare delivery systems. The use of technology in patient care, improved patient outcomes, and data mining will be emphasized, as well as legal and ethical issues regarding healthcare technology.

NUR 511 THE ART AND SCIENCE OF NURSING PRACTICE for the MSN - 7 Credits (HYB)
Prerequisite: Admission to Direct Entry to Practice Master of Nursing Program (MSN-DEP)
The Art and Science of Nursing Practice for the MSN presents didactic concepts, clinical/laboratory practice and clinical experiences emphasizing therapeutic nursing interventions, cultural awareness, nursing skills, and knowledge basic to nursing practice. Also, discussed is the history of nursing, mental health nursing and contemporary practice, including practice models. Learning unfolds from the wellness/illness continuum, emphasizing health promotion and holistic care. Learning focuses on assessment of basic human needs, including physiological needs such as hygiene, nutrition, oxygenation and urinary/bowel elimination and psychosocial needs such as self-esteem, spirituality, culture, and sexuality. The nursing process is utilized for assessment, diagnosis, planning, implementation, evaluation and teaching of the client and family. The importance of evidence-based practice or best practices will be introduced and emphasized. The concepts of caring, culturally competent care, and various nursing roles are presented. Common health problems as they relate to mobility, sensory perception, and stress and adaptation are discussed. Basic health assessment, critical thinking/reflective thinking skills and techniques of medication administration to include mathematical application for accurate administration are presented and practiced. The development of a therapeutic interpersonal relationship is emphasized. Therapeutic communication skills will be practiced in the lab setting, as well as body mechanics related to transfer of patients. Legal, professional standards and ethical principles related to nursing, the rights of clients and families, and the importance of the Illinois Nursing Practice Act and Rules are emphasized. Principles of teaching-learning will also be emphasized. In addition to the learning laboratory, clinical experiences occur in acute and chronic care client settings.
5 Credits Didactic (1 Credit Mental Health), 2 Credits Clinical/Learning Laboratory

NUR 512 ADULT HEALTH NURSING for the MSN - 9 Credits (HYB)
Prerequisites: NUR 511; NUR 533
This course builds on the knowledge and skills from Nursing 511, The Art and Science of Nursing Practice for the MSN, and all prerequisite general education coursework completed prior to matriculation into the Direct Entry Generalist MSN program. Adult Health Nursing for the MSN presents didactic concepts and clinical experiences to allow the student to apply the nursing process to the care of the adult client who is experiencing common health problems that are acute or chronic in nature, as well as to clients with acute and chronic mental health needs and problems. Mental health problems dealing with cognition, mood, and anxiety are discussed. Learning is directed toward problems requiring therapeutic nursing interventions of a well-defined nature, leading toward providing culturally competent care. The client is seen as a valued member of a family, social network, and the community. Skills such as IV access and care, CVAD, urinary catheterization, and sterile dressing changes will be introduced. Interpersonal skills, communication skills (written and oral), family theories, and evidence-based practice, group process and assessment skills are strongly emphasized. Medication administration and teaching-learning principles will continue to be emphasized. The concepts of nutrition, pharmacology, legal and ethical considerations and problem-solving are integrated. The course will introduce the student to the evolving roles of the nurse as a provider and manager of health care and as a member of the health care team. Clinical experience occurs in the acute or chronic care settings, peri-operative, and medical surgical, and skilled nursing health care facilities.
5.5 Credits Didactic (1.5 Credits Mental Health) and 3.5 Credits Clinical/Learning Laboratory (0.5 Credits Mental Health)

NUR 520 GRADUATE SEMINAR - 4 Credits (HYB)
Prerequisite: NUR 503; Must be taken in final semester of the program
This course provides a framework for assisting students to integrate the MSN program goals. The clinical immersion experience whereby the student works with a preceptor in a “realistic” assignment will assist in the transition from

www.trinitycollegeqc.edu  (309) 779-7700 205
education to practice. Post conference discussions will take place on the clinical units. Attainment of the MSN Program Goals and readiness for NCLEX-RN will be assessed through reflective journaling, standardized testing, and questionnaires. Transitional testing will be completed in preparation for the national licensing examination.

1 Credit Didactic; 3 Credit Clinical

**NUR 521 LIFE SPAN NURSING I for the MSN – 9 Credits (HYB)**
Prerequisites: NUR 512
Life Span Nursing I for the MSN is the first of two courses that presents didactic concepts and clinical experiences that examine the health status of individuals throughout the lifespan. Acute mental and physical health problems, critical care, and emergent care will be explored in pediatric, adult, and geriatric clients. Health promotion and maintenance, family involvement, culturally sensitive caregiving, and evidence-based practice will be emphasized. The student will learn to manage individuals and groups of patients with increasingly complex health issues. Clinical experiences are in the acute care setting as well as in the community.
6 Credits Didactic (0.5 Credits Mental Health, 1.25 Credits Pediatrics), 3 Credits Clinical/Learning Laboratory (0.5 Credits Mental Health and 0.75 Credits Pediatrics)

**NUR 522 LIFE SPAN NURSING II for the MSN – 8 Credits (HYB)**
Prerequisite: NUR 521
Life Span Nursing II for the MSN is the second of two courses that presents didactic concepts and clinical experiences that examine the health status of individuals throughout the lifespan. Chronic health problems, palliative care and end of life care will be explored in pediatric, adult, and geriatric clients. Care transitions, continuity of care, and family involvement in caregiving and culturally sensitive care will be emphasized. Clinical experiences are in the acute care and home care setting, as well as in the community.
4 Credits Didactic (1.25 Credits Pediatrics), 4 Credits Clinical/Learning Laboratory (0.75 Credits Pediatrics)

**NUR 523 MATERNAL – NEWBORN NURSING for the MSN – 4 Credits (HYB)**
Prerequisites: NUR 512
Maternal-Newborn Nursing for the MSN presents didactic and clinical experiences that emphasize the care of families during childbearing. Pregnancy is considered a normal developmental occurrence; however, risk factors and selected health problems that may occur during the child-bearing experience are considered. The nursing process is utilized when giving nursing care during the antepartum, intrapartum, postpartum and neonatal periods. The social, cultural, economic, sexual, physiological and psychological aspects of childbearing are considered. Nutrition, pharmacology, legal standards, ethical principles, critical thinking, evidence-based practices, and communication are integrated. Historical aspects in relation to contemporary trends and issues are discussed. Physical assessment skills related to fetal well-being and the mother and newborn are presented. Clinical experiences include the obstetric acute care units, evidence based practice lab, clinical simulation lab, and community offerings related to child-bearing families.
2.5 Credits Didactic, 1.5 Credits Clinical/Learning Lab

**NUR 524 PHARMACOLOGY for the MSN - 1 Credit (ONL)**
Prerequisite: NUR 511
This online course is designed to present the principles underlying pharmacology and their relationship to the registered nurse’s role in drug administration. This course builds on nursing skills, math, and the natural sciences (especially knowledge of anatomy, physiology, and microbiology) to explore the concepts of pharmacokinetics, pharmacodynamics and pharmacotherapeutics. Emphasis is placed on how drugs are utilized and processed in the body, the body’s reaction to these drugs, and potential drug interactions and contraindications. Further studies of major drug categories will be used with drug prototypes as examples of these basic concepts. The student will apply basic pharmacological principles to focused case studies to prevent adverse effects and minimize the complications of drug therapy. Course concepts include the principles of drug action and the nursing process as it applies to the therapeutic use of drugs (including safety and patient education) across the lifespan and within various cultures.

**NUR 531 NURSING LEADERSHIP, MANAGEMENT, & ORGANIZATIONS – 3 Credits (ONL)**
Prerequisite: NUR 503
The Leadership, Management, and Organizations course presents didactic concepts preparing the student for leadership and management responsibilities. Management concepts discussed include organizational theory and structure, delegation and managing human and material resources. Strategies for managing a culturally diverse
workforce will be explored. Theories of leadership and, conflict management, change theory, persuasion, and negotiation will be presented.

Additional concepts of delegation, advocacy, case management, care coordination, nursing care delivery systems, and teams/groups are addressed. The nurse’s role in the interdisciplinary health care team, health care delivery systems, and decision-making processes are discussed and operationalized. Integrated concepts include communication principles and legal and ethical considerations.

**NUR 533 ASSESSMENT ACROSS THE LIFESPAN FOR THE MSN – 3 Credits (HYB)**
Prerequisites: NUR 511
This course with lab focuses on the collection, interpretation, and synthesis of genetic, historical, biological, physical, cultural, psychosocial, spiritual, nutritional, and safety evidence, using critical thinking skills to develop a comprehensive, holistic assessment of individuals across the lifespan. This online course builds on the knowledge from fundamentals of nursing. The lab component includes fostering critical thinking and psychomotor skills leading to the course outcome performance of a complete health assessment of an individual. An emphasis is also placed on health history taking skills and assessment of common abnormalities incorporating diagnostic tests, health promotion and risk reduction. Students will also explore standardized assessment tools in each focused assessment.

2.33 Credits Didactic, 0.67 Credit Learning Laboratory

**NUR 541 NURSING IN THE COMMUNITY FOR THE MSN - 4 Credits (HYB)**
Prerequisites: NUR 533; NUR 603; NUR 604
Nursing in the Community for the MSN focuses on collaborative strategies to improve the health of populations. Public health concepts such as epidemiology, levels of prevention, disaster preparedness, environmental safety, population health, and health promotional screening are applied to the study of communicable and chronic diseases, as well as to the environment. Other major course topics include community, cultural, and family assessment, continuity of care, provision of culturally appropriate care to aggregates, and the historical and political aspects of community nursing roles.

3 Credits Didactic; 1 Credit Clinical

**NUR 544 CLINICAL IN THE COMMUNITY – 1 Credit (CLIN)**
Prerequisites: NUR 521; NUR 523
This course involves a total of 48 hours of clinical practicum that can occur in a variety of healthcare settings in the community. Clinical settings for this practicum must allow the student to participate in the application of principles and methods of leadership, as well as the application of evidence-based practice to influence healthcare outcomes for individuals and populations of various cultures across the lifespan. Teaching-learning principles will be emphasized. The clinical practicum may take place in home care, express care facilities, churches, and other community settings where health care is provided. Reflective journaling will be the primary means of evaluation.

**NUR 601 ASSESSMENT & EVALUATION OF THE LEARNER - 3 Credits (ONL)**
This online course explores the role of assessment and evaluation of student learning in various settings. Test development and test interpretation will also be emphasized.

**NUR 602 CURRICULUM DEVELOPMENT & EVALUATION OF LEARNING OUTCOMES - 3 Credits (ONL)**
This online course prepares the student to design and implement curriculum based on evidence-based teaching/learning theories. Focus is on the process of curricular development for a specific course including course objectives, content, learning activities, course delivery, and student evaluation.

**NUR 603 PATHOPHYSIOLOGICAL BASIS FOR NURSING PRACTICE - 3 Credits (ONL)**
Prerequisites: Undergraduate Anatomy & Physiology; Undergraduate Pathophysiology
This online course builds on the knowledge of human anatomy, physiology, and pathophysiology. The focus is on critical examination of the physiological and pathophysiological mechanisms affecting individuals across the lifespan. Emphasis is on correlating laboratory data to disease processes, the rationales for pharmacotherapy, and the physiological mechanisms underlying disease processes. This course uses problem based learning to explore pathophysiological concepts using scientific evidence based literature.
NUR 604 PHARMACOLOGY ACROSS THE LIFESPAN - 3 Credits (ONL)
Prerequisites: For MSN DEP only: NUR 524 Pharmacology for the MSN
This online course builds on knowledge of basic pharmacology and commonly used medications. This course focuses on pharmacokinetics and the pharmacodynamics of various drugs as applied to the management of clients with various health conditions across the lifespan. This course emphasizes receptor theory and coupling, dose response, drug interactions, drug classes, and adverse effects when applying real examples and clinical problems.

NUR 605 COMPREHENSIVE HEALTH ASSESSMENT - 3 Credits (HYB)
Prerequisites: Undergraduate Health Assessment course
This course focuses on the collection, interpretation, and synthesis of genetic, historical, biological, cultural, psychosocial, spiritual, and physical evidence, using critical thinking skills to develop a comprehensive, holistic assessment of individuals across the lifespan. This course builds on the knowledge and skills gained in the baccalaureate health assessment course. The practicum (48 hours) emphasizes health history taking skills and assessment of common abnormalities incorporating diagnostic tests including health promotion and risk reduction. Students are encouraged to select vulnerable populations for their clinical setting.

NUR 606 NURSE EDUCATOR ROLE PRACTICUM: DIDACTIC - 2 Credits (CLIN)
Prerequisites: NUR 601 and NUR 602
This course focuses on the application of learning theories, strategies, and evaluation in the didactic setting within a nursing program. The student will be introduced to and engaged in several activities of the nurse educator role such as: committee work; advising/mentoring students; professional meetings; reports and accreditation; and development of teaching plans for traditional and on-learning learning. Journaling by the student will be the primary means for reflection, meeting of course objectives, and tracking of hours.
The student will develop his/her MSN written and approved contract with the preceptor and faculty. The student will spend time with a preceptor in an approved classroom setting

NUR 607 NURSE EDUCATOR ROLE PRACTICUM: CLINICAL - 1 Credit (CLIN)
Prerequisites: NUR 601 and NUR 602
The role of the nurse educator in higher educational settings and healthcare is explored. This course involves 48 hours of clinical that can occur in a variety of healthcare settings depending on the student’s personal career goals. Clinical settings for this practicum must allow the student to participate in the application of teaching-learning principles, curriculum development, and learner evaluation. An example might be leading of pre and post conferences with students in the clinical setting.
Students will develop a written contract with their preceptor and approval of course faculty. Course objectives will be written by the student to meet their individual goals. During this course students will develop a clinical research idea to pursue in their Master’s thesis or project. Journaling by the student will be the primary means for reflection, meeting of course objectives, and tracking of hours.

NUR 620 MASTER’S THESIS/PROJECT – 1 TO 3 Credits (ONL)
Prerequisites: With consent of faculty advisor.
This course involves working closely with a faculty who would become the chair of the student’s thesis/EBP project. This course focuses on research principles through problem identification, review of the literature, proposal development, implementation, and evaluation of a clinical or educational problem. A master’s thesis is highly recommended for those who may pursue doctoral work at the PhD level; a master’s project is recommended for those who may pursue the DNP.
This course should be taken in the last two semesters of the curriculum; 1 sh in the first semester, and 2 sh in the second semester. During the first semester (1 sh) the student should develop a clinical or research question, conduct a literature review on the topic, select a theoretical framework if applicable, and develop the methodology for the project or thesis. During the second semester (2 sh), the student should focus on implementation of the project or thesis (data collection), data analysis, findings, conclusions, limitations, and recommendations for future research in the topic area. In addition, the student will defend his/her project/thesis in the last semester enrolled in NUR 620.
NUR 620 is a pass/fail course. A grade of IP (in progress) will be given each semester until the project or thesis has been completed. Upon completion of the project or thesis, a grade of P/F (pass/fail) will be given. Should the student need more time (exceeding two semesters) to complete the project or thesis, the student will continue to enroll in NUR 620 until the project or thesis has been defended. The student should register for 2 sh in the semester that he/she plans to defend.

RT 101 PRINCIPLES OF EXPOSURE I – 3 Credits (F2F)
Prerequisite: RT 121
Principles of Exposure I provides foundation knowledge required to understand the creation of the x-ray beam. Basic mathematics and units of measurement are reviewed. Radiation concepts including atomic theory are presented followed by electricity and electromagnetism; the groundwork to understanding control of the x-ray beam. Final units address x-ray equipment and production focusing on the role physics plays in creating the x-ray beam.

RT 102 PRINCIPLES OF EXPOSURE II – 3 Credits (F2F)
Prerequisite: Fall Semester Year One in the Radiography Program
Principles of Exposure II provides the student with the foundation of radiographic exposure theory. Factors, which govern and influence the production of a radiographic image are presented and key concepts are reinforced. Students will expand understanding of the interaction of radiation with matter. As a result, students develop the ability to analyze patients and determine appropriate exposure factors to produce a diagnostically valuable radiograph. The course incorporates the following aspects: creating the radiographic image, selecting optimal technical factors, determining/maintaining image diagnostic value, understanding and utilizing alternative exposure systems and methods.

RT 121 PROCEDURES I – 3 Credits (F2F)
Prerequisite: Matriculation into the Radiography Program
Procedures I provides the student with the foundational principles of the Imaging Profession. The student will develop the skills required to perform standard radiographic procedures of the visceral torso to include chest, ribs, sternum, and abdomen. Communication and patient instruction are emphasized. Criteria for determining the successful production of required anatomical views is presented. Radiation protection is reinforced and monitored as a part of laboratory skills testing.

RT 122 PROCEDURES II – 3 Credits (F2F)
Prerequisite: RT 121
Procedures II provides the student with the knowledge to construct and organize the steps necessary to perform standard radiographic procedures of the appendicular skeleton. Communication and culturally congruent patient instruction are emphasized. Criteria for determining the successful production of required anatomical views are addressed and applied. Procedures II also provides the student with the knowledge to construct and organize the steps necessary to perform pediatric, trauma and mobile radiographic procedures. Radiation protection is reinforced and monitored as a part of laboratory skills testing.

RT 123 PROCEDURES III – 3 Credits (F2F)
Prerequisite: Completion of Fall Semester Year One in the Radiography Program
Procedures III provides the student with the knowledge to construct and organize the steps necessary to perform gastrointestinal studies. The student practices the skills necessary to properly position specific anatomical structures of the bony thorax and cranium so that a diagnostically radiographic image is produced. The student applies technical concepts as criteria for determining the successful production of required anatomical views. Laboratory practice emphasizes culturally congruent communication, patient instruction, and radiation protection.

RT 124 TRAUMA RADIOGRAPHY – 1 Credit (F2F)
Prerequisite: Completion of the Fall Semester, Year 1 of the Radiography Program
Trauma Radiography provides the student with the knowledge to construct and organize steps necessary to perform trauma radiographic procedures of the torso, extremities, spine, head, and facial bones. The student practices skills necessary to position the patient, the x-ray equipment and image receptor without causing undue harm to the
patient while obtaining the required anatomical structures necessary to demonstrate the required anatomy. Emphasis is placed on patient assessment and communication, fractures and other traumatic injuries. Laboratory practice emphasizes critical thinking skills, multi-exam organization, image critique, radiation protection and culturally congruent patient care.

RT 130 SECTIONAL IMAGING – 1 Credit (HYB)
Prerequisite: Completion Fall Semesters, Year 1 of the Radiography Program
Sectional Imaging provides the basics of anatomy identification in the axial, coronal, and sagittal planes. The head, neck, thorax, abdomen, and pelvis are emphasized. Basic computed tomography equipment is introduced in preparation for clinical rotations in the computed tomography department.

RT 131 CLINICAL APPLICATIONS I – 4 Credits (CLIN)
Prerequisite: RT 121
The student’s initial clinical experiences begin with observation and assisting with patients. The student becomes comfortable with equipment manipulation and familiar with routine protocols during the majority of first rotation objectives. Securing adult chest and abdomen competencies are a key area of focus. As the student progresses in the semester, opportunities to secure additional competencies of the appendicular skeleton and visceral torso are pursued.

RT 133 CLINICAL APPLICATIONS II – 4 Credits (CLIN)
Prerequisite: Completion of Fall Semester Year One in the Radiography Program
At this level of a student’s clinical education, confidence with basic equipment should be present. Retention and improvement of previously acquired competencies is monitored and evaluated. Emphasis is placed on non-routine and trauma imaging of previously learned material. Clinical experience expands as the student begins initial experiences in spine and cranial imaging and begins assignments in a variety of rotations.

RT 140 FUNDAMENTALS OF PATIENT CARE – 2 Credits (F2F)
Prerequisite: RT 121
Patient Care provides the student with the basic skills required to appropriately care for patients within the imaging department. Measures to assure infection control, patient safety, and confidentiality are stressed. Caring for patients from newborn to geriatric is discussed. Professionalism, Patient Bill of Rights, legal, and ethical issues are covered. Students practice a variety of basic patient assessment/clinical skills and to prepare for handling medical emergencies and trauma situations.

RT 203 PRINCIPLES OF EXPOSURE III – 3 Credits (F2F)
Prerequisite: Completion of fall semester of Year Two in the Radiography Program and all general education courses
Principles of Exposure III emphasizes the basic principles of the interaction of radiation with living systems. Radiation effects on biologic molecules and organisms as well as factors affecting biological responses are presented. Short and long term radiation effects are discussed. Radiation protection responsibilities of the radiographer for patients, personnel and the public are emphasized. The concept of As Low As Reasonably Achievable (ALARA) is discussed in relationship with effective dose limits and equivalent dose limits. Regulatory agencies are identified and their involvement in radiation protection discussed.

RT 204 SEMINAR – 3 Credits (F2F)
Prerequisite: Completion of fall semester of Year Two in the Radiography Program and all general education courses
Seminars analyze student strengths and weaknesses, reinforce key principles of previously studied content areas, enhance problem solving skills, increases student comfort with the American Registry of Radiologic Technologists (ARRT) testing process and prepares students for entry into the profession.

RT 205 RADIOGRAPHIC PATHOLOGY– 3 Credits (F2F)
Prerequisite: Completion of Year One in the Radiography Program
The study of Radiographic Pathology enables the student to develop an awareness of the symptoms and radiographic appearance of specific diseases. Understanding the additive and destructive impact of disease processes improves the radiographer’s accuracy in formulating appropriate exposure factors. Analysis of the diagnostic value of resultant
images is enhanced. The ability to offer optimal patient care through an increased understanding of the physical and psychological changes a patient may be experiencing is a key area of focus.

**RT 224 PROCEDURES IV – 3 Credits (F2F)**
Prerequisite: Completion of year one in the Radiography Program
Procedures IV continues to address dedicated imaging studies. Contrast media, procedural techniques and specialized imaging equipment are emphasized. Intravenous urography, vascular imaging and neuroradiography are primary areas of focus.

**RT 231 CLINICAL APPLICATIONS III – 3 Credits (CLIN)**
Prerequisite: Completion of Spring Semester Year One in the Radiography Program
The focus of Clinical Applications III is the student’s acceptance of and comfort with increased clinical independence. Mobile, surgery, and trauma experience is emphasized. Specialized rotations into advanced imaging modalities are assigned. Students begin patient case study assignments in special imaging areas. Students are expected to complete a minimum of 47% of all mandatory competencies.

**RT 232 CLINICAL APPLICATIONS IV – 6 Credits (CLIN)**
Prerequisite: RT 231
Clinical Applications IV focuses on the completion of a minimum of 70% of all required terminal competencies. The student is assigned a greater number of clinical hours which continues rotations to off campus clinical settings and special imaging areas such as computerized tomography, ultrasonography, magnetic resonance imaging, vascular imaging, orthopedics, surgery and mobile radiography. Assigned case studies continue as part of special imaging rotations.

**RT 233 CLINICAL APPLICATIONS V – 6 Credits (CLIN)**
Prerequisite: Completion of Fall Semester, Year Two in the Radiography Program and all general education courses
The focus of Clinical Applications V is 100% completion of all required terminal competencies and the demonstration of consistent independent capability in the performance of all documented competencies. Rotations and case studies in special imaging areas are completed. Competency in pediatrics, trauma, surgery, and mobile radiography to include alternative measures and technique modification must be documented.

**RT 331 COMPUTED TOMOGRAPHY CLINICAL INTERNSHIP – 6 Credits (CLIN)**
Prerequisite: Certification in Radiography by the American Registry of Radiologic Technology (RTR) and acceptance into the University of Iowa CT Internship Program. IDPH and IEMA licenses required.
The Computed Tomography Clinical Internship course is designed to enhance the registered radiographer’s skills with the science and practice of computed tomography. The student completes competencies and objectives in the ARRT required CT categories of head, neck, spine/musculoskeletal, chest, abdomen, pelvis, and special procedures to include quality assurance and image display/post processing. Upon successful completion of the CT Clinical Internship the radiographer will have met the ARRT technical requirements to sit for the ARRT national certification examination in computed tomography.
640 Clinical Hours completed in a maximum of 16 consecutive weeks.

**RT 332 CARDIOVASCULAR INTERVENTIONAL IMAGING CLINICAL INTERNSHIP – 6 Credits (CLIN)**
Prerequisite: Certification in Radiography by the American Registry of Radiologic Technology (RTR) and acceptance into the University of Iowa CVI Internship Program. IDPH and IEMA licenses required.
The Cardiovascular Interventional Clinical Internship course is designed to enhance the registered radiographer’s skills with the science and practice of cardiovascular interventional imaging. The student completes competencies and objectives in the ARRT required CVI categories of right and left cardiac heart catheterizations, angioplasty, atherectomy, thrombolysis, coronary angiogram, left ventriculogram, and hemodynamic measurements. Upon successful completion of the CVI Clinical Internship the radiographer will have met the ARRT technical requirements to sit for the ARRT national certification examination in cardiovascular interventional imaging.
640 Clinical Hours to be completed in a maximum of 16 consecutive weeks.
