Calculate by starting with number of students who enroll in their first program specific course who have fully matriculated into their program (and not drop/withdraw from course during the 1st two weeks of their first course) during one academic year. Subtract the number of students who are not included due to family, financial, medical, personal issues, or those who transferred to another program. This constitutes the denominator of the fraction. Count the number of graduates who completed in 150% timeframe (of those who started in this cohort). This is the numerator of the graduation rate fraction.
